INTRODUCTION

This user guide was produced with the intention to provide a valuable service to our valued client – **Philsaga Mining Corporation**. It is a customized and easy-to-navigate user guide. Admins or Users have the chance to exercise their independence in monitoring and organizing information regarding the Online Material Withdrawal that are appropriate to the business requirements.

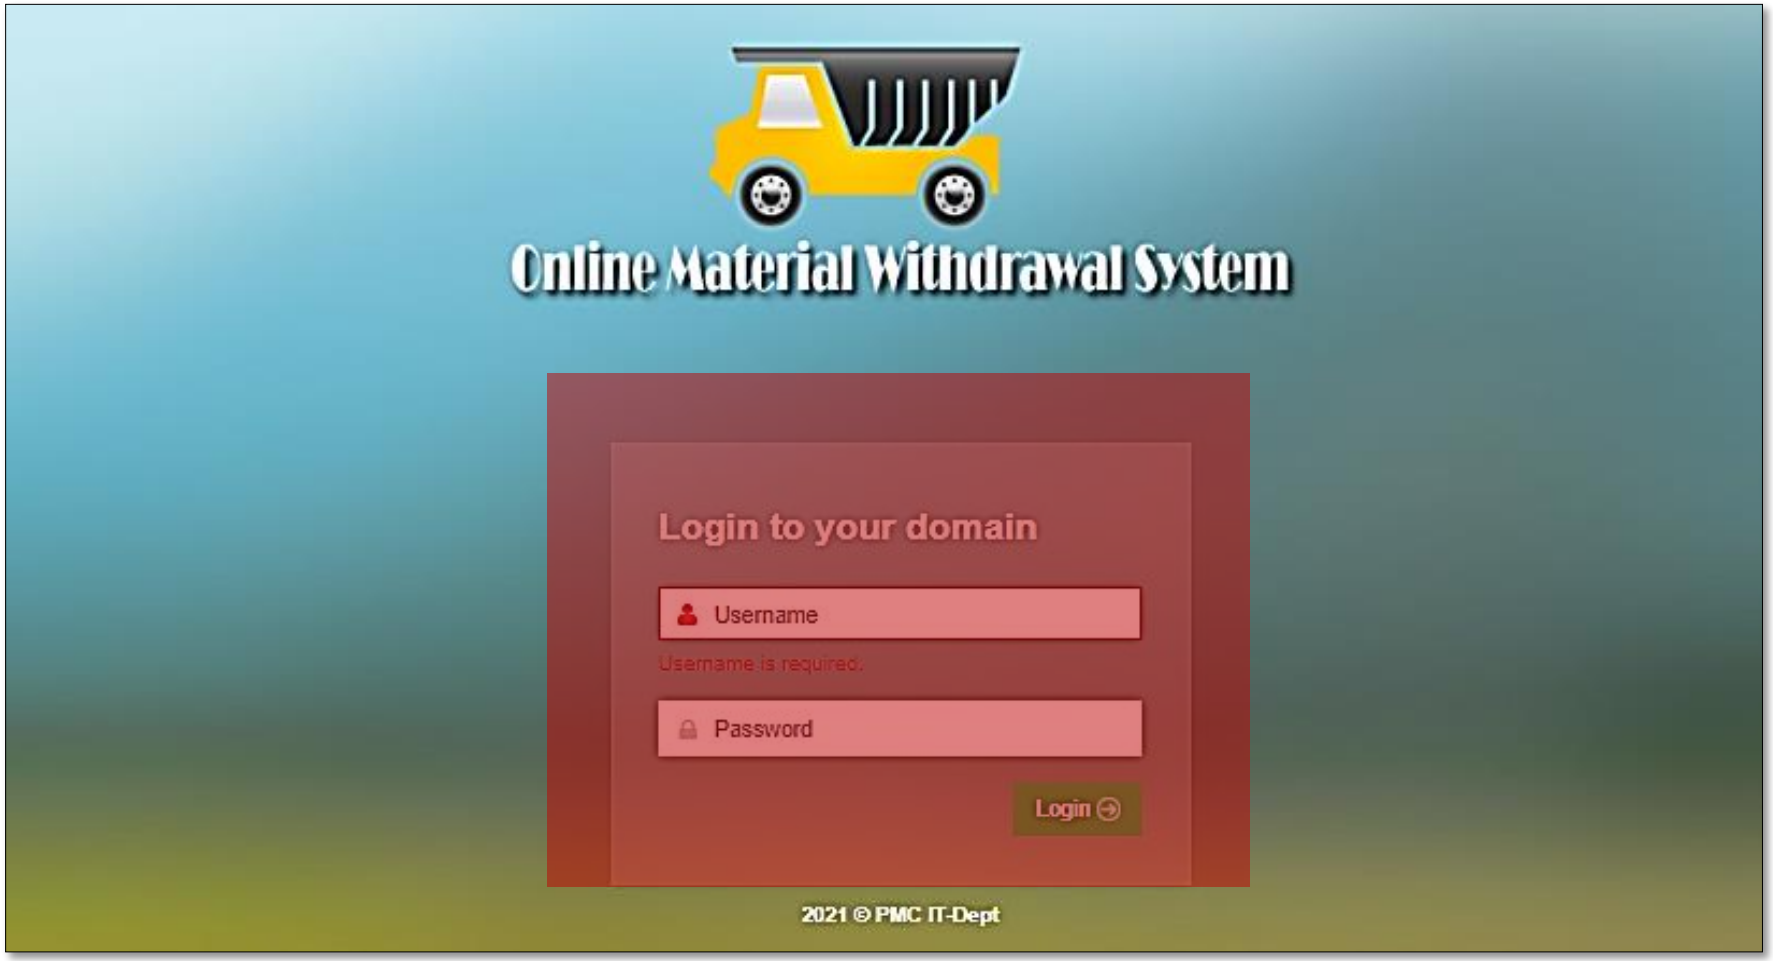

This document contains all the essential information for the user to fully utilize the features and functions of each module, including descriptions, capabilities, and a set of instructions associated with each module.

Online Material Withdrawal System

Since Philsaga is one of the renowned companies in the Mining Industry, the company needs to uphold the best practices on safety and security in the overall operation of the plant. **Online Material Withdrawal System** is a customized Database Management System designed and developed by the business requirements of Philsaga. It has the intention to manage and monitor the online material withdrawal effectively for both the PMC employees and accredited 3rd Party Manpower. The granting of issuance and tracking the online material withdrawal are some of the important matters that Philsaga is taking into account because the company is implementing strict compliance on health and safety protocols.

LOG-IN

- It is the point of entry to the **Online Material Withdrawal System** Admin Portal. A user needs to provide the correct credentials to gain access to the Admin Portal.

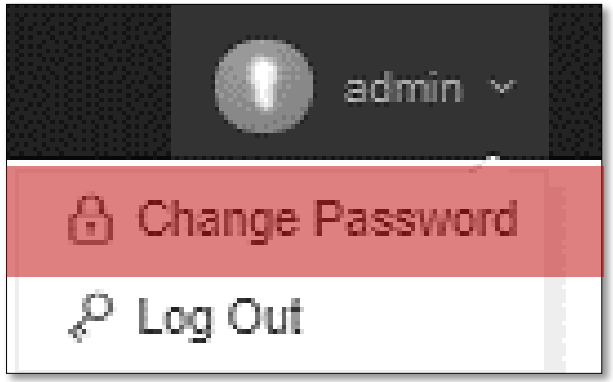

Log In

1. Go to the web address of the **Online Material Withdrawal System**.
2. Enter the following information:
   - **Username** - also known as the Domain Name
   - **Password**
3. Click on the **Login** button to complete the process.

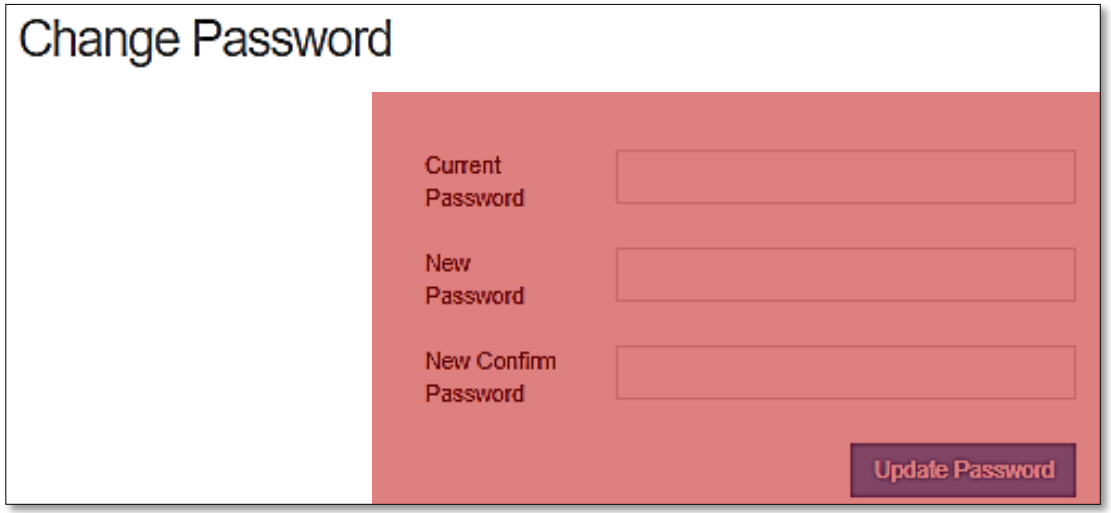

CHANGE PASSWORD

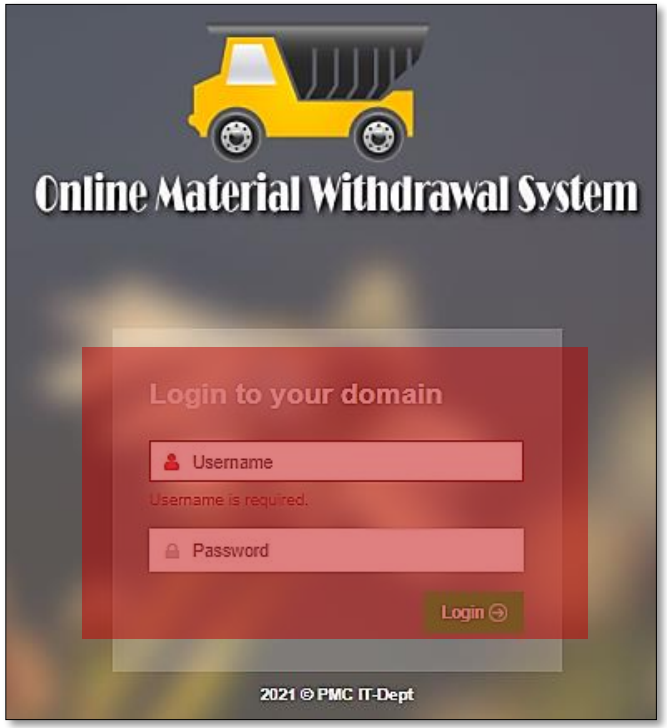

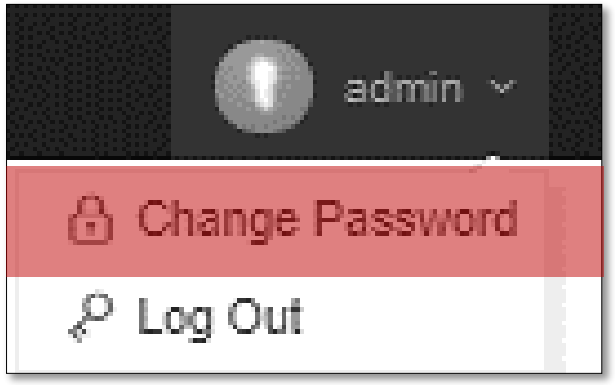

Change Password

Change Password is a feature that allows users to change the password for security purposes.

- Found on the top right of the Dashboard, an **Admin** Icon wherein you have the option to Change Password, but you must provide the current password to do so.
- Click on the **Update Password** button, then you will be routed to the login page. Login using your new password to access the admin portal.

Log-Out

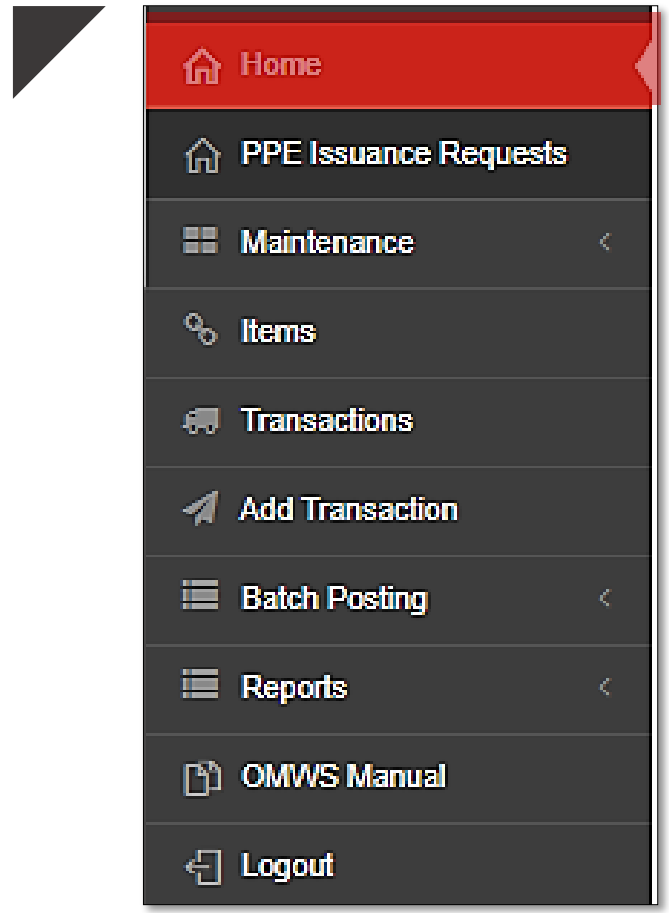

Log Out is a feature that allows users to Log out of the admin portal.

- Found on the top right of the Dashboard, an **Admin** Icon wherein you have the option to Log out when you no longer need to access the admin portal.
- Click on the Log out option, then you will be routed to the login page.

Chapter 3

PPE ISSUANCE REQUESTS

PPE ISSUANCE REQUESTS

PPE Issuance Requests

An **Online Material Withdrawal System** module that allows you to view all the **PPE Issuance request**.

This module allows you to do the following:

- View issuancee request list.
- Quick view of a particular issuance request.
- Add new issuance, to update a particular issuance request.
- Release an issuance without personnel accountability record.

PPE ISSUANCE REQUESTS

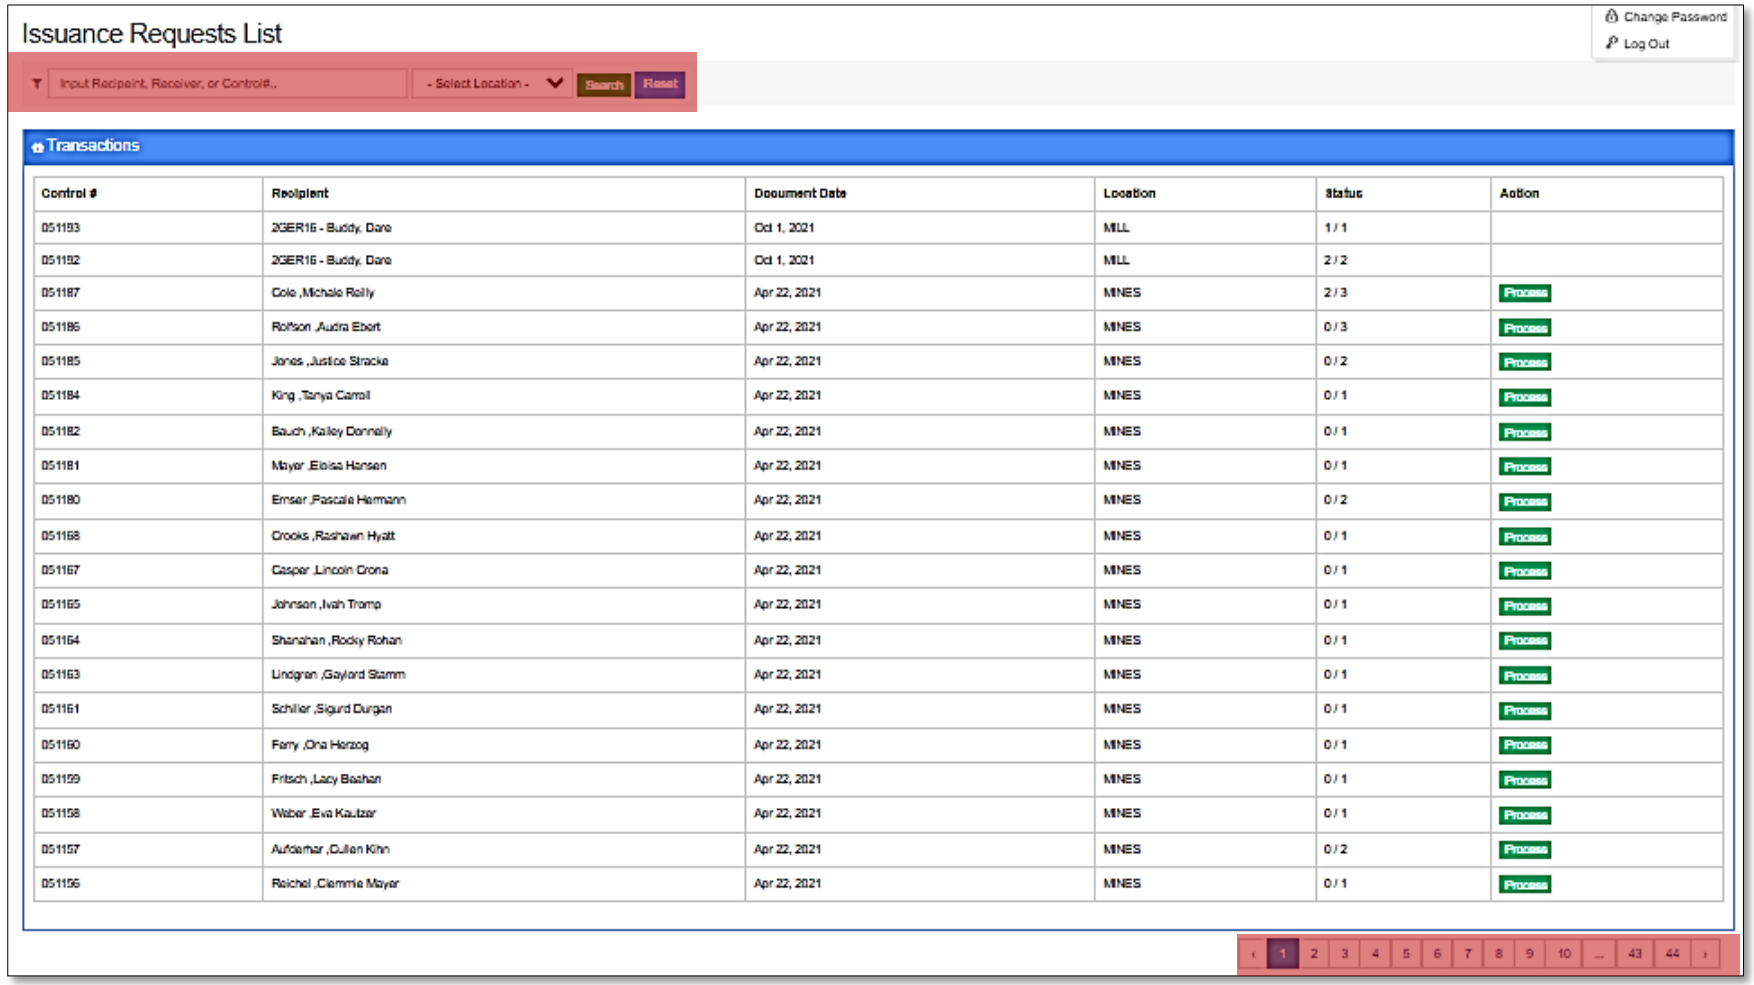

PPE Issuance Request

1. Go to the **PPE Issuance Request** module.

Control #	It is the number that represents a particular issuance.
Recipient	It is the name of the contactor or employee who will receive the PPE.
Document Date	It is the date when the issuance has been filed in the system.
Location	It is indicated in this field the location/place of a contractor or employee, whether in Mill or Mine.
Status	It is the items that have been served, shown in fraction form. One out of the three items requested has been served. (1/3)
Action	It is a field where you can view, print, edit, and cancel. It will allow you to correct, update, view, and cancel a request accordingly.

PPE ISSUANCE REQUESTS

2. You will be able to view the Issuance Request List. You may use the **Search** (Input Control#, Receiver, or Recipient) and the **Pagination** function to look for an **Issuance Request.**

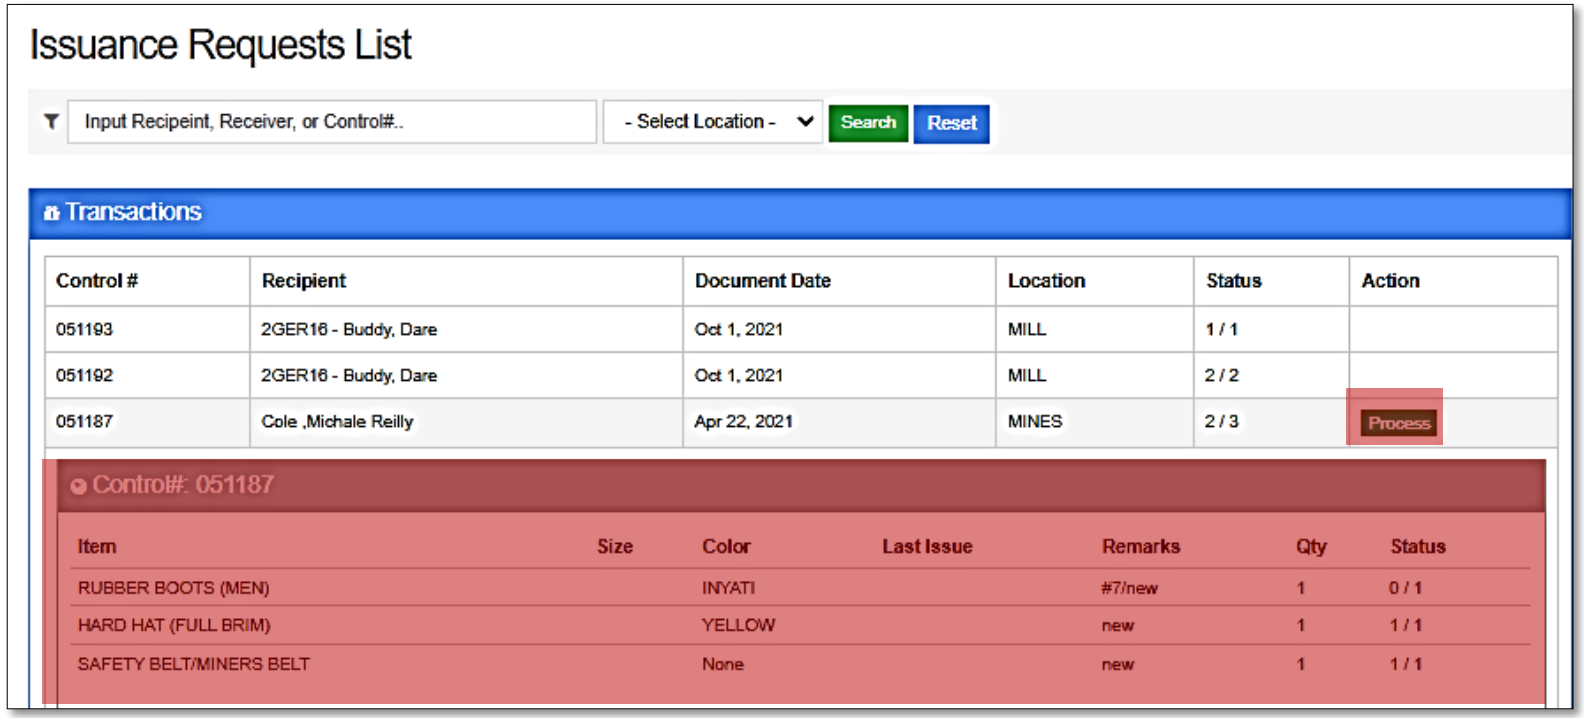

PPE ISSUANCE REQUESTS

Quick View

1. Go to the **PPE Issuance Request** module.
2. Click on the **Process** button.
3. You will be able to view the Control #, Item, Size, Color, Last Issuance, Remarks, Quantity, and Status.

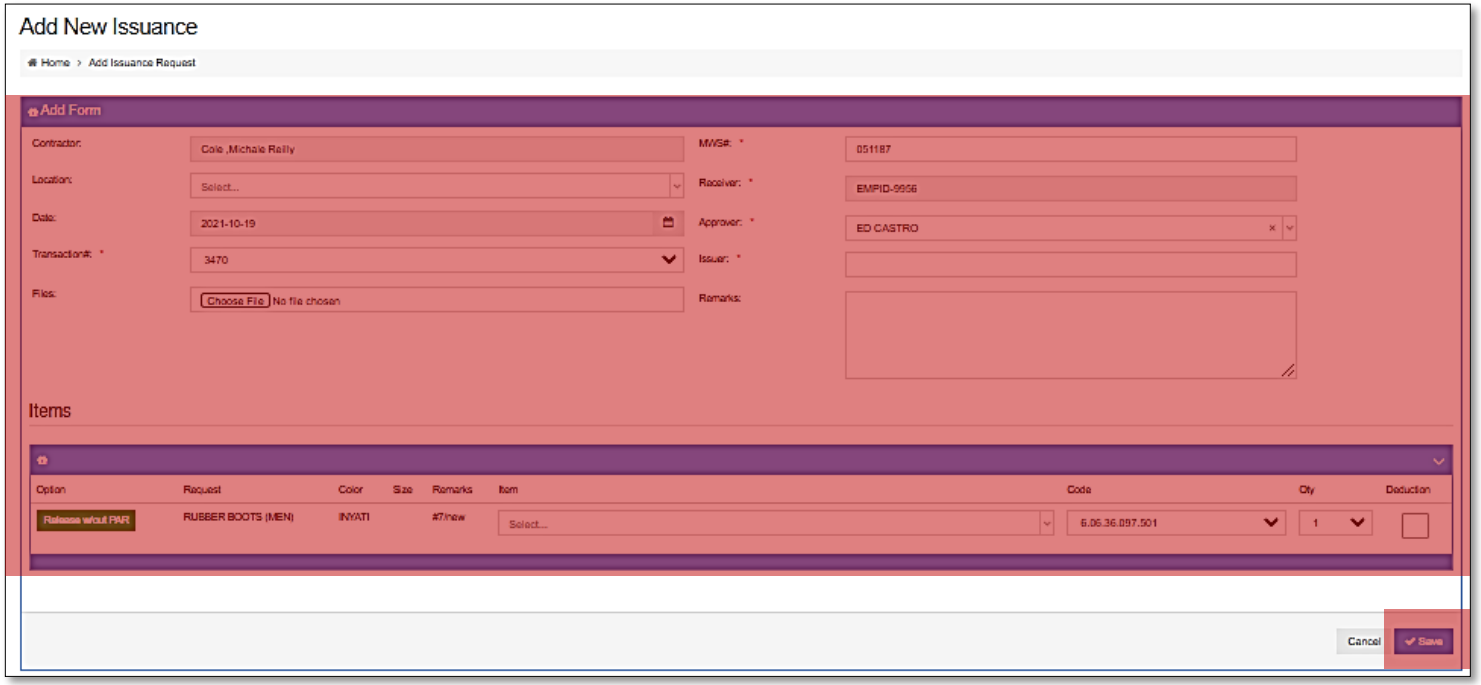

Note: It will show you the mentioned information quickly, and an Add New Issuance screen will appear right away.

PPE ISSUANCE REQUESTS

Add New Issuance

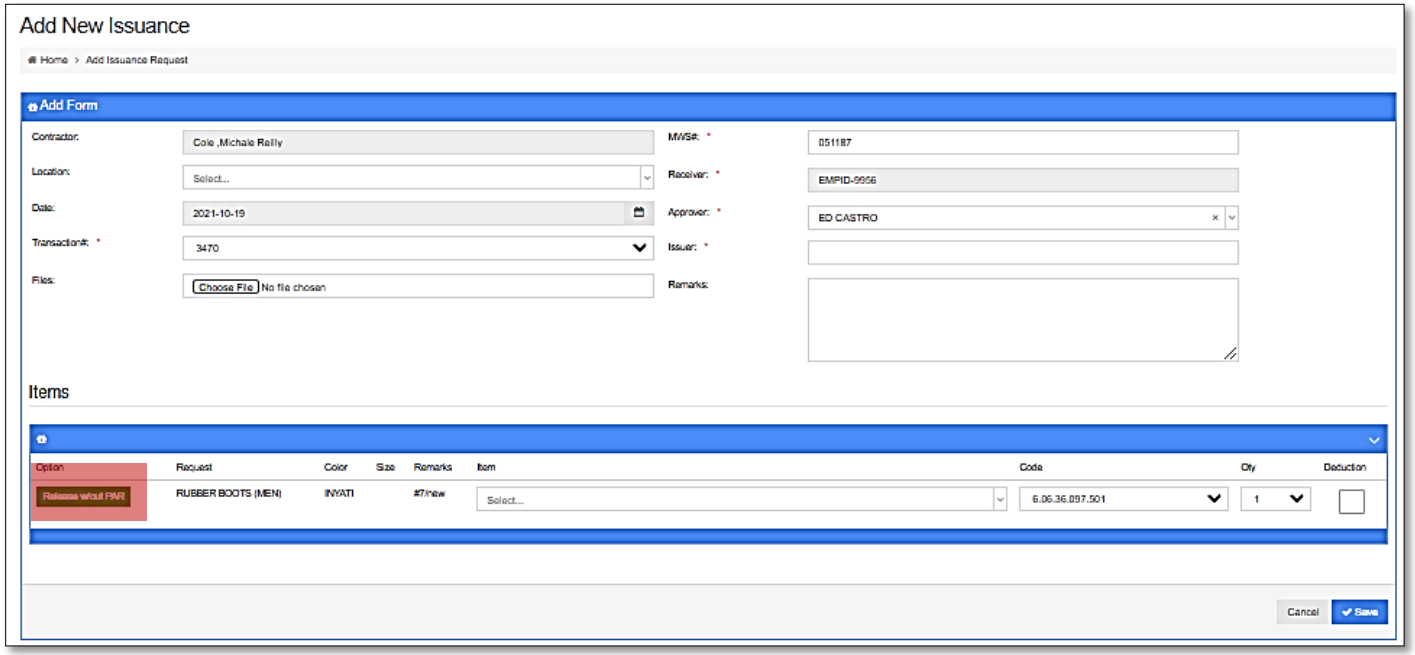

1. Go to the **Issuance** module, and click on the **Process** button.
2. You will be able to view the Control #, Item, Size, Color, Last Issuance, Remarks, Quantity, and Status. However, it will show you the mentioned information quickly, and an Add New Issuance screen will appear right away.
3. Enter all the necessary information.
4. Click on the **Save** button to complete the process, or click on the **Cancel** button to cancel the procedure.

PPE ISSUANCE REQUESTS

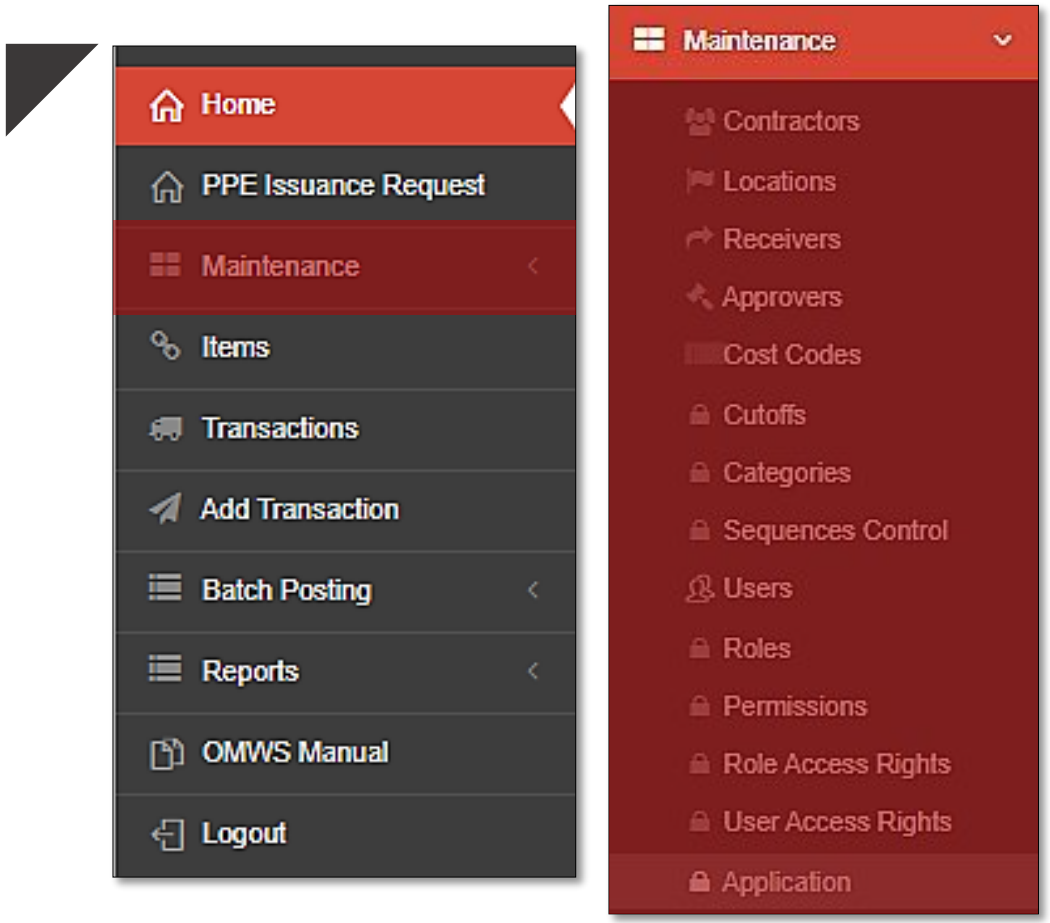

Release w/out PAR (Release an item without a Personal Accountability Record)

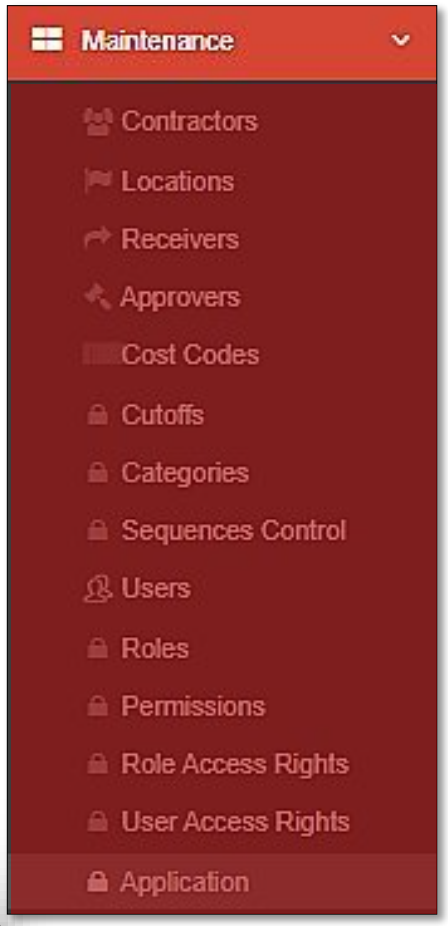

1. Go to the **Issuance** module, and click on the **Process** button.
2. You will be able to view the Control #, Item, Size, Color, Last Issuance, Remarks, Quantity, and Status. However, it will show you the mentioned information quickly, and an Add New Issuance screen will appear right away.
3. Below the Add form is the Items wherein there is an option to Release w/out PAR. If you click on the Release w/out a PAR (green) button on a particular item, it will no longer be in the issuance.

Chapter 4

MAINTENANCE

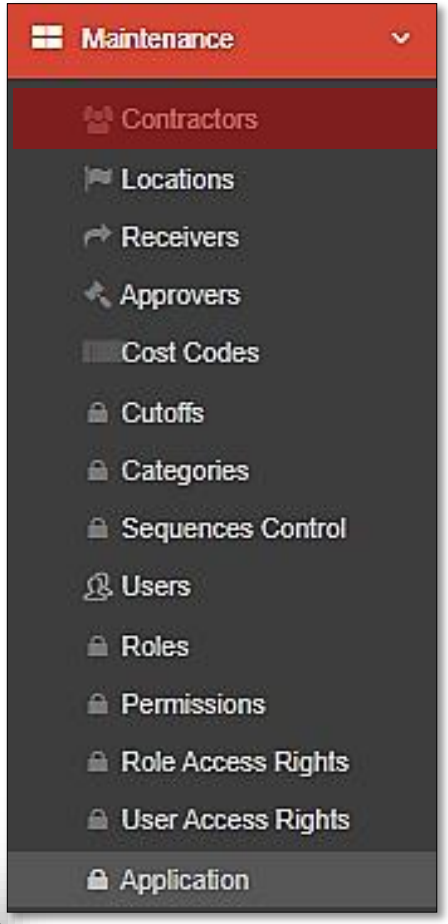

Maintenance

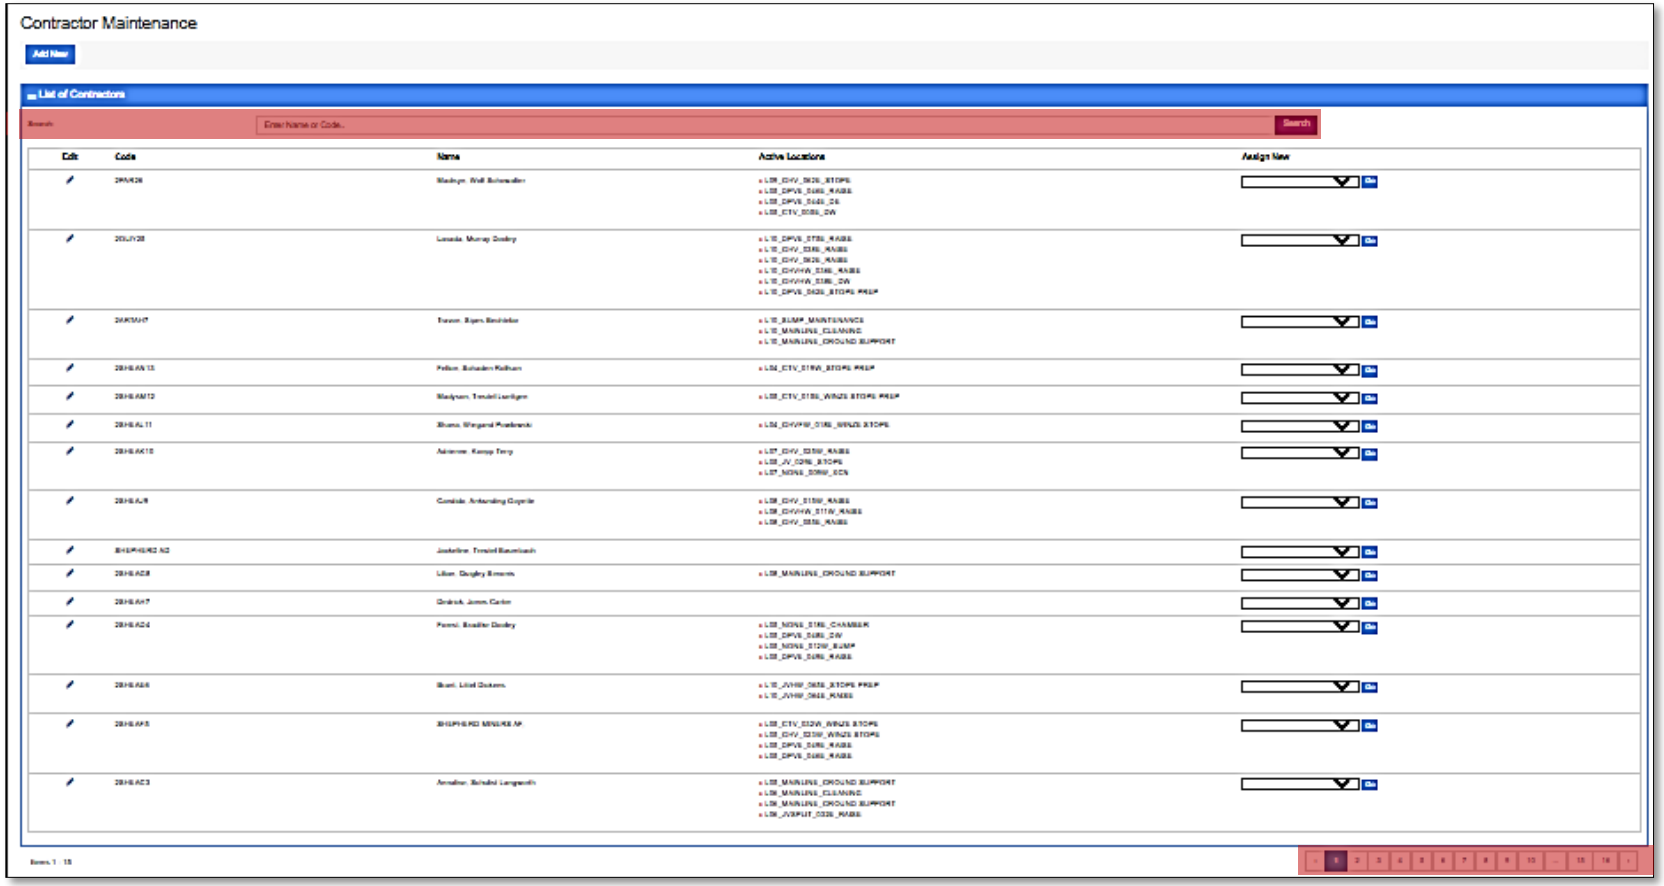

An **Online Material Withdrawal** System module that allows you to Maintain certain information. It also allows you to create, view, manage and maintain your information in the admin portal. This module consists of the following sub-modules:

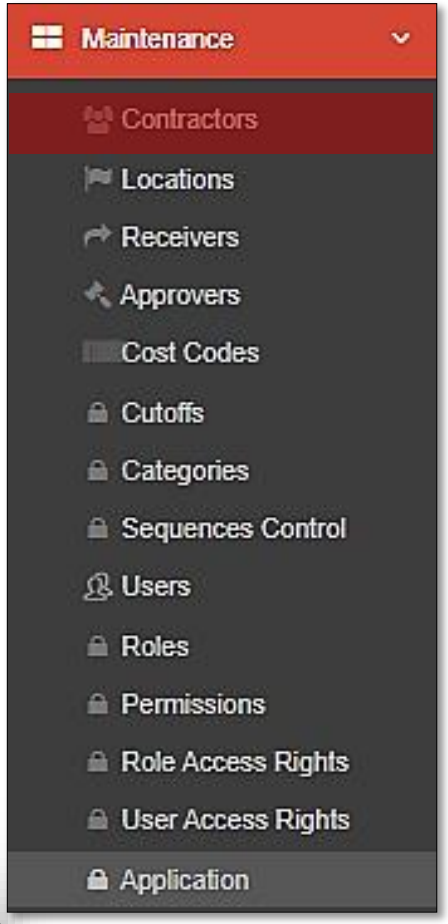

- Contractors
- Locations
- Receivers
- Approvers
- Cost Codes
- Cutoffs
- Categories
- Sequences Control
- Users
- Roles
- Permissions
- Role Access Rights
- User Access Rights.

Contractors

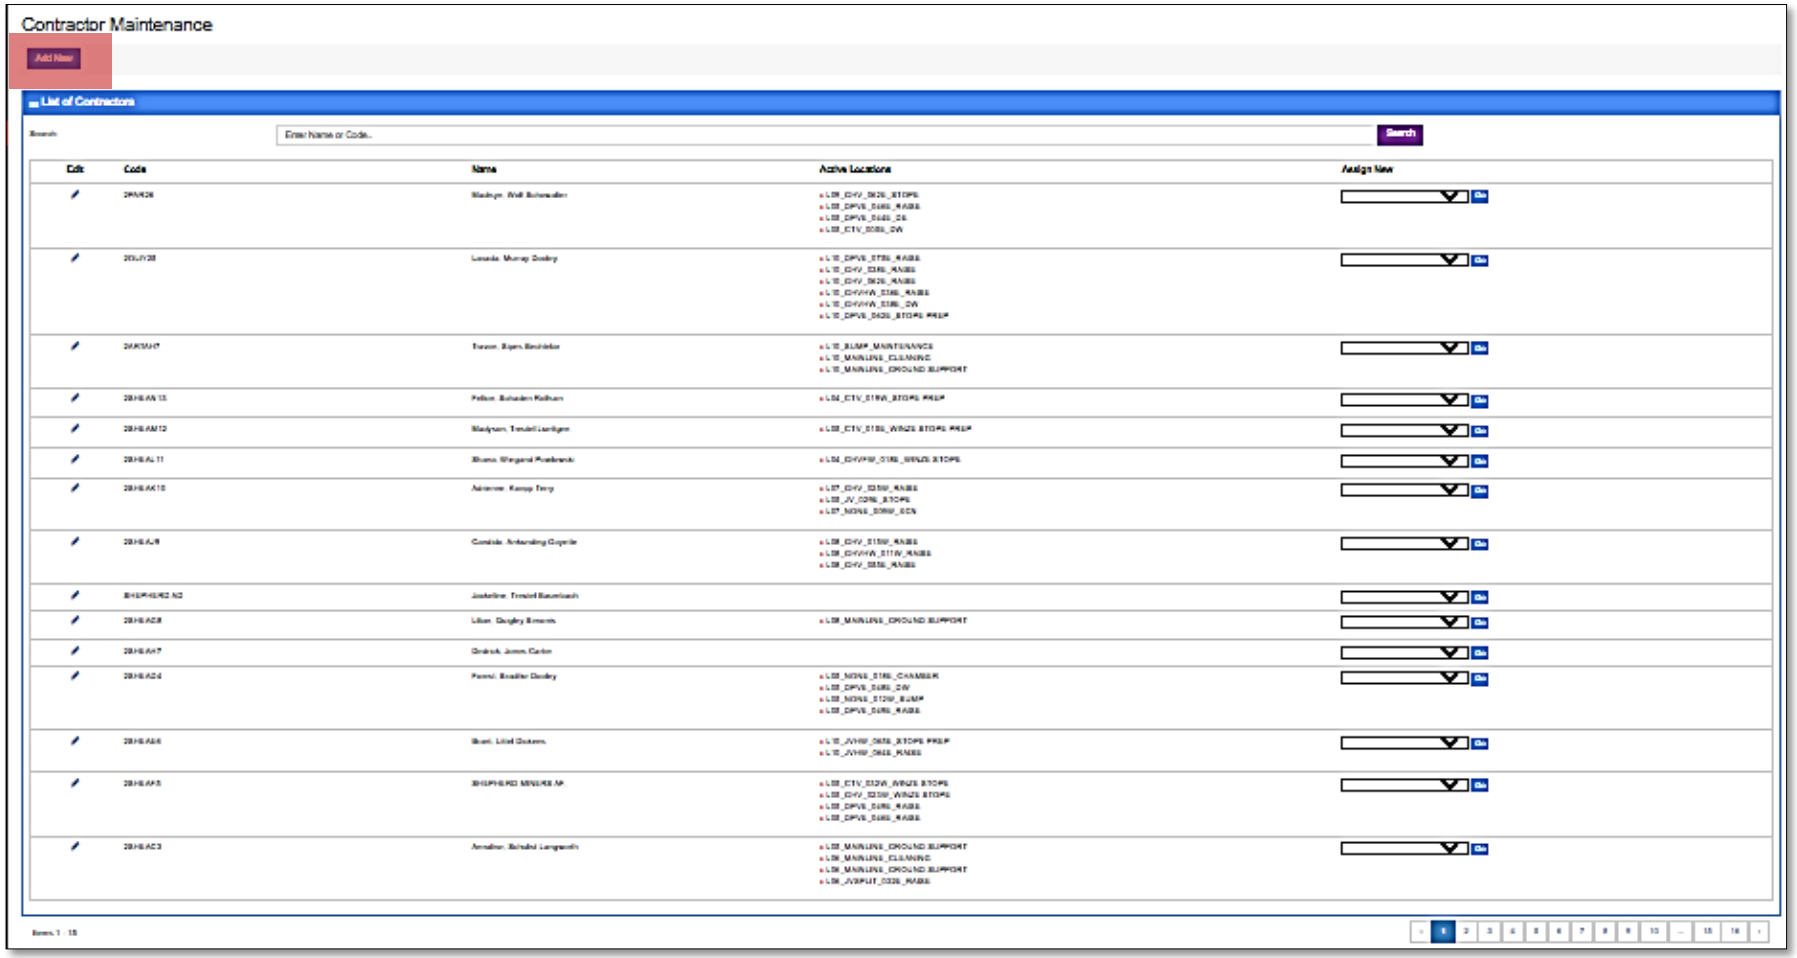

1. Go to the **Maintenance** module, and choose the **Contractors** option.
2. You will be able to view the **List of Contractors** and their details. You may use the **Search** (Enter Name or Code) and the **Pagination** function to look for a contractor**.**

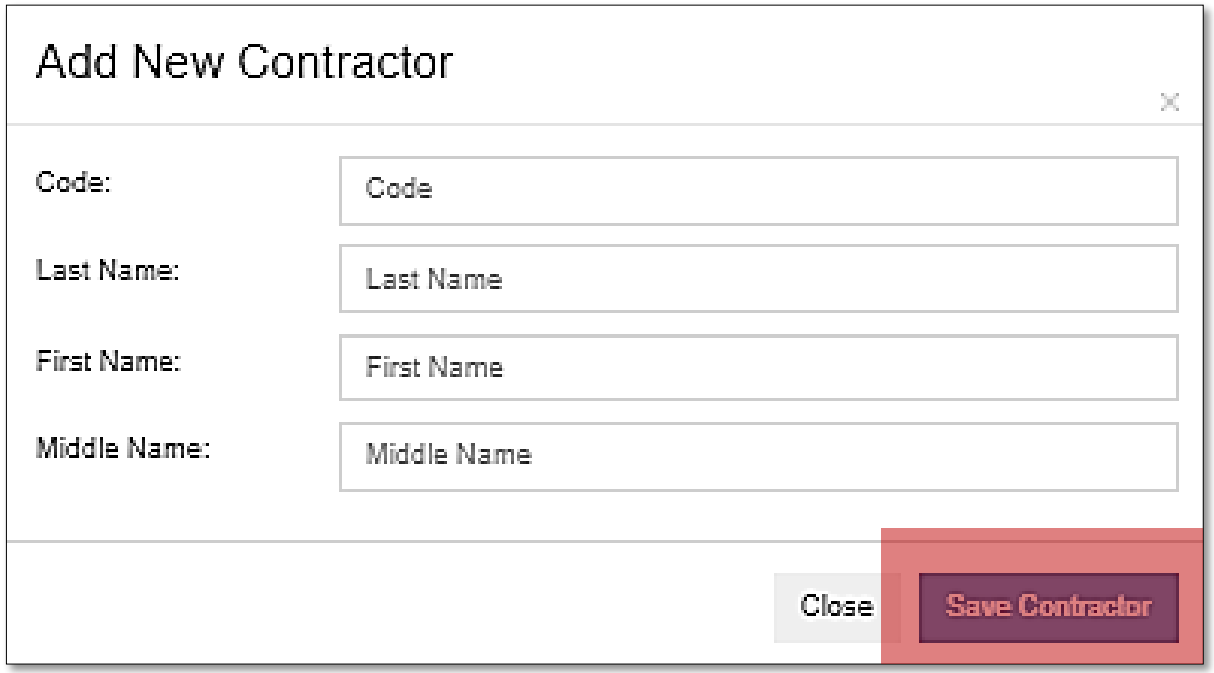

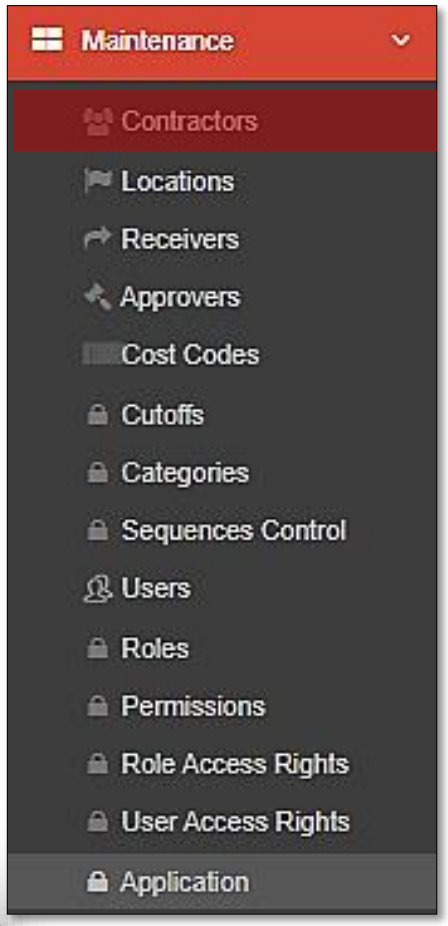

Add New Contractor

1. Go to the **Maintenance** module, and choose the **Contractors** option.
2. Click on the **Add New** button.

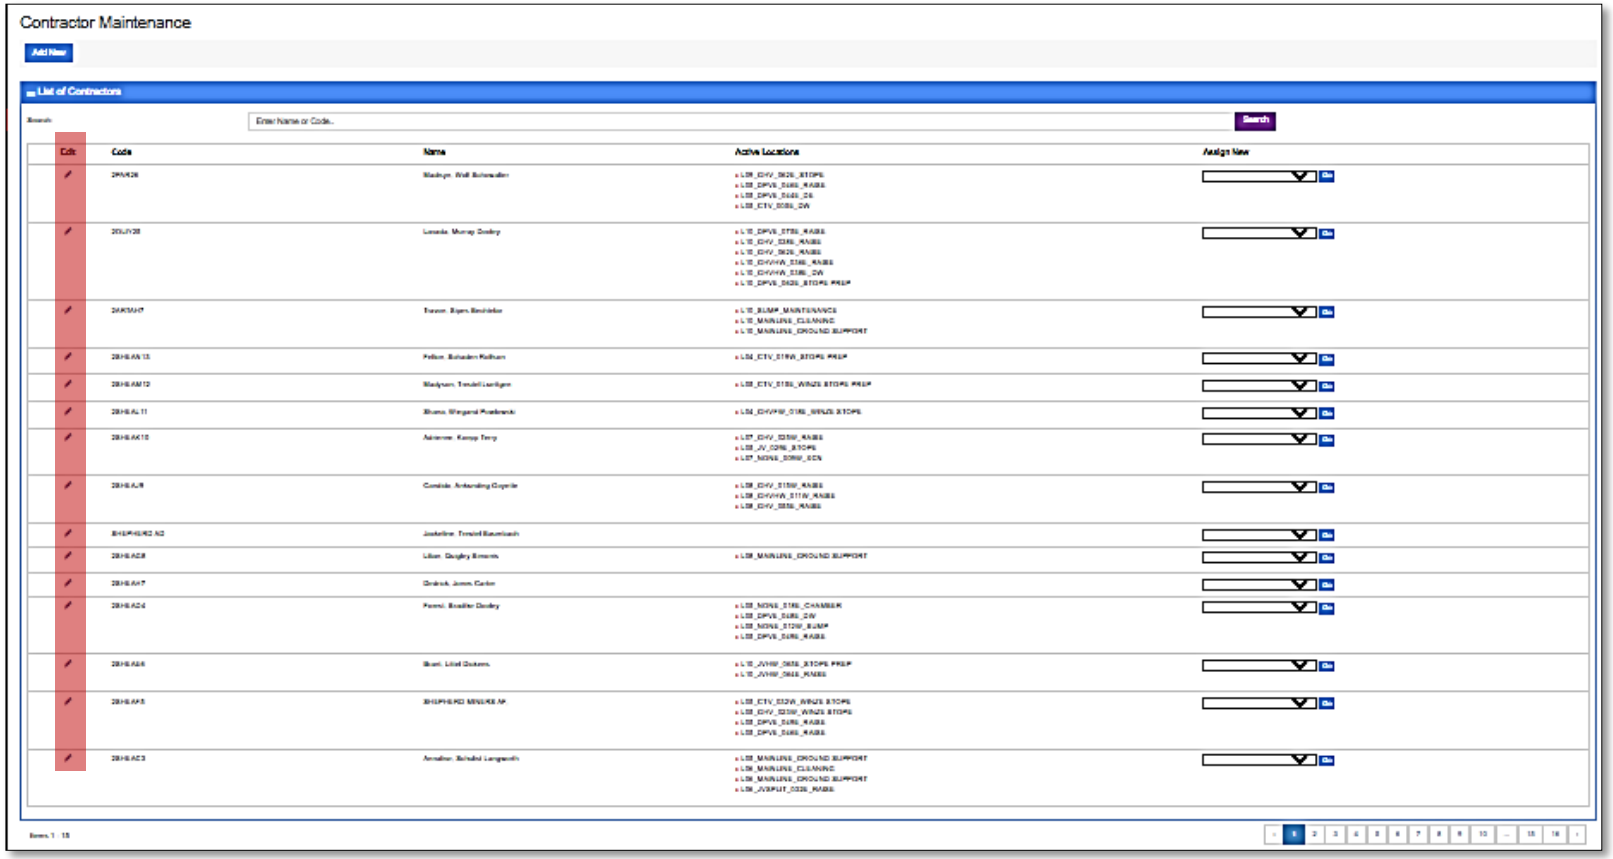

3. Enter the Code, Last Name, First Name, and Middle Name once the **Add New Contractor** screen appears.
4. Click on the **Save Contractor** button to complete the process, or click on the **Close** button to cancel the procedure.

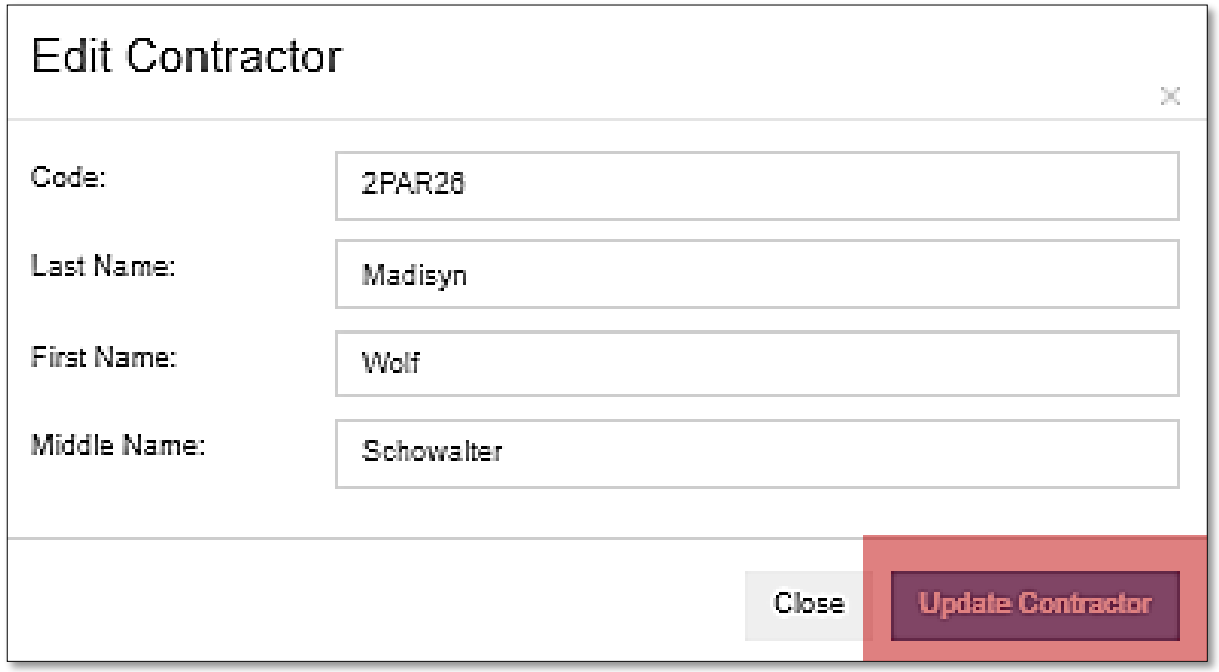

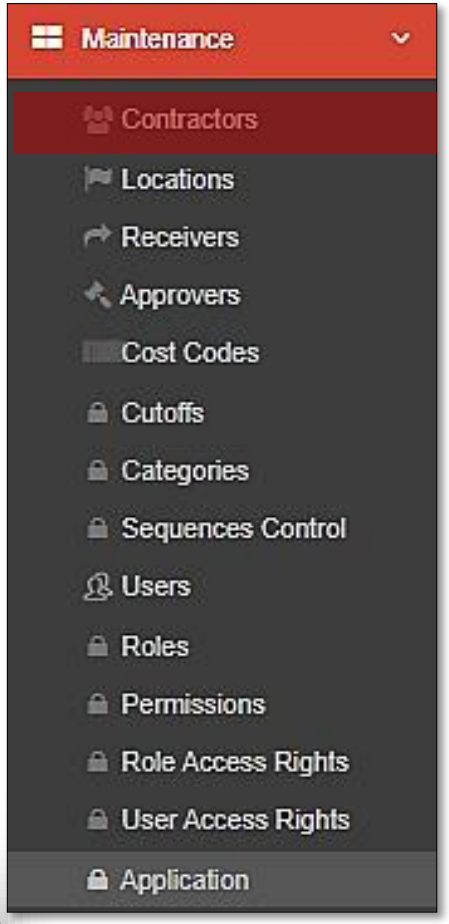

Edit Contractors

1. Go to the **Maintenance** module, and choose the **Contractors** option.
2. You may use the **Search** (Enter Name or Code) and the **Pagination** function to look for a contractor**.**
3. Click on the **Edit** button.

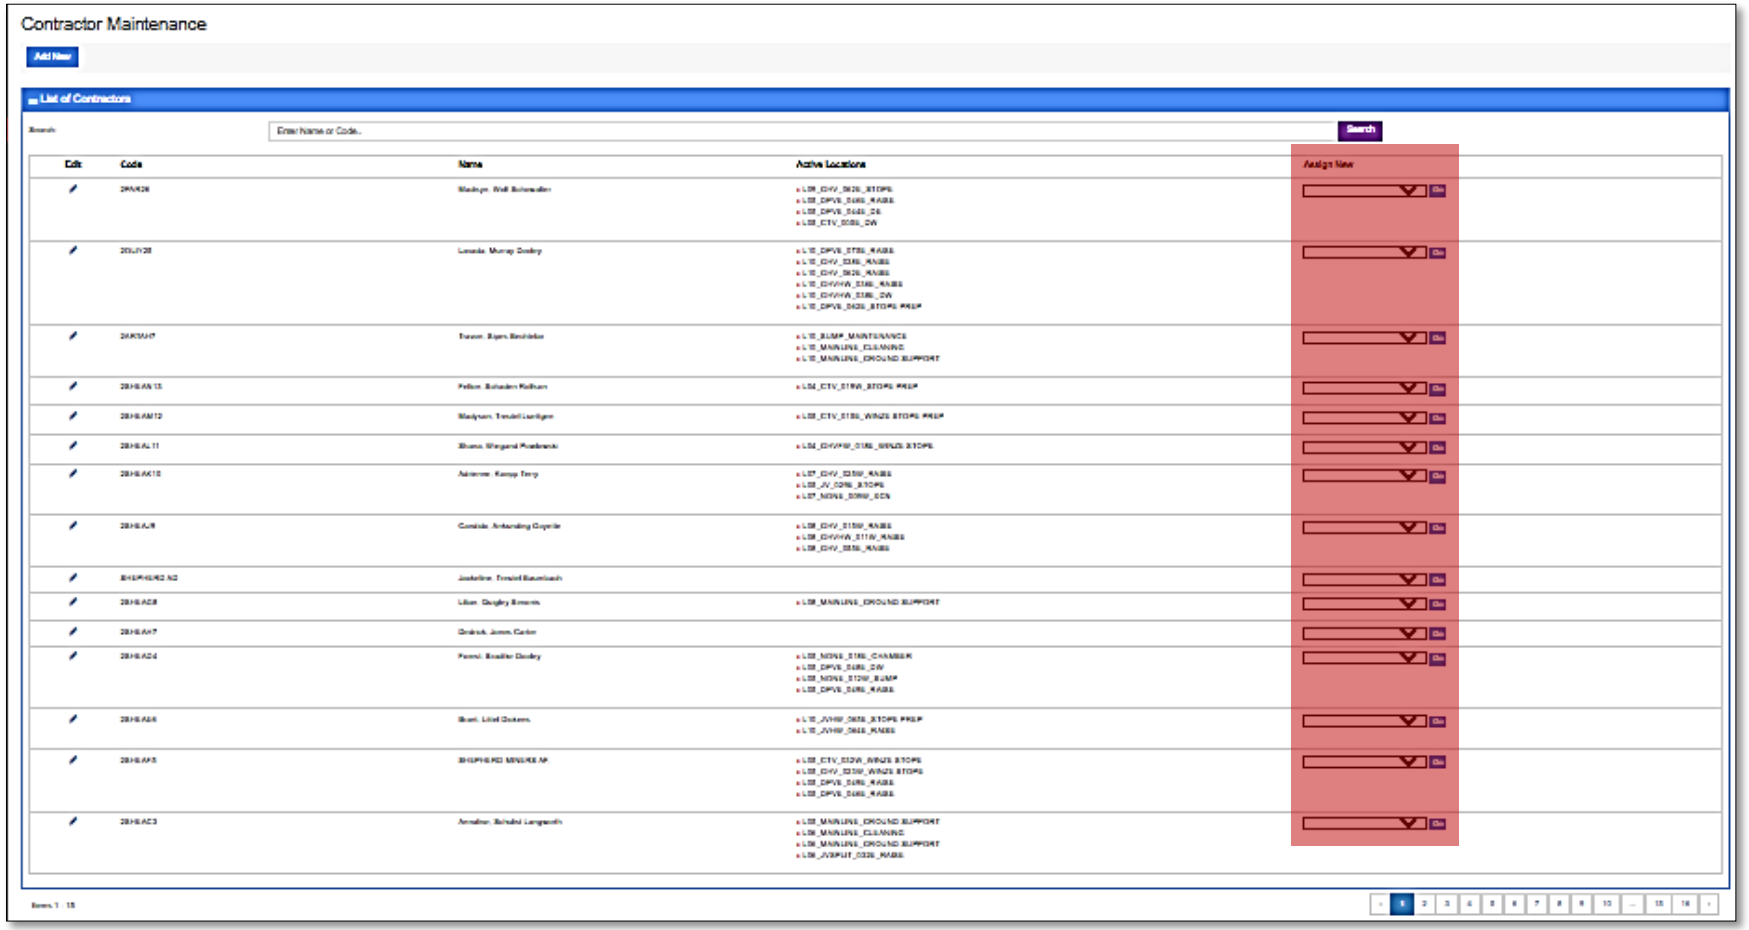

4. Make the necessary changes accordingly once the **Edit Contractor** screen appears.
5. Click on the **Update Contractor** button to complete the process, or click the **Close** button to cancel the procedure.

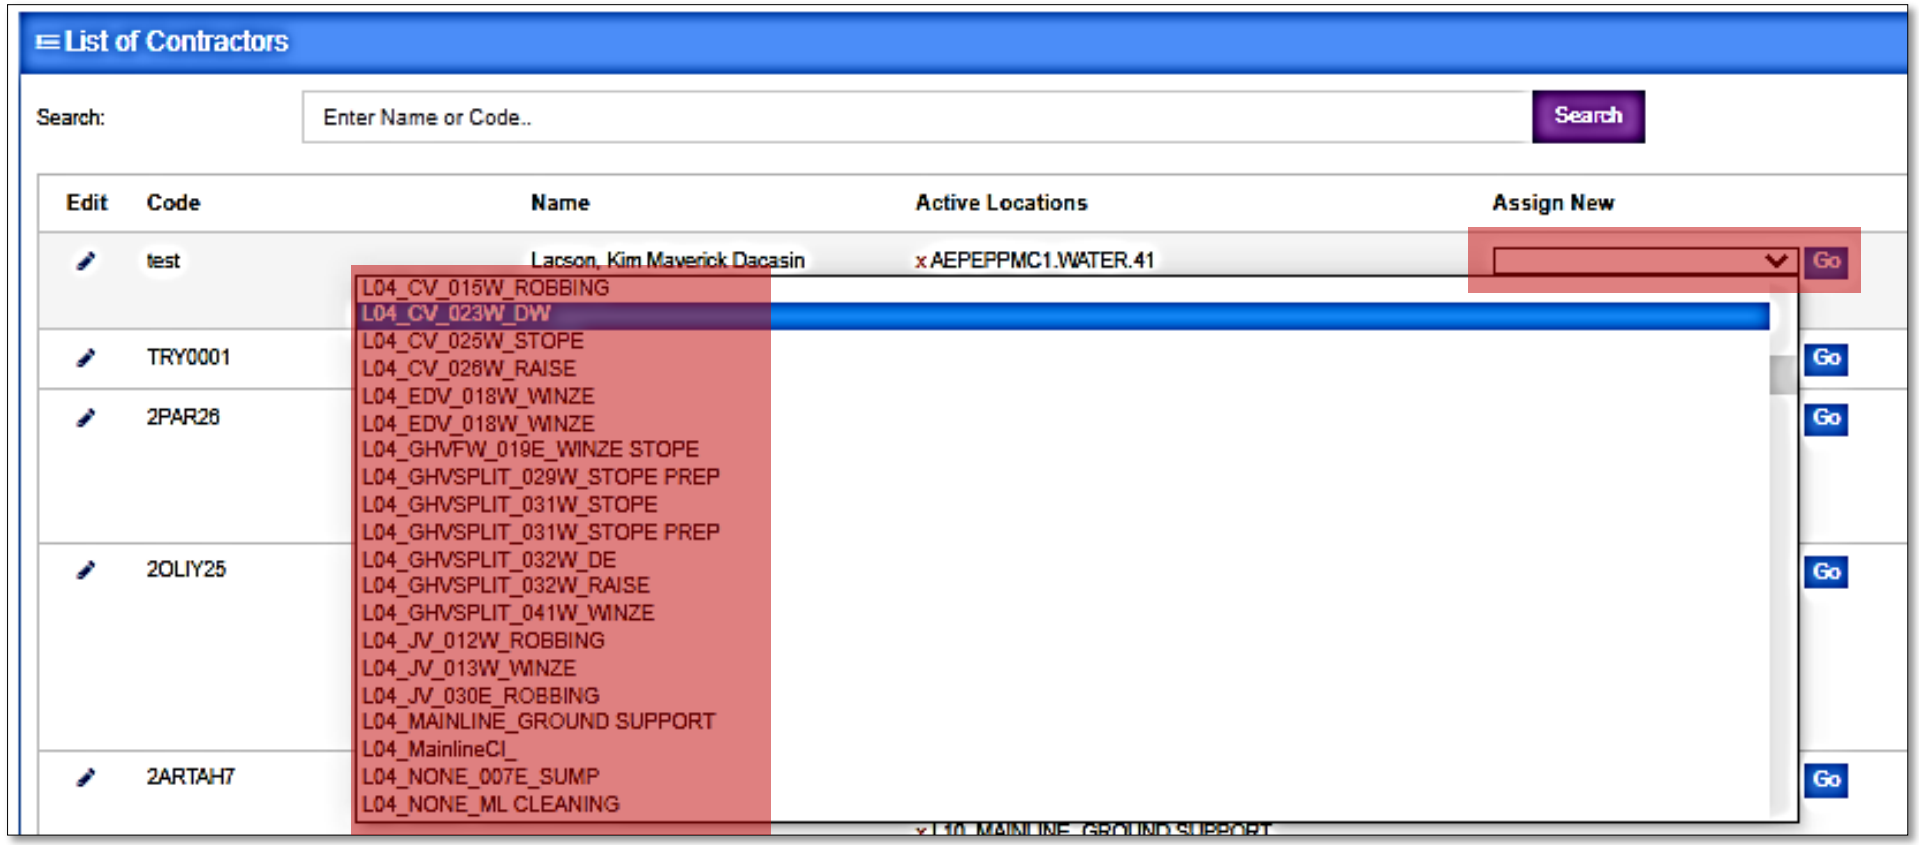

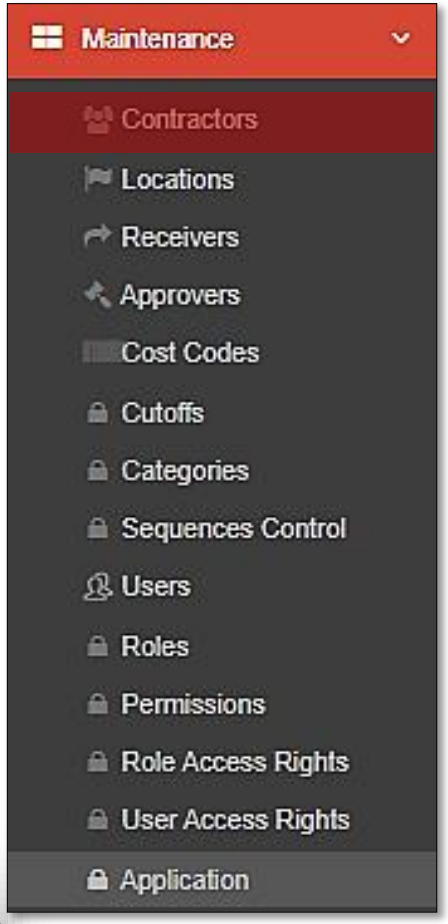

Assign New (Add Active Locations)

1. Go to the **Maintenance** module, and choose the **Contractors** option.
2. Click on the **Assign New** Drop-down button.

3. Select a location from the drop-down field.
4. Choose a location to be assigned to a contractor, then click on the **Go** button to proceed.

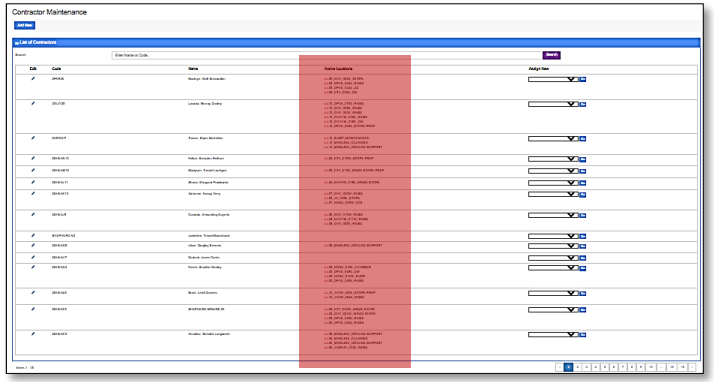

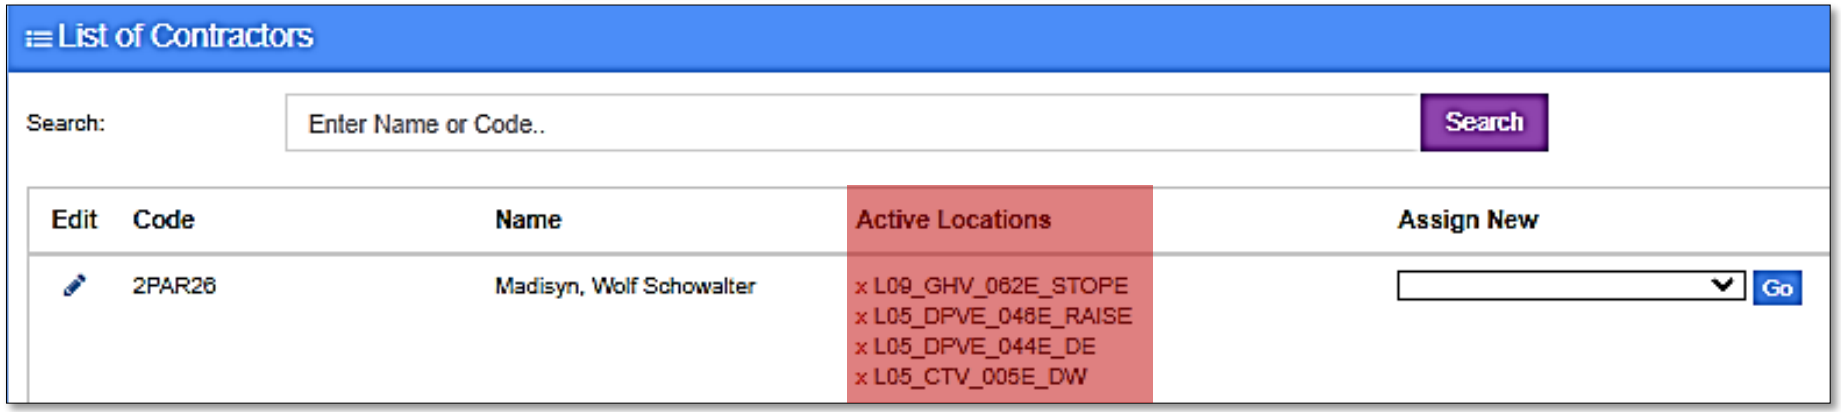

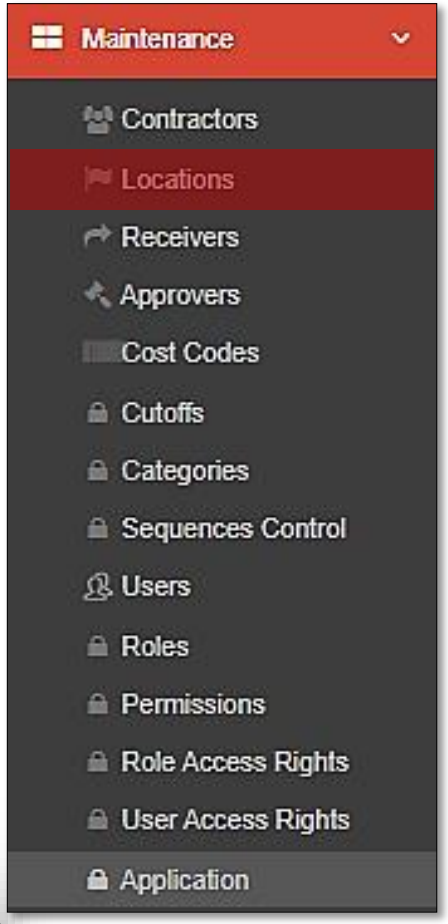

Delete Active Locations

1. Go to the **Maintenance** module, and choose the **Contractors** option**.**
2. You may use the **Search** (Enter Name or Code) and the **Pagination** function to look for a contractor.
3. Click on the red **X mark** beside a location to delete a contractor's active location.

Note: The location will automatically disappear from the active locations list once you click on the red **X** mark beside the location.

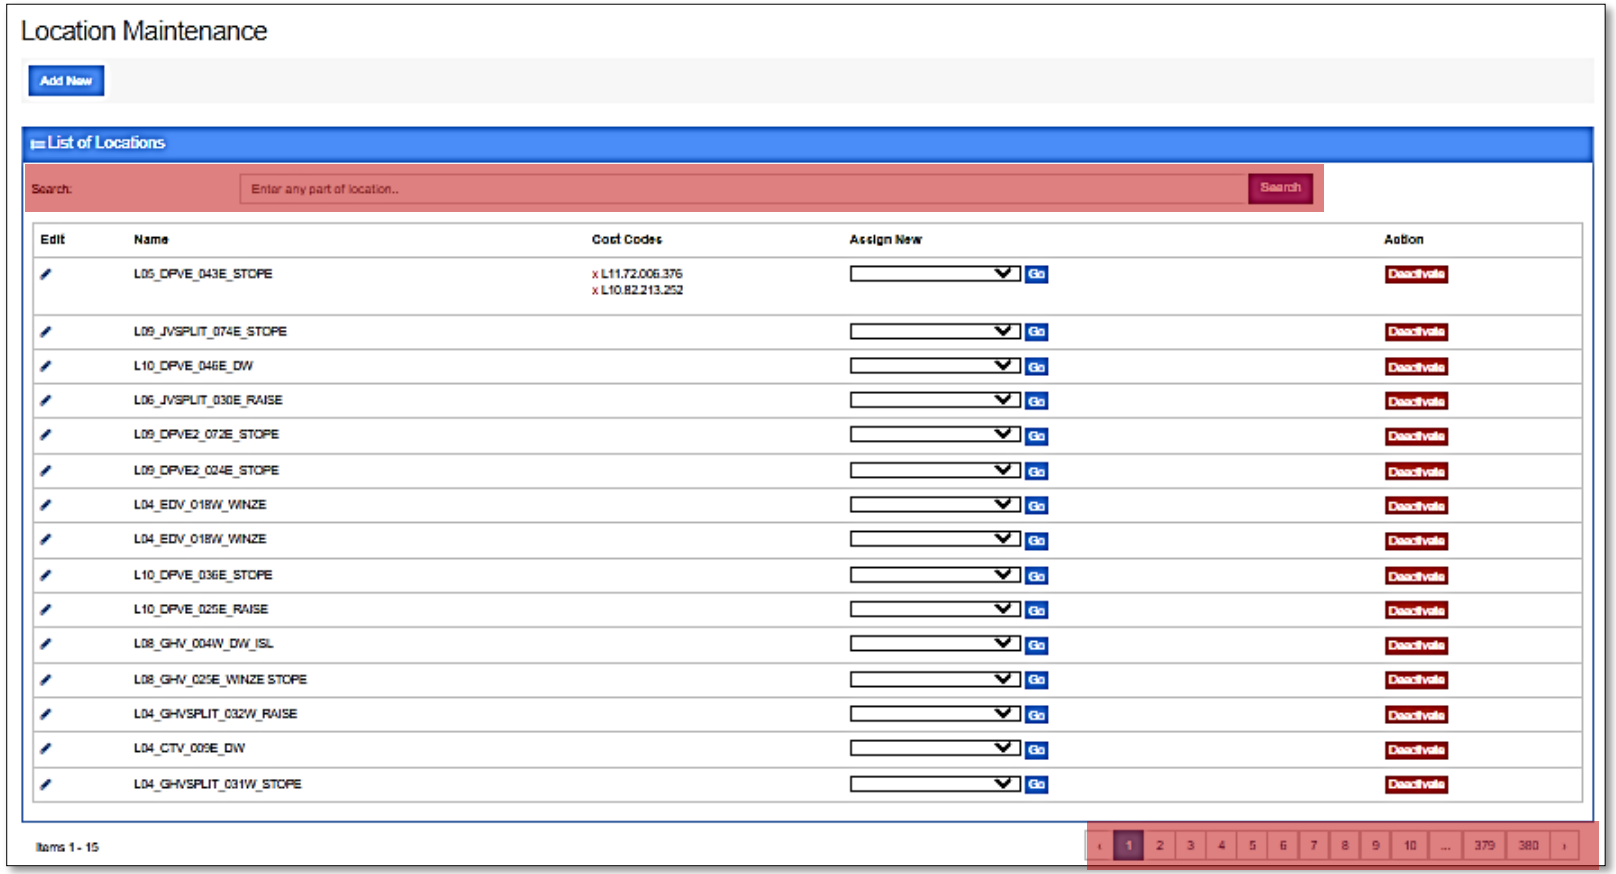

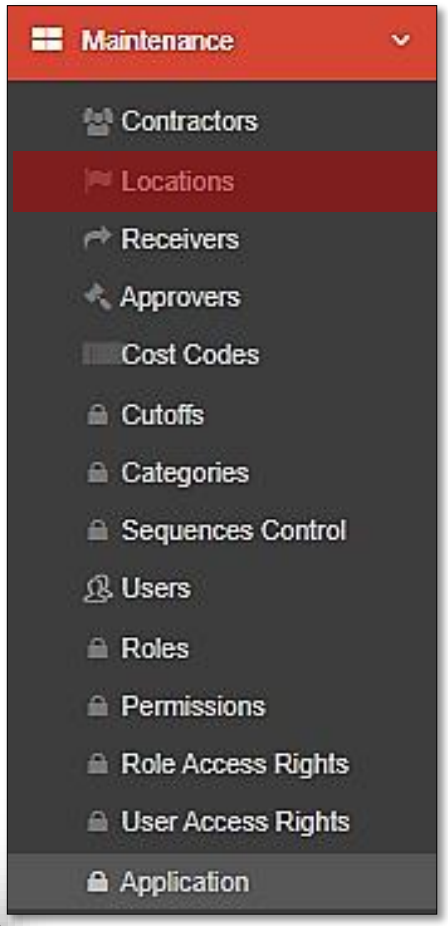

Locations

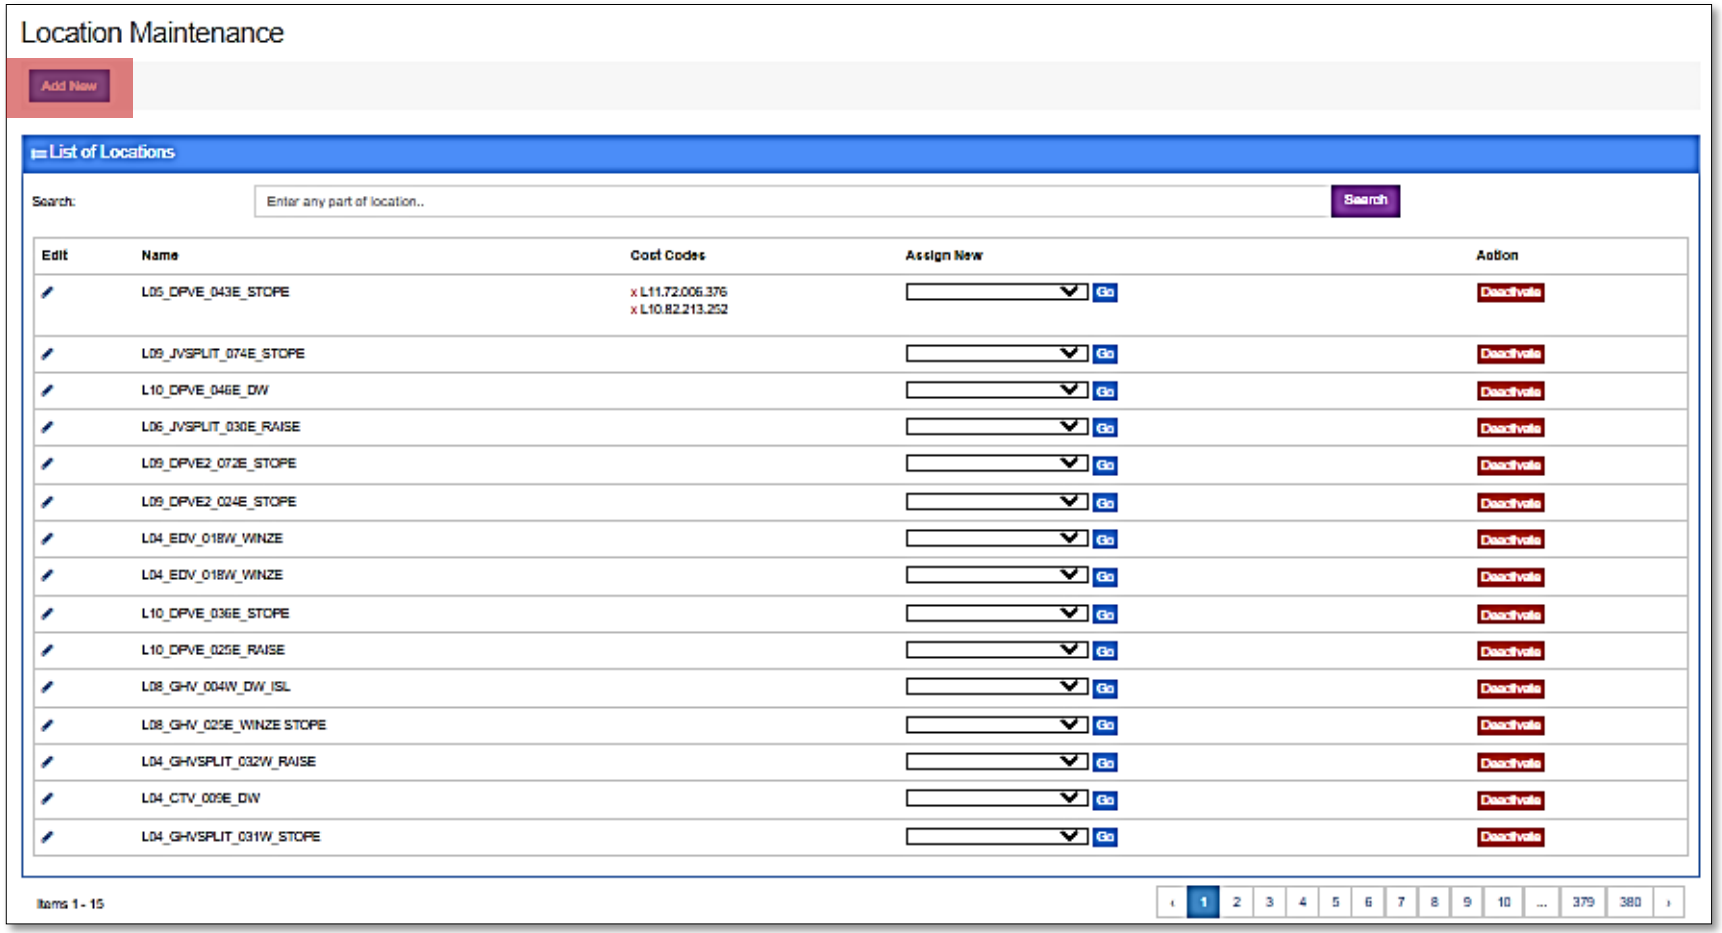

1. Go to the **Maintenance** module, and choose the **Locations** option.
2. You will be able to view the **List of Locations**. You may use the **Search** (Enter any part of location) and the **Pagination** function to look for a location**.**

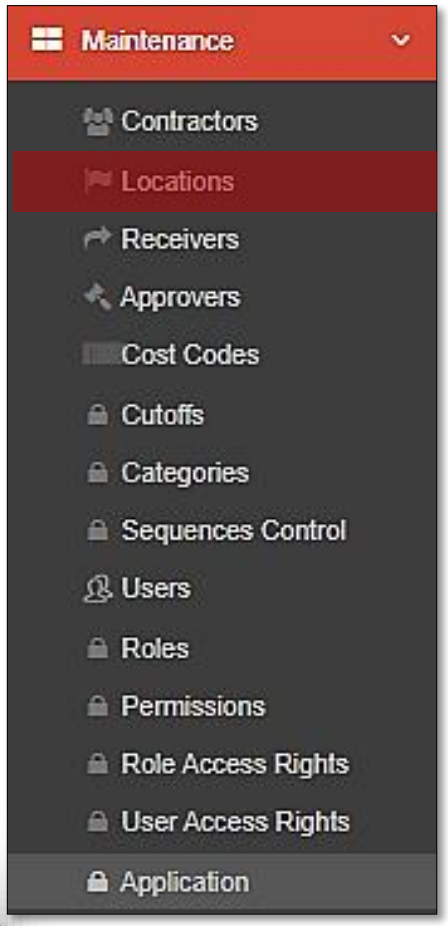

Add New Location

1. Go to the **Maintenance** module, and choose the **Locations** option.
2. Click on the **Add New** button.

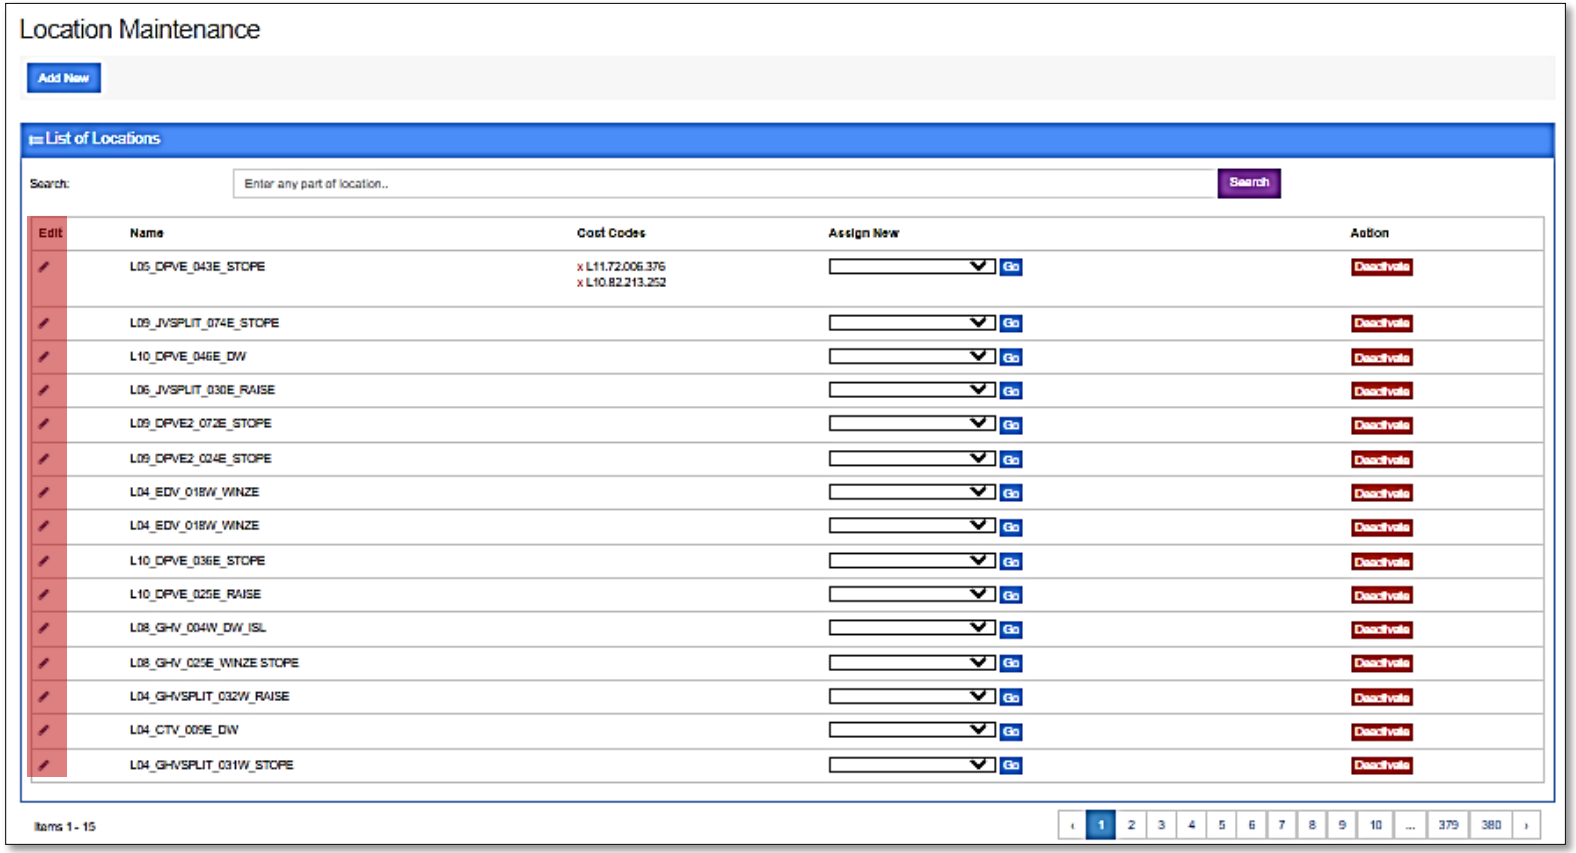

3. Enter the Name of the location once the **Add New Location** screen appears.
4. Click on the **Save Location** button to complete the process, or click the **Close** button to cancel the procedure.

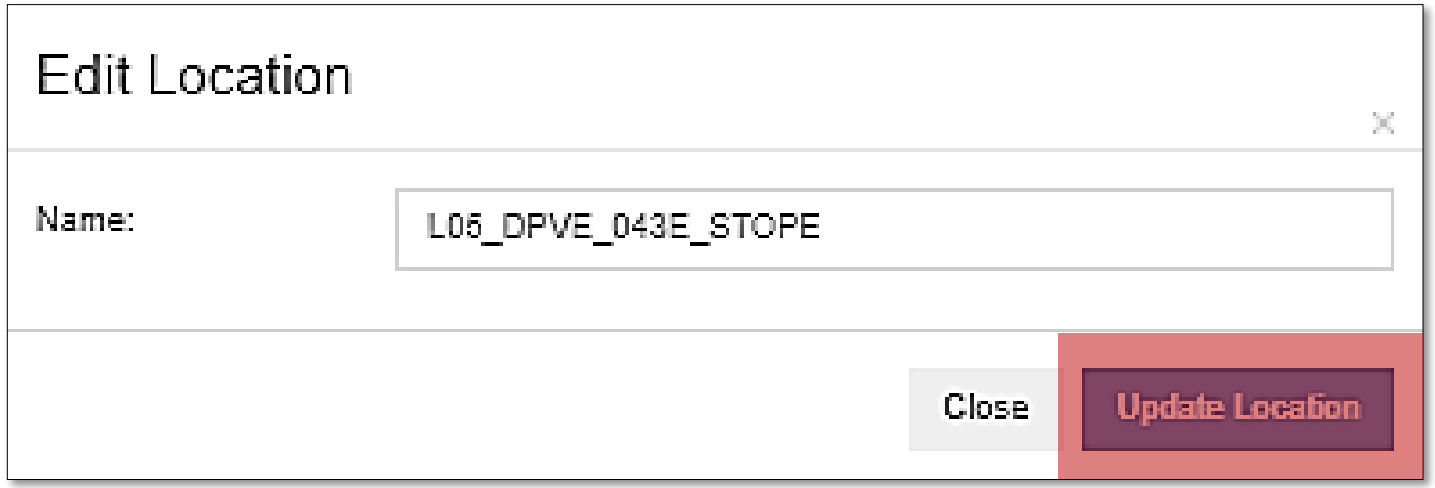

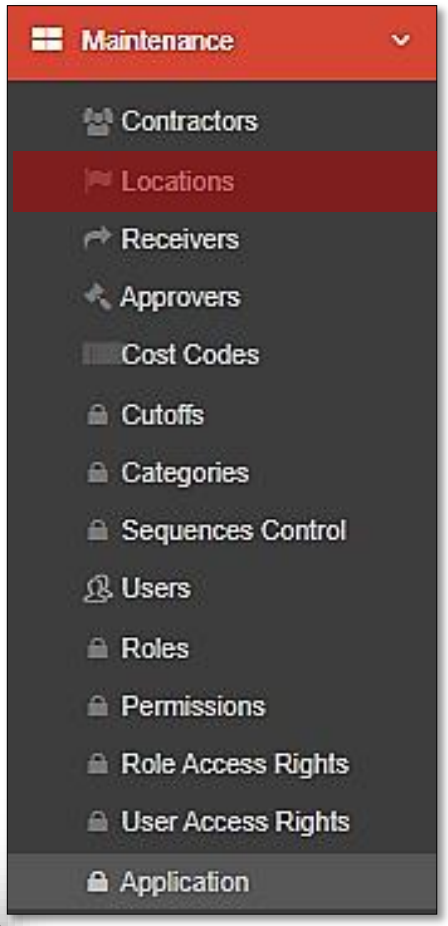

Edit Locations

1. Go to the **Maintenance** module, and choose the **Locations** option.
2. You may use the **Search** (Enter any part of location) and the **Pagination** function to look for a location**.**
3. Click on the **Edit** button.

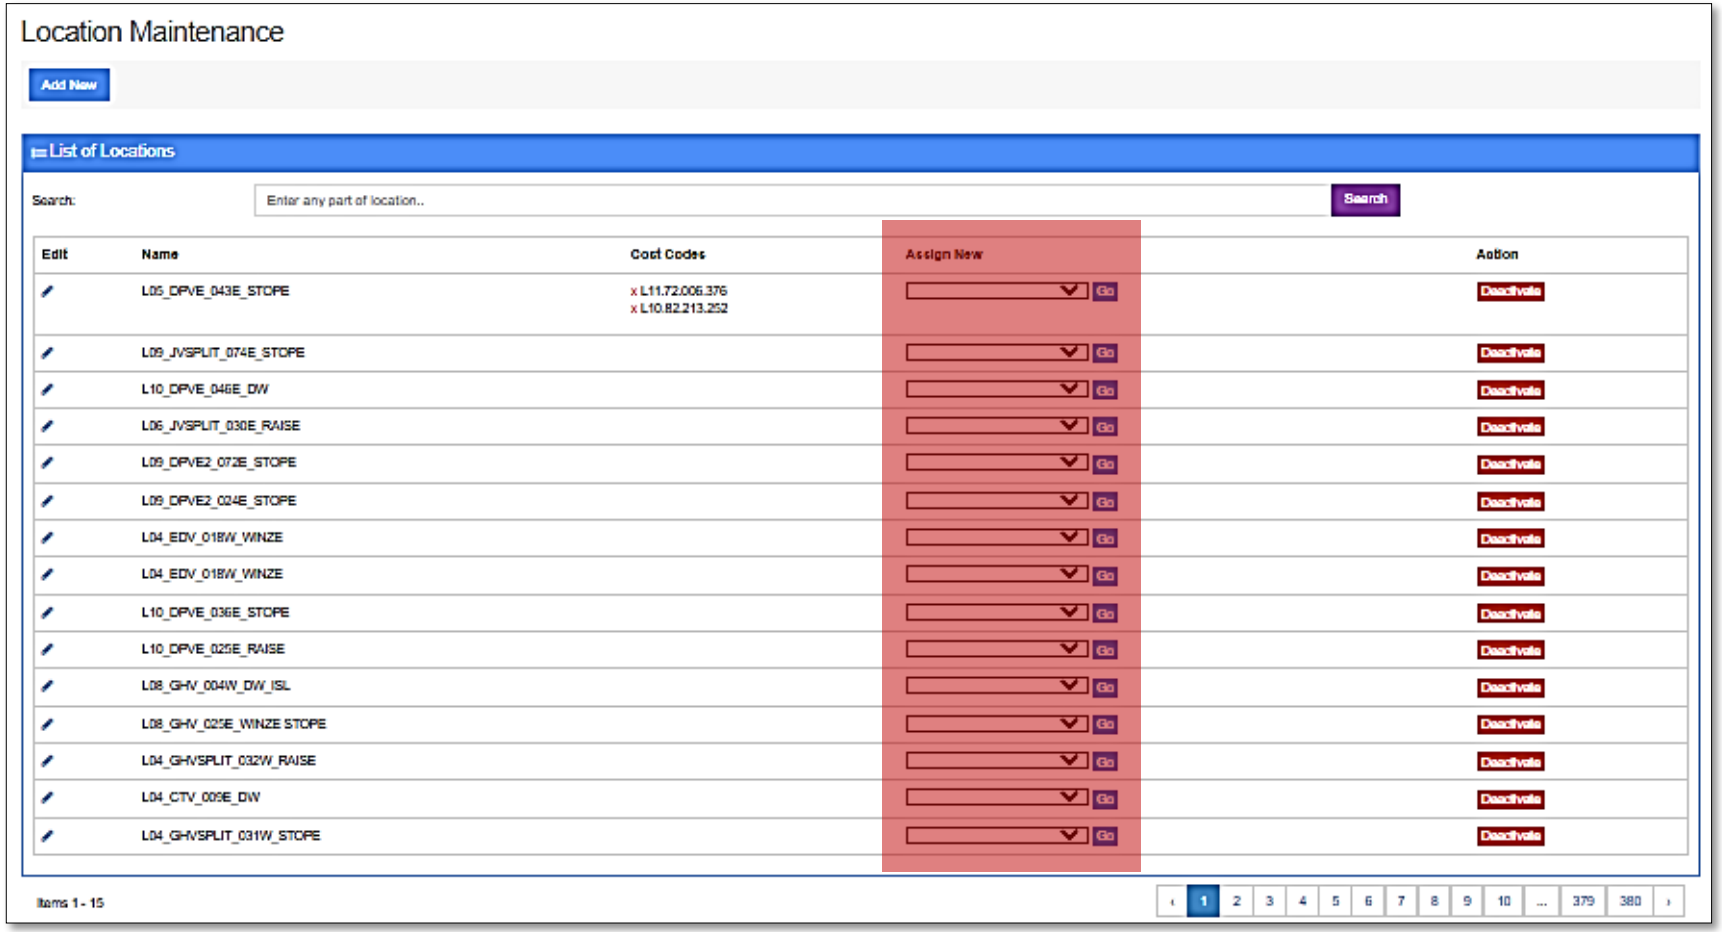

4. Make the necessary change accordingly once the **Edit Location** screen appears.
5. Click on the **Update Location** button to complete the process, or click the **Close** button to cancel the procedure.

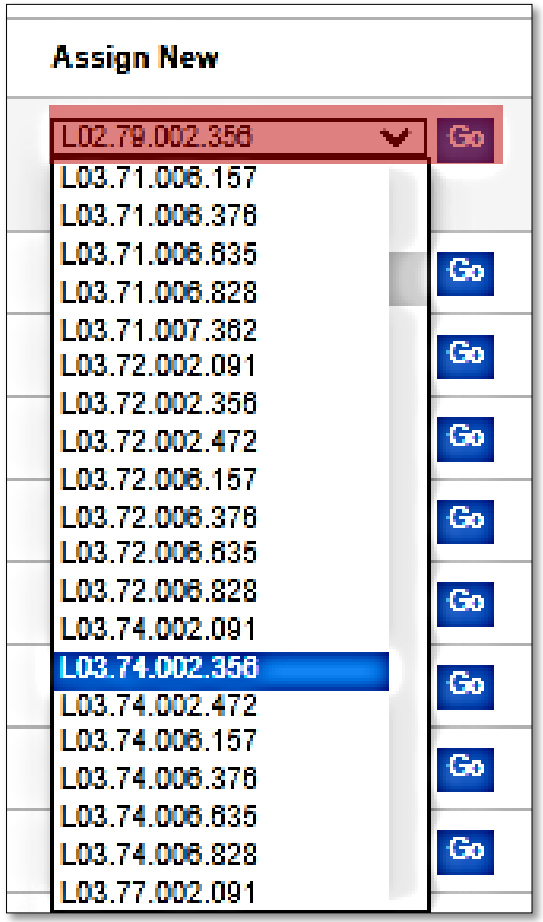

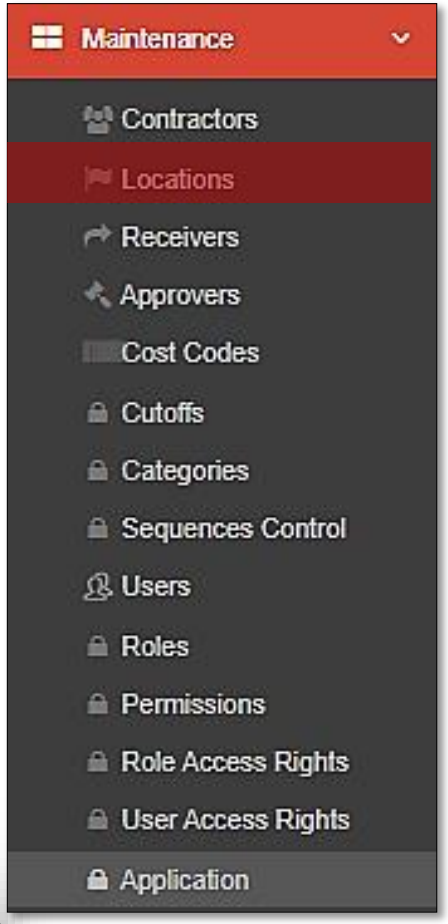

Assign New (Add Cost Codes)

1. Go to the **Maintenance** module, and choose the **Locations** option.
2. Click on the **Assign New** Drop-down button.

3. Select a cost code from the drop down field.
4. Choose a cost code to be assigned to a location, then click on the **Go** button to proceed.

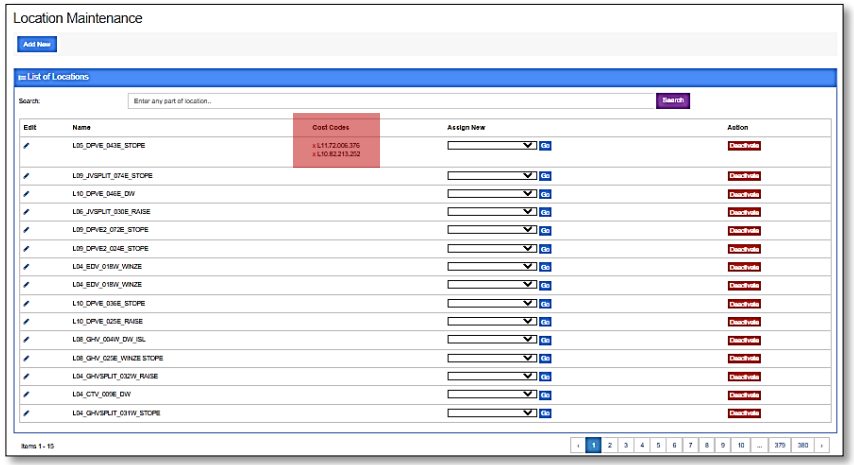

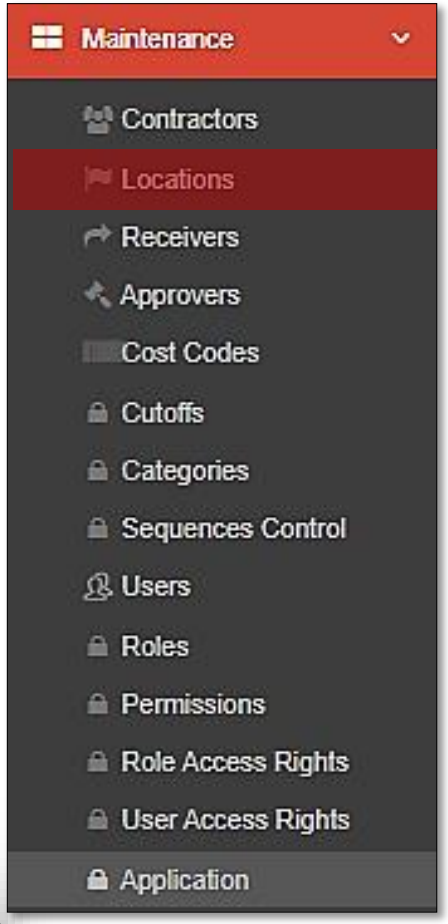

Delete Cost Codes

1. Go to the **Maintenance** module, and choose the **Locations** option**.**
2. You may use the **Search** (Enter any part of location) and the **Pagination** function to look for a location.
3. Click on the red **X mark** beside a cost code to delete a location's cost code.

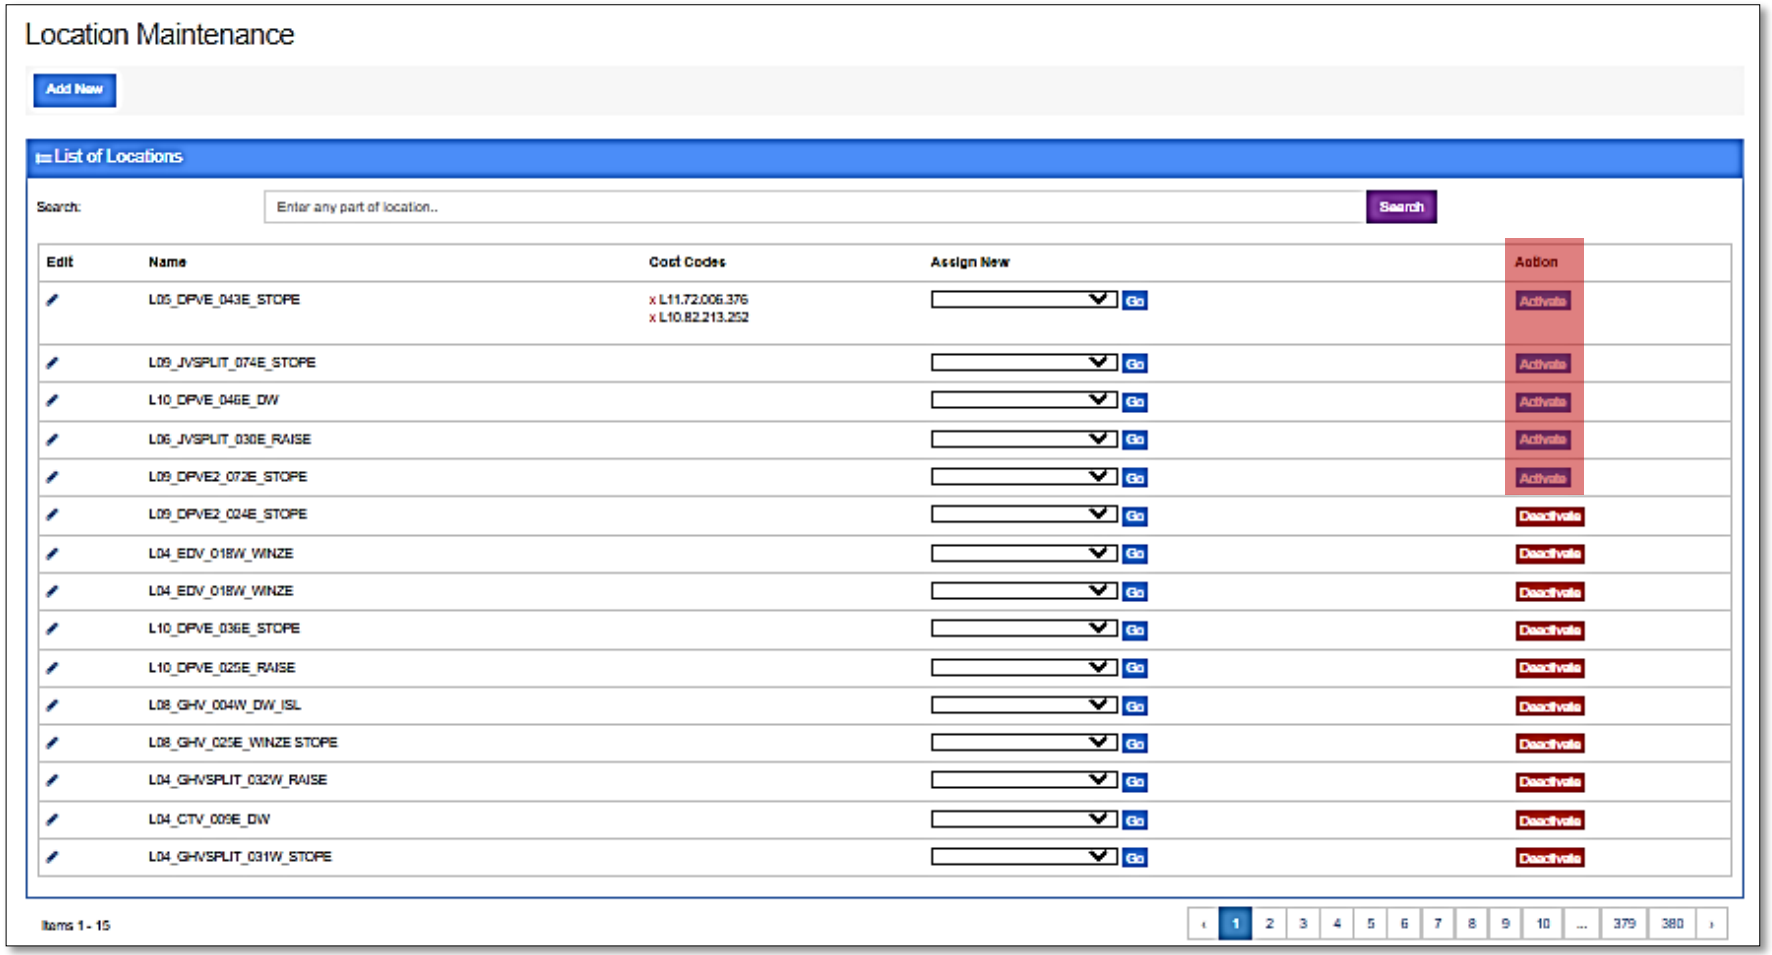

Note: The cost code will automatically disappear from the cost codes list once you click on the red **X** mark beside the cost code.

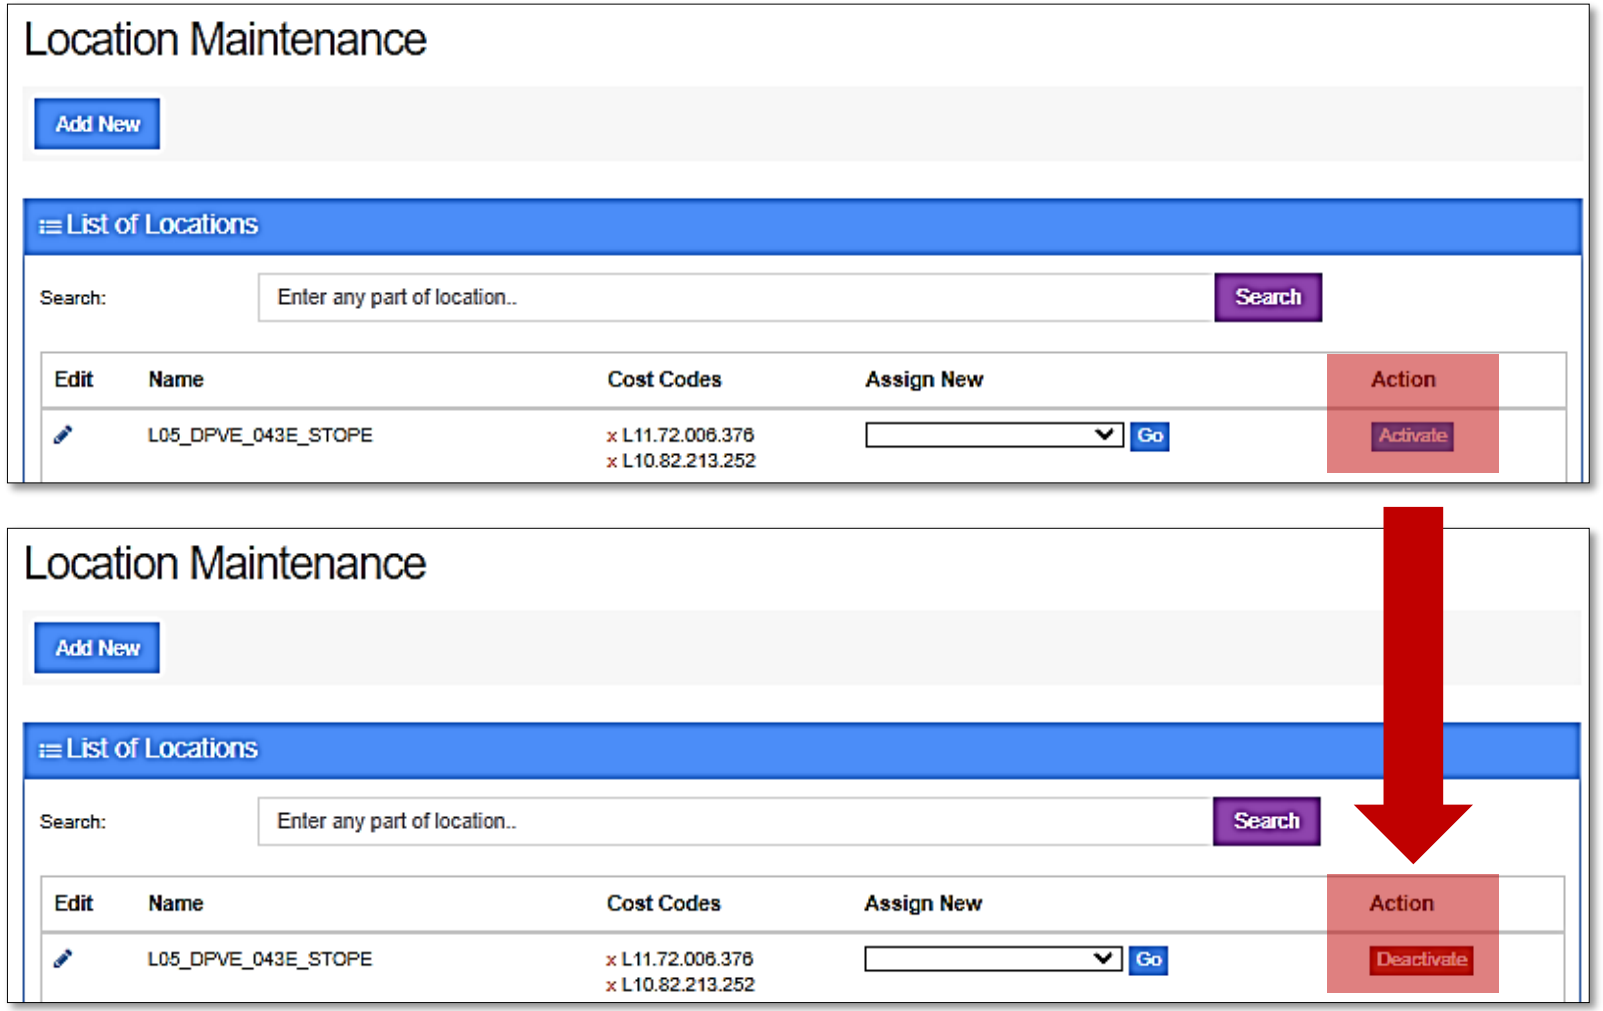

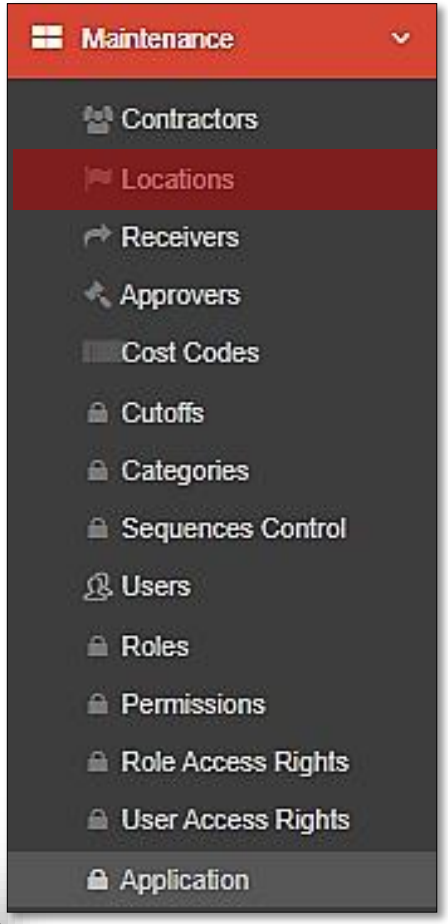

Activate a Location

1. Go to the **Maintenance** module, and choose the **Locations** option.
2. Click on the **Activate** button to activate a Location.

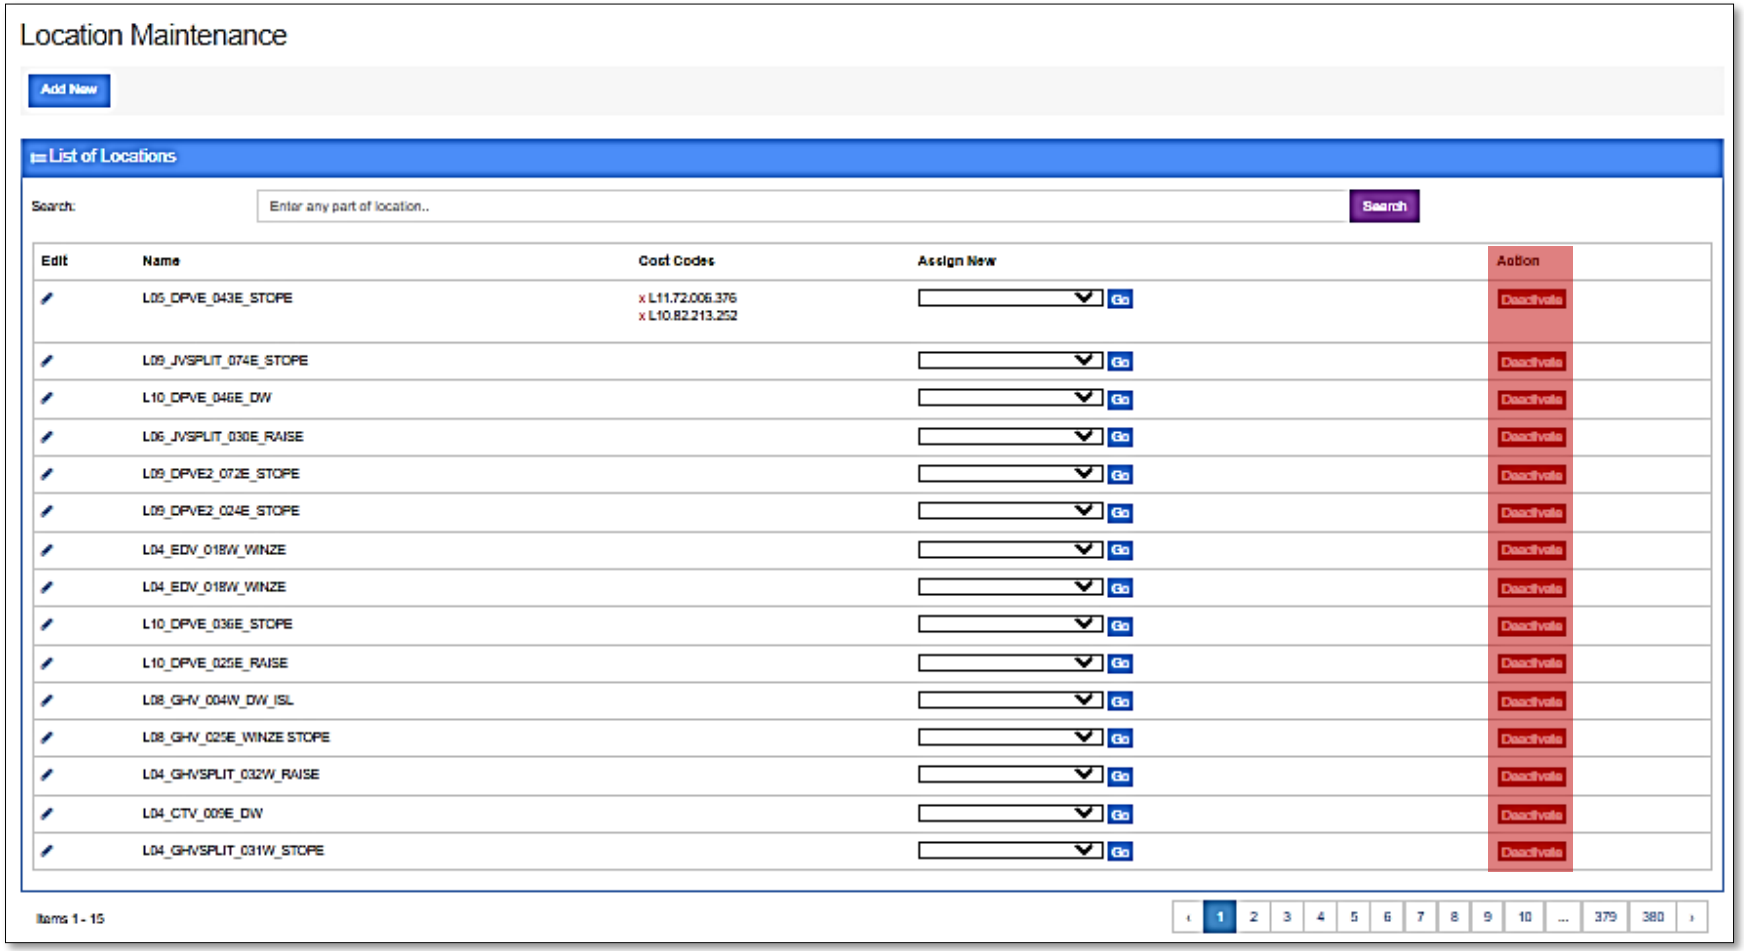

3. The Action button **Activate** will be replaced with a **Deactivate** button once you click on the **Activate** button to activate a location.

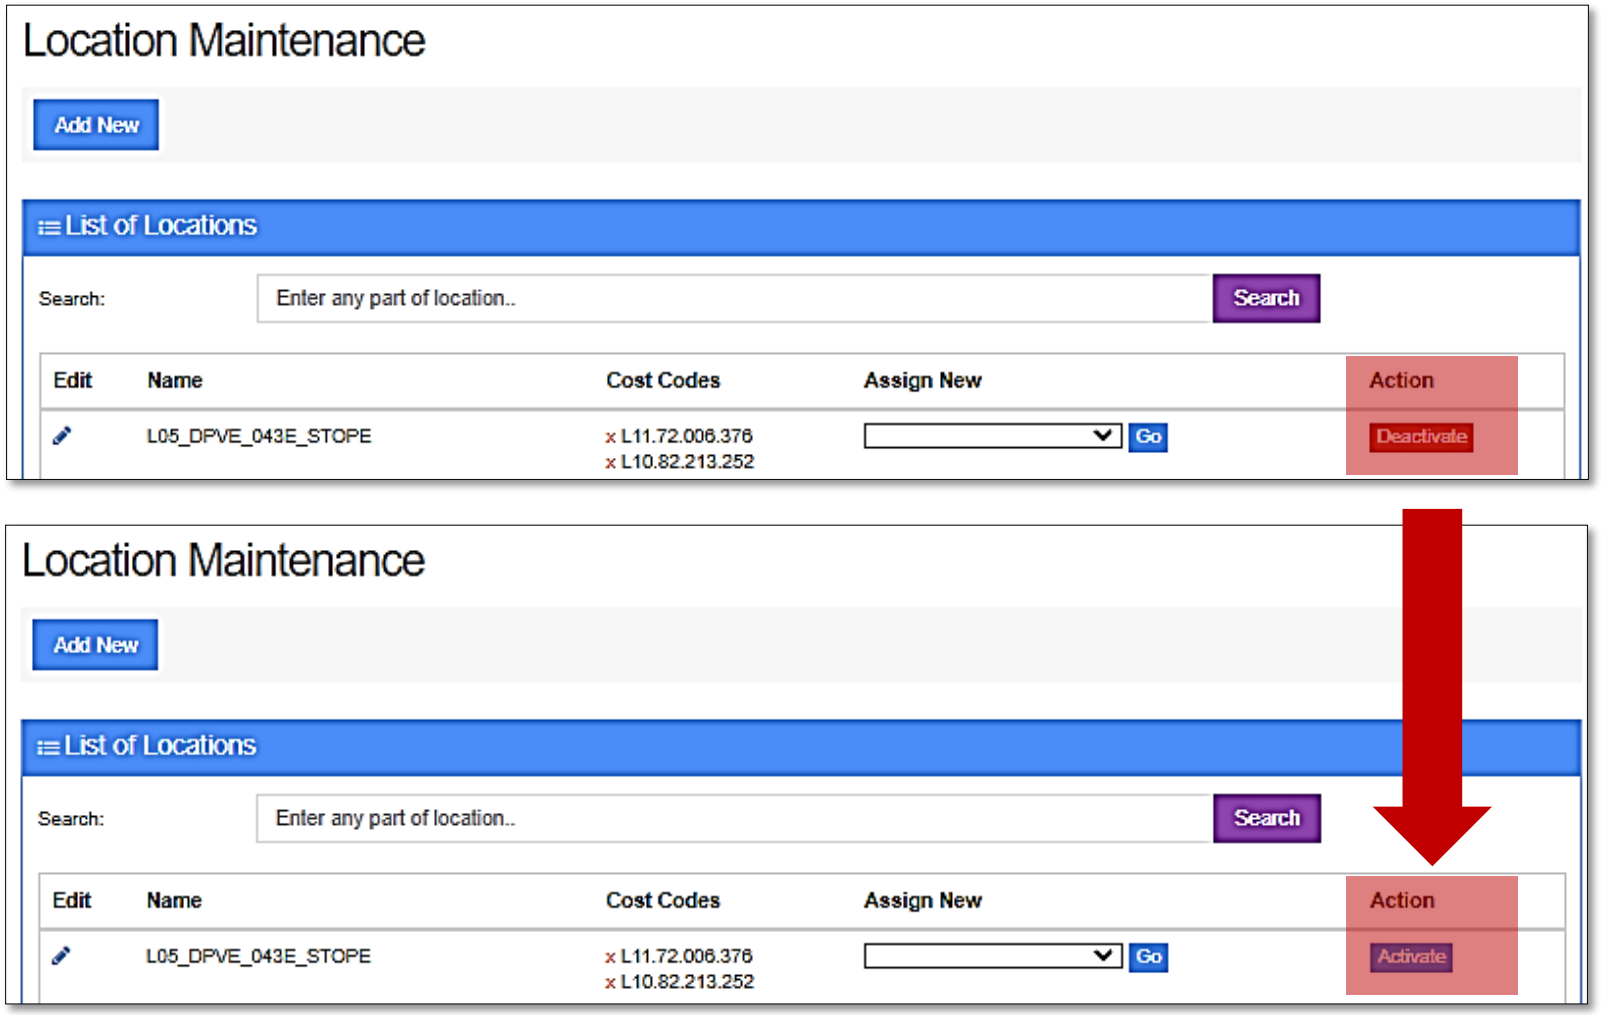

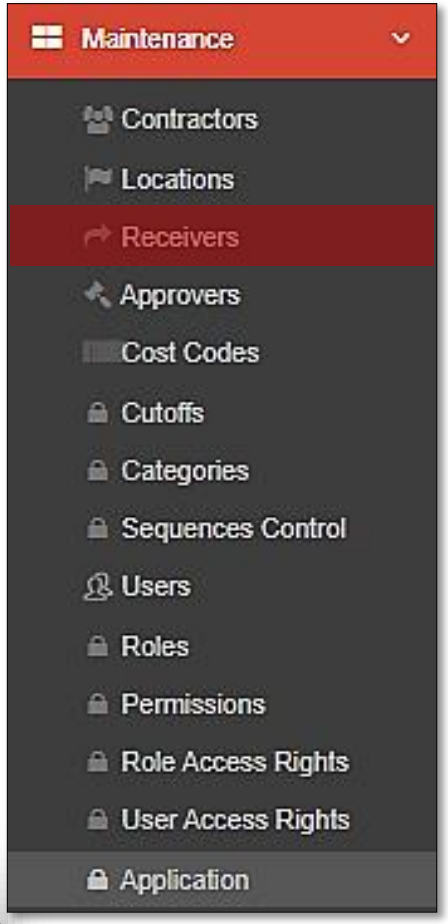

Deactivate a Location

1. Go to the **Maintenance** module, and choose the **Locations** option.
2. Click on the **Deactivate** button to Deactivate a Location.

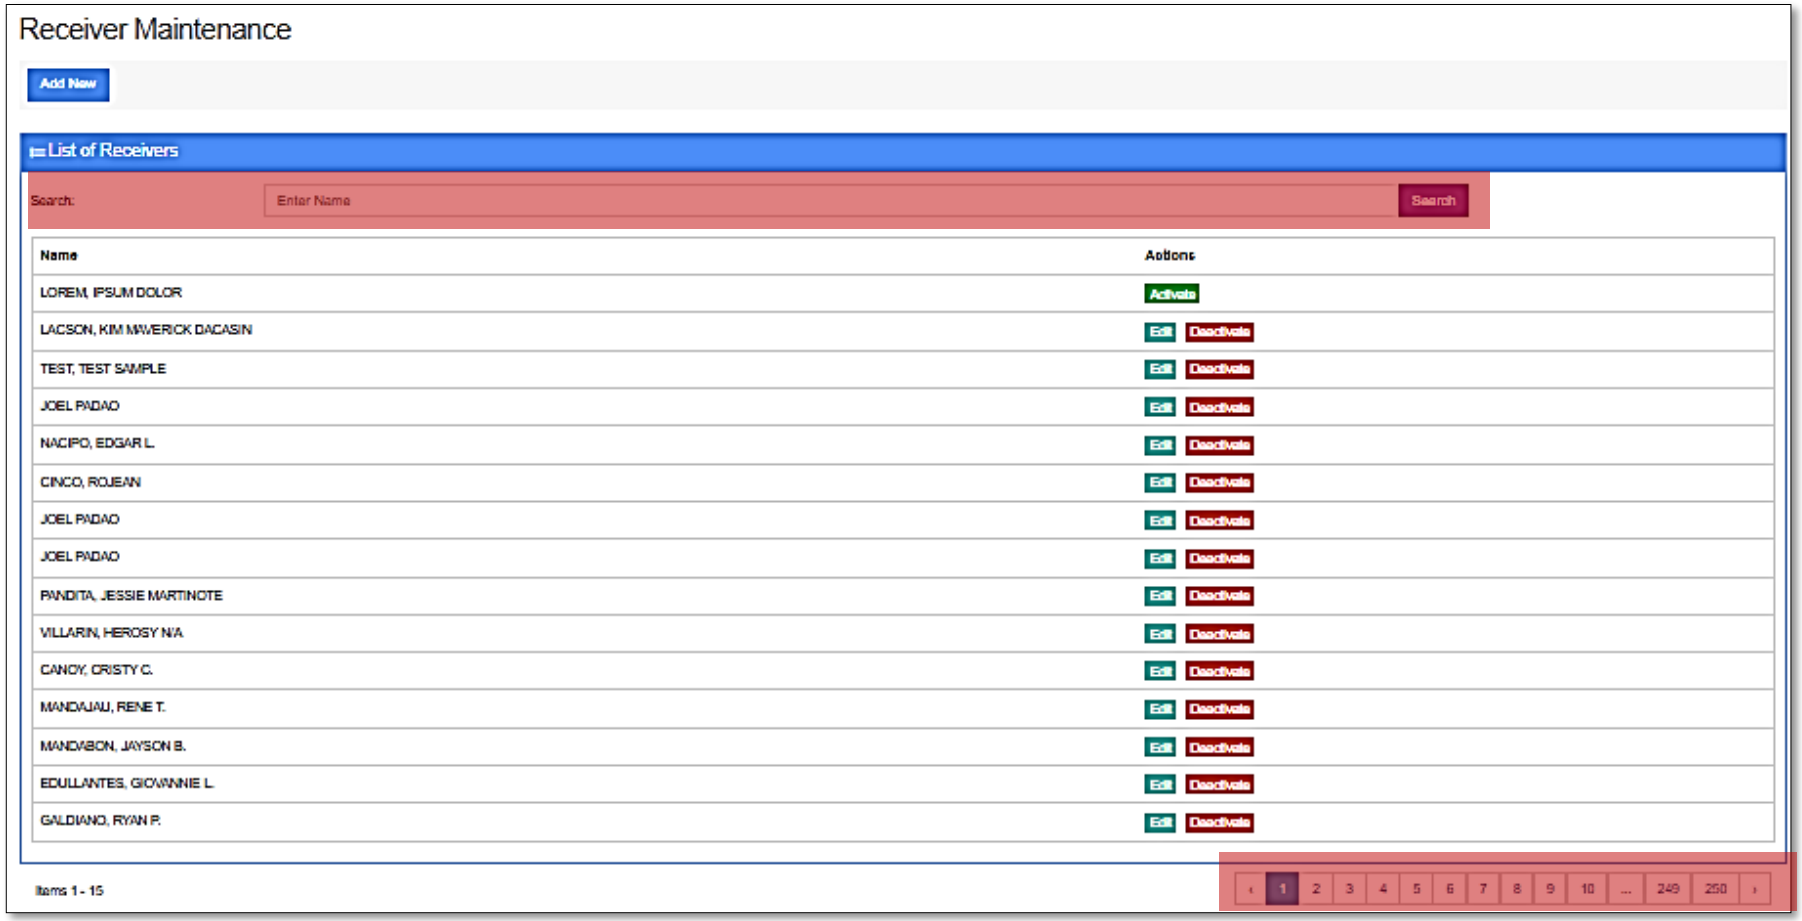

3. The Action button **Deactivate** will be replaced with an **Activate** button once you click on the **Deactivate** button to deactivate a location.

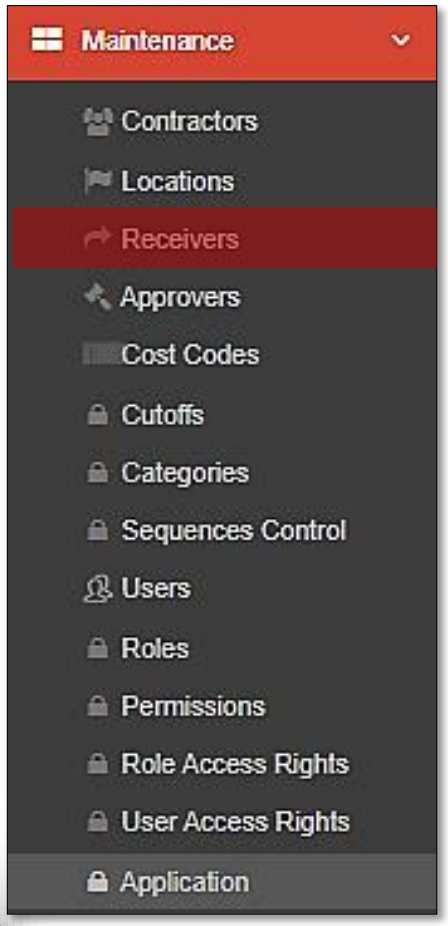

Receivers

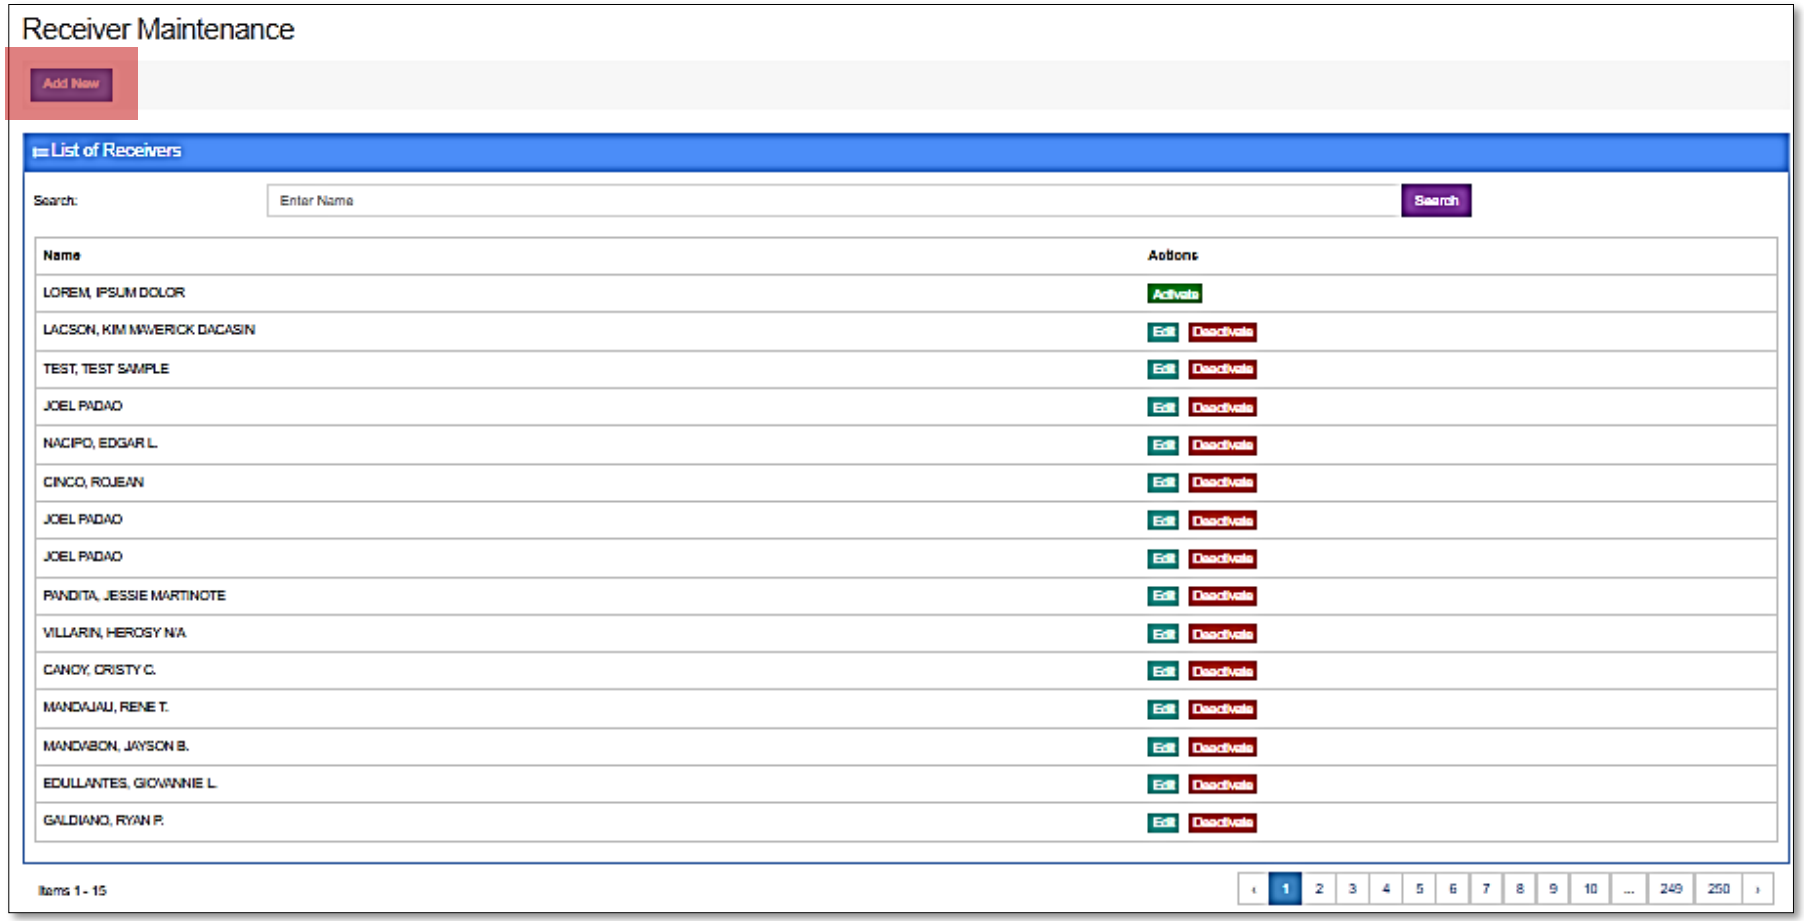

1. Go to the **Maintenance** module, and choose the **Receivers** option.
2. You will be able to view the **List of Receivers**. You may use the **Search** (Enter Name) and the **Pagination** function to look for a Receiver**.**

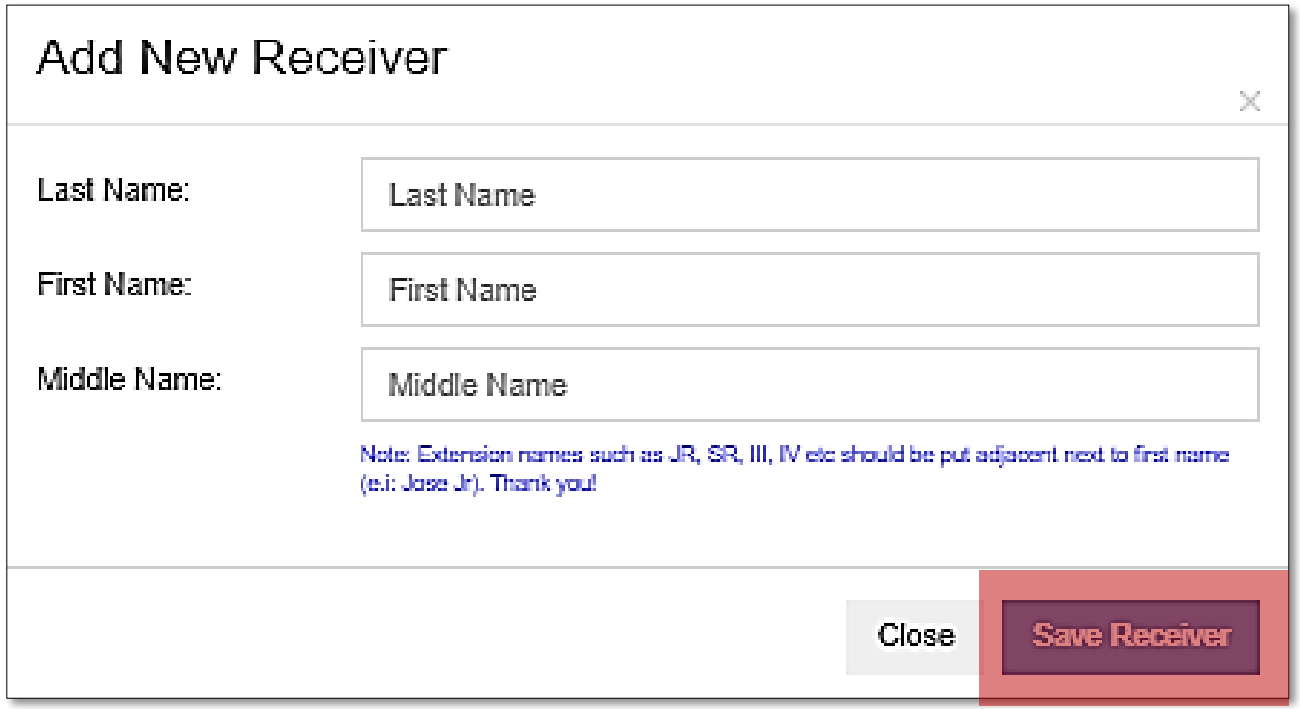

Add New Receiver

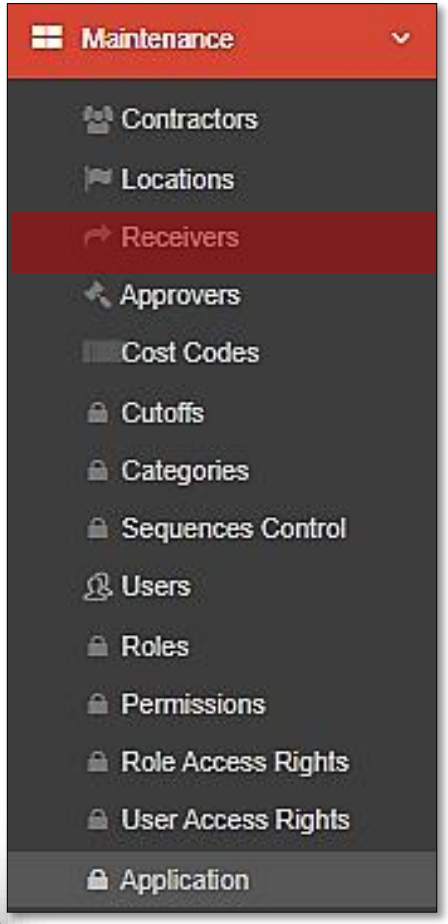

1. Go to the **Maintenance** module, and choose the **Receivers** option.
2. Click on the **Add New** button.

3. Enter the Last Name, First Name, and Middle Name once the **Add New Receiver** screen appears.
4. Click on the **Save Receiver** button to complete the process, or click the **Close** button to cancel the procedure.

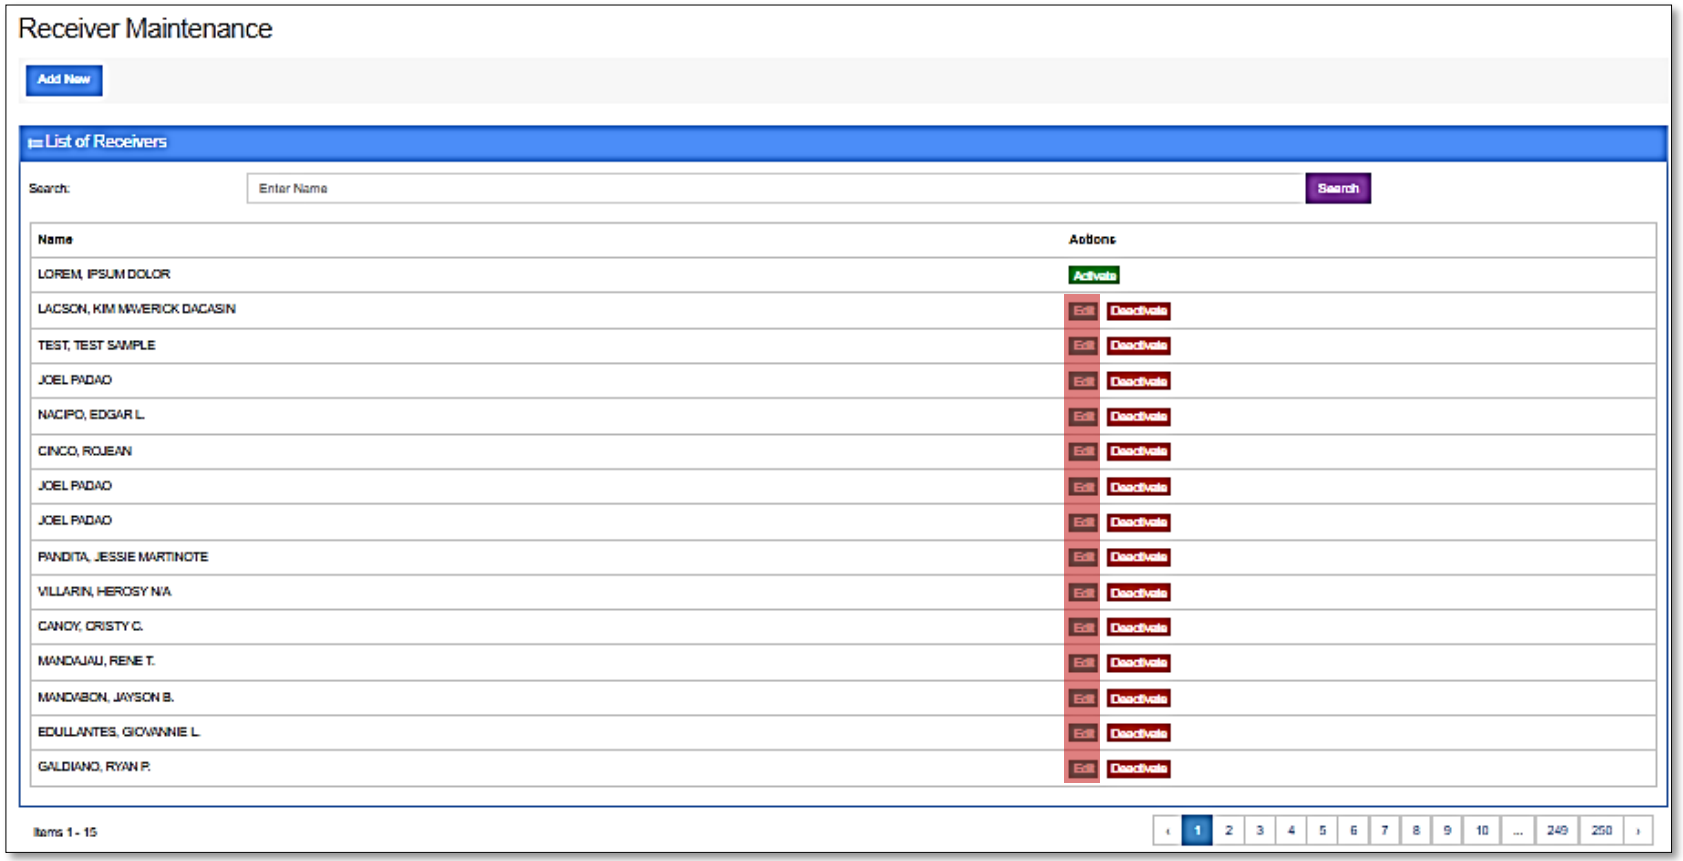

Note: Extension names such as JR, SR, III, IV, etc should be next to the first name (Jose Jr).

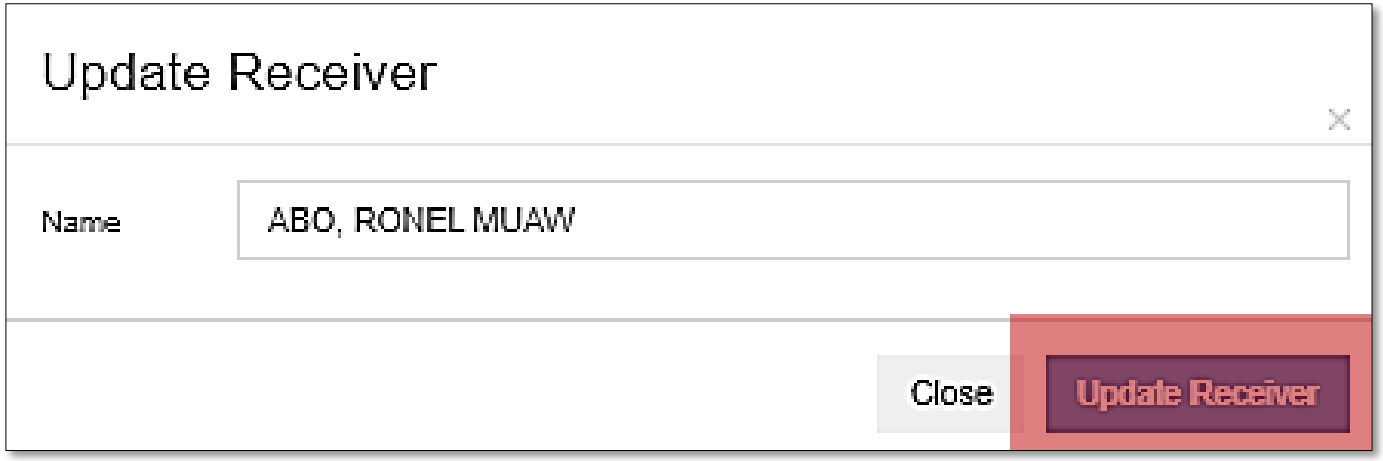

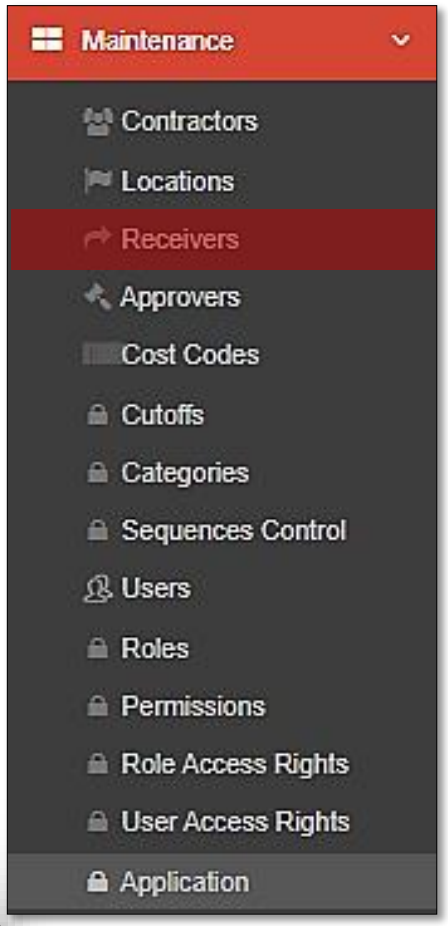

Edit Receivers

1. Go to the **Maintenance** module, and choose the **Receivers** option.
2. You may use the **Search** (Enter Name) and the **Pagination** function to look for a receiver**.**
3. Click on the **Edit** button.

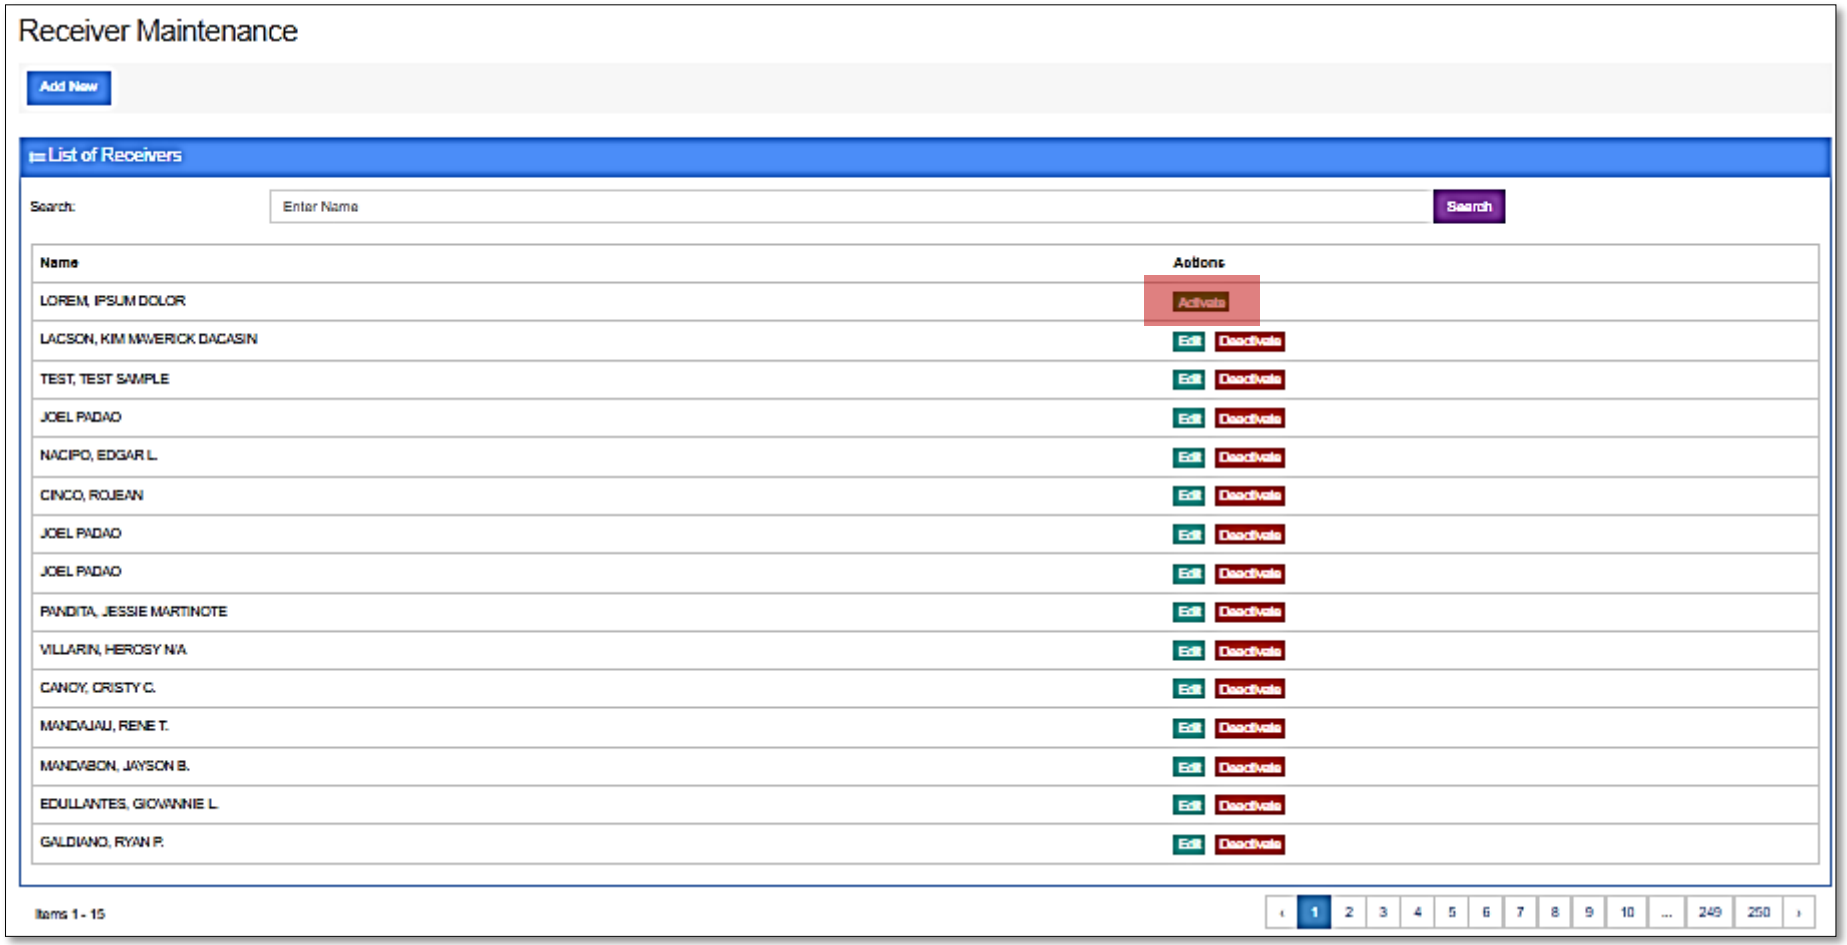

4. Make the necessary change accordingly once the **Update Receiver** screen appears.
5. Click on the **Update Receiver** button to complete the process, or click the **Close** button to cancel the procedure.

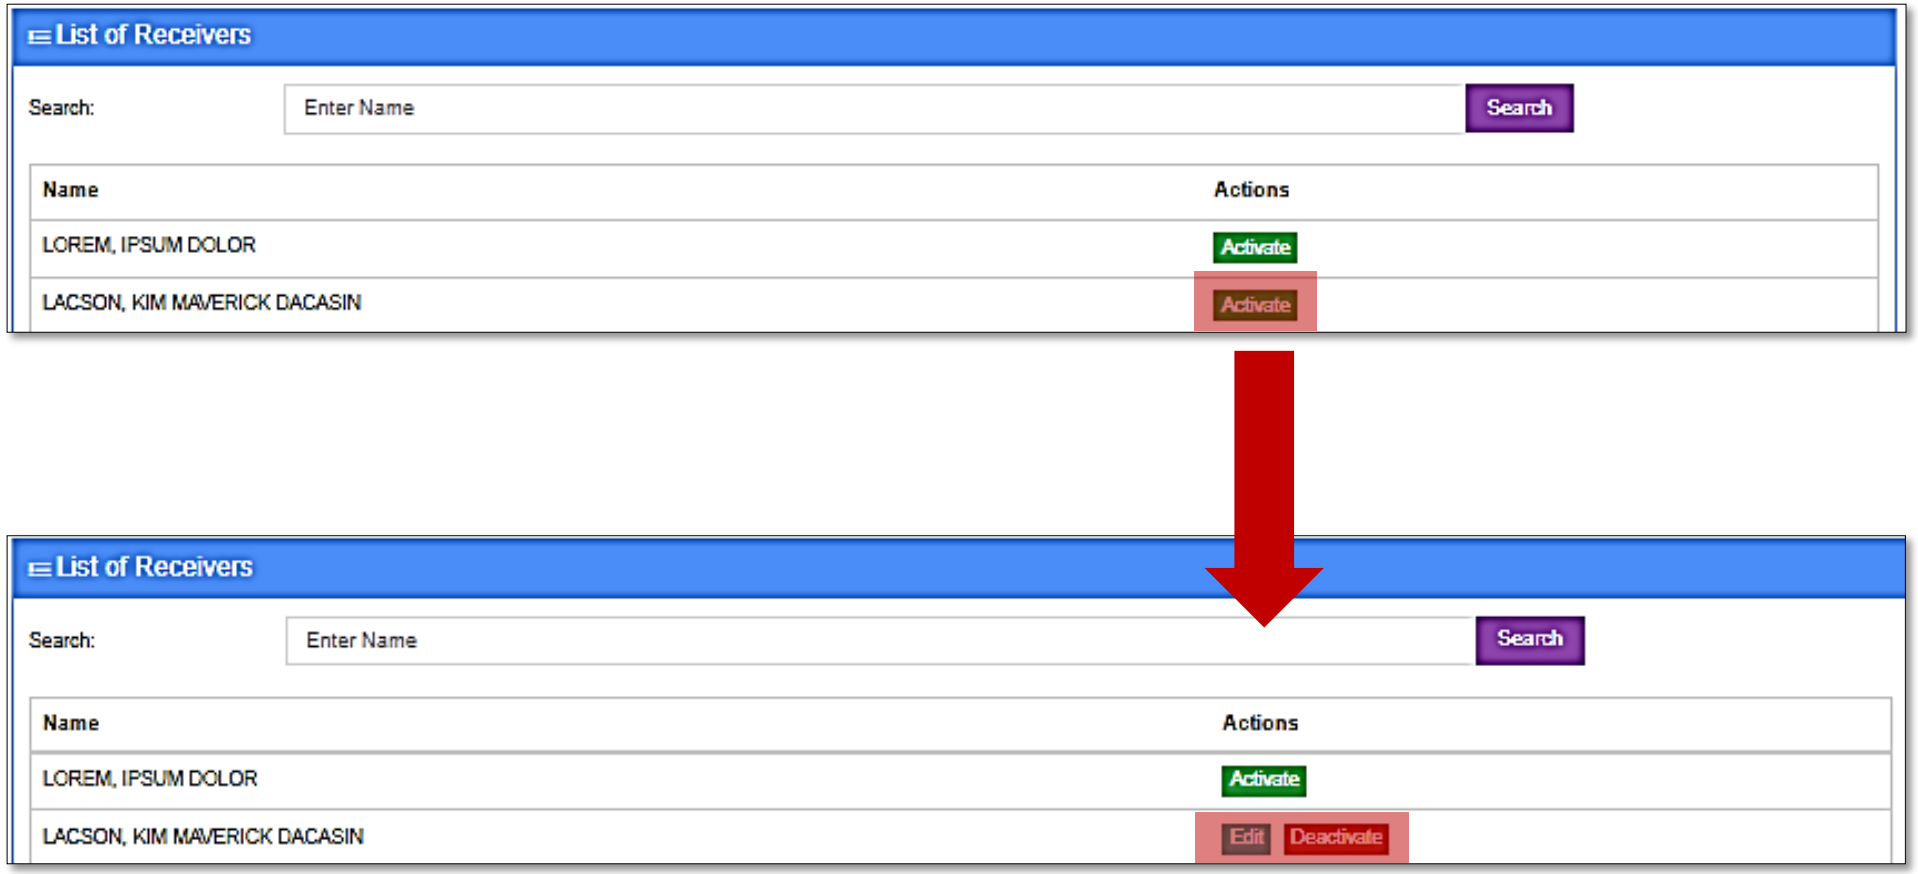

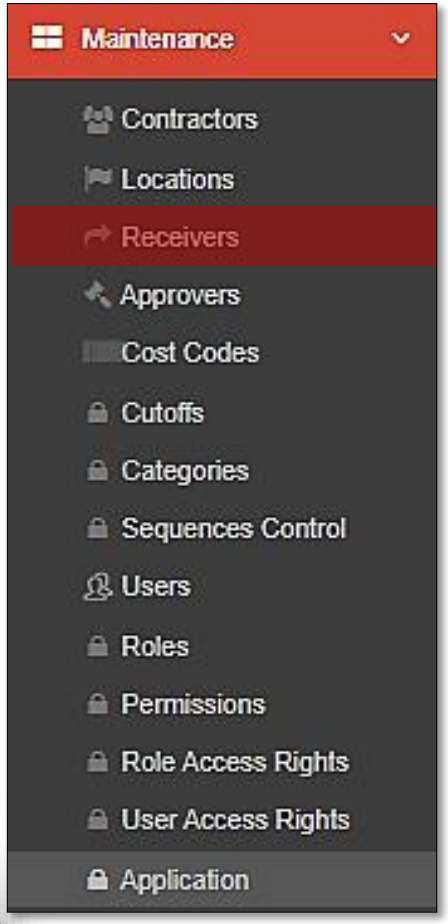

Activate a Receiver

1. Go to the **Maintenance** module, and choose the **Receivers** option.
2. Click on the **Activate** button to activate a Receiver.

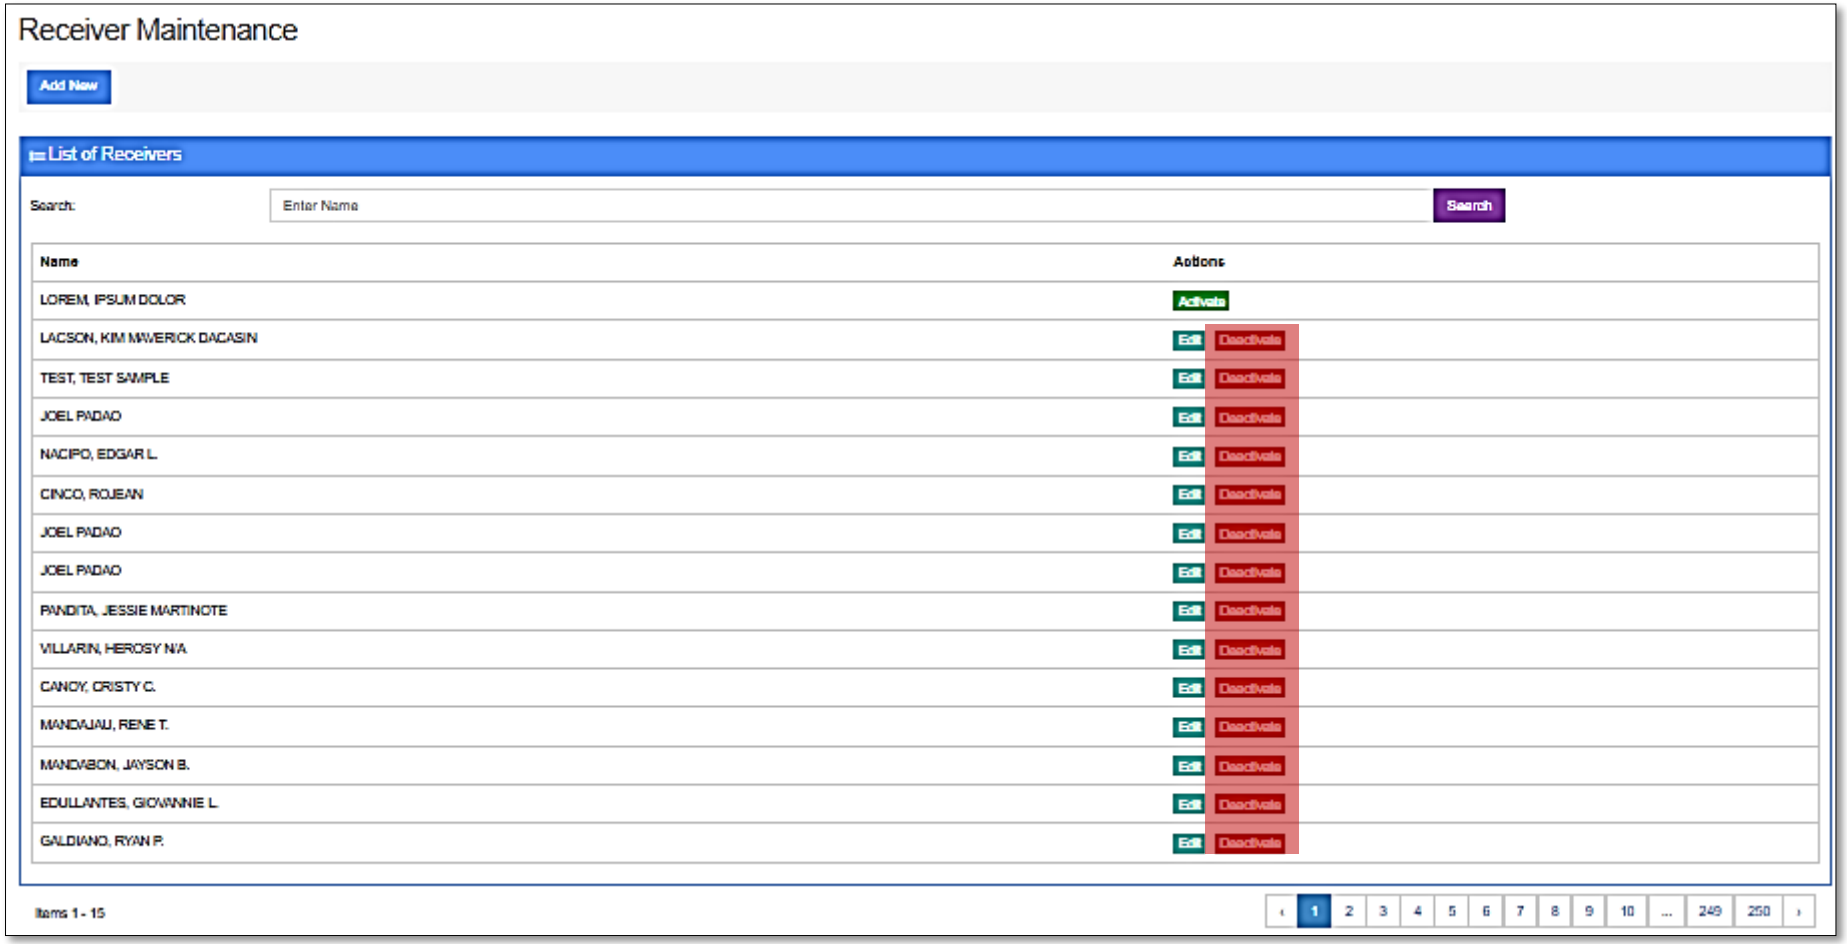

3. The Action button **Activate** will be replaced with a **Deactivate** button once you click on the **Activate** button to activate a location.

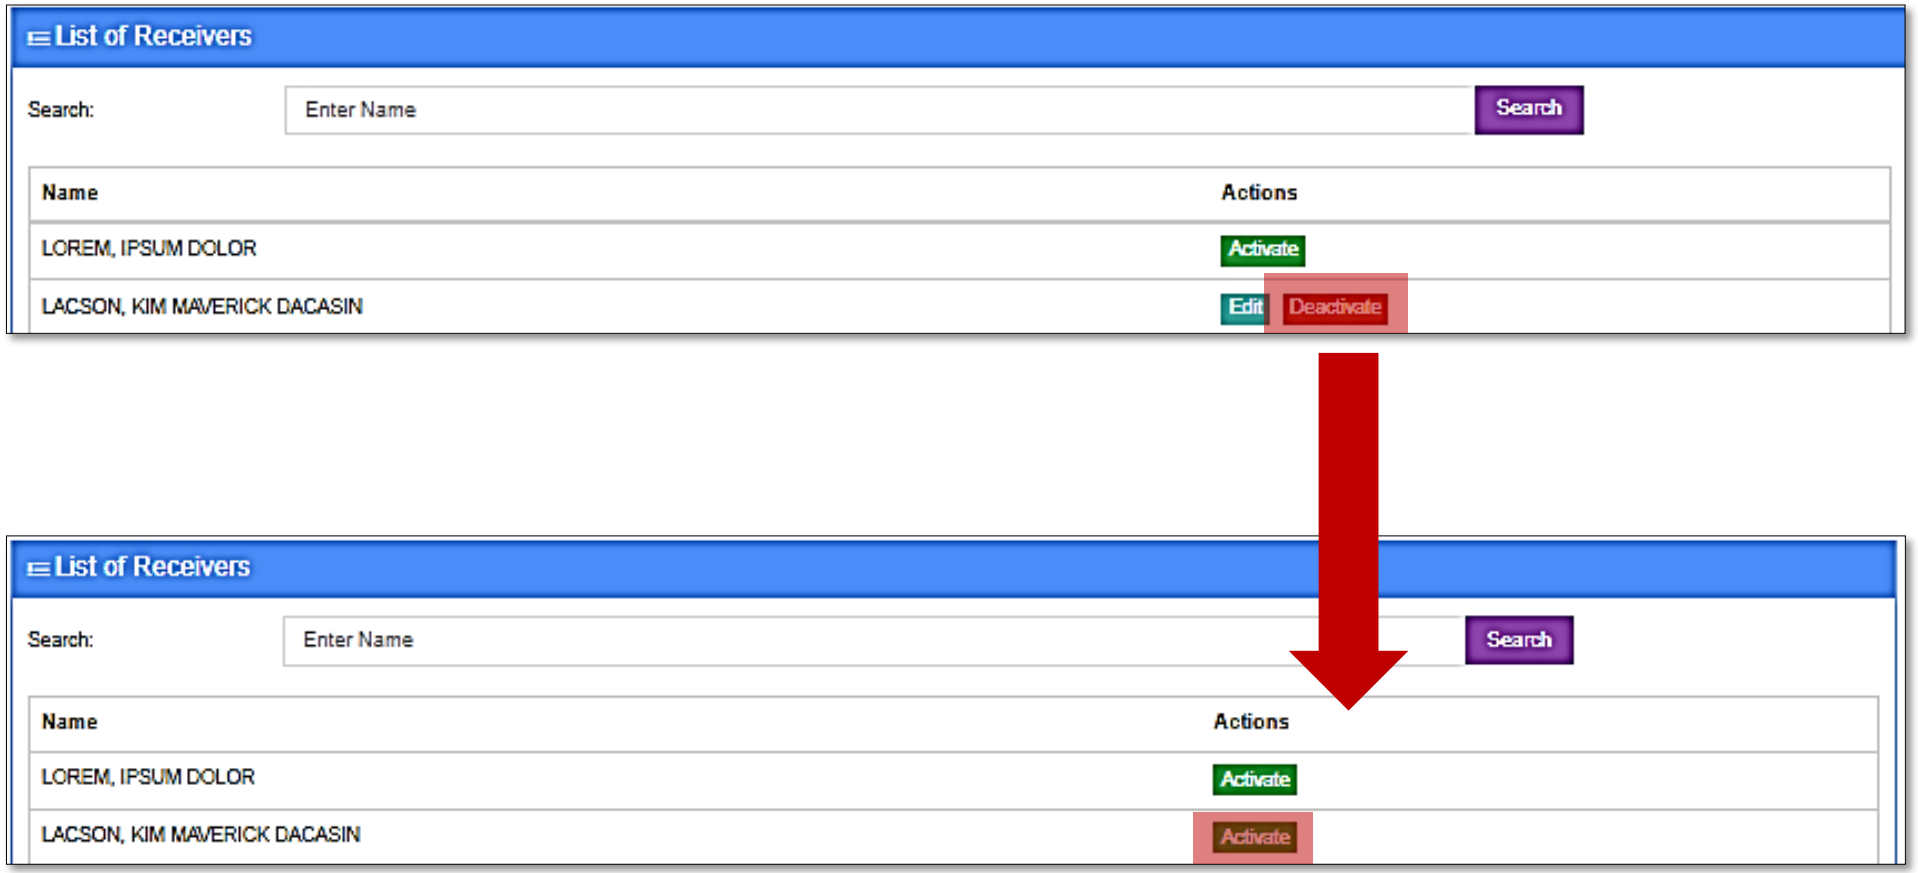

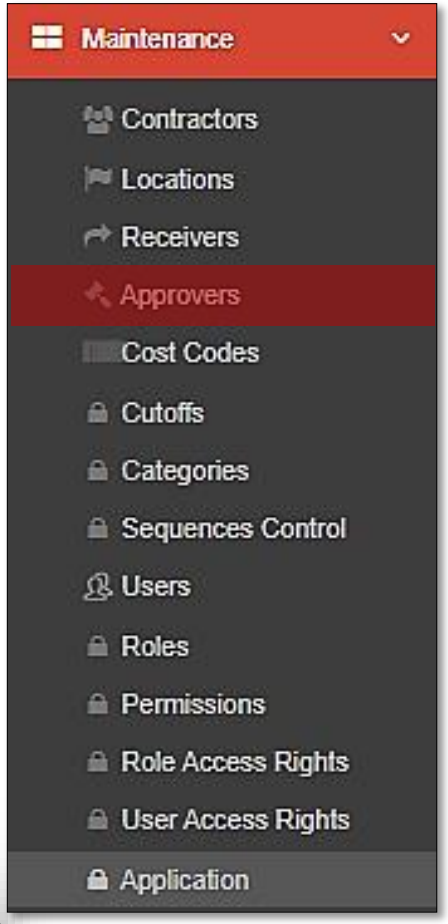

Deactivate a Receiver

1. Go to the **Maintenance** module, and choose the **Receivers** option.
2. Click on the **Deactivate** button to deactivate a Receiver.

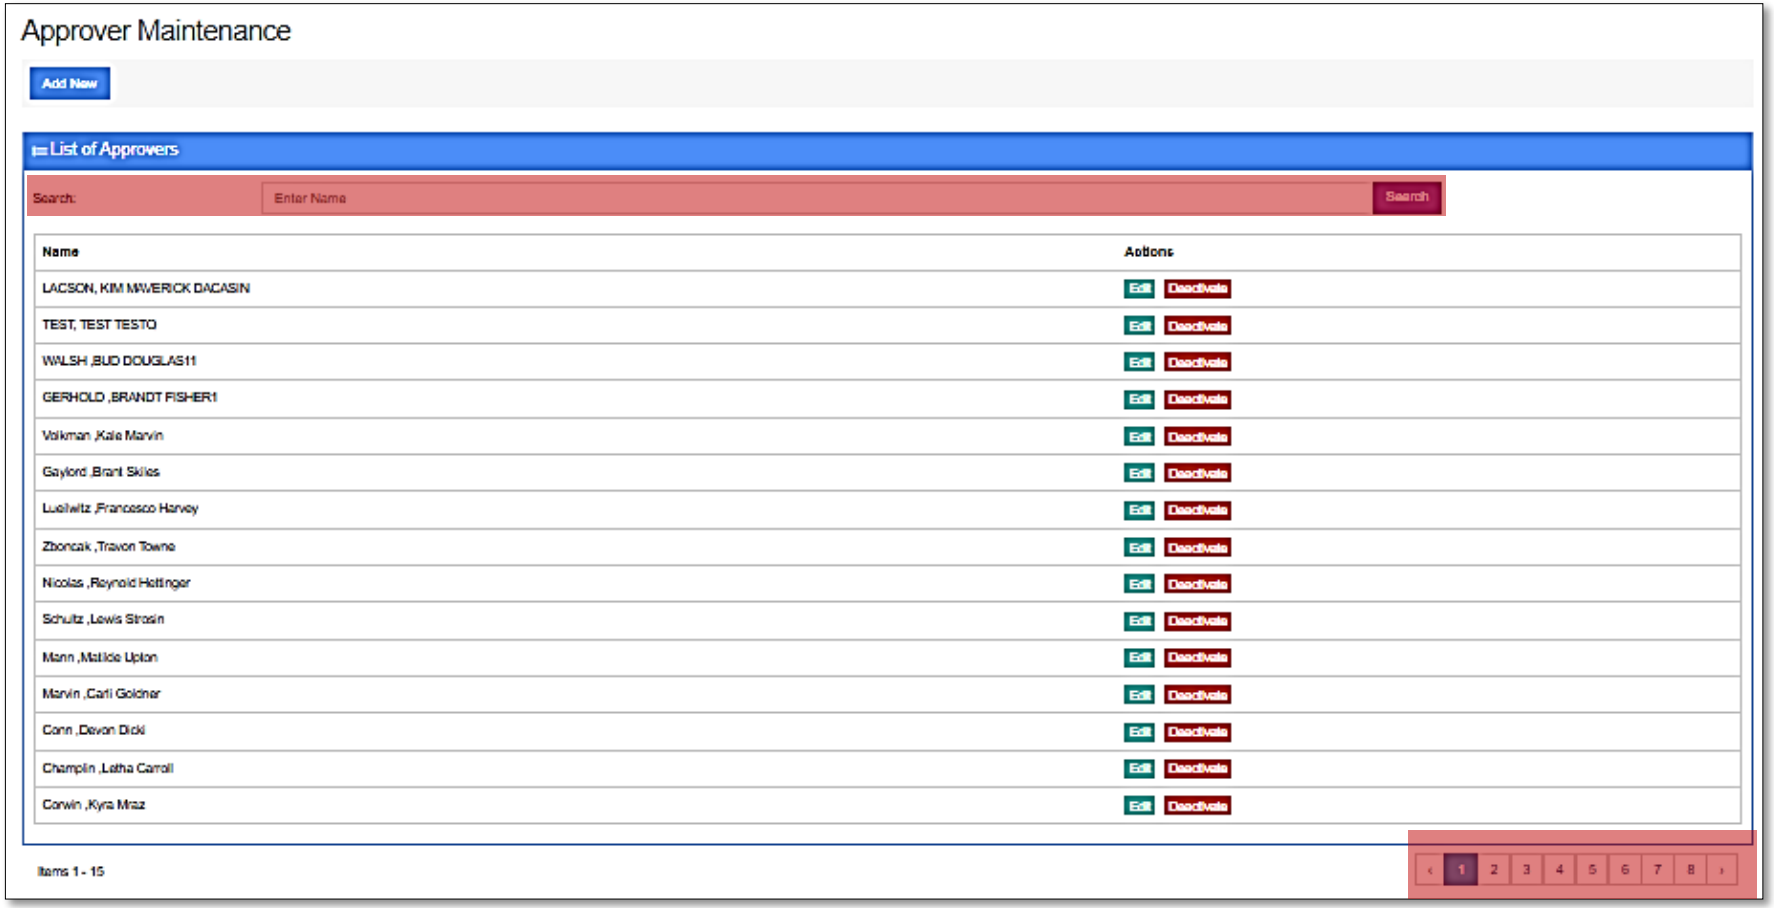

3. The Action button **Deactivate** will be replaced with an **Activate** button once you click on the **Deactivate** button to deactivate a Receiver.

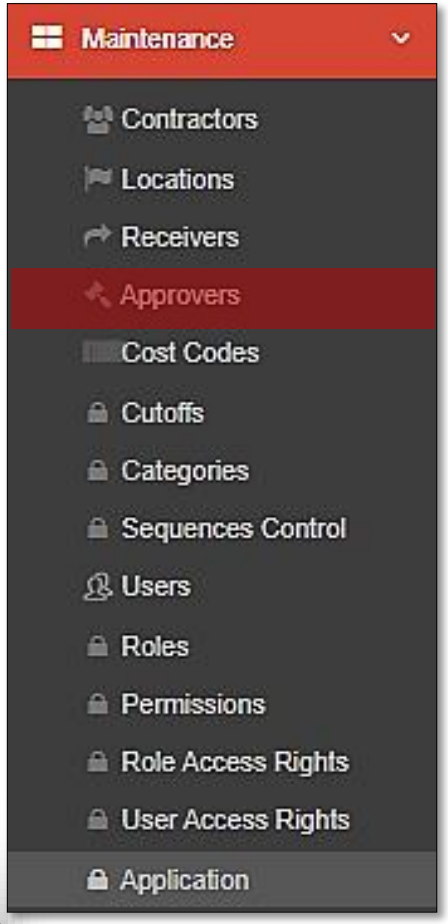

Approvers

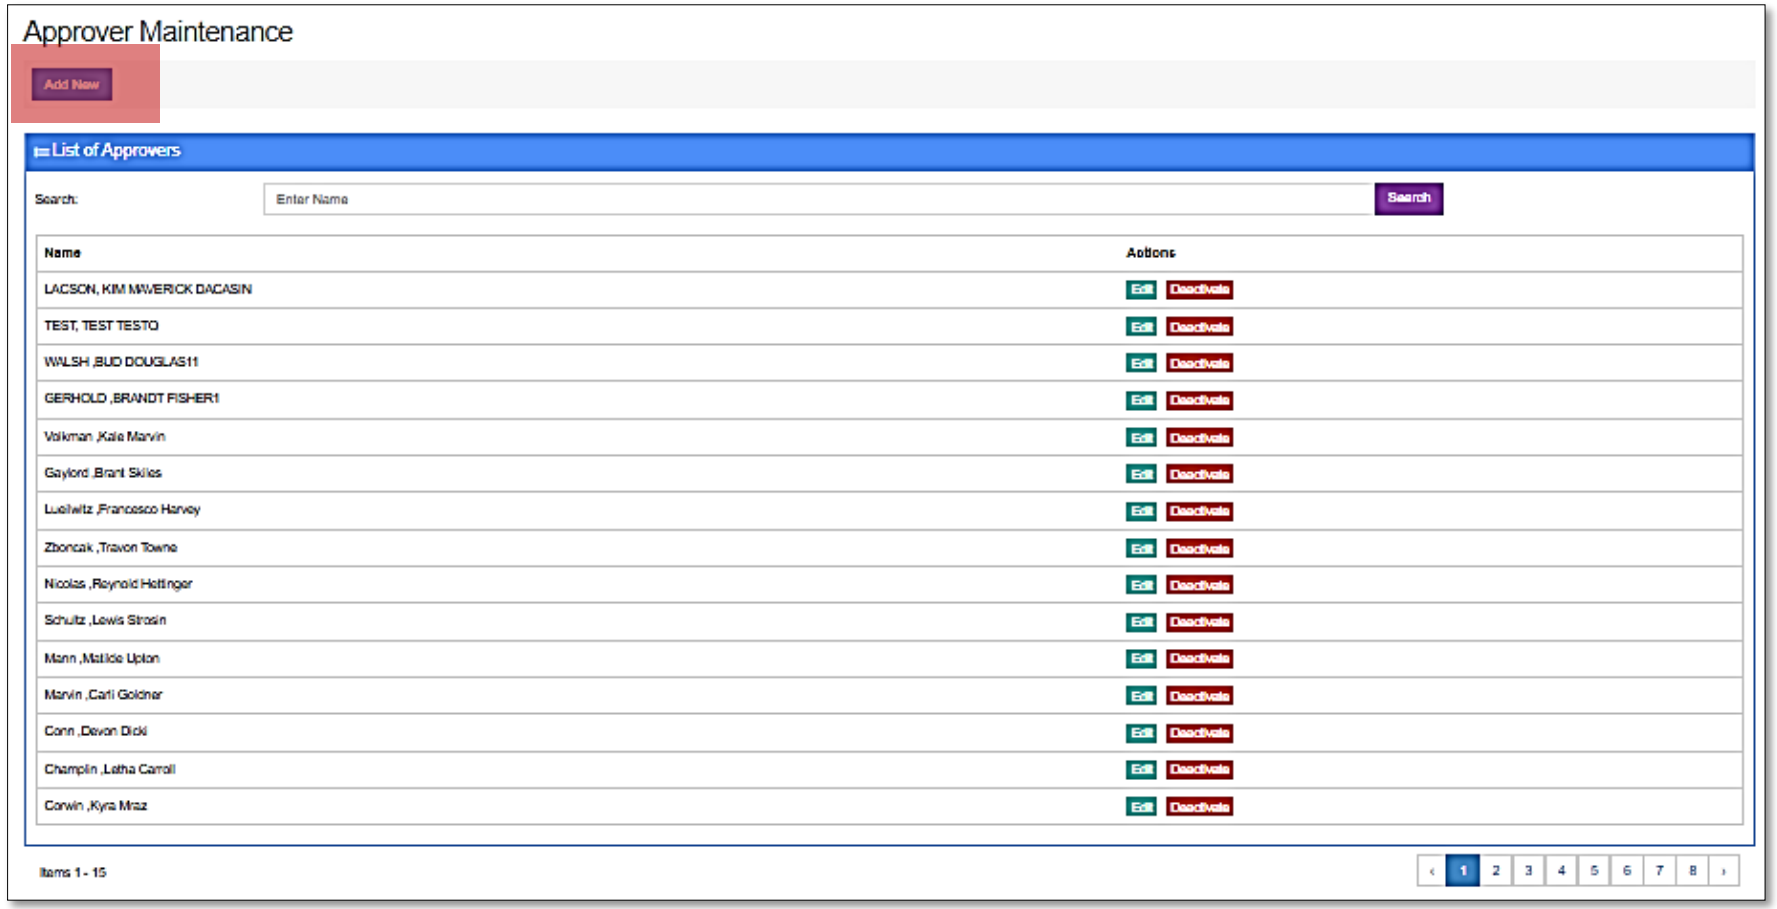

1. Go to the **Maintenance** module, and choose the **Approvers** option.
2. You will be able to view the **List of the Approvers**. You may use the **Search** (Enter Name) and the **Pagination** function to look for an Approver.

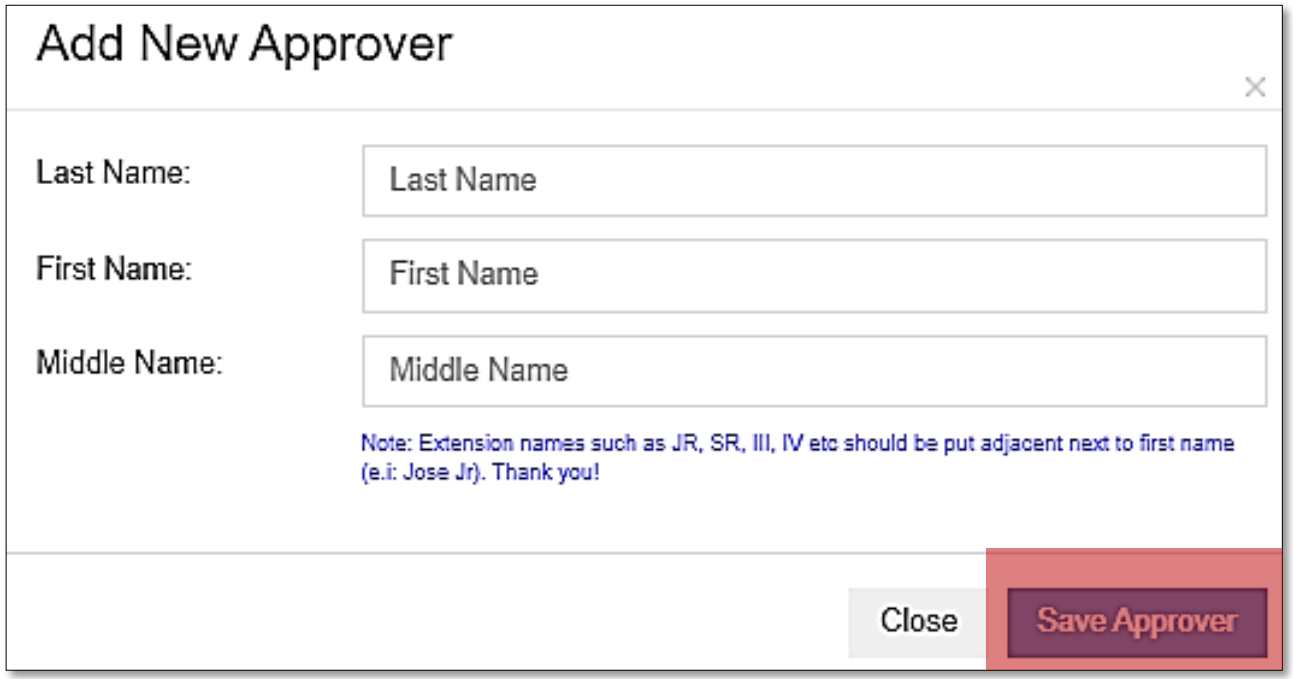

Add New Approver

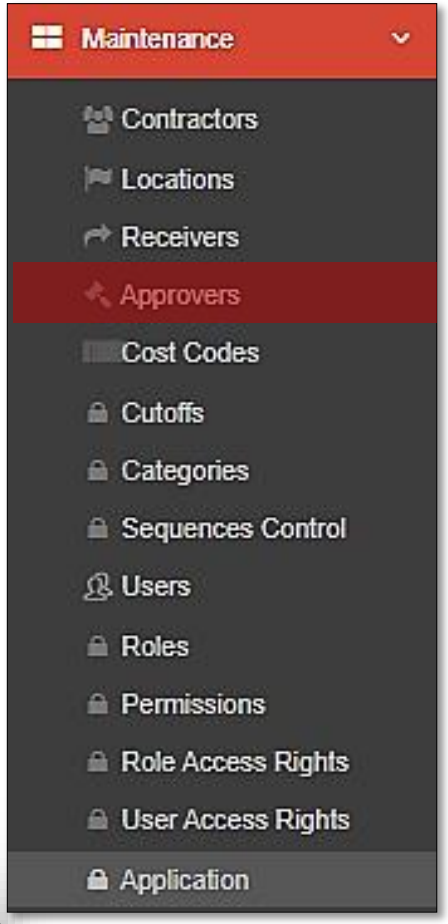

1. Go to the **Maintenance** module, and choose the **Approvers** option.
2. Click on the **Add New** button.

3. Enter the Last Name, First Name, and Middle Name once the **Add New Approver** screen appears.
4. Click on the **Save Approver** button to complete the process, or click the **Close** button to cancel the procedure.

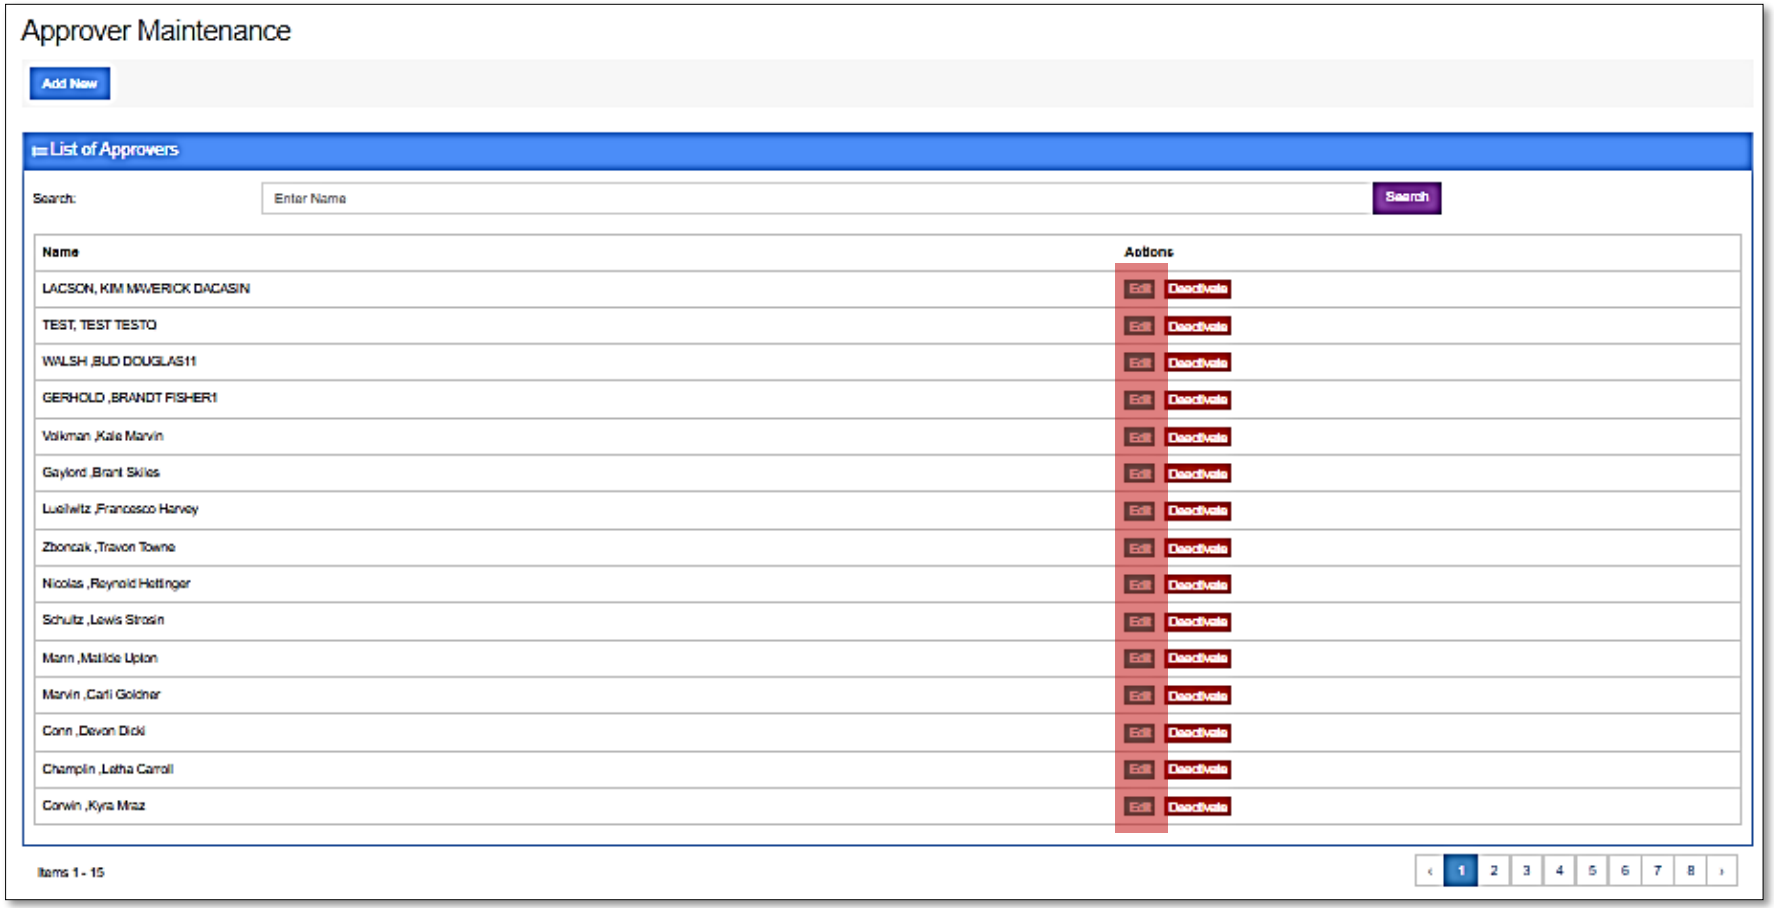

Note: Extension names such as JR, SR, III, IV, etc should be next to the first name (Jose Jr).

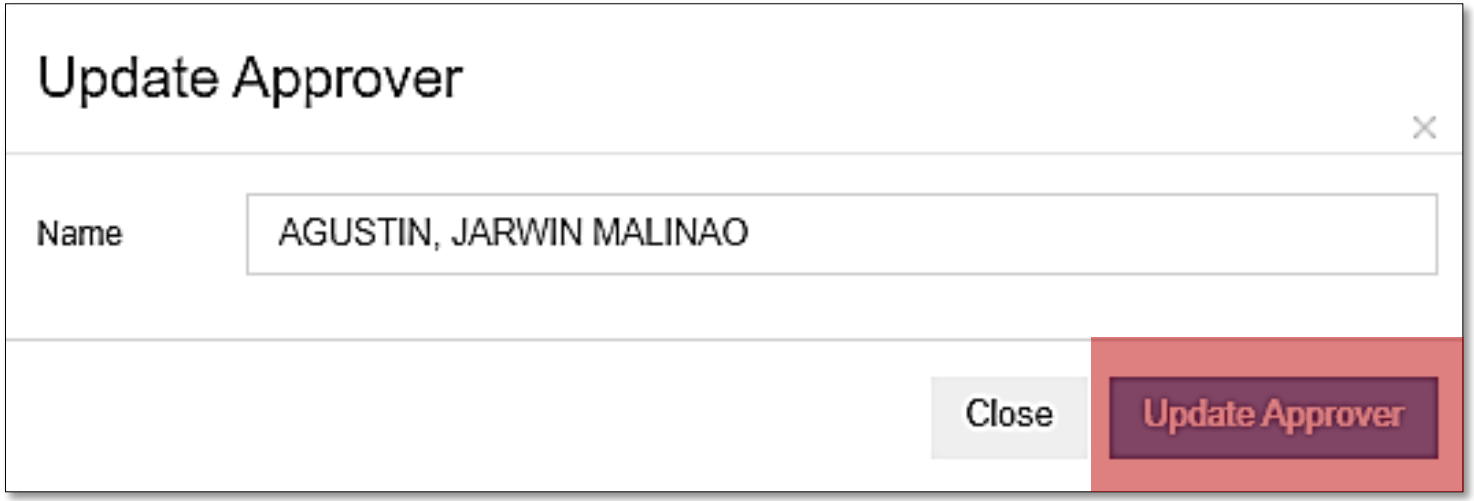

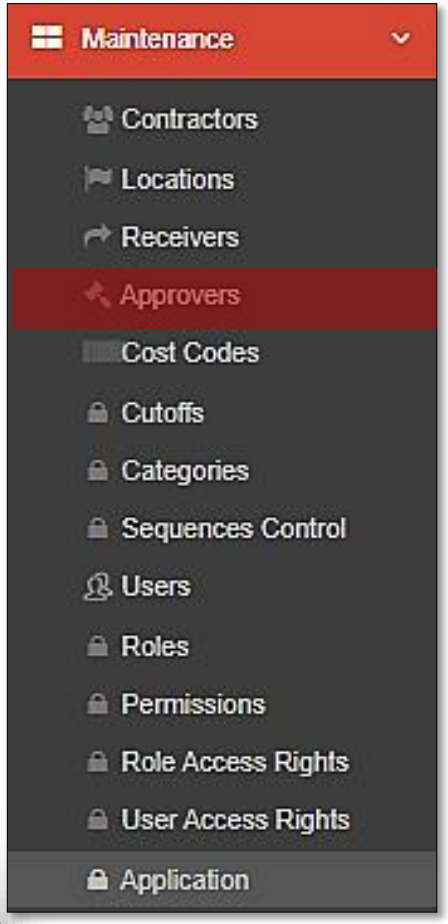

Edit Approvers

1. Go to the **Maintenance** module, and choose the **Approvers** option.
2. You may use the **Search** (Enter Name) and the **Pagination** function to look for an approver**.**
3. Click on the **Edit** button.

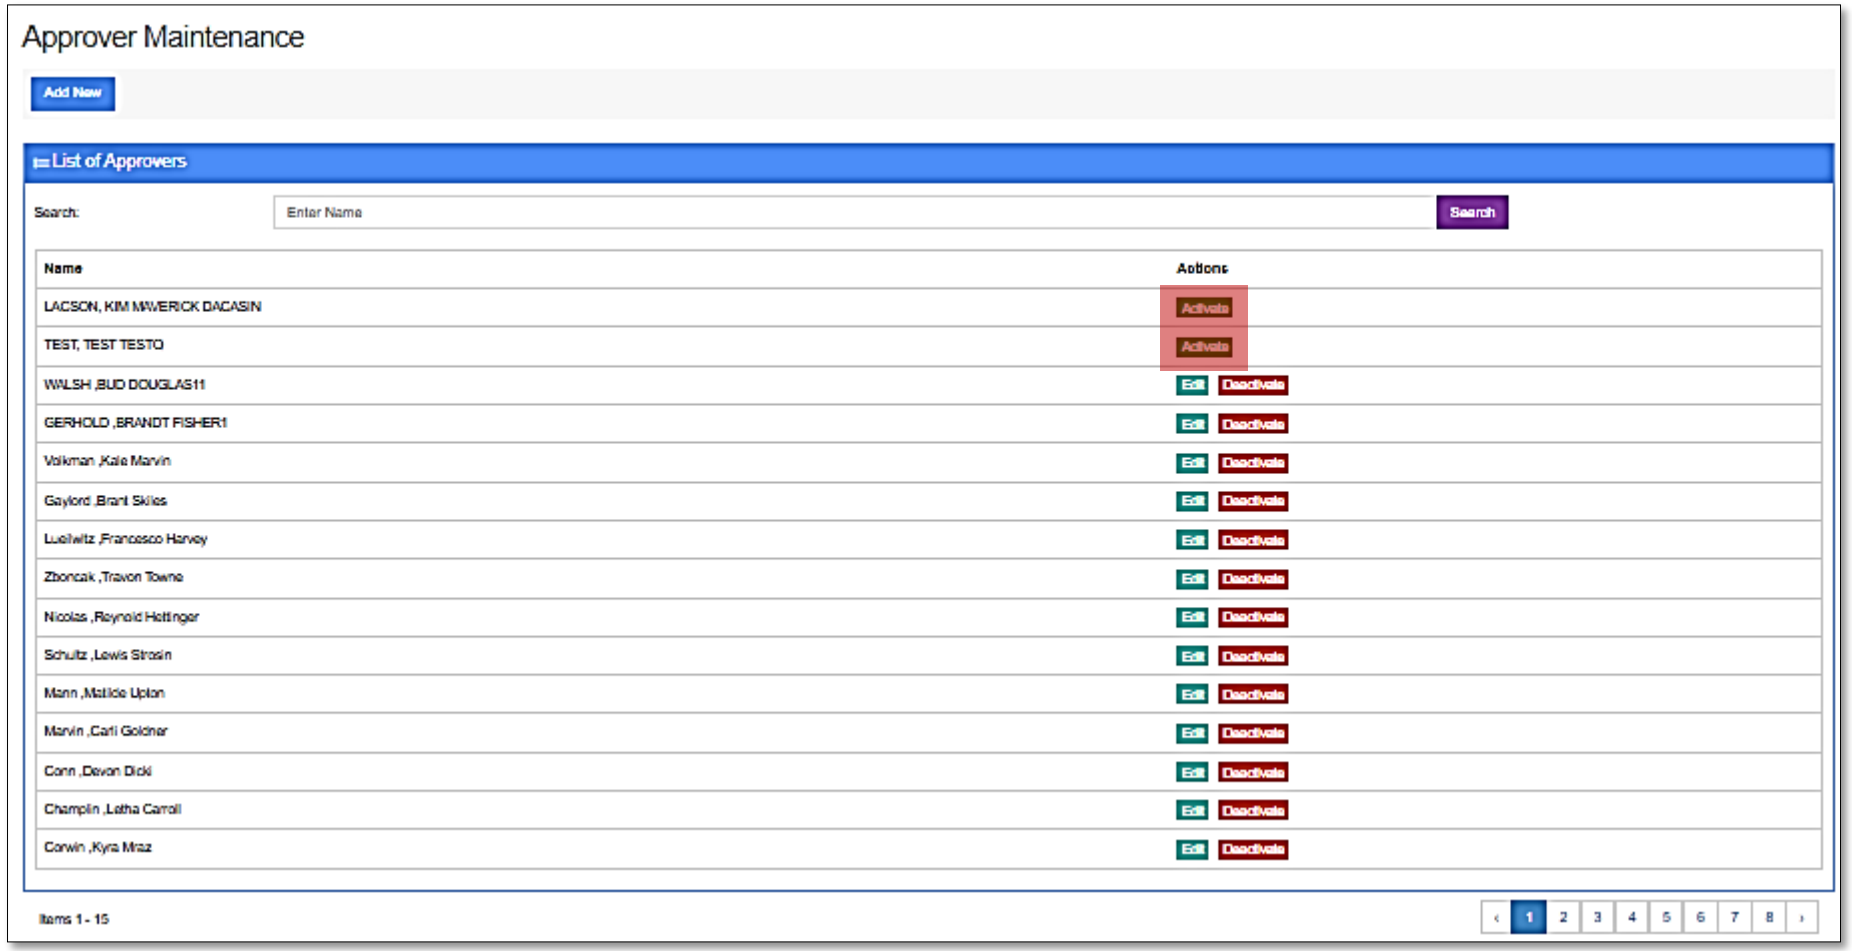

4. Make the necessary change accordingly once the **Update Approver** screen appears.
5. Click on the **Update Approver** button to complete the process, or click the **Close** button to cancel the procedure.

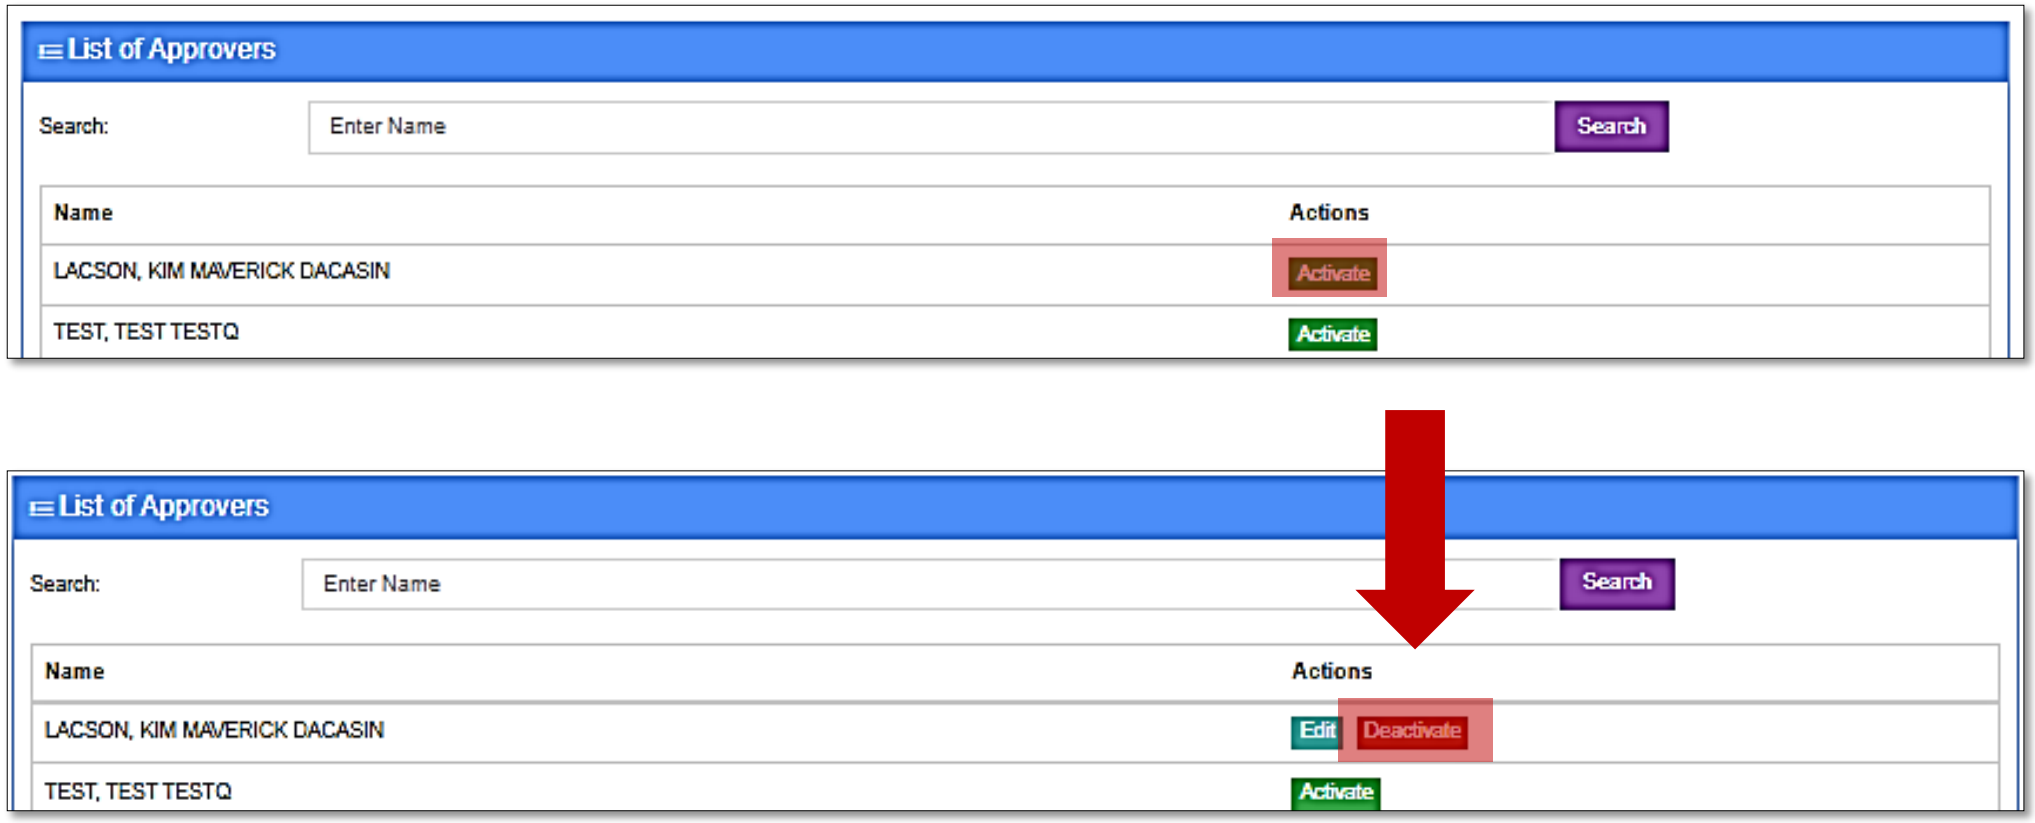

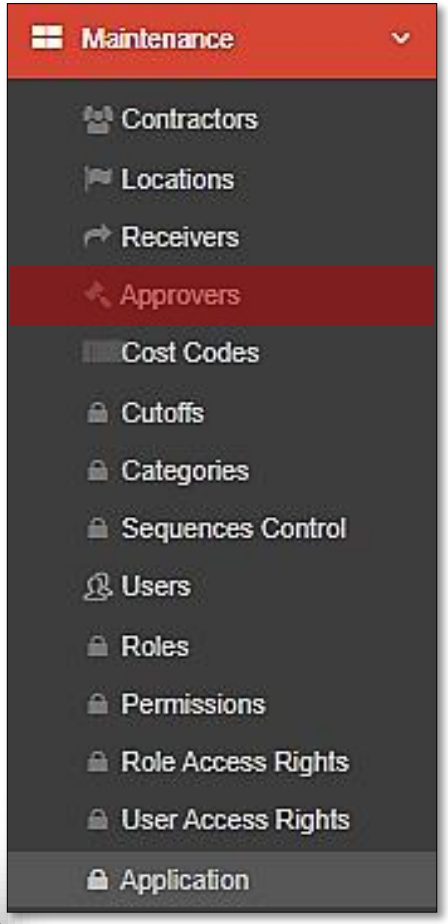

Activate an Approver

1. Go to the **Maintenance** module, and choose the **Approvers** option.
2. Click on the **Activate** button to activate an Approver.

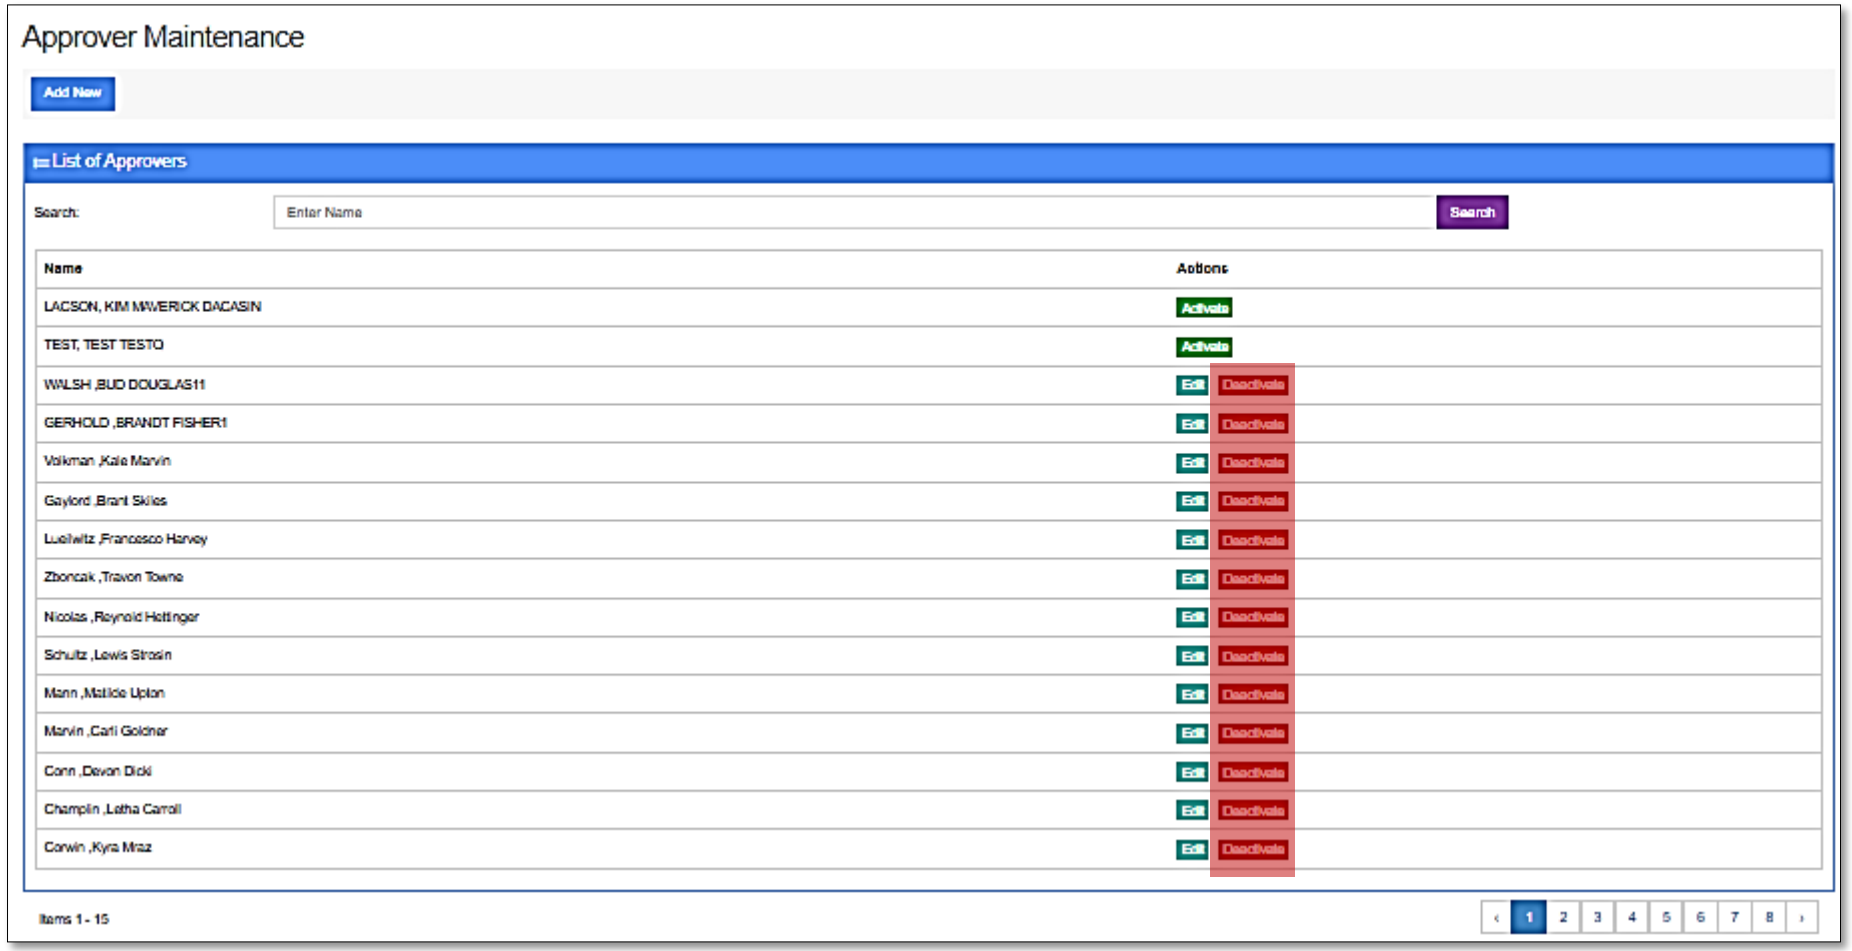

3. The Action button **Activate** will be replaced with a **Deactivate** button once you click on the **Activate** button to activate an Approver.

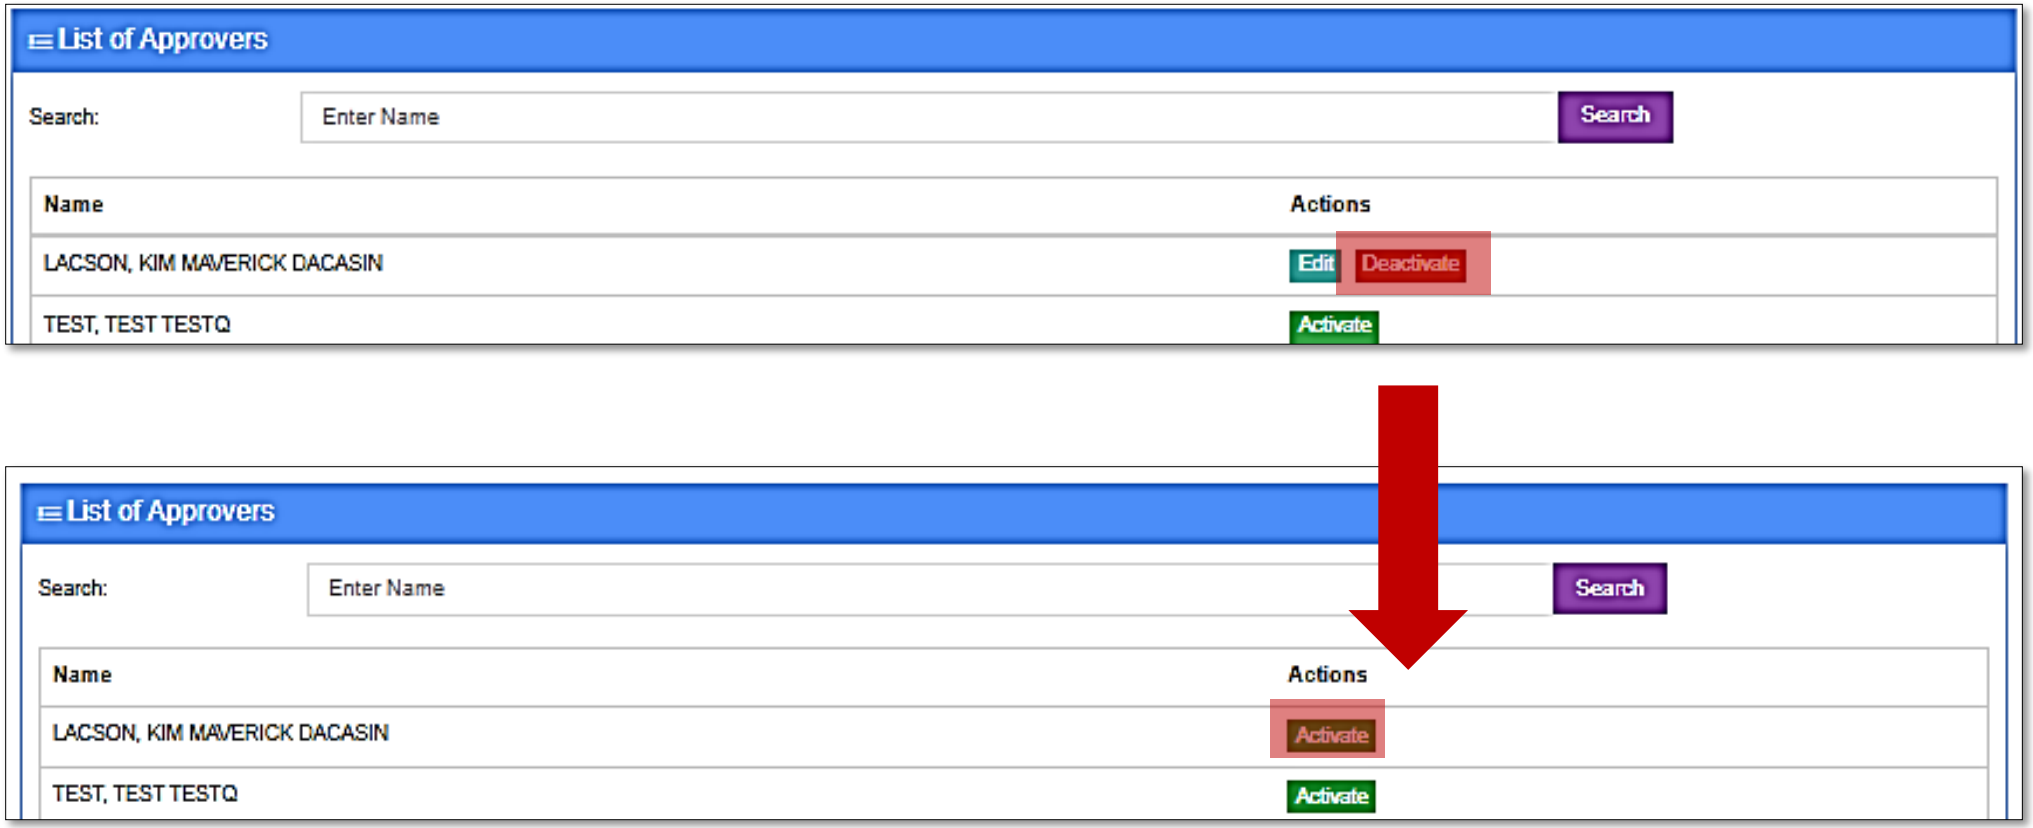

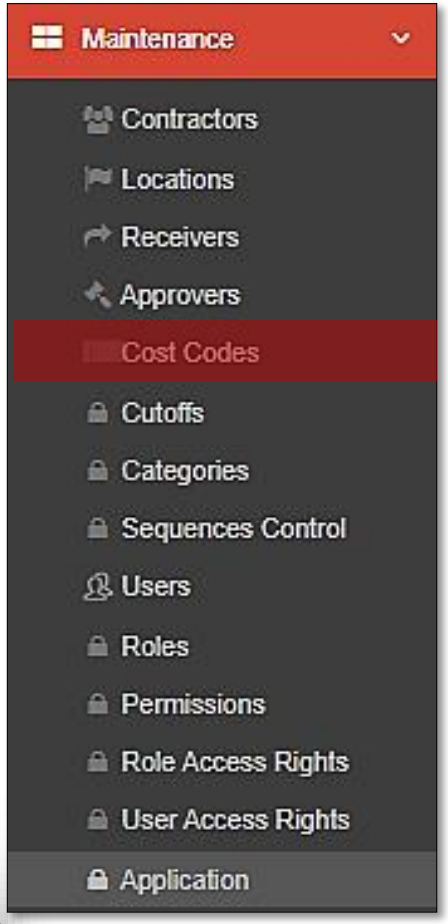

Deactivate an Approver

1. Go to the **Maintenance** module, and choose the **Approvers** option.
2. Click on the **Deactivate** button to deactivate an Approver.

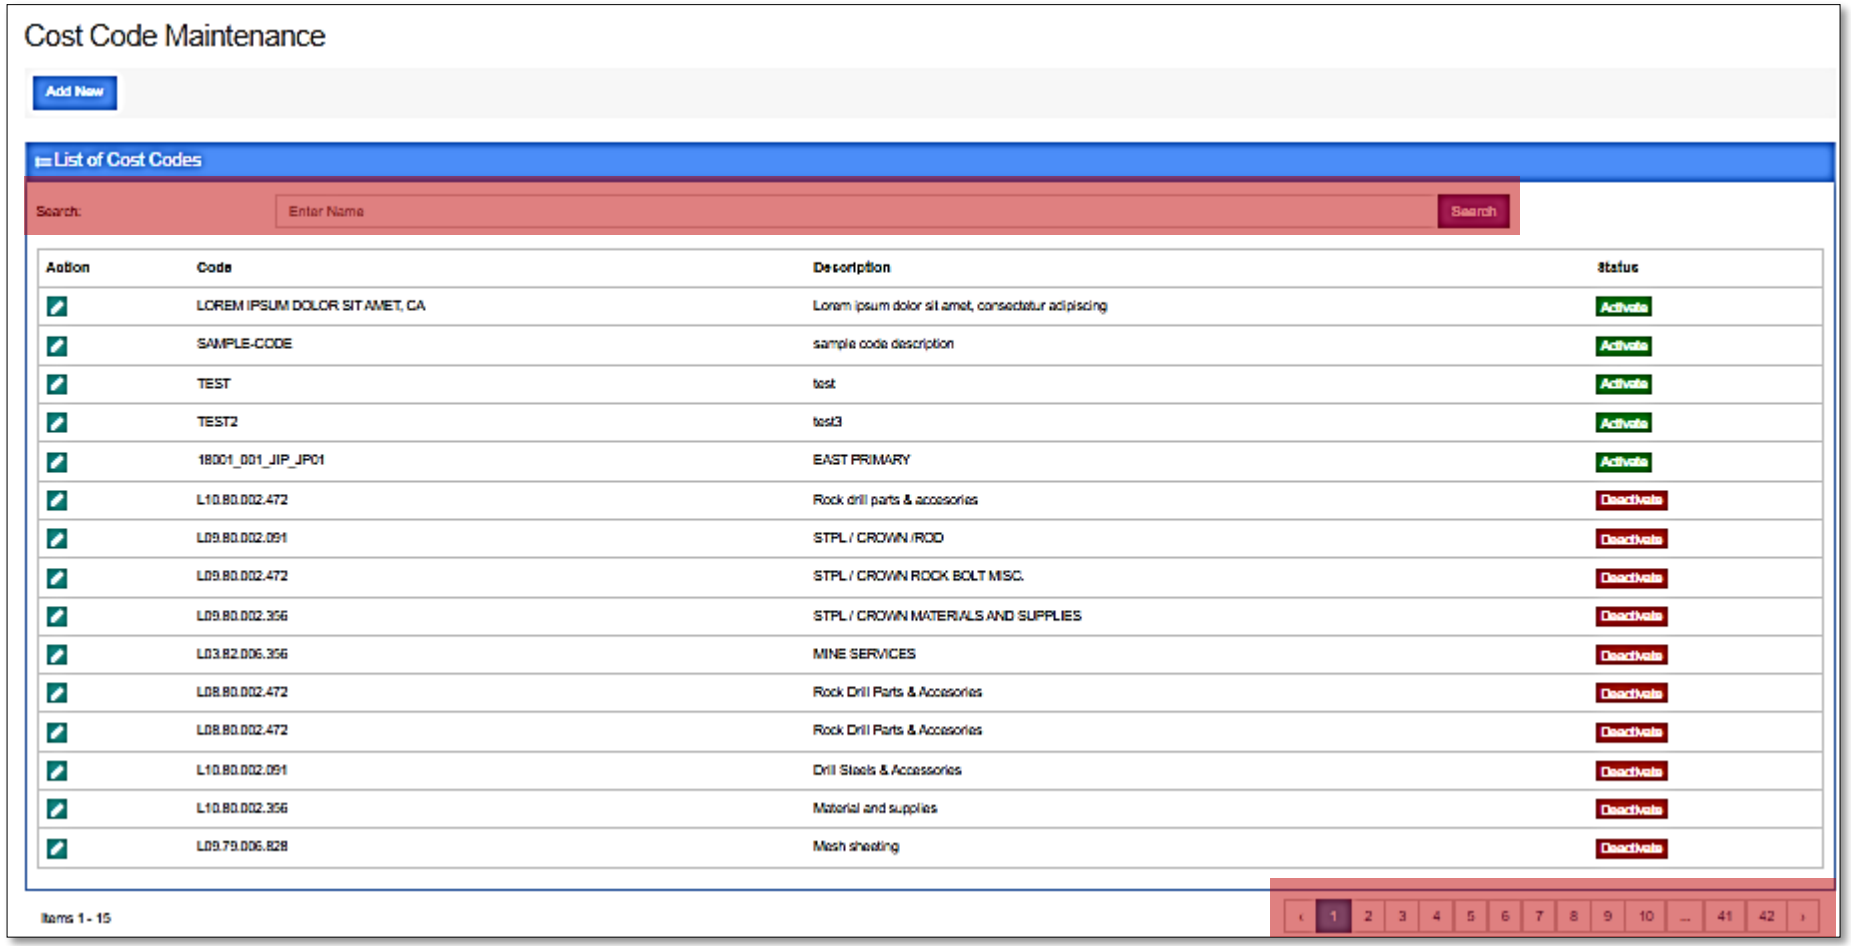

3. The Action button **Deactivate** will be replaced with an **Activate** button once you click on the **Deactivate** button to deactivate an Approver.

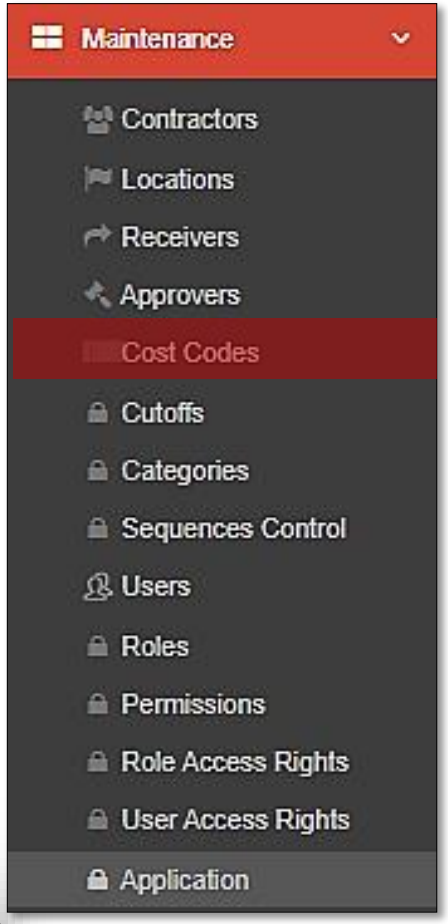

Cost Codes

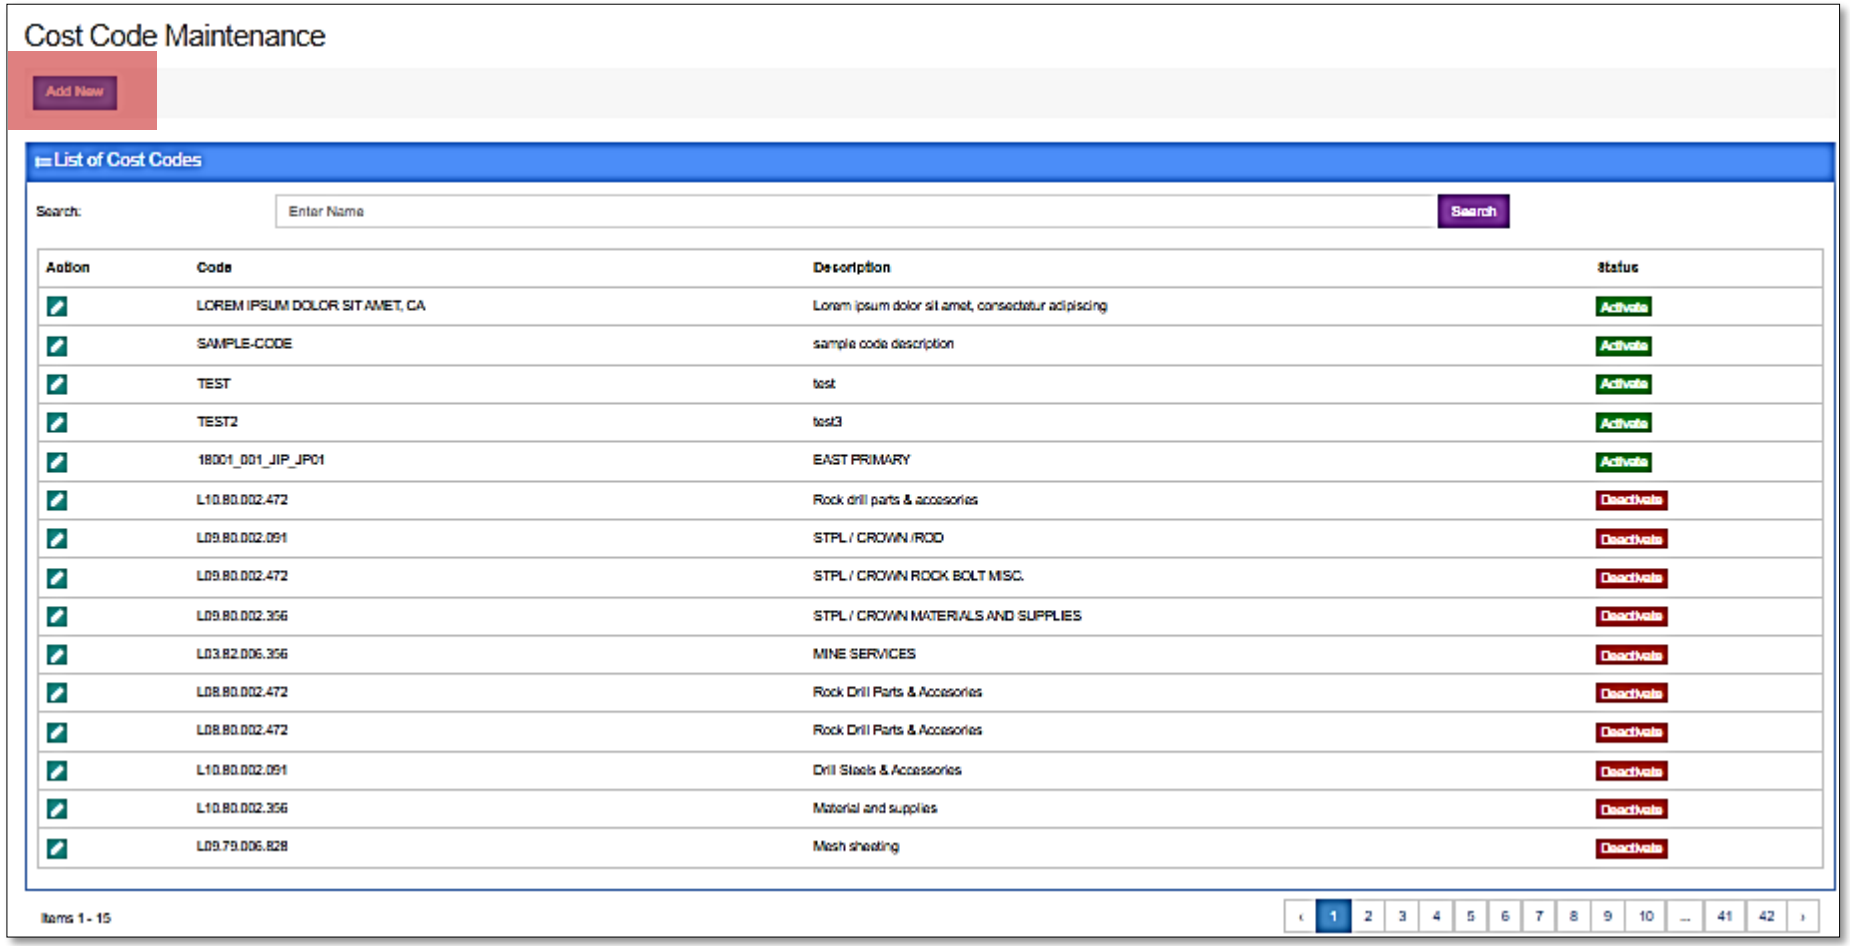

1. Go to the **Maintenance** module, and choose the **Cost Codes** option.
2. You will be able to view the **List of Cost Codes**. You may use the **Search** (Enter Name) and the **Pagination** function to look for a Cost Code.

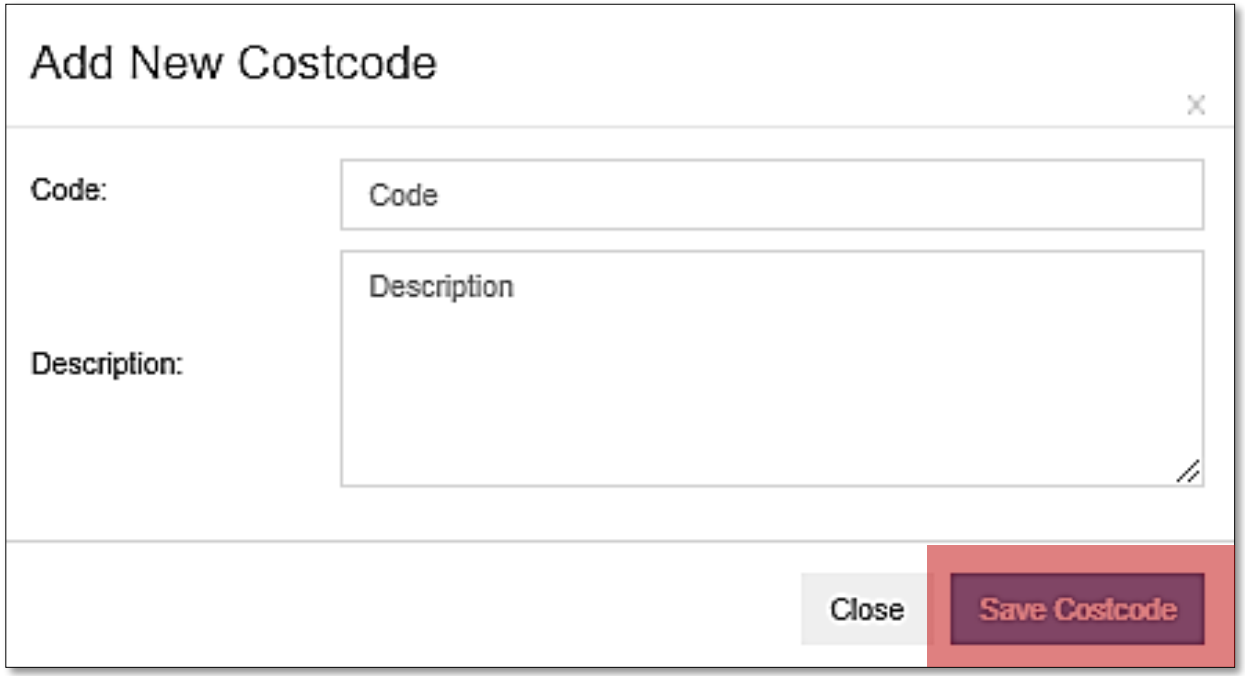

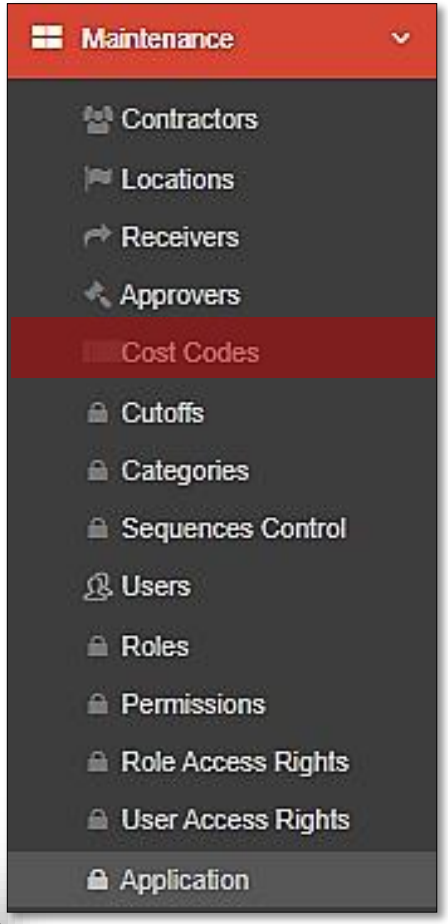

Add New Cost Code

1. Go to the **Maintenance** module, and choose the **Cost Codes** option.
2. Click on the **Add New** button.

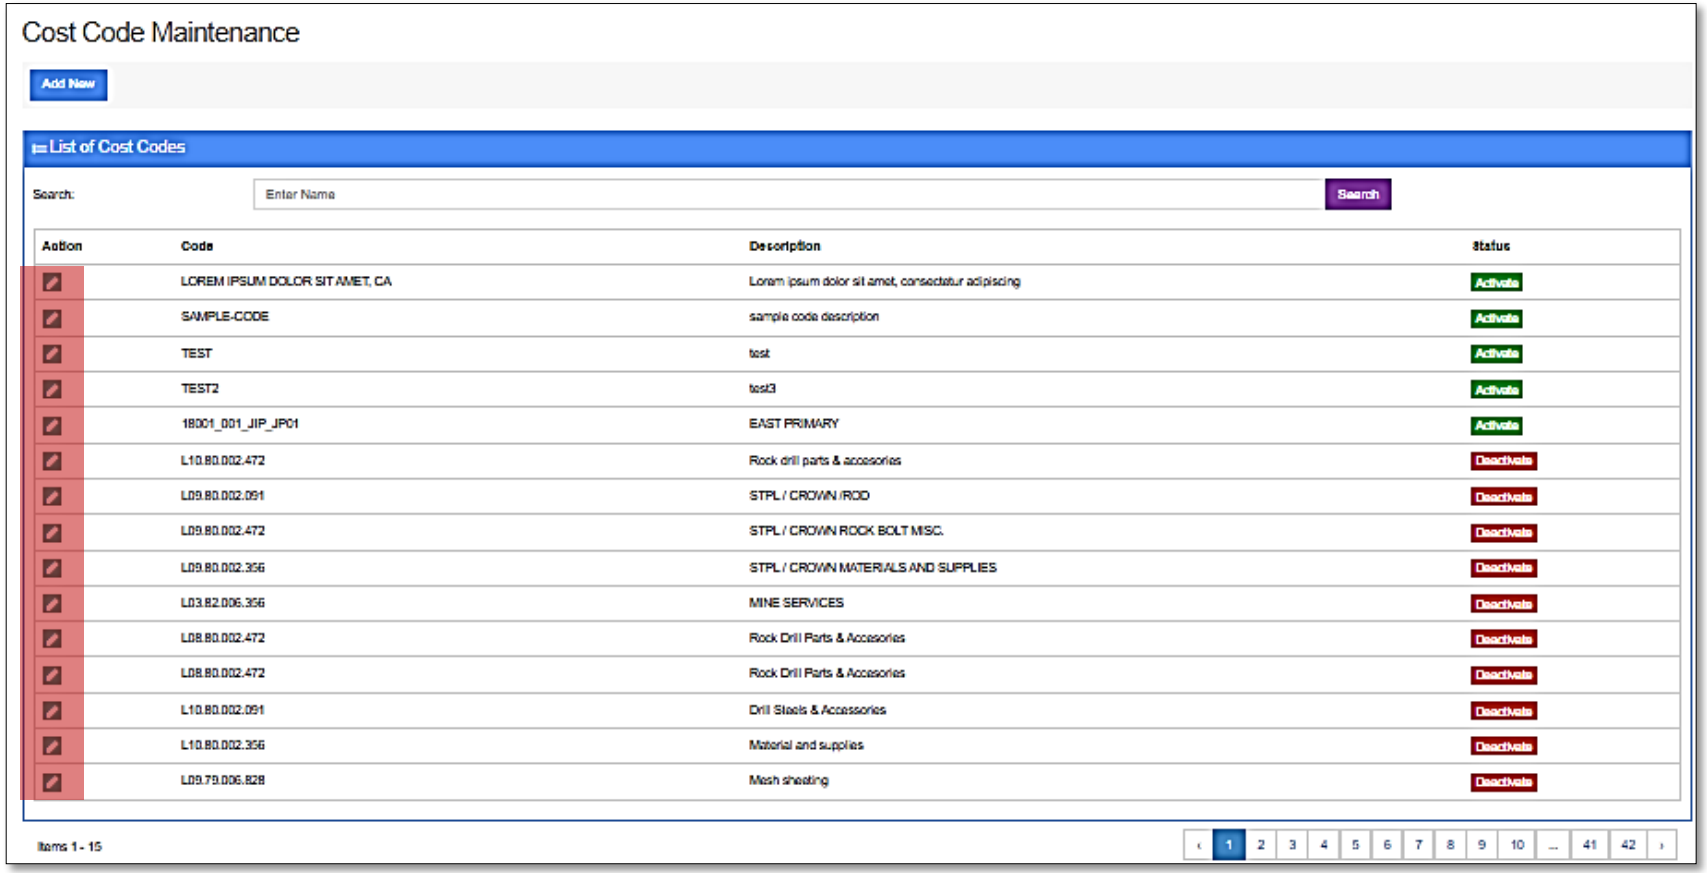

3. Enter the Code and Description once the **Add New Cost code** screen appears.
4. Click on the **Save Cost code** button to complete the process, or click the **Close** button to cancel the procedure.

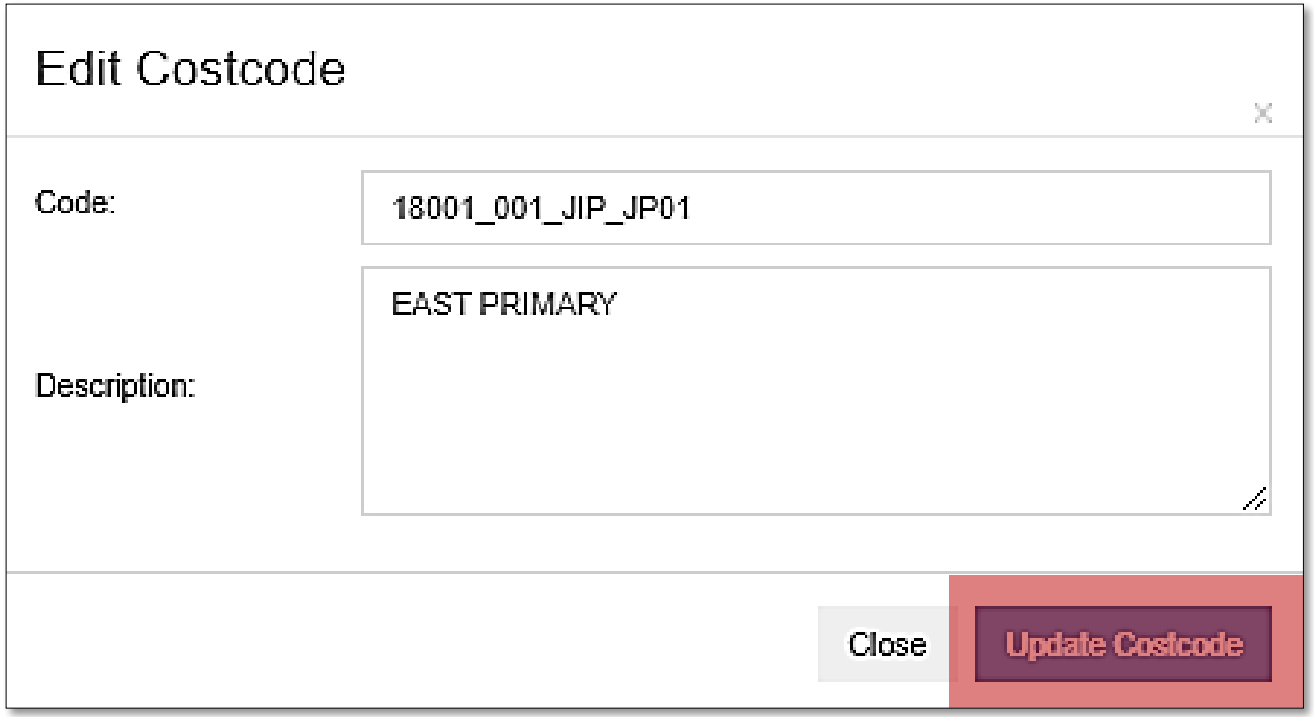

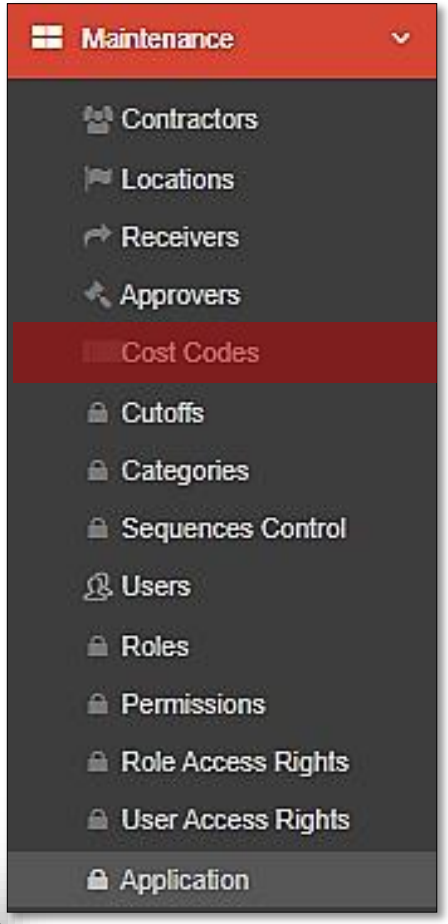

Edit Cost Codes

1. Go to the **Maintenance** module, and choose the **Cost Codes** option.
2. You may use the **Search** (Enter Name) and the **Pagination** function to look for a Cost code**.**
3. Click on the **Edit** button.

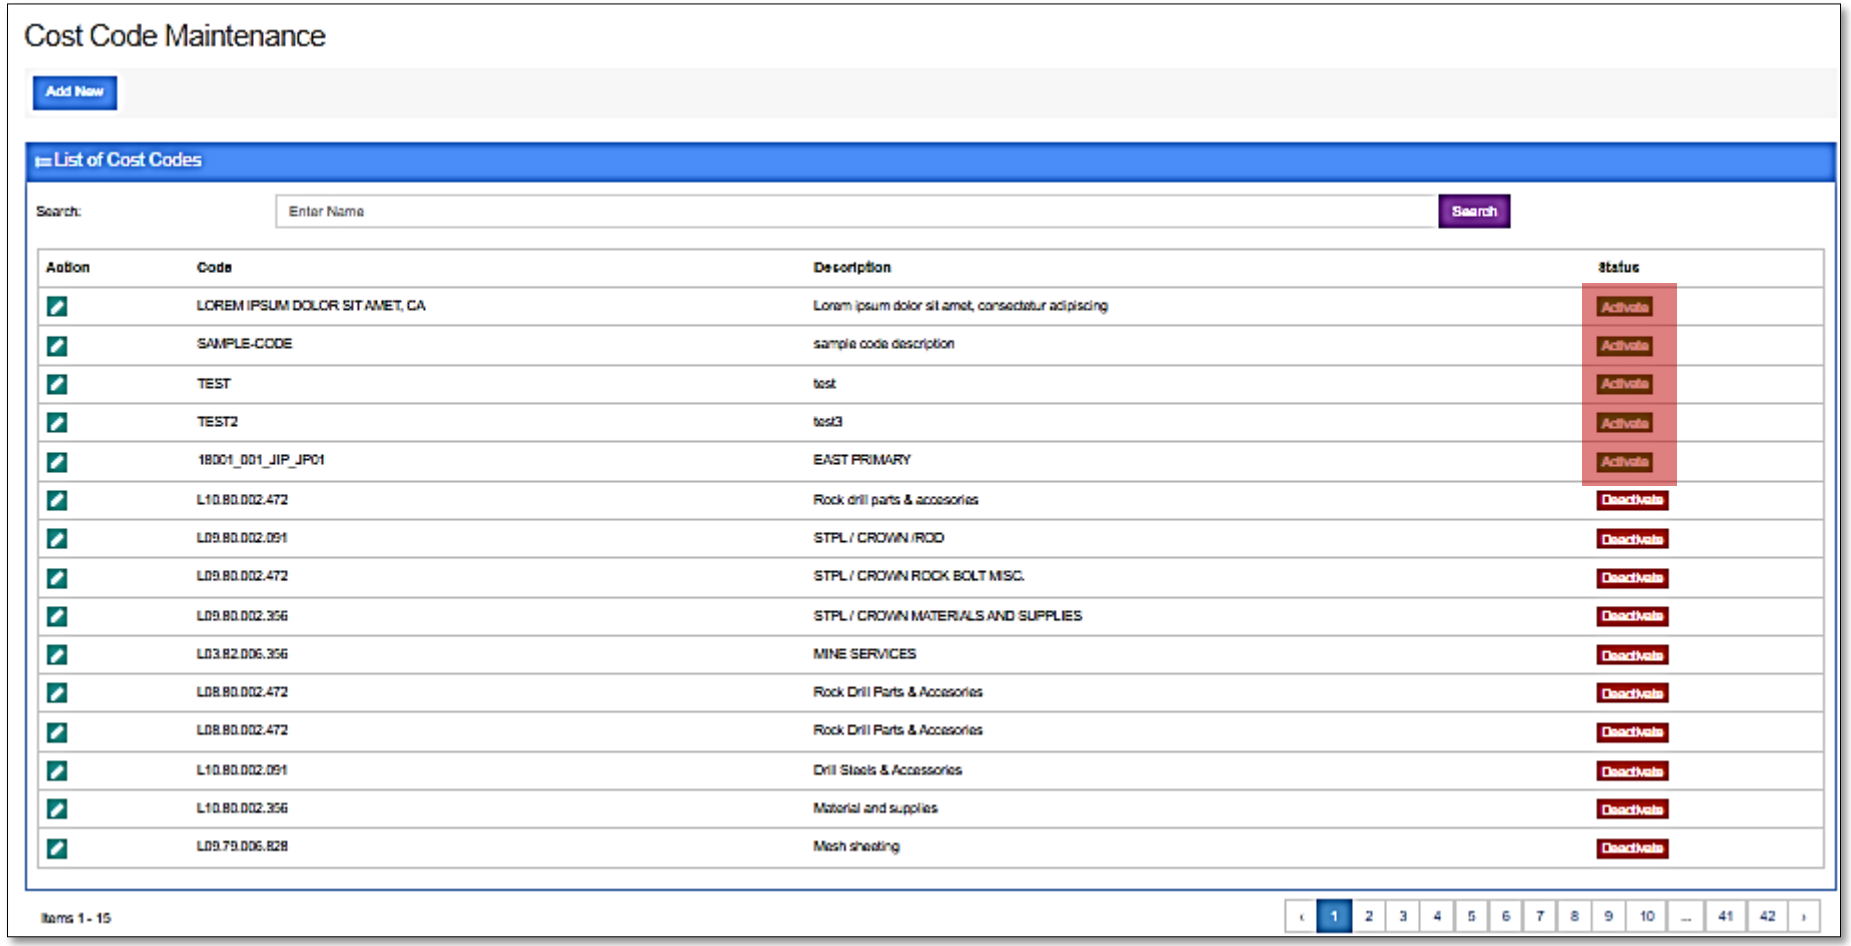

4. Make the necessary changes accordingly once the **Edit Cost Code** screen appears.
5. Click on the **Update Cost Code** button to complete the process, or click the **Close** button to cancel the procedure.

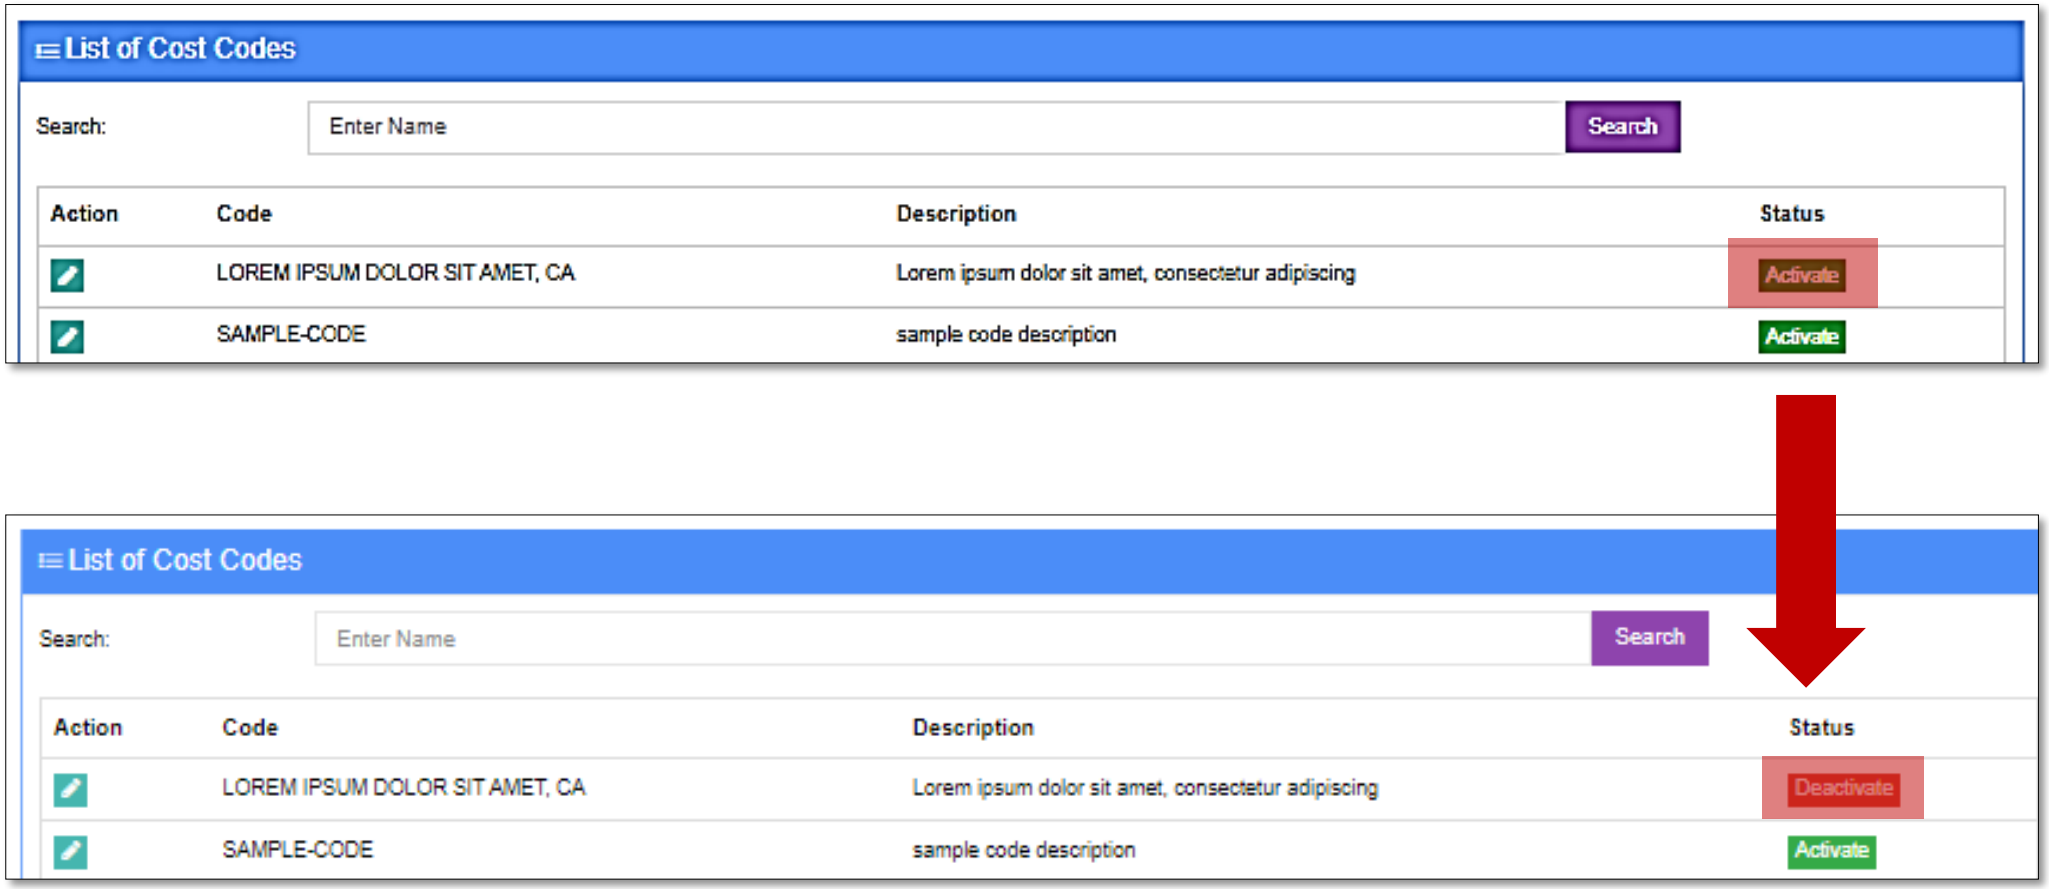

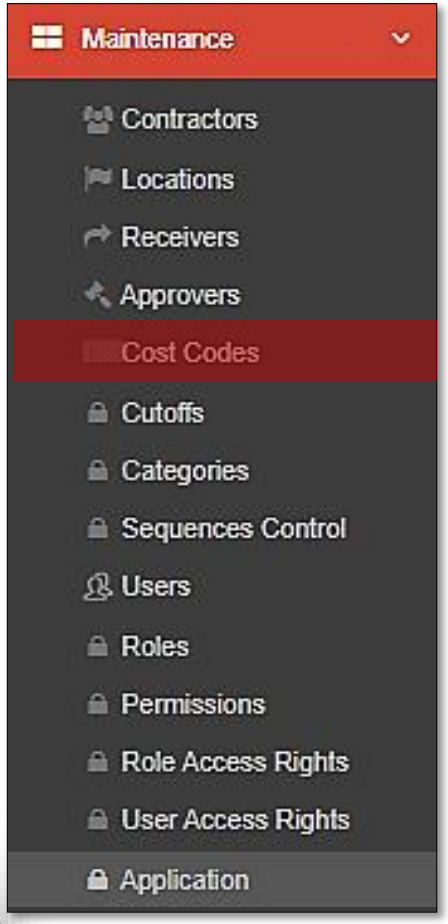

Activate a Cost Code

1. Go to the **Maintenance** module, and choose the **Cost Codes** option.
2. Click on the **Activate** button to activate a Cost Code.

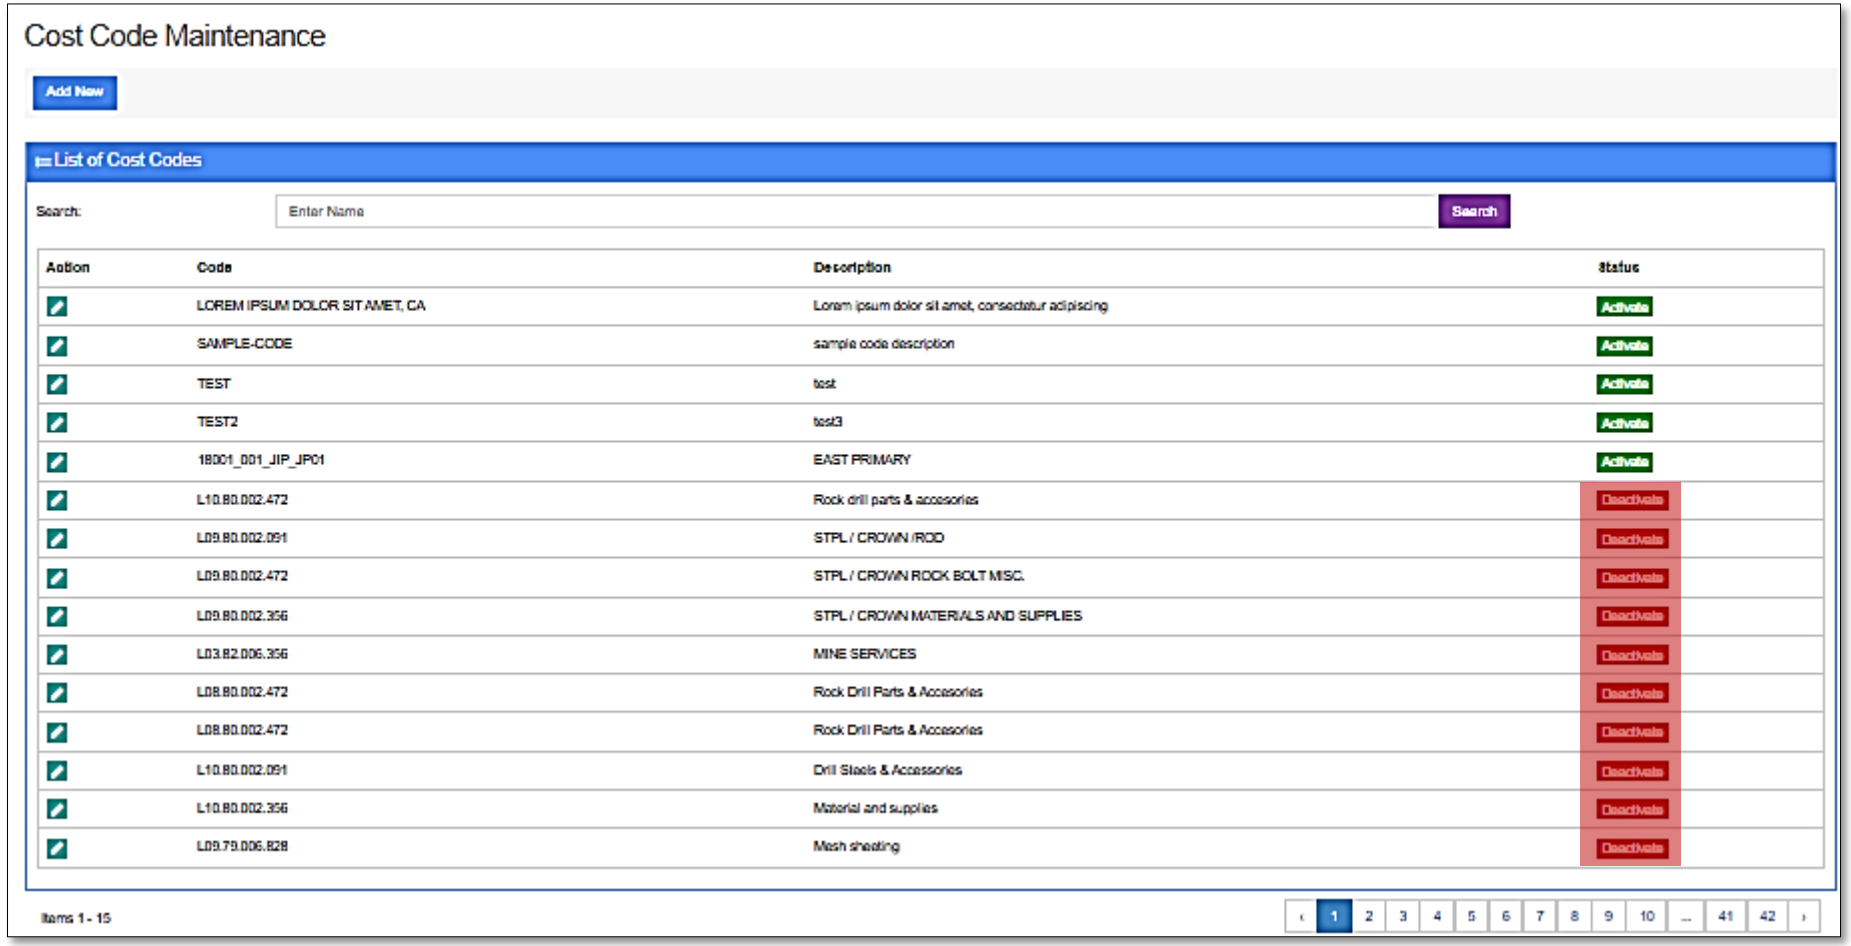

3. The Action button **Activate** will be replaced with a **Deactivate** button once you click on the **Activate** button to activate a Cost Code.

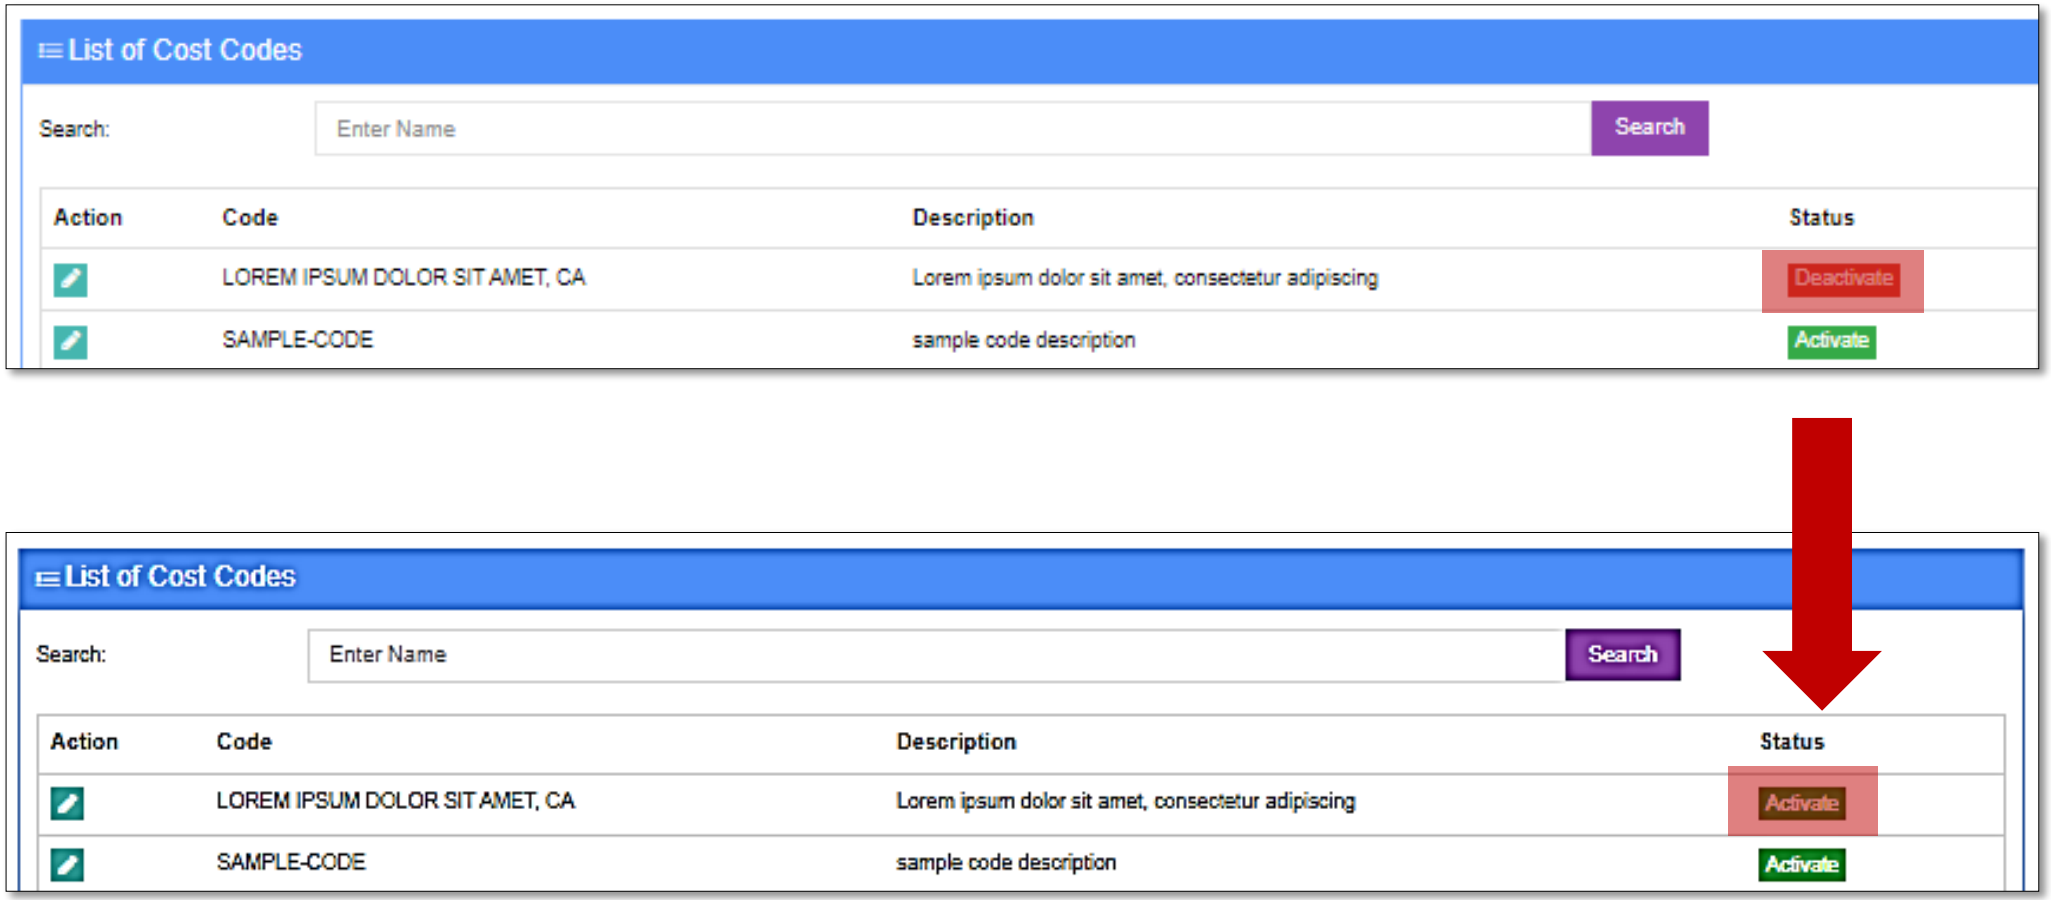

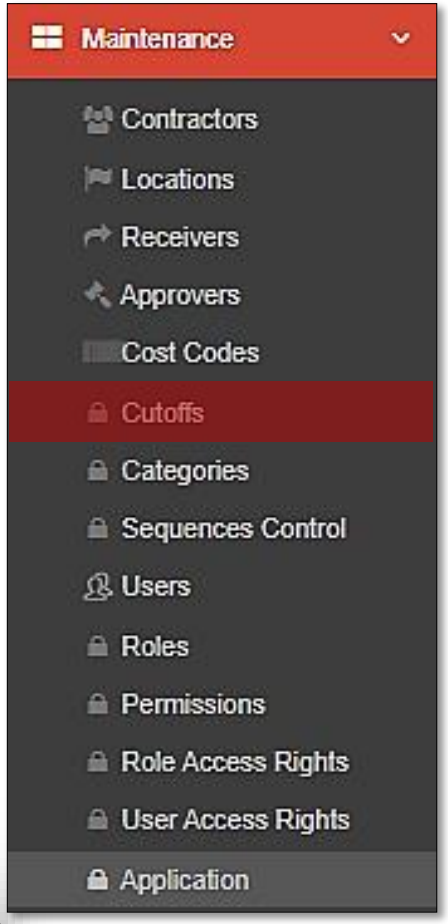

Deactivate a Cost Code

1. Go to the **Maintenance** module, and choose the **Cost Code** option.
2. Click on the **Deactivate** button to deactivate a Cost Code.

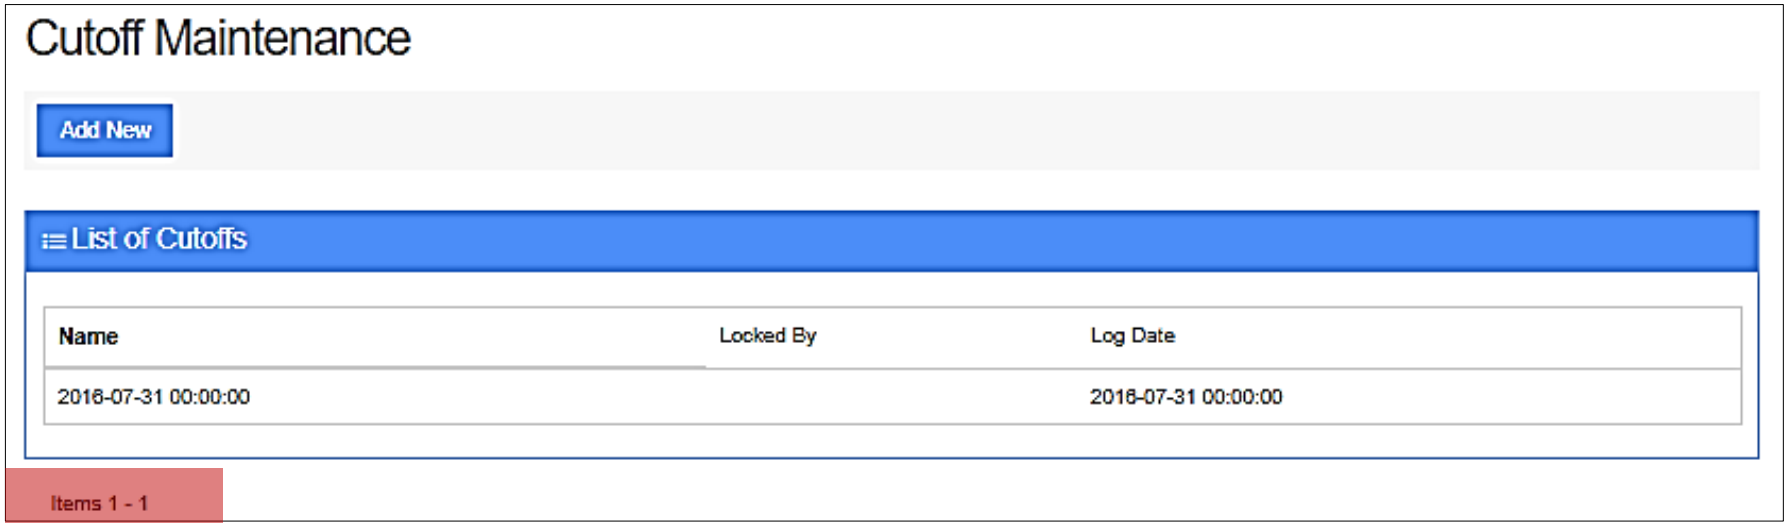

3. The Action button **Deactivate** will be replaced with an **Activate** button once you click on the **Deactivate** button to deactivate a Cost Code.

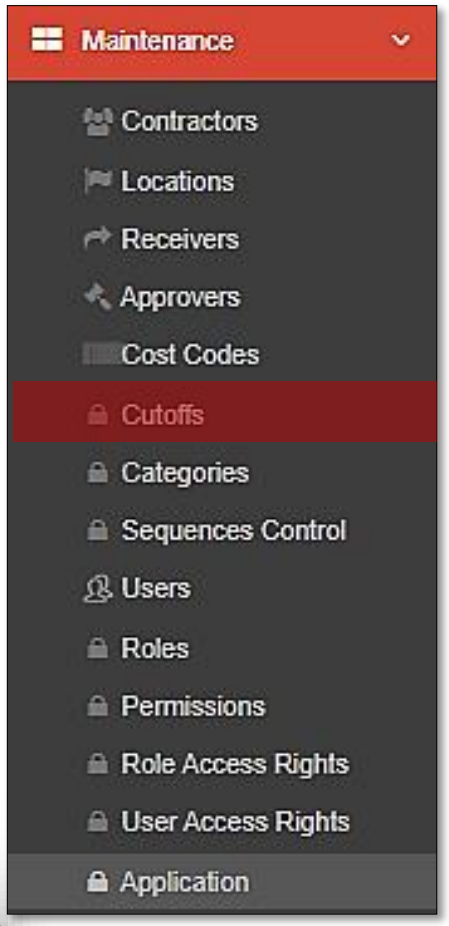

Cutoffs

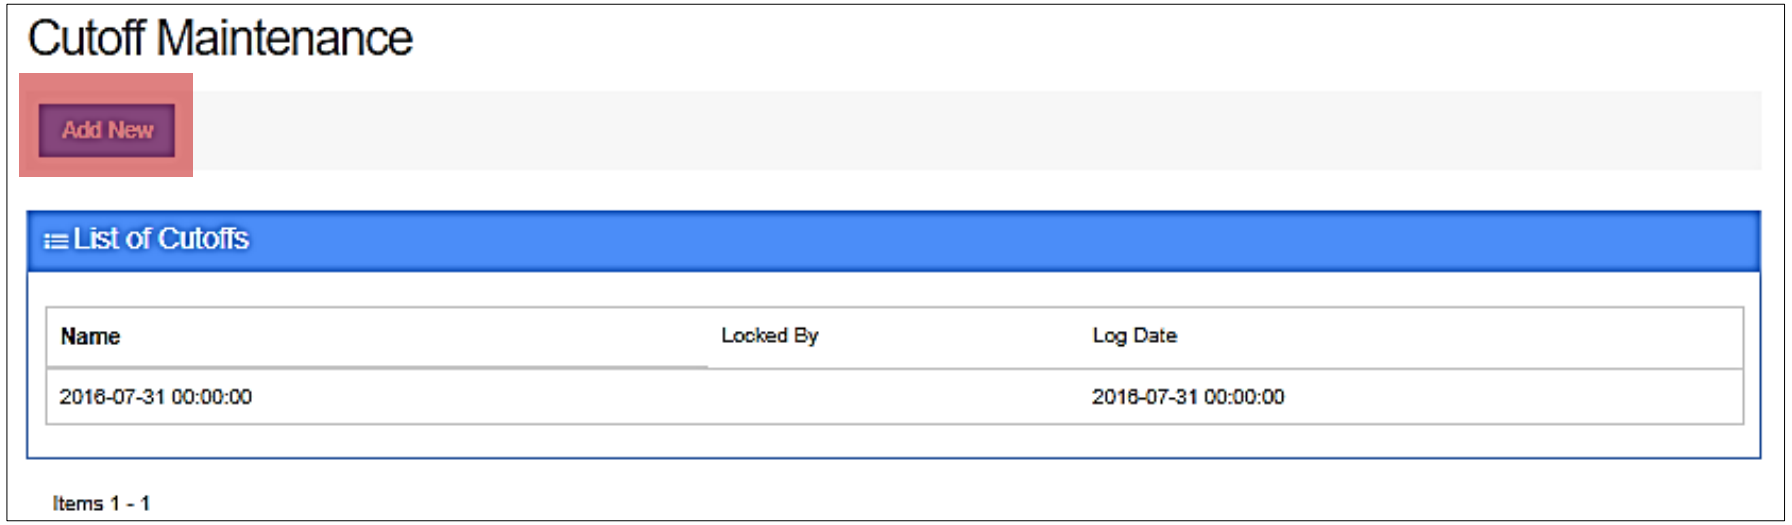

1. Go to the **Maintenance** module, and choose the **Cutoffs** option.
2. You will be able to view the **List of Cutoffs**. You may use the **Pagination** function to look for a Cutoff.

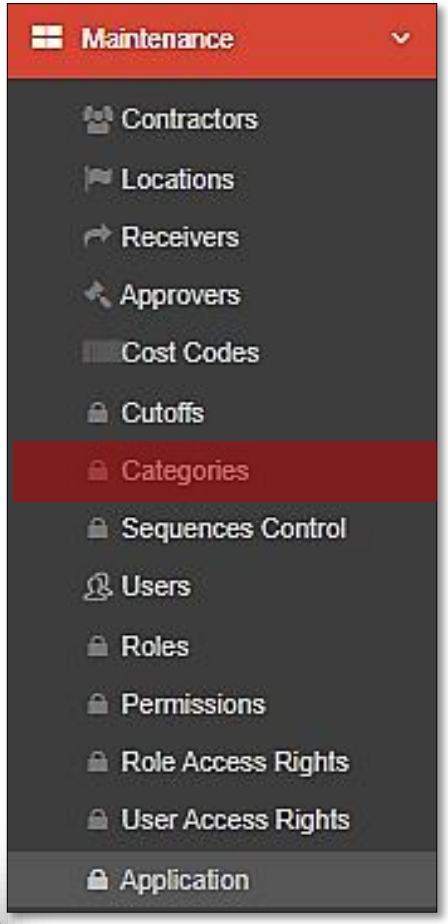

Add New Cutoff

1. Go to the **Maintenance** module, and choose the **Cutoffs** option.
2. Click on the **Add New** button.

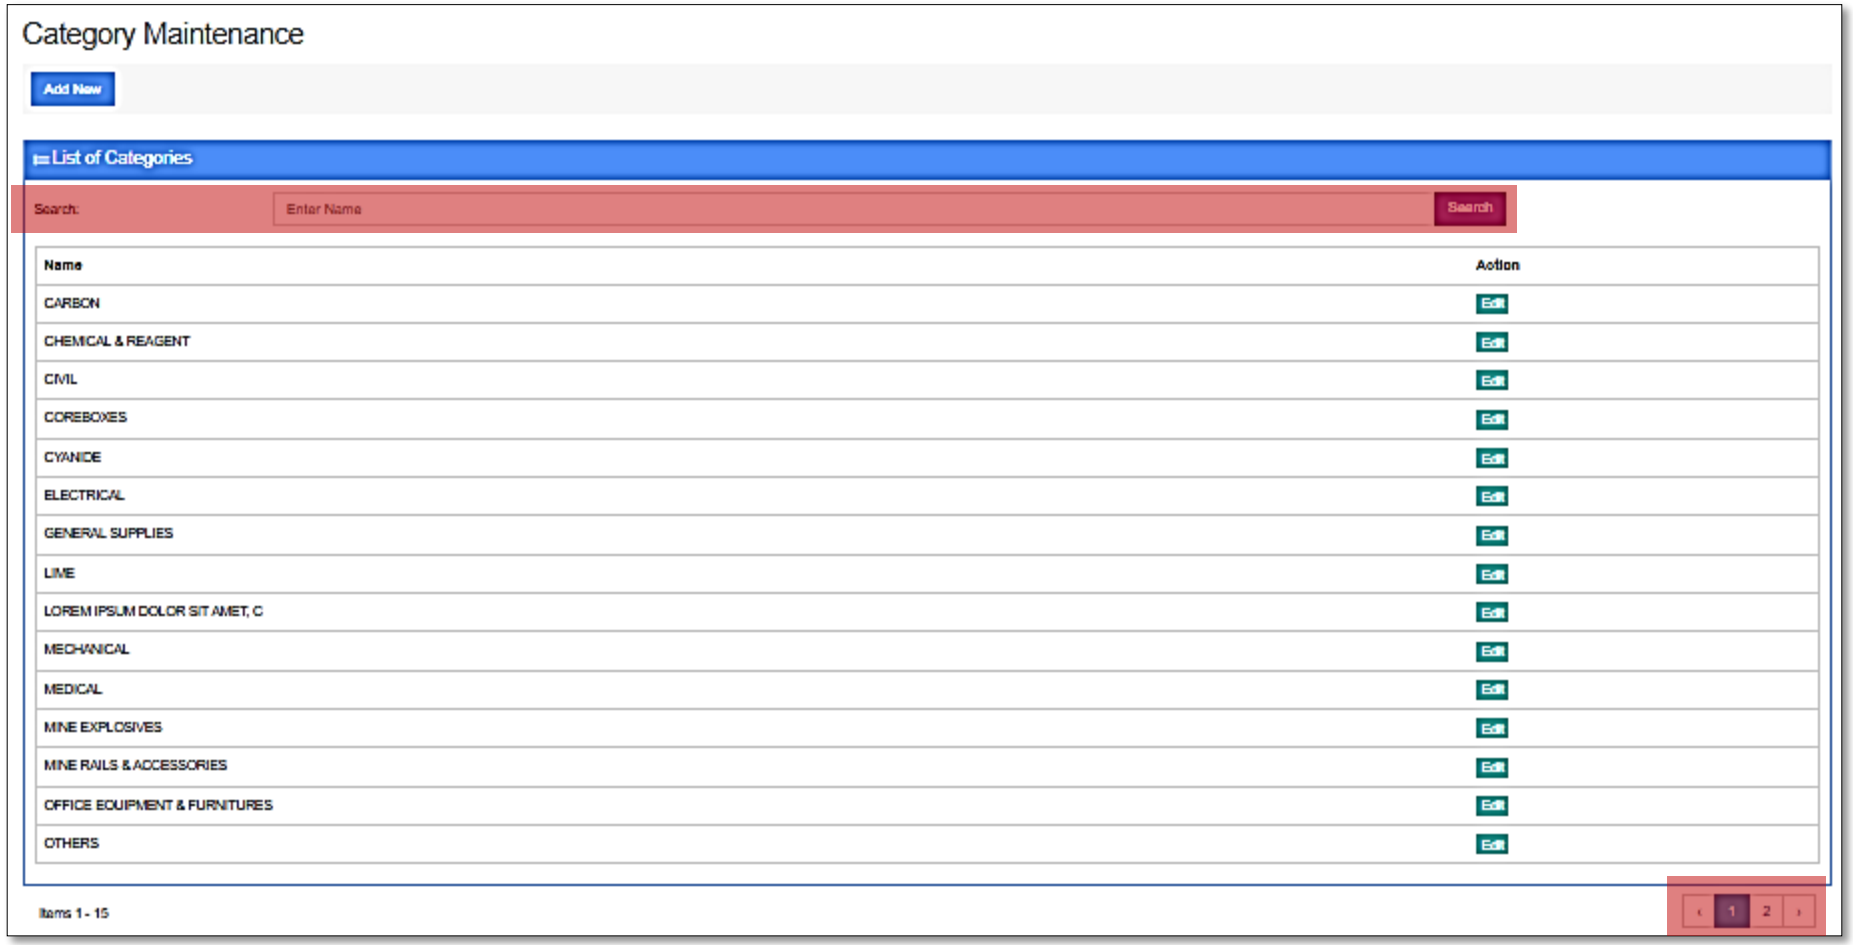

3. Enter the Name by selecting a date from the Calendar Icon once the **Add New Cutoff** screen appears.
4. Click on the **Save Cutoff** button to complete the process, or click the **Close** button to cancel the procedure.

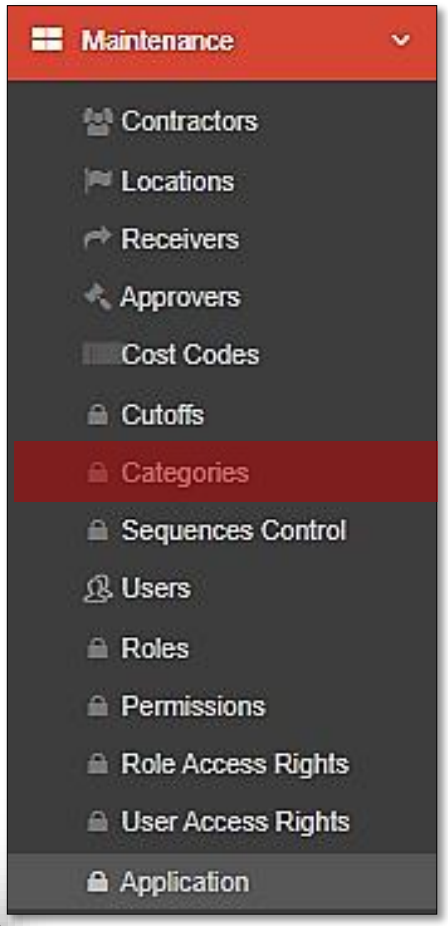

Categories

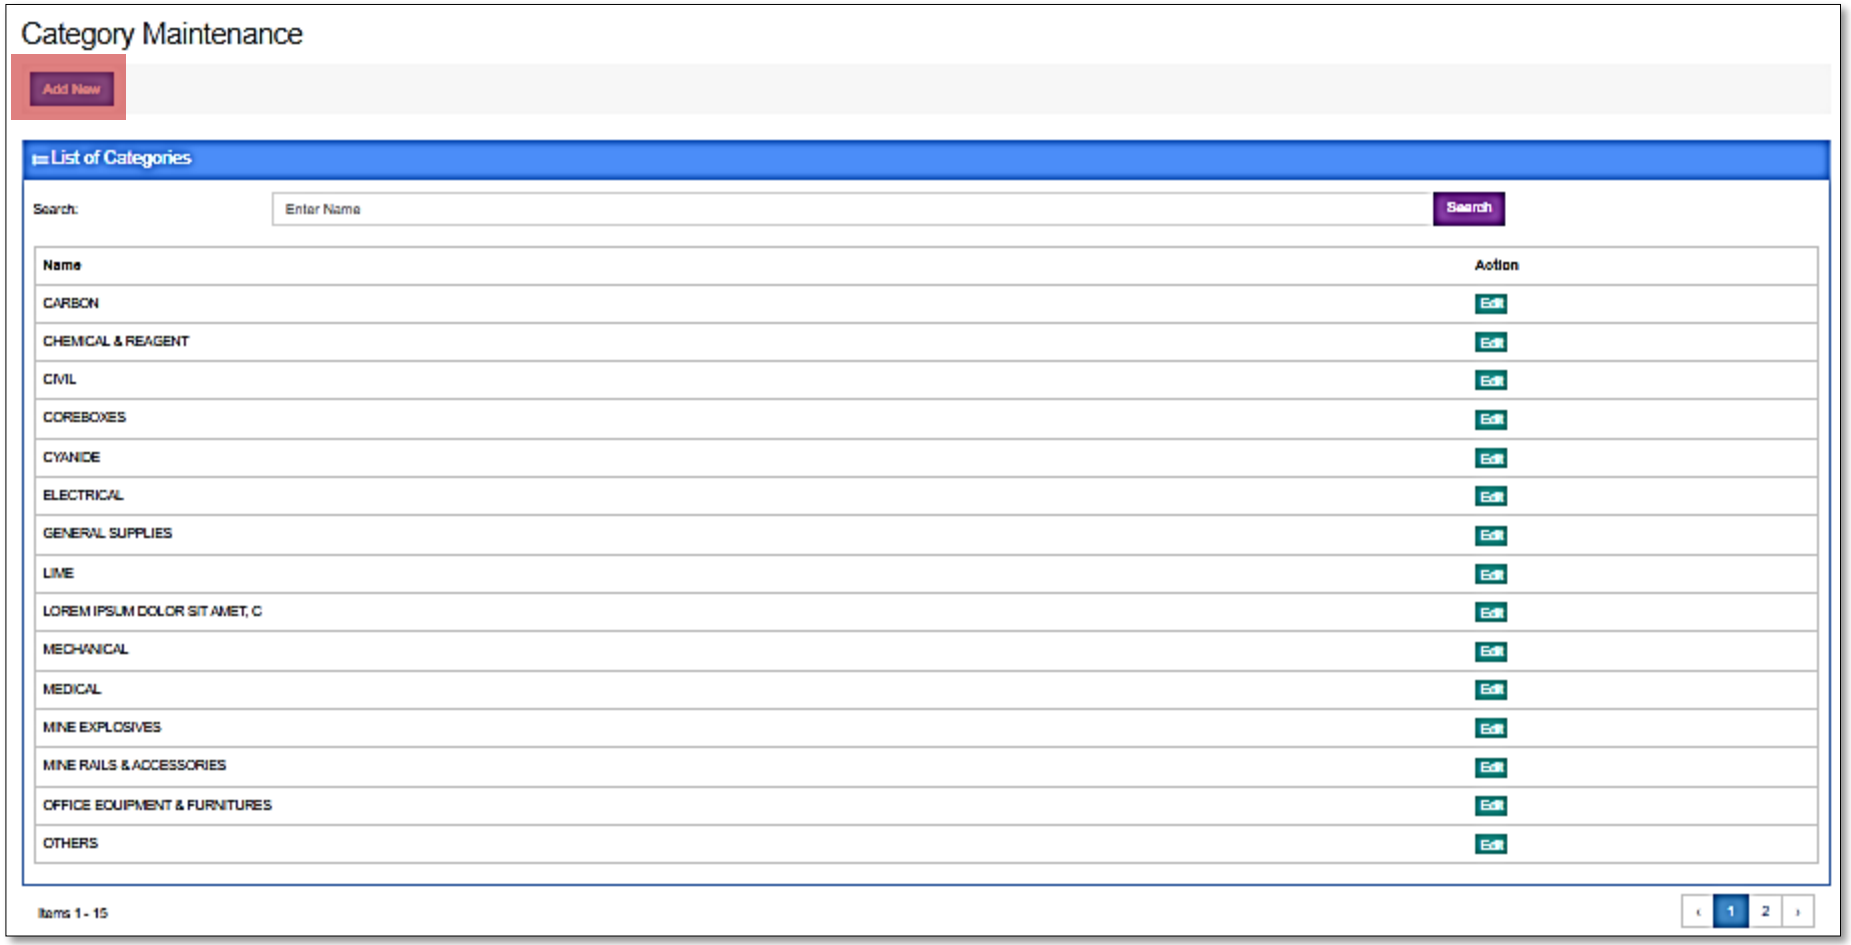

1. Go to the **Maintenance** module, and choose the **Categories** option.
2. You will be able to view the **List of Categories**. You may use the **Search** (Enter Name) and the **Pagination** function to look for a Category.

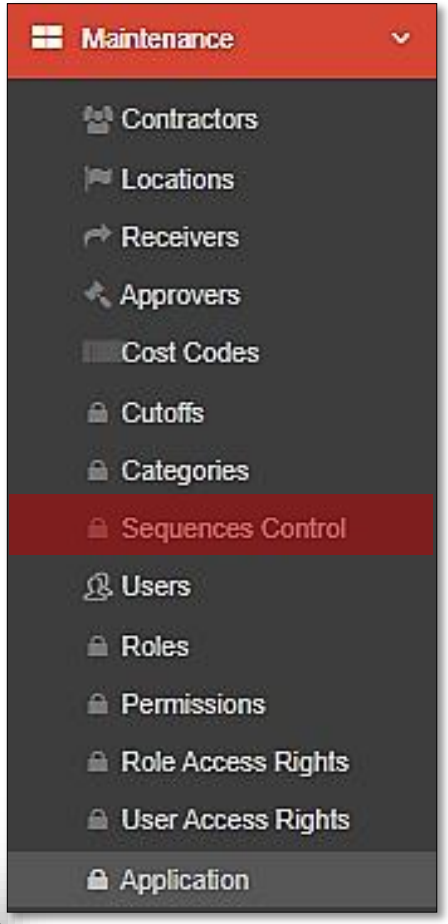

Add New Category

1. Go to the **Maintenance** module, and choose the **Categories** option.
2. Click on the **Add New** button.

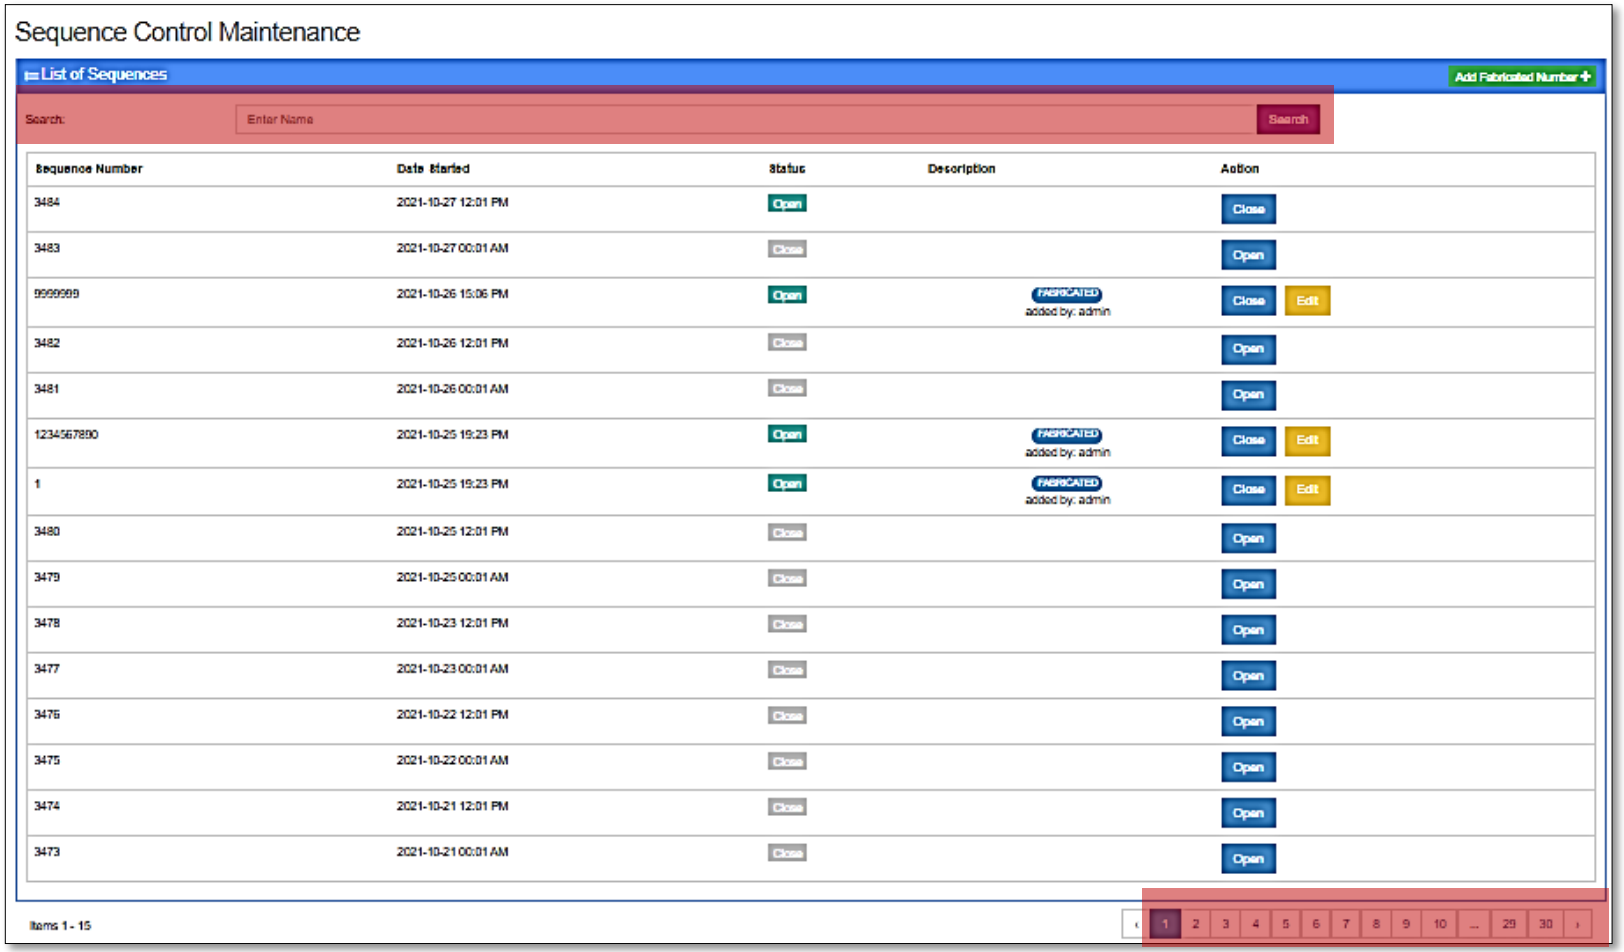

3. Enter the Name of a category once the **Add New Category** screen appears.
4. Click on the **Save Category** button to complete the process, or click the **Close** button to cancel the procedure.

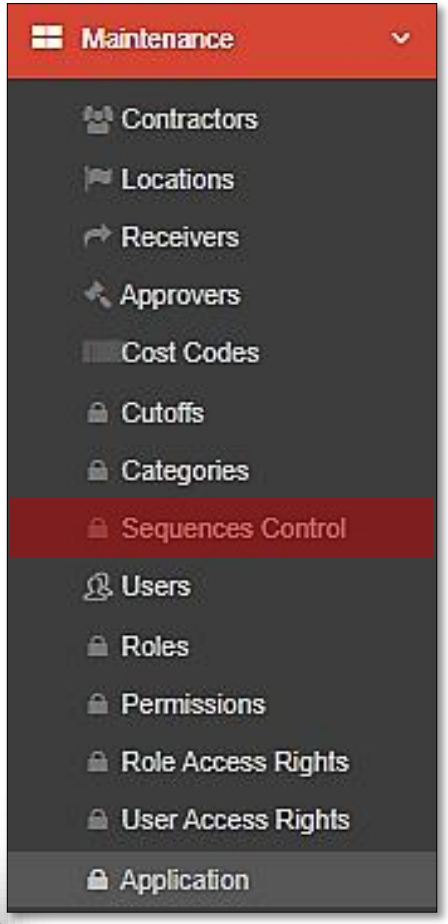

Sequences Control

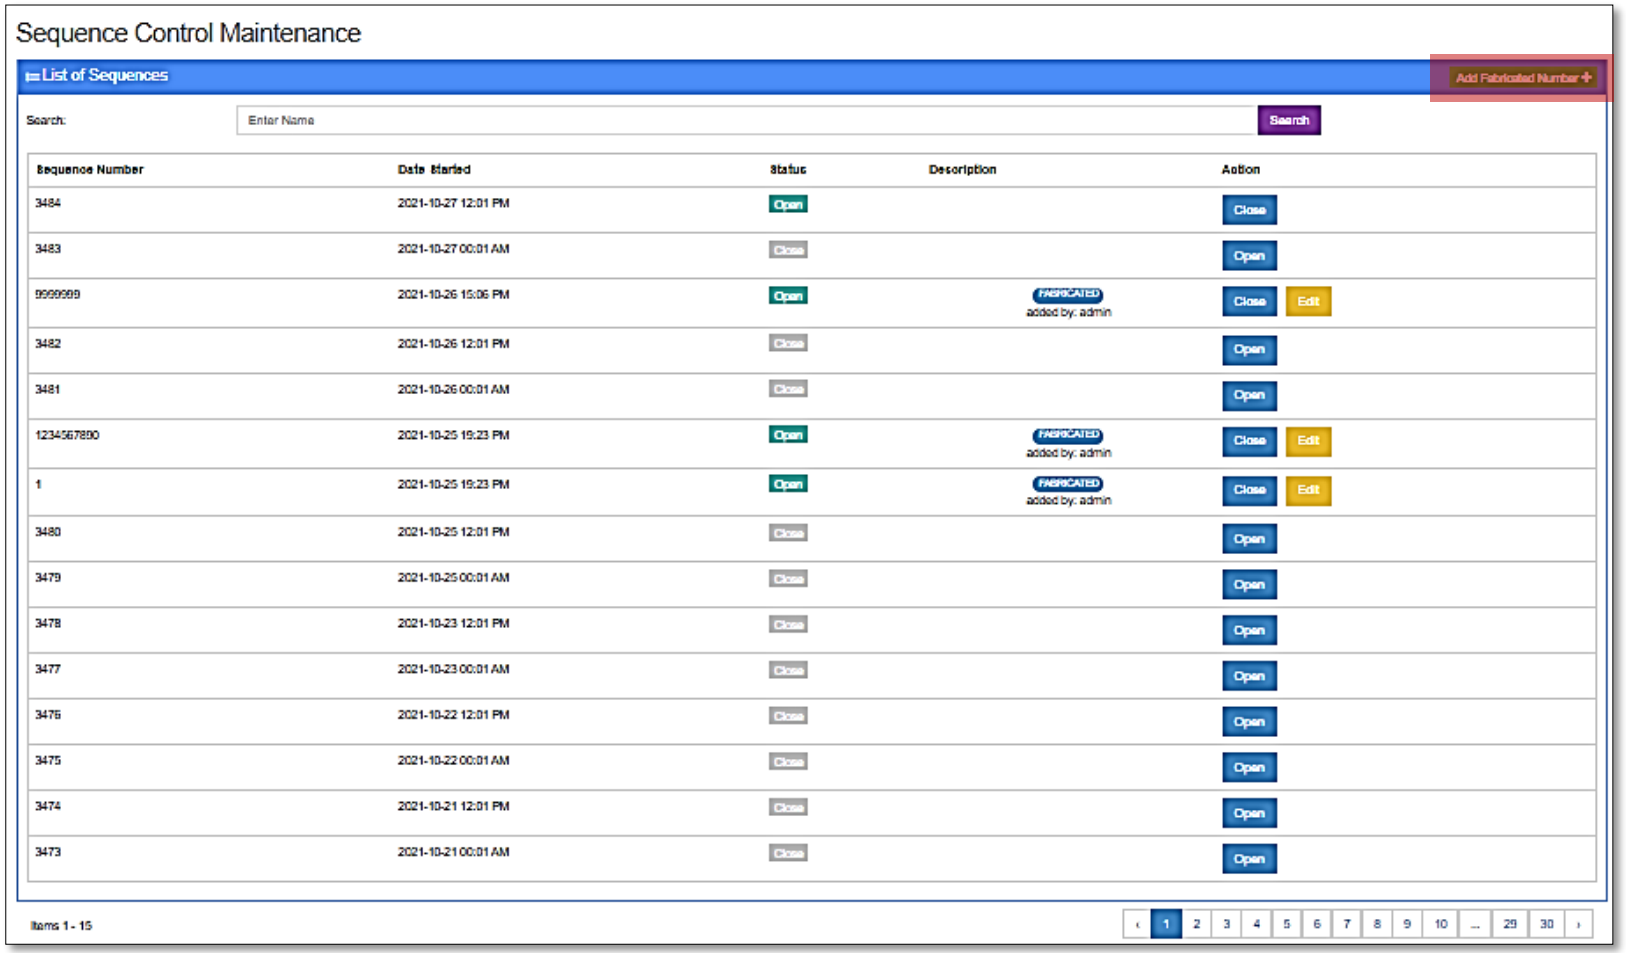

1. Go to the **Maintenance** module, and choose the **Sequences Control** option.
2. You will be able to view the **List of Sequences**. You may use the **Search** (Enter Name) and the **Pagination** function to look for a Sequence.

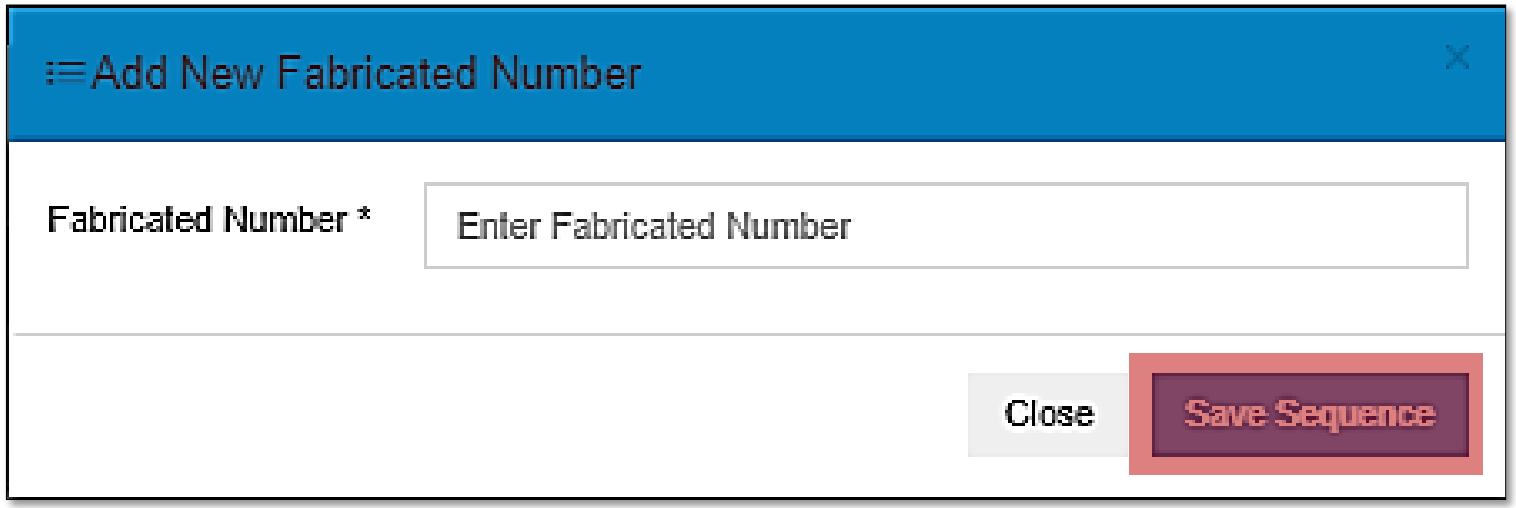

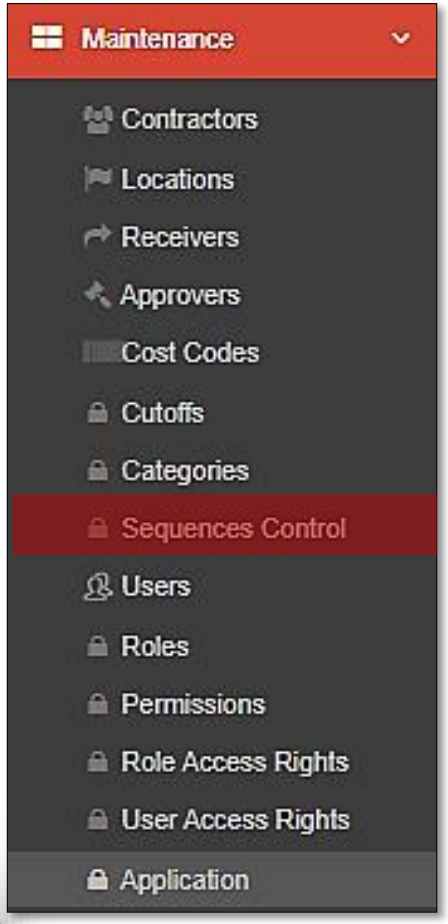

Add Fabricated Number +

1. Go to the **Maintenance** module, and choose the **Sequences Control** option.
2. Click on the **Add Fabricated Number +** button.

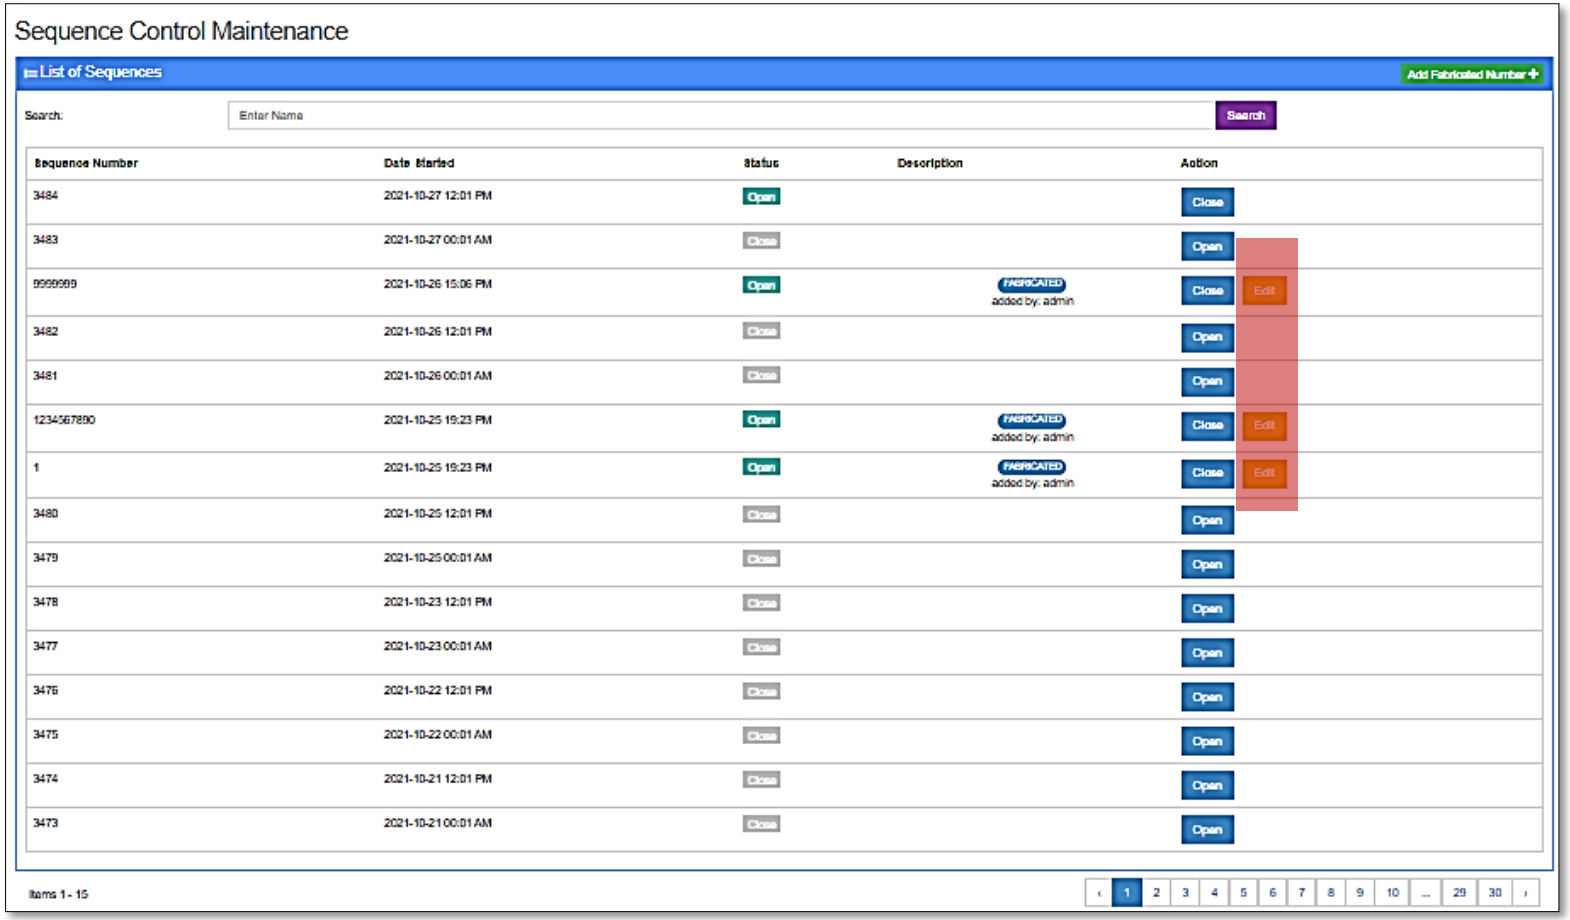

3. Enter the Fabricated Number once the **Fabricated Number** screen appears.
4. Click on the **Save Sequence** button to complete the process, or click the **Close** button to cancel the procedure.

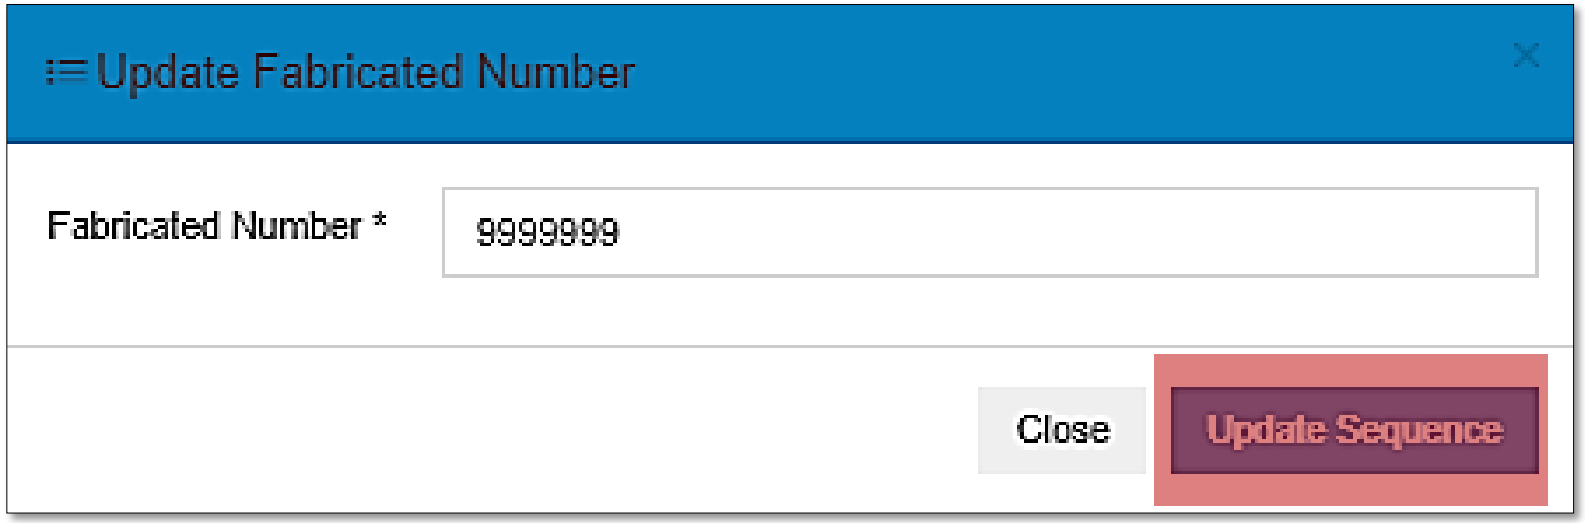

Edit Sequences Control

1. Go to the **Maintenance** module, and choose the **Sequences Control** option.
2. You may use the **Pagination** function to look for a Sequence**.**
3. Click on the **Edit** button.

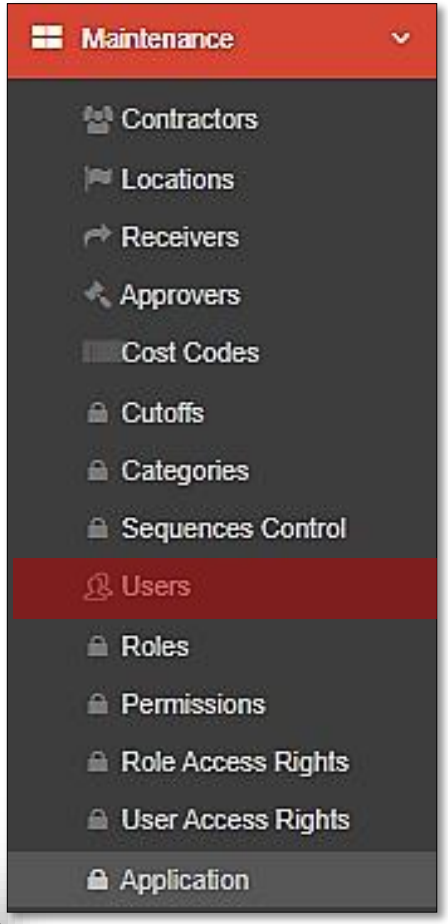

4. Make the necessary change accordingly once the **Edit Fabricated Number** screen appears.
5. Click on the **Update Sequence** button to complete the process, or click the **Close** button to cancel the procedure.

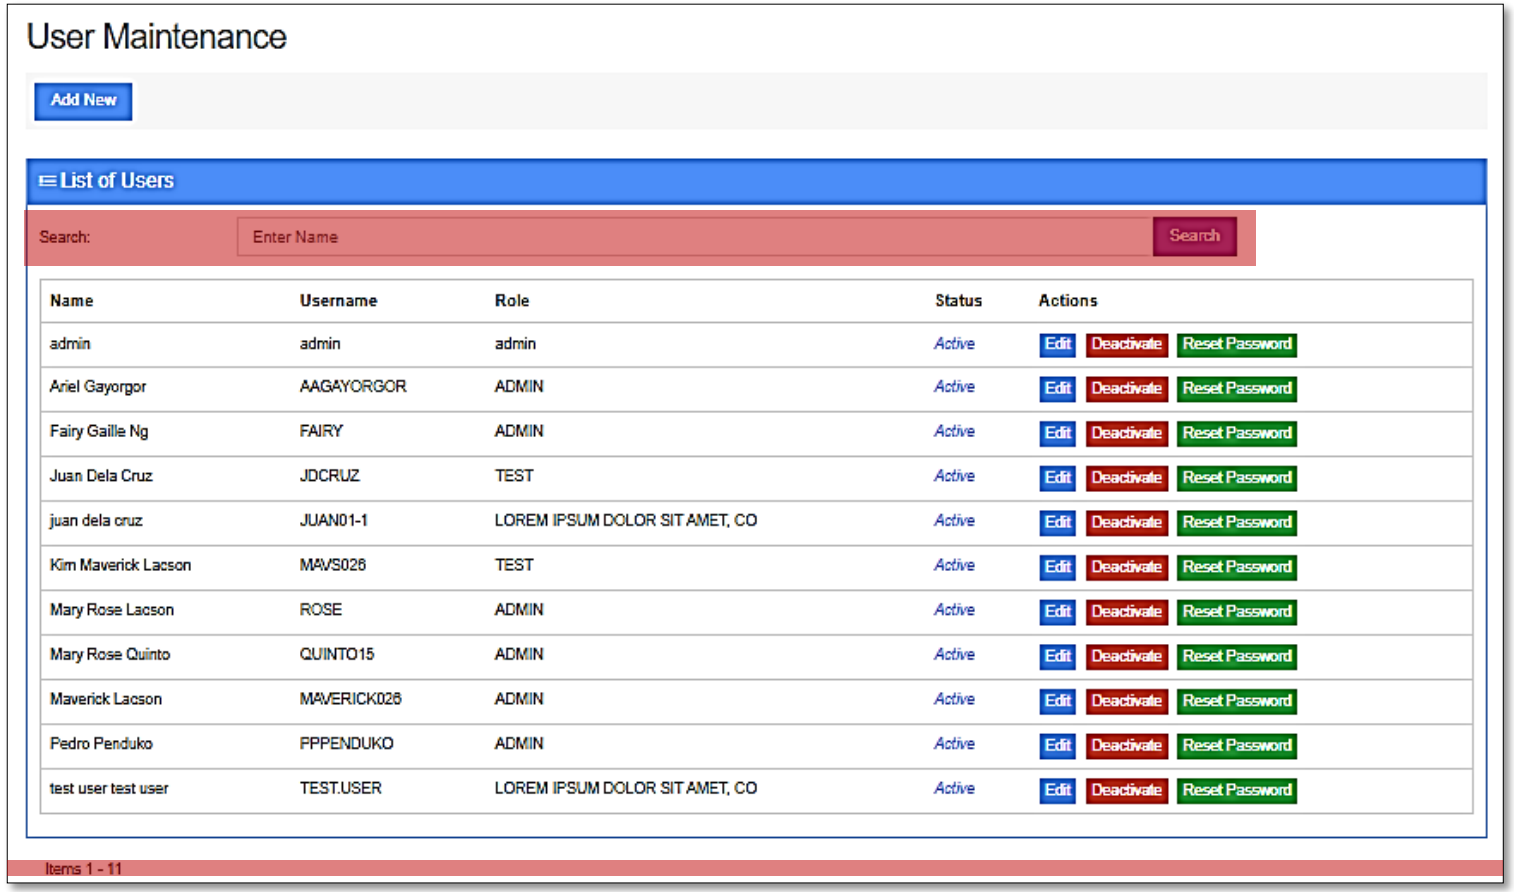

Note: At 12:01 am (Midnight), a batch of two sequence numbers will automatically be created based on the latest sequence from yesterday that has been close.

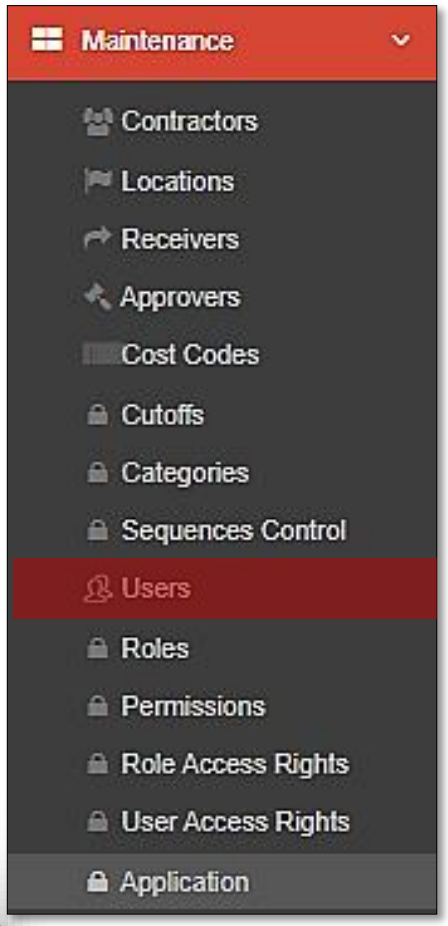

•The first sequence will be opened automatically at midnight, while the second sequence is still closed.
•At noon, the first sequence will be closed, and the second sequence will automatically open.

Users

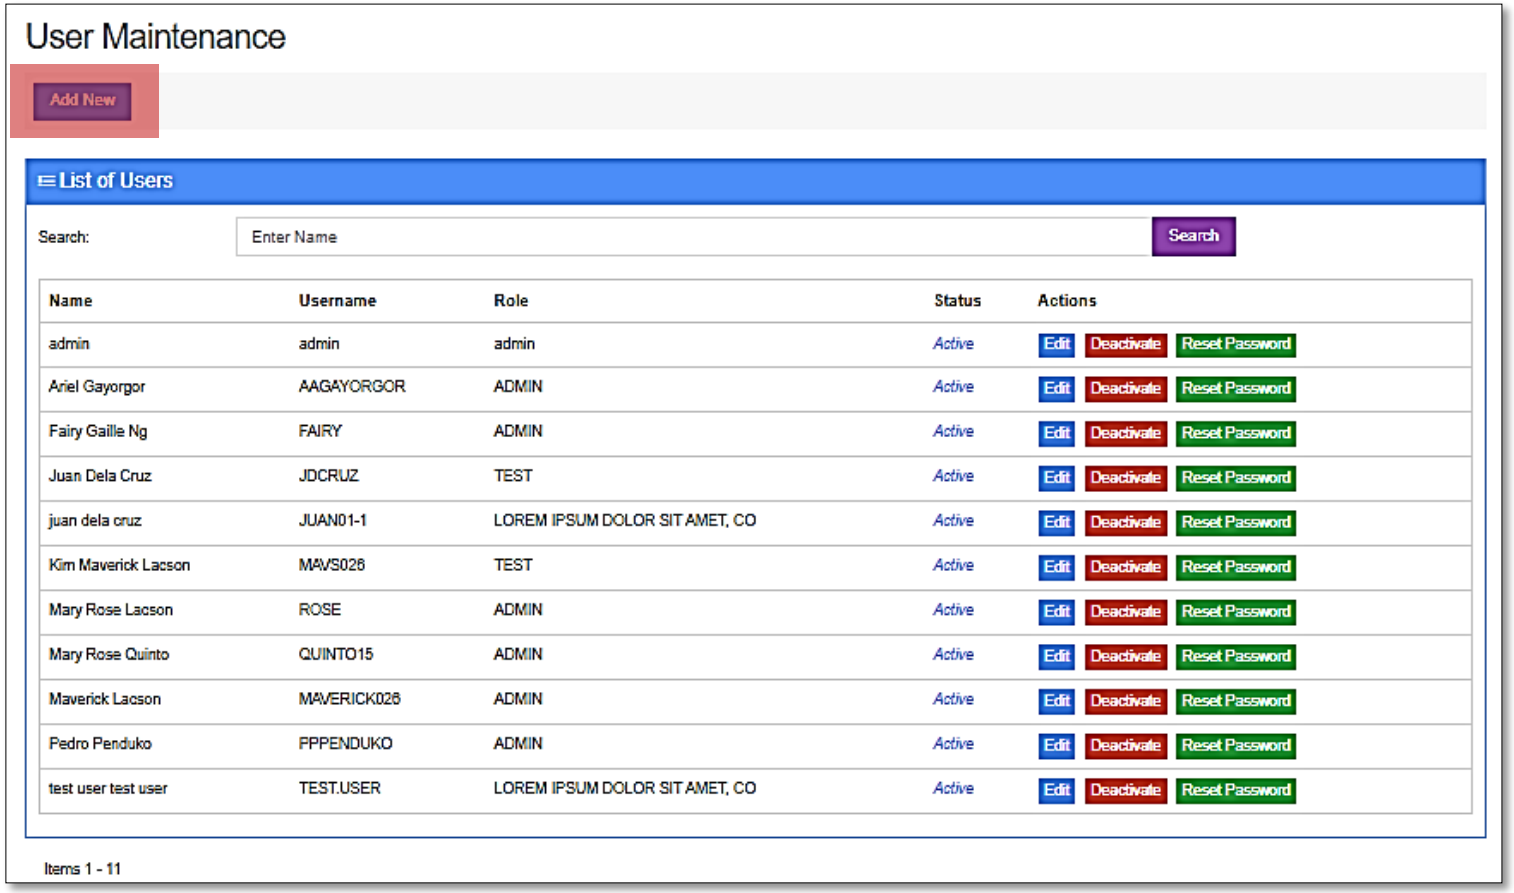

1. Go to the **Maintenance** module, and choose the **Users** option.
2. You will be able to view the Permissions in the system. You may use the **Search** (Enter Name) and the **Pagination** function to look for a **User.**

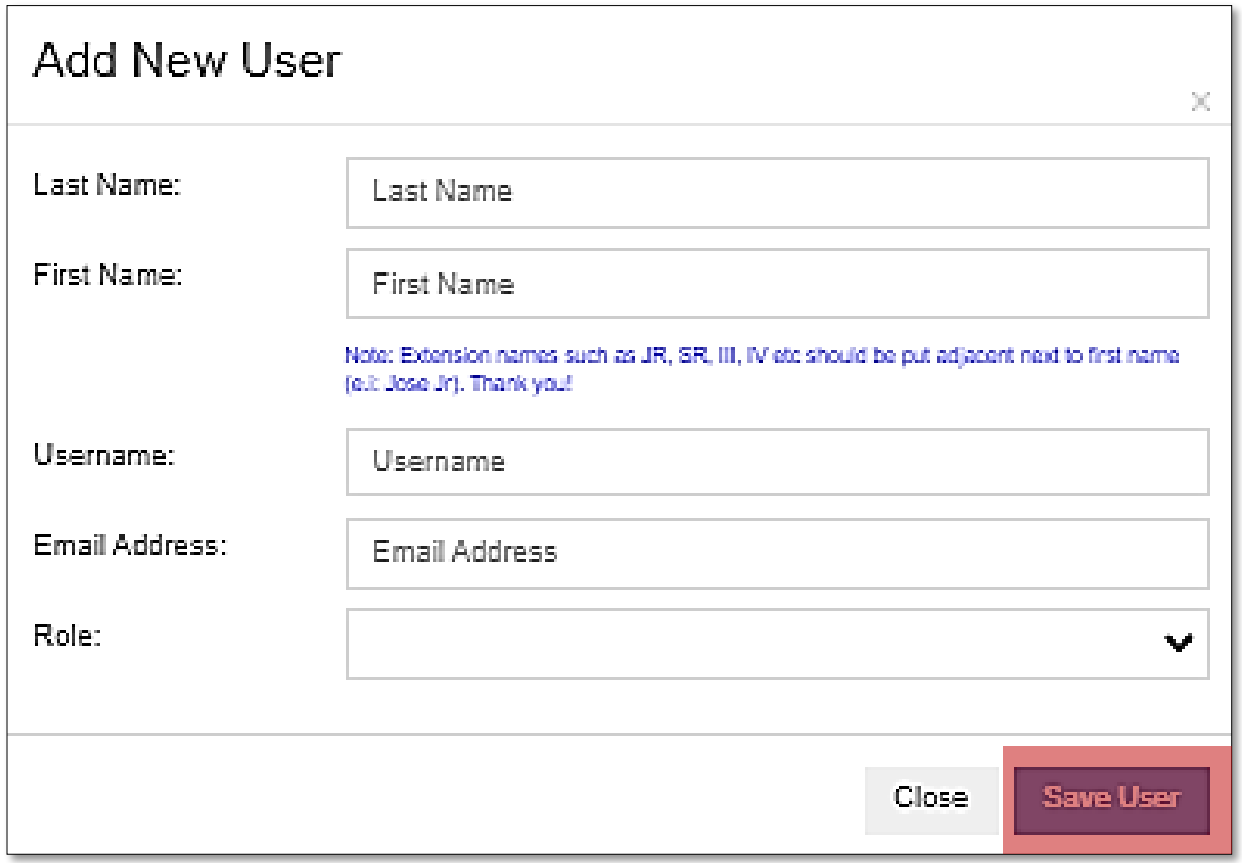

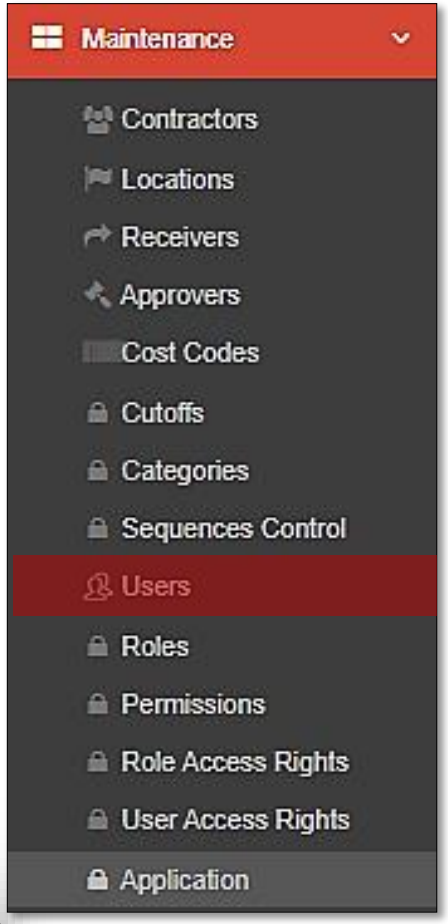

Add New Users

1. Go to the **Maintenance** module, and choose the **Users** option.
2. Click on the **Add New** button.

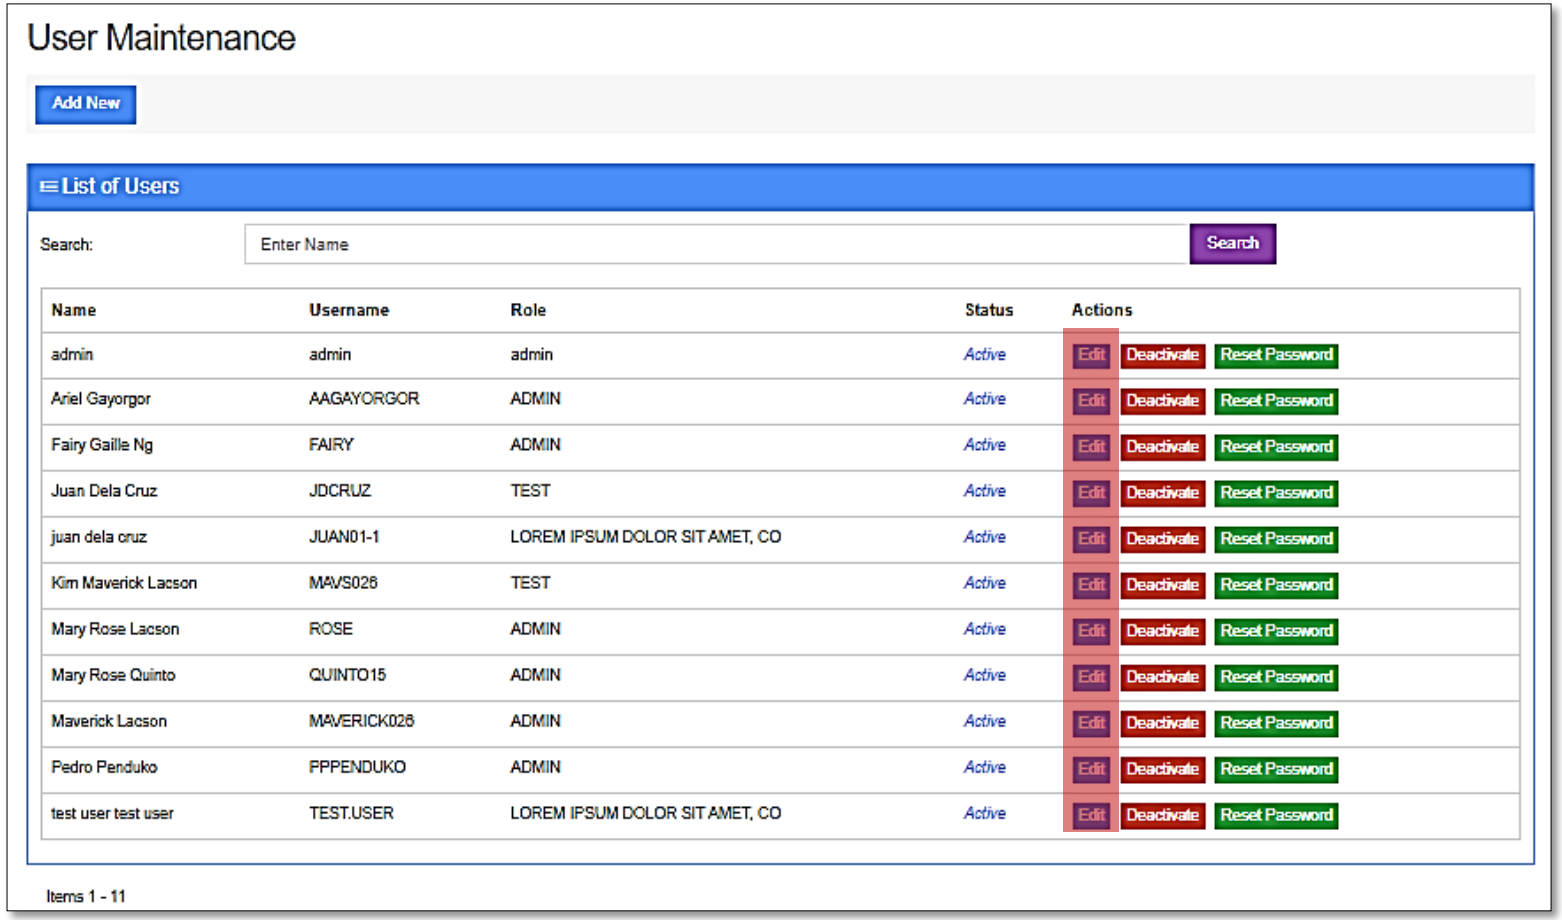

3. Enter all the necessary information once the **Add New User** screen appears.
4. Click on the **Save User** button to complete the process, or click on the **Close** button to cancel the procedure.

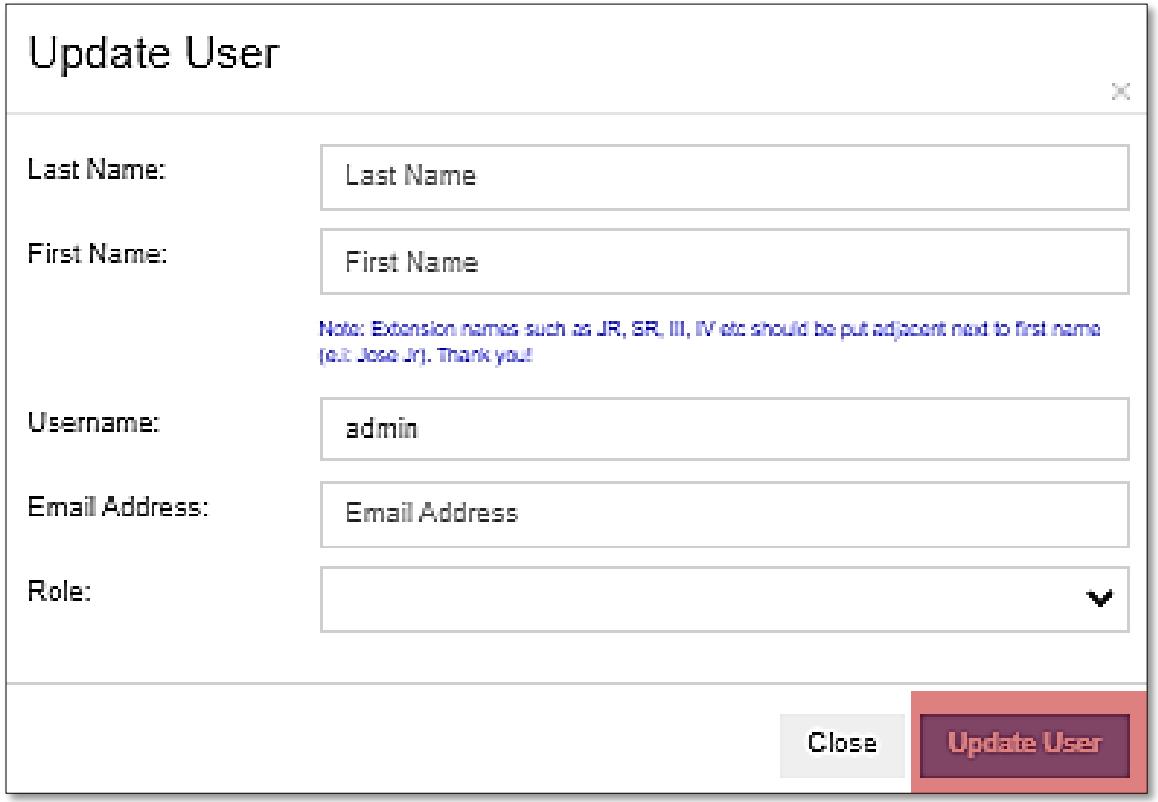

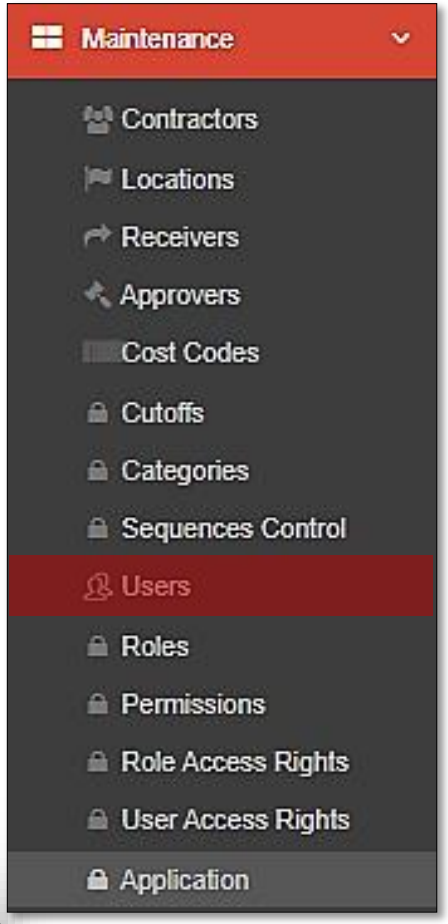

Edit Users

1. Go to the **Maintenance** module, and choose the **Users** option.
2. You may use the **Search** (Enter Name) and the **Pagination** function to look for a user you want to edit.
3. Click on the **Edit** button.

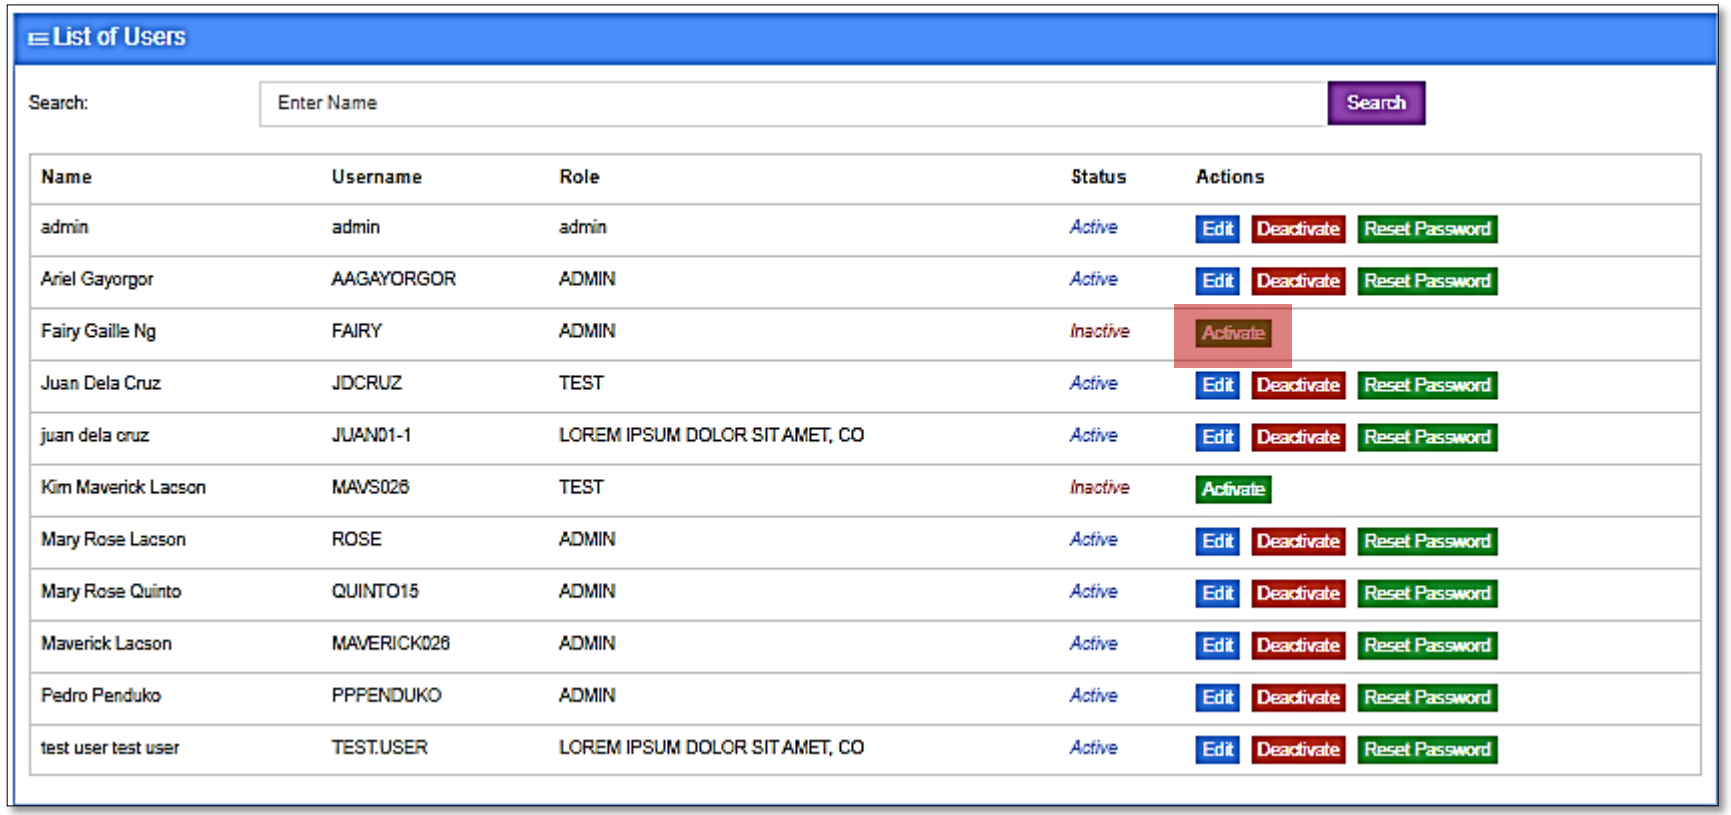

4. Change all the necessary information accordingly once the **Update User** screen appears.
5. Click on the **Update User** button to complete the process, or click on the **Cancel** button to cancel the procedure.

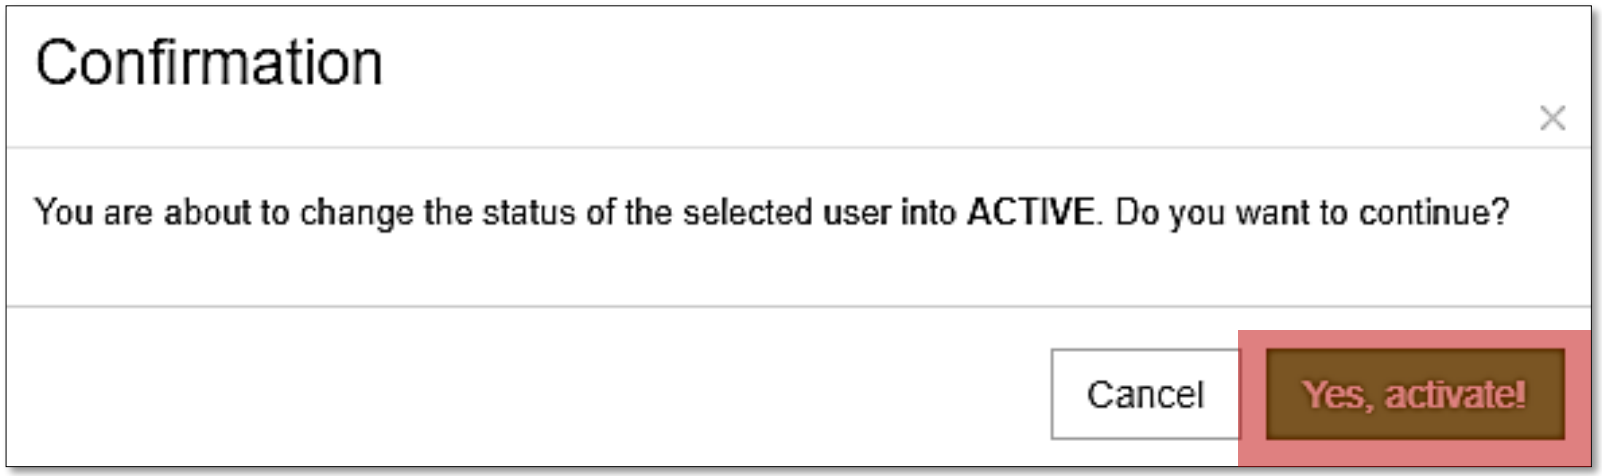

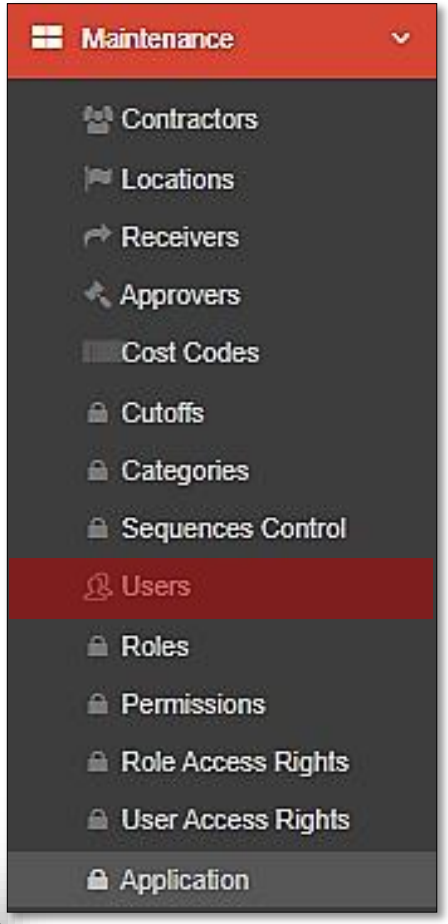

Activate a User

1. Go to the **Maintenance** module, and choose the **Users** option.
2. Click on the **Activate** button to activate a user.

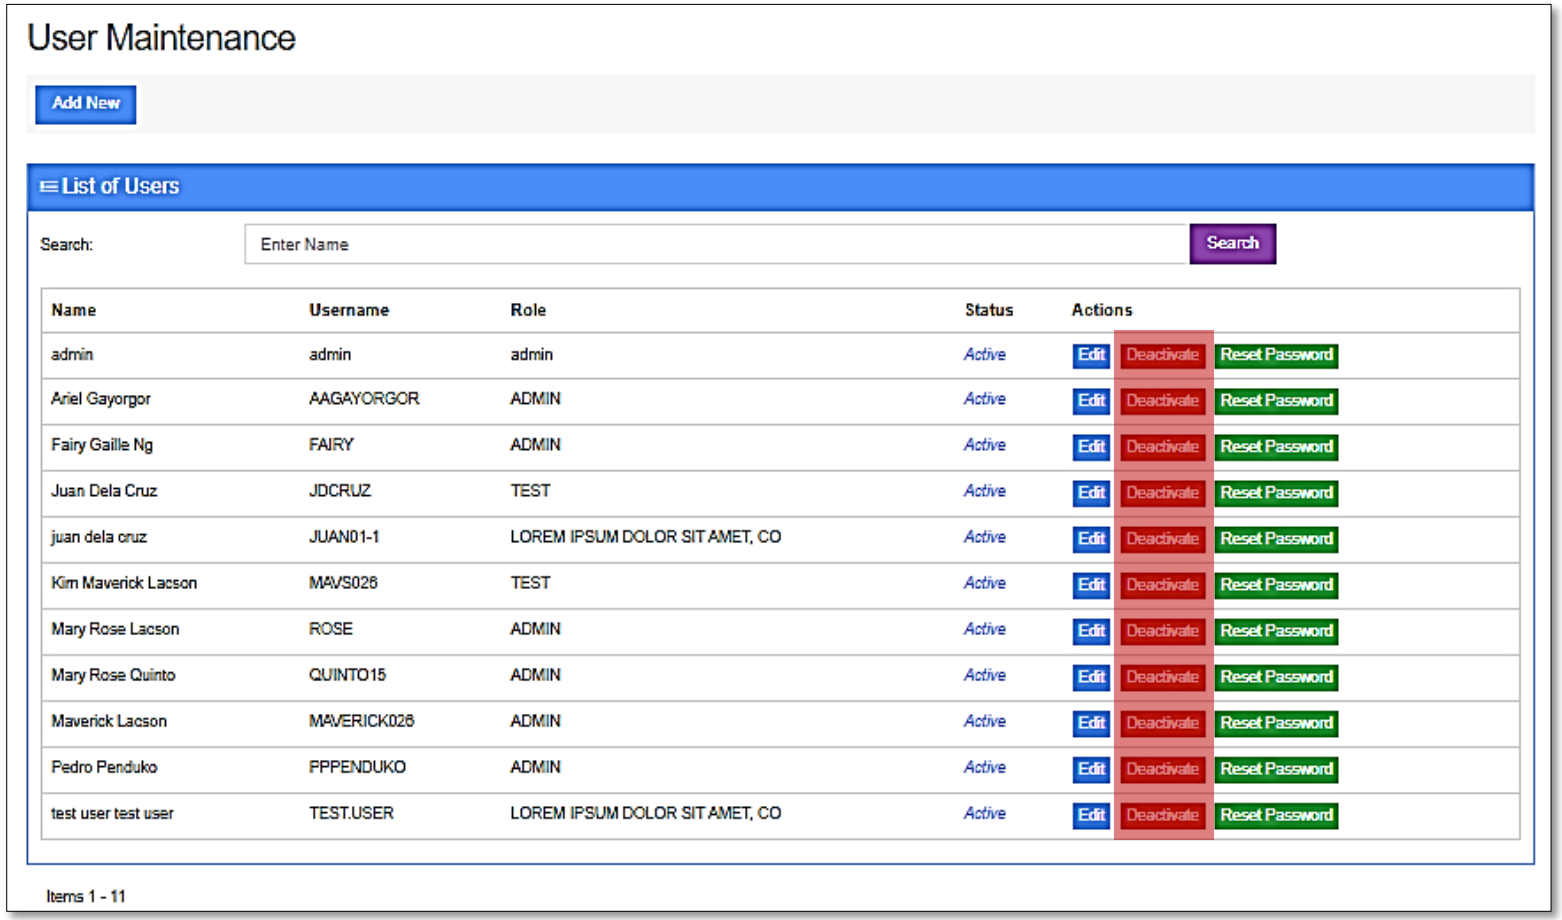

3. A notification will appear that “You are about to change the status of the selected user into ACTIVE. Do you want to continue?”
4. Click on the **Yes, activate!** button to proceed with the activation, or click the **Cancel** button to cancel the procedure.

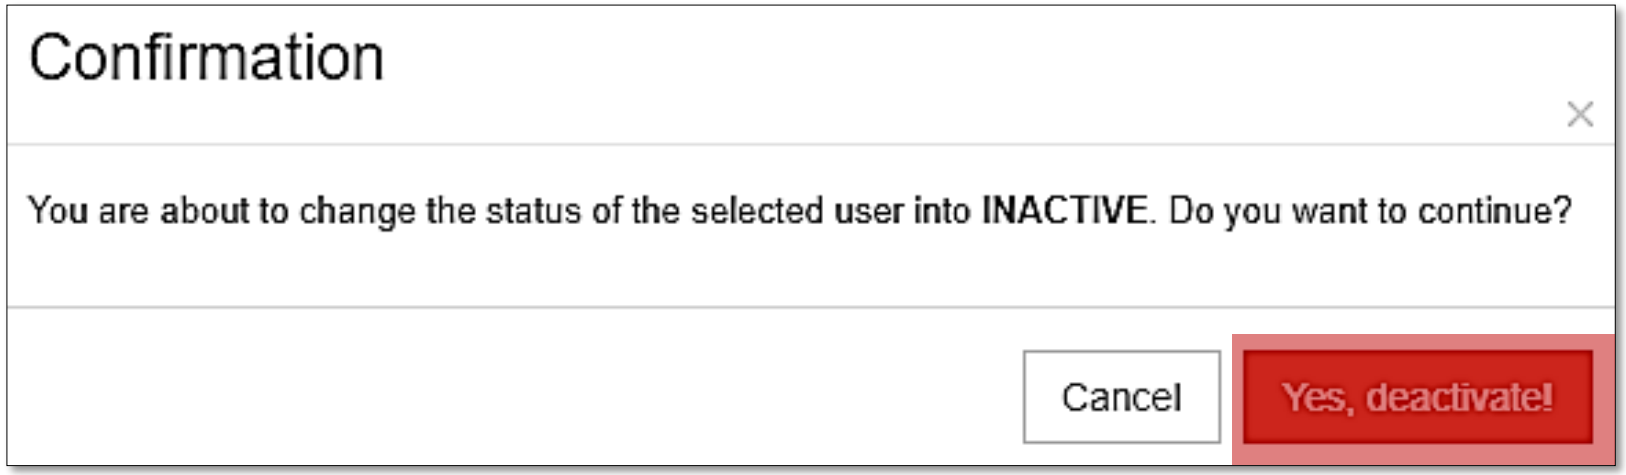

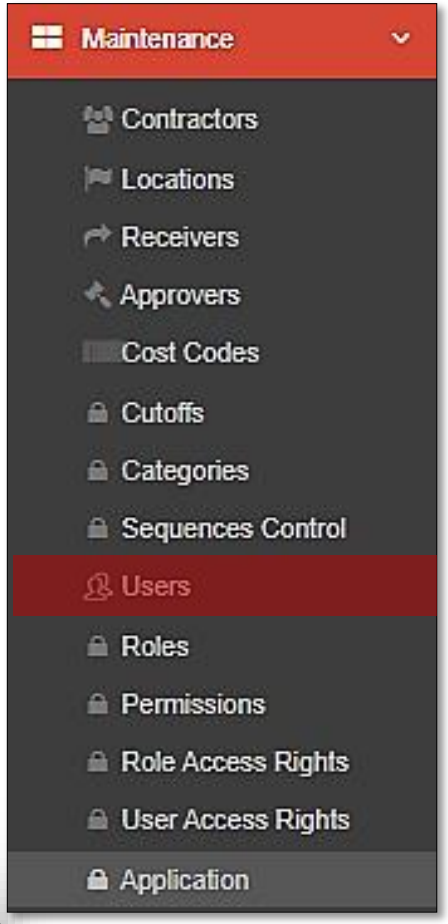

Deactivate a User

1. Go to the **Maintenance** module, and choose the **Users** option.
2. Click on the **Deactivate** button to deactivate a user.

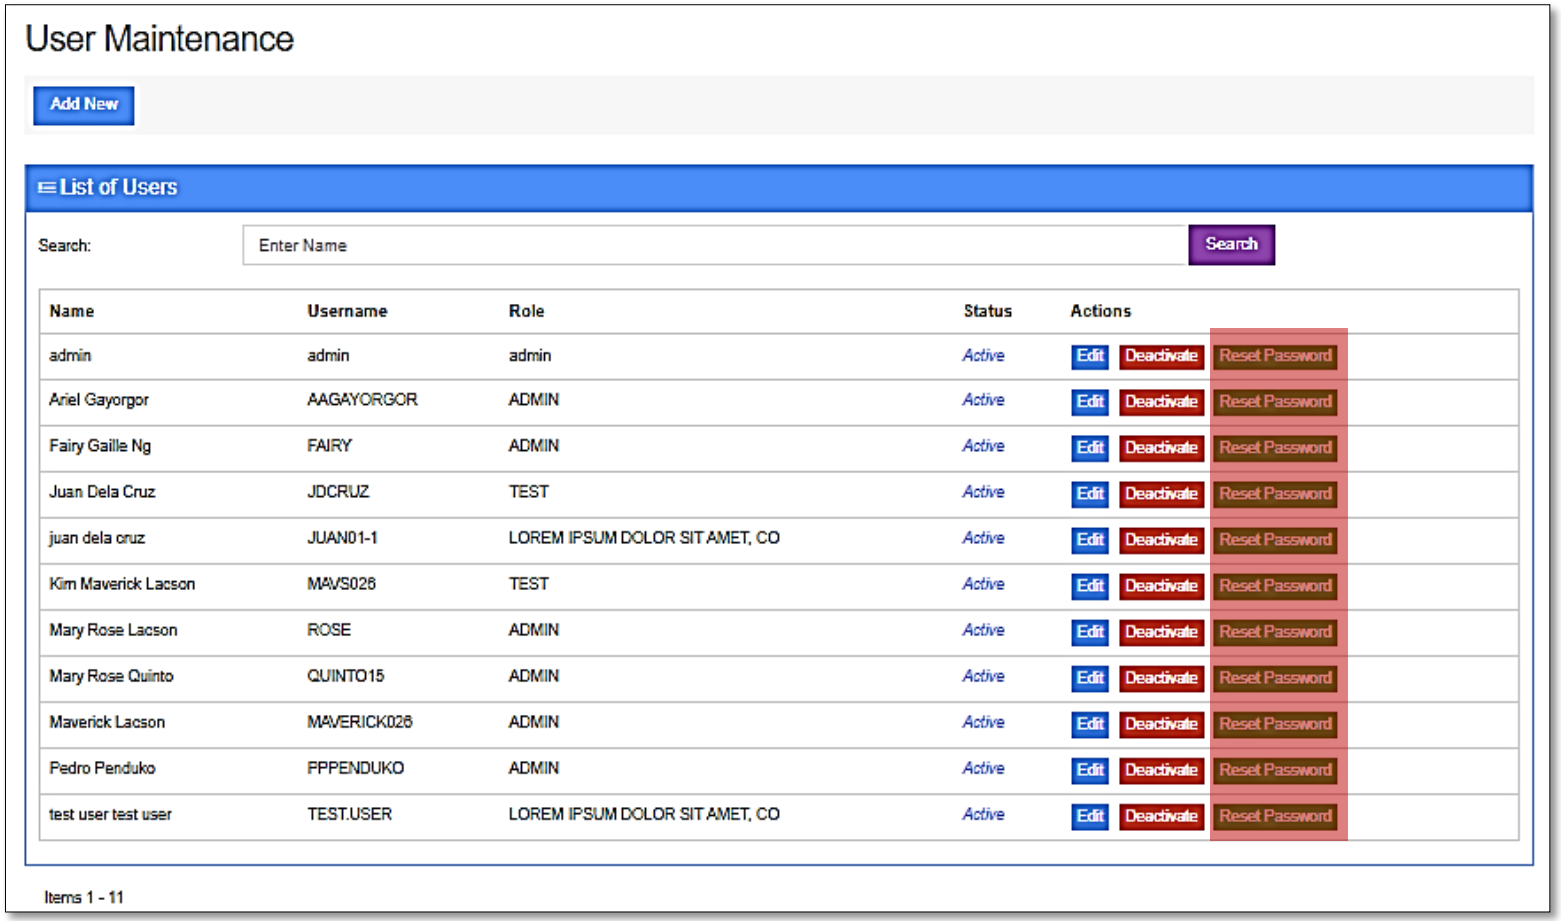

3. A notification will appear that “You are about to change the status of the selected user into INACTIVE. Do you want to continue?”
4. Click on the **Yes, deactivate!** button to proceed with the deactivation, or click the **Cancel** button to cancel the procedure.

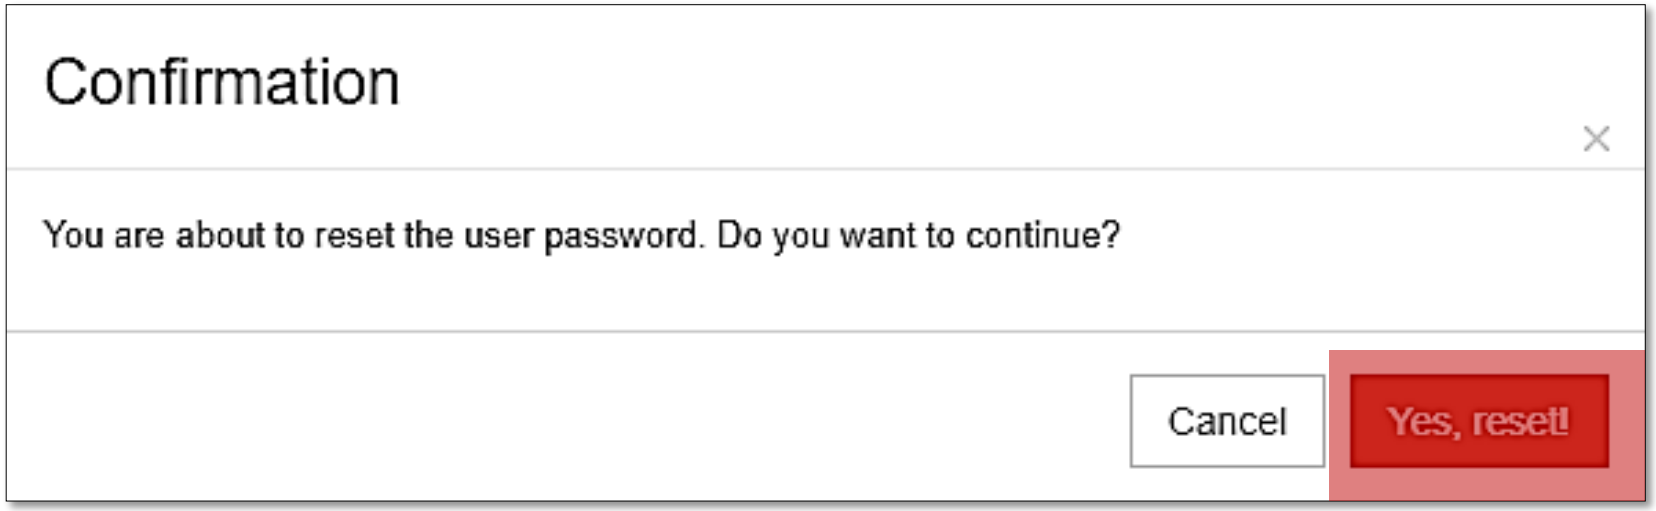

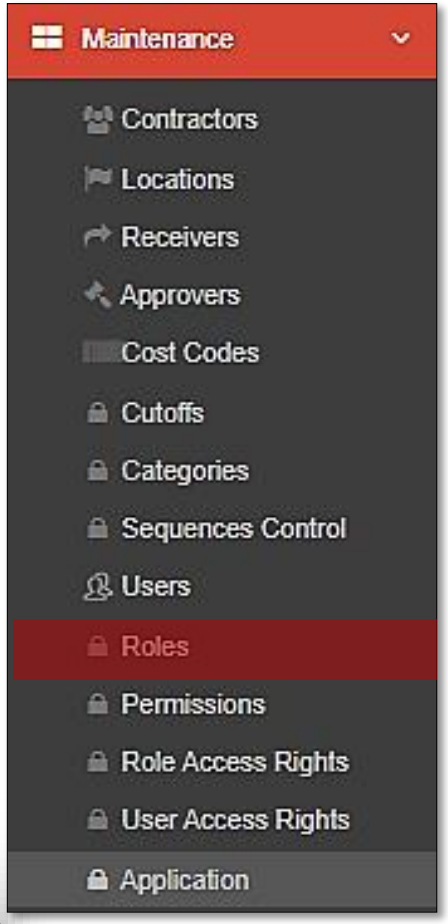

Reset User's Password

1. Go to the **Maintenance** module, and choose the **Users** option.
2. Click on the **Reset Password** button to reset user's password.

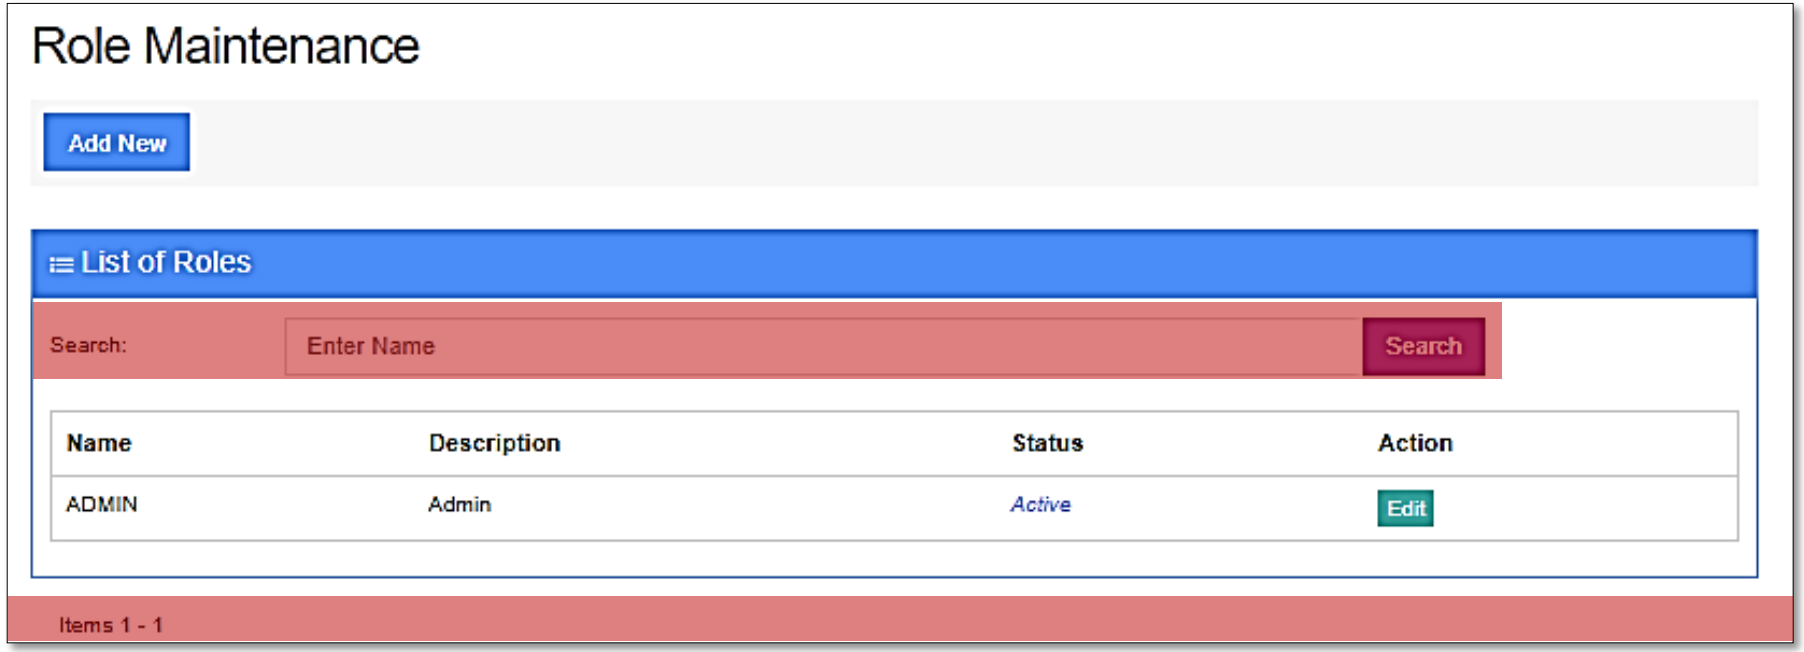

3. A notification will appear that "You are about to reset the user password. Do you want to continue?"
4. Click on the **Yes, reset!** button to proceed, or click the **Cancel** button to cancel the procedure.

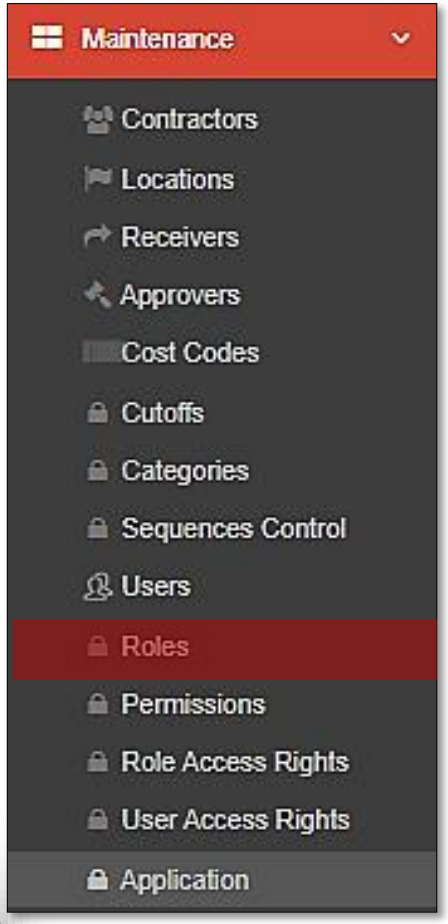

Roles

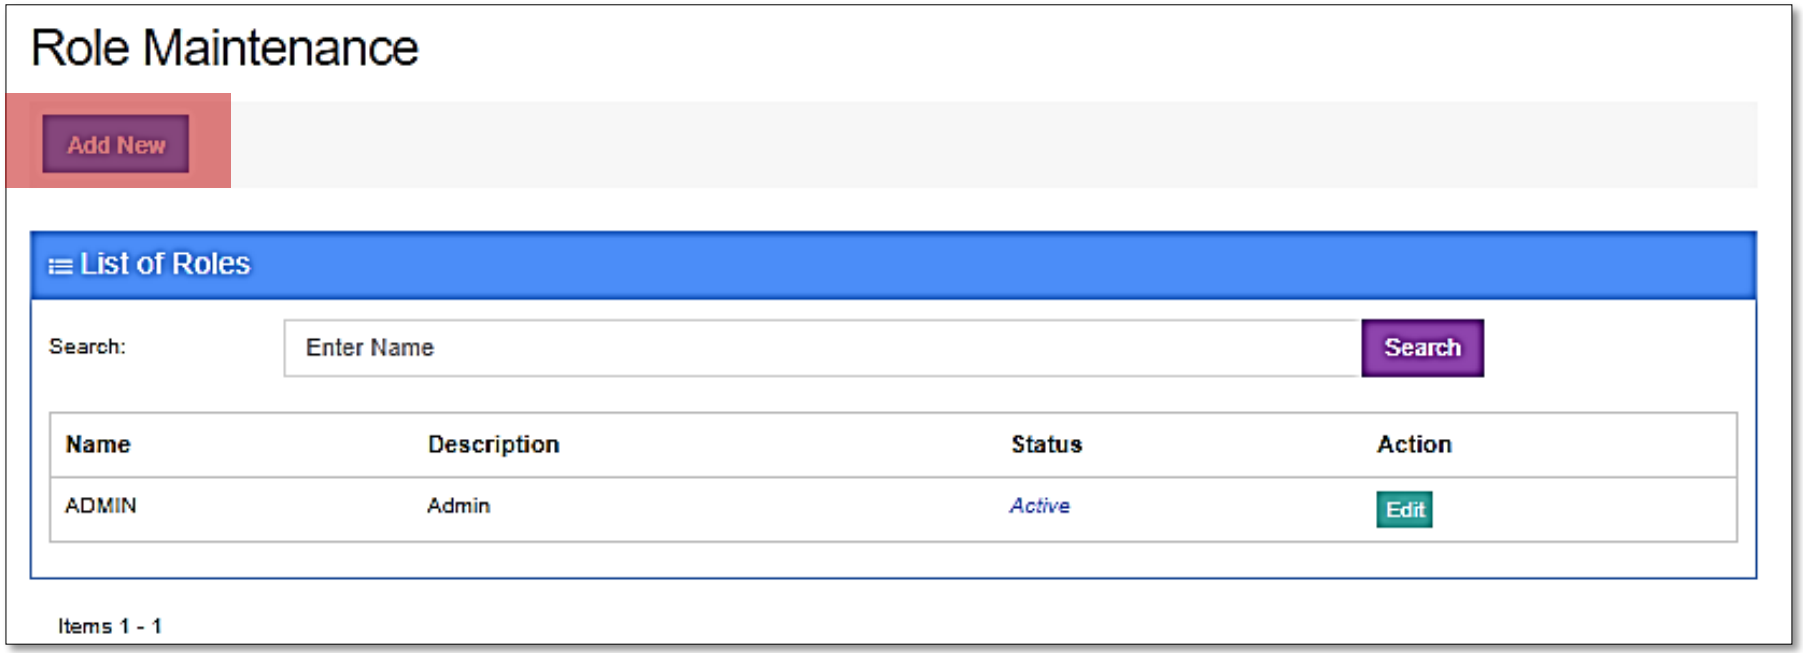

1. Go to the **Maintenance** module, and choose the **Roles** option.
2. You will be able to view the Roles in the system. You may use the **Search** (Enter Name) and the **Pagination** function to look for a **Role.**

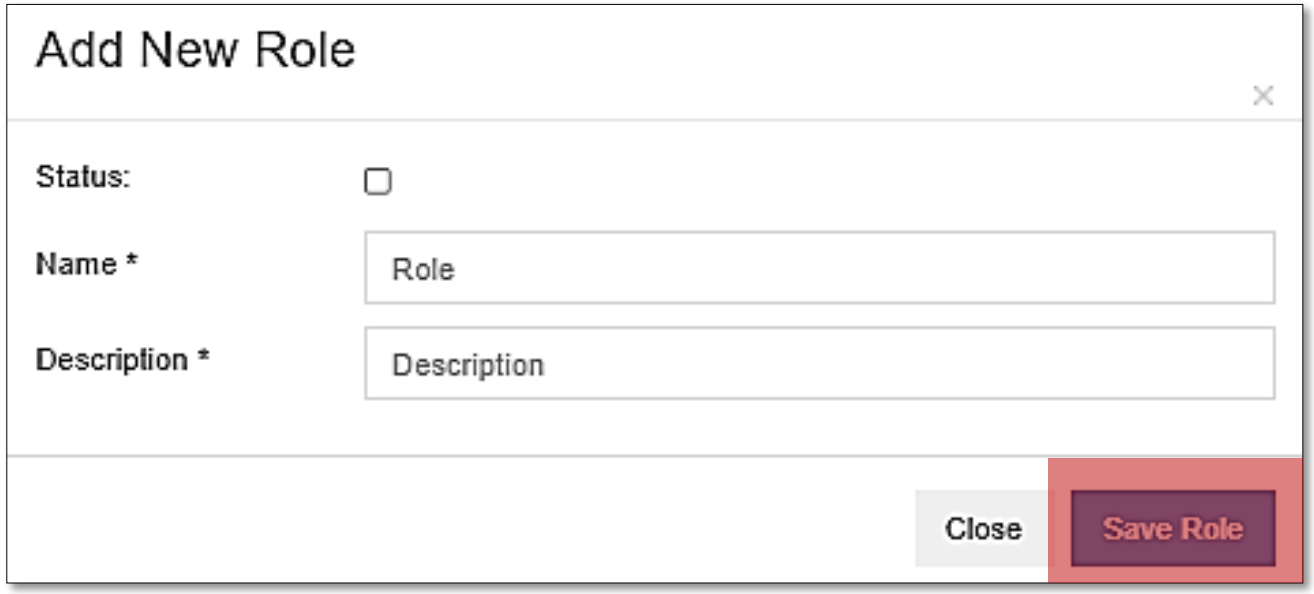

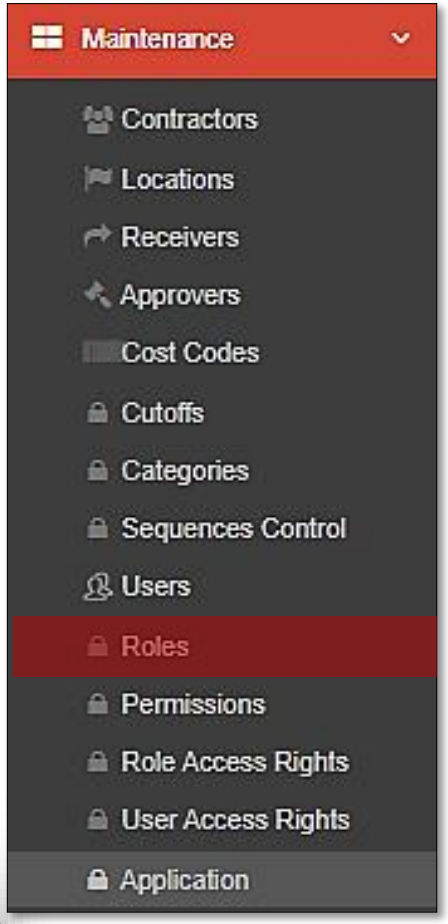

Add New Role

1. Go to the **Maintenance** module, and choose the **Roles** option.
2. Click on the **Add New** button.

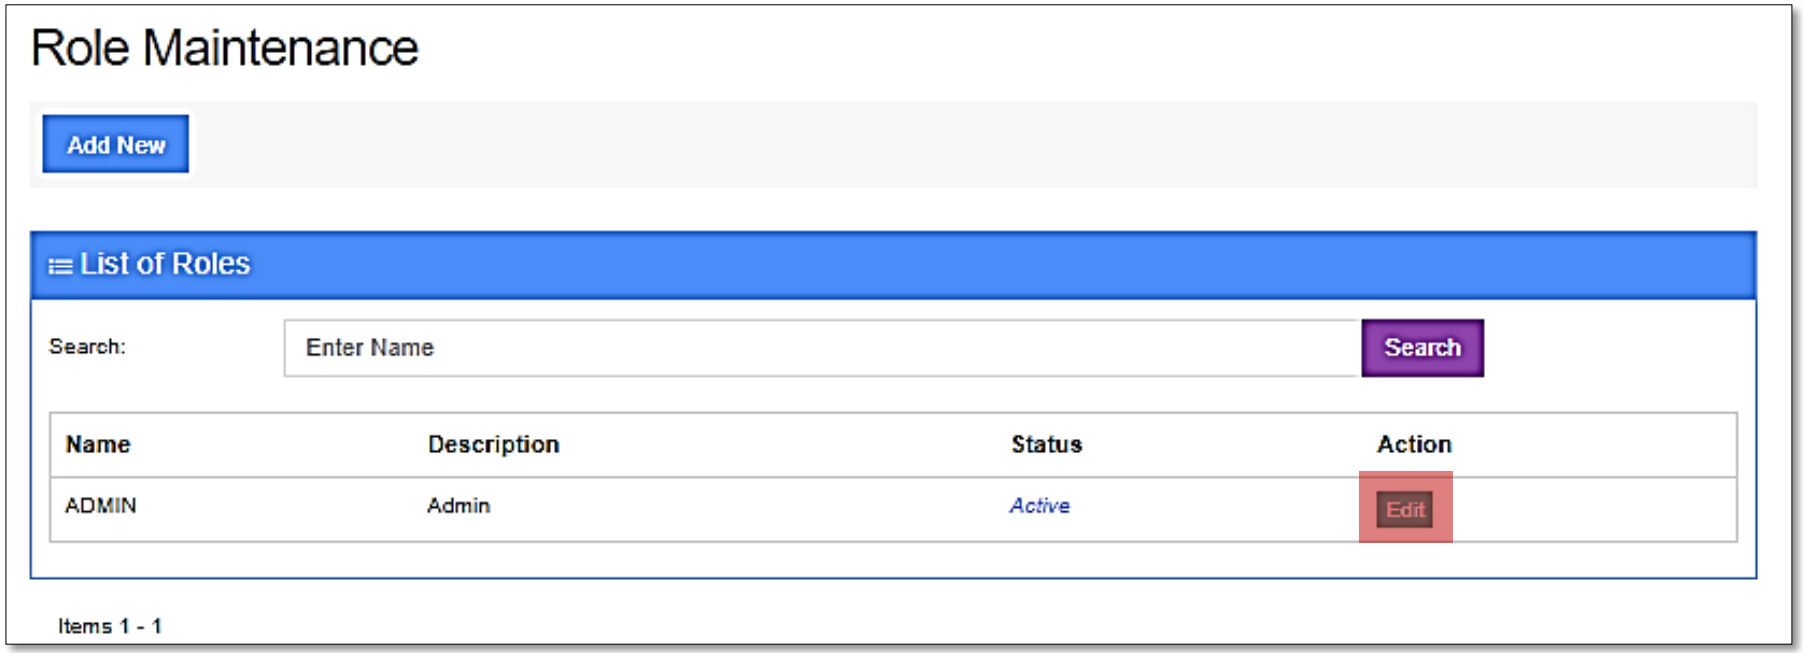

3. Enter all the necessary information once the **Add New Role** screen appears.
4. Click on the **Save Role** button to complete the process, or click on the **Close** button to cancel the procedure.

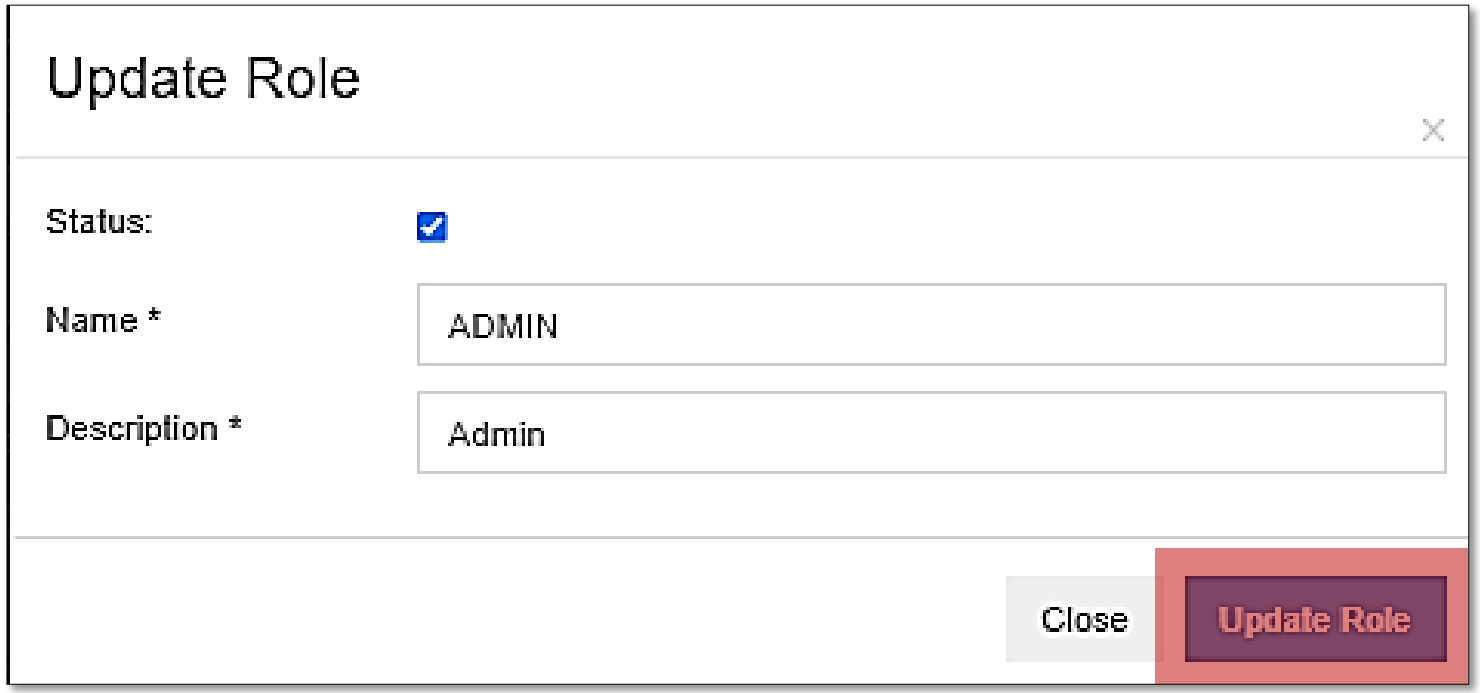

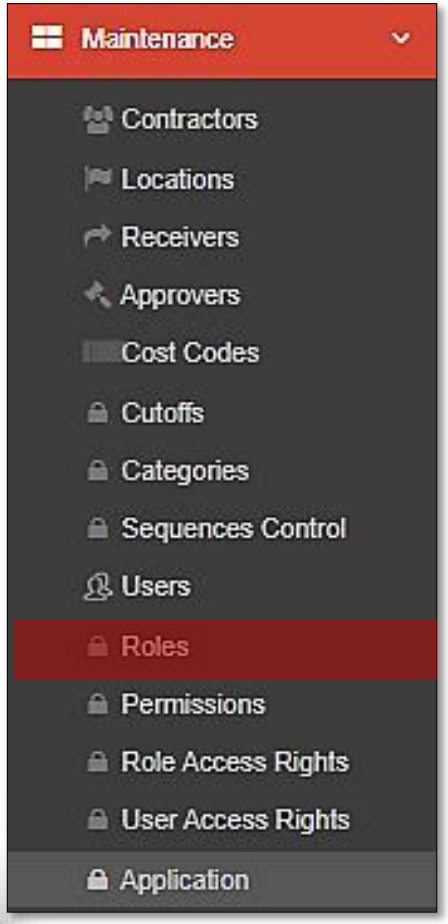

Edit Roles

1. Go to the **Maintenance** module, and choose the **Roles** option.
2. You may use the **Search** (Enter name) and **Pagination** function to look for a role you want to edit.
3. Click on the **Edit** button.

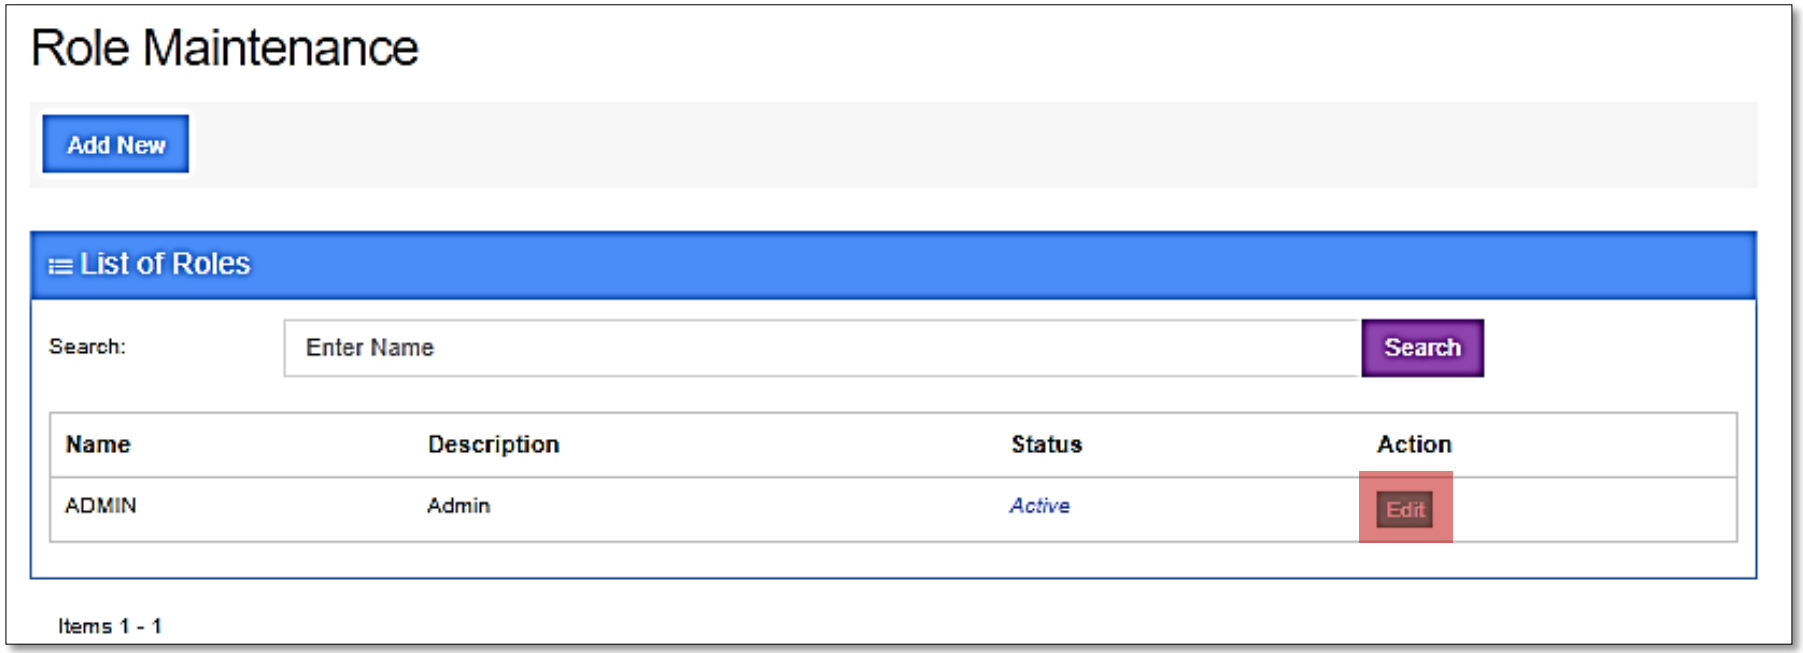

4. Change the name and description of a role accordingly once the **Update Role** screen appears.
5. Click on the **Update Role** button to complete the process, or click on the **Close** button to cancel the procedure.

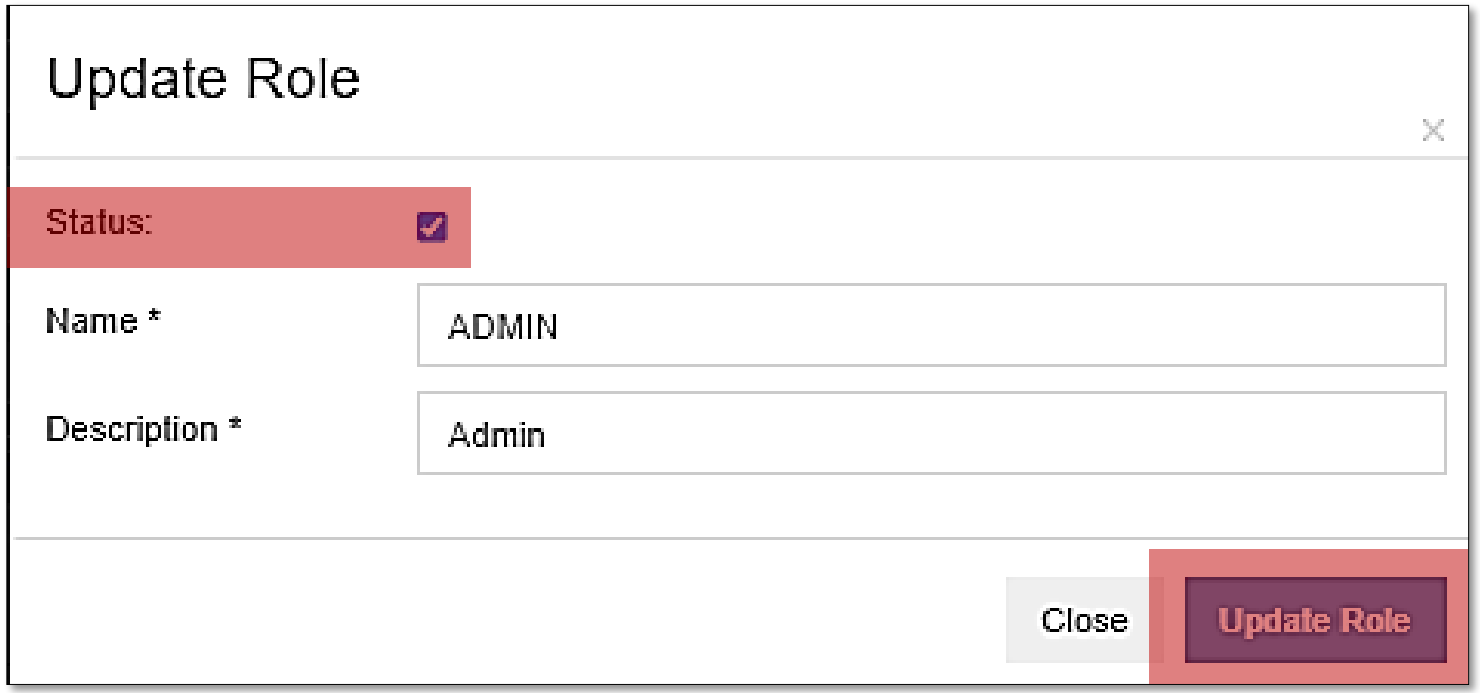

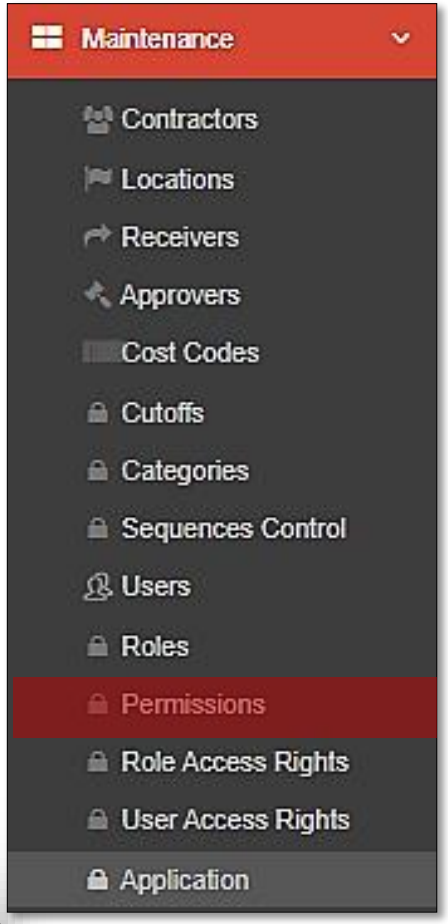

Tagging a Role as Active or Inactive

1. Go to the **Maintenance** module, and choose the **Roles** option.
2. Click on the **Edit** button.

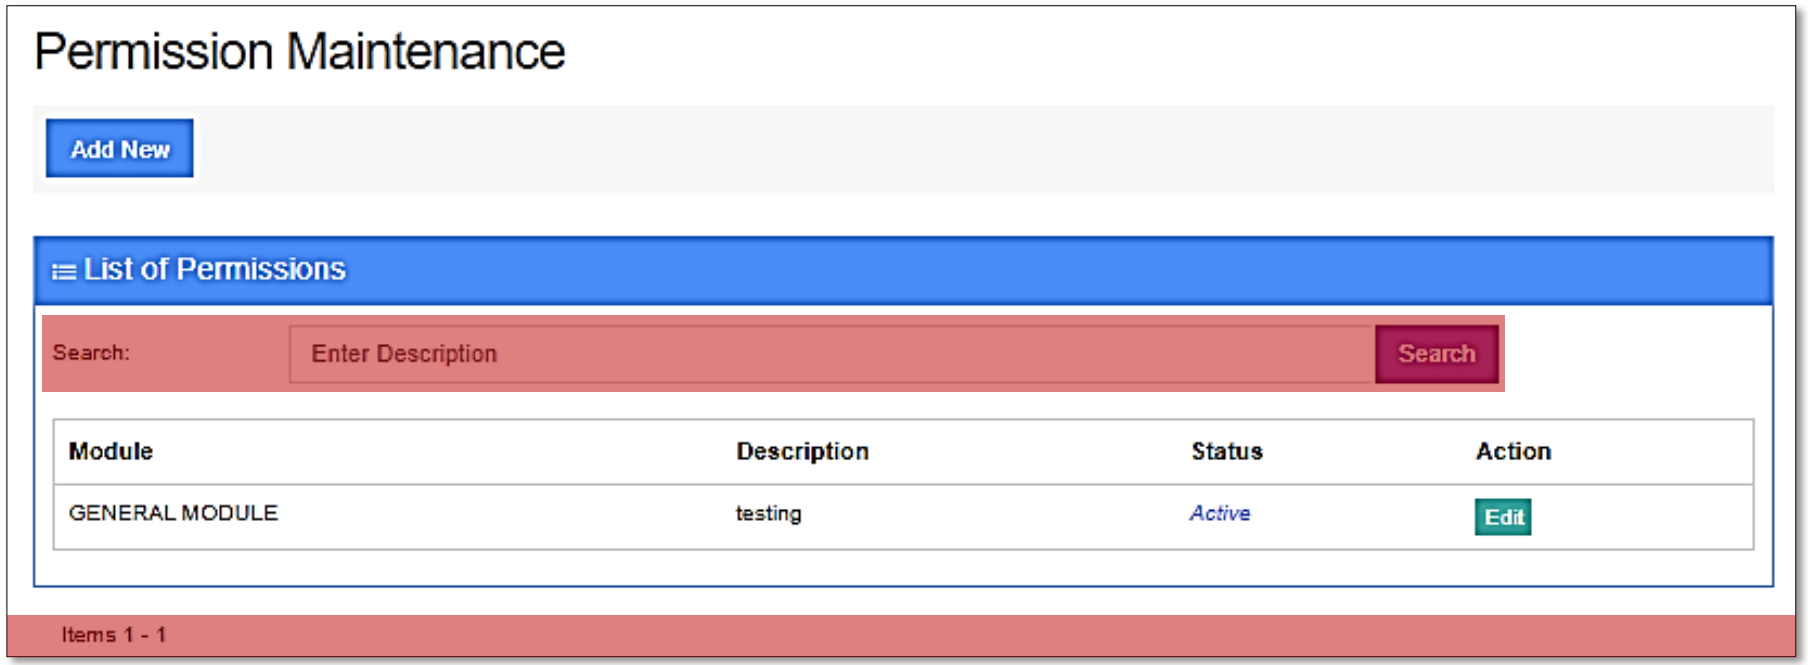

3. Then put a tick mark in the box beside **Status** if you want to tag a role as active, and leave the tick box blank if you want it to be inactive.
4. Click on the **Update Role** button to proceed, or click on the **Close** button to cancel the procedure.

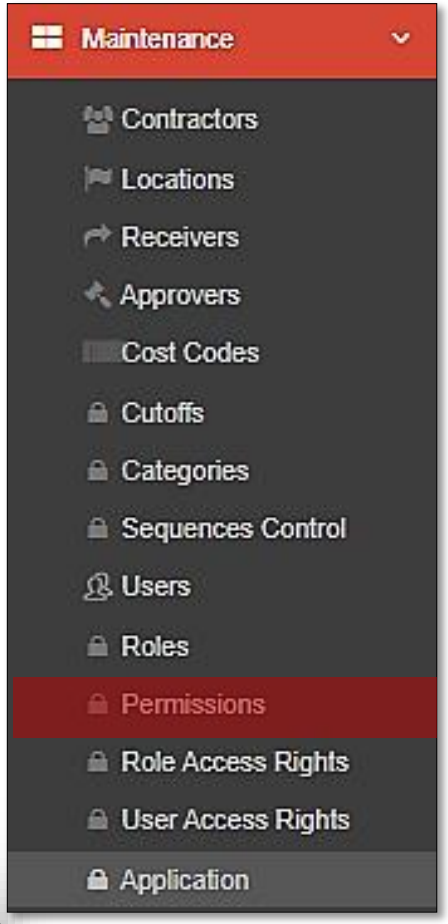

Permissions

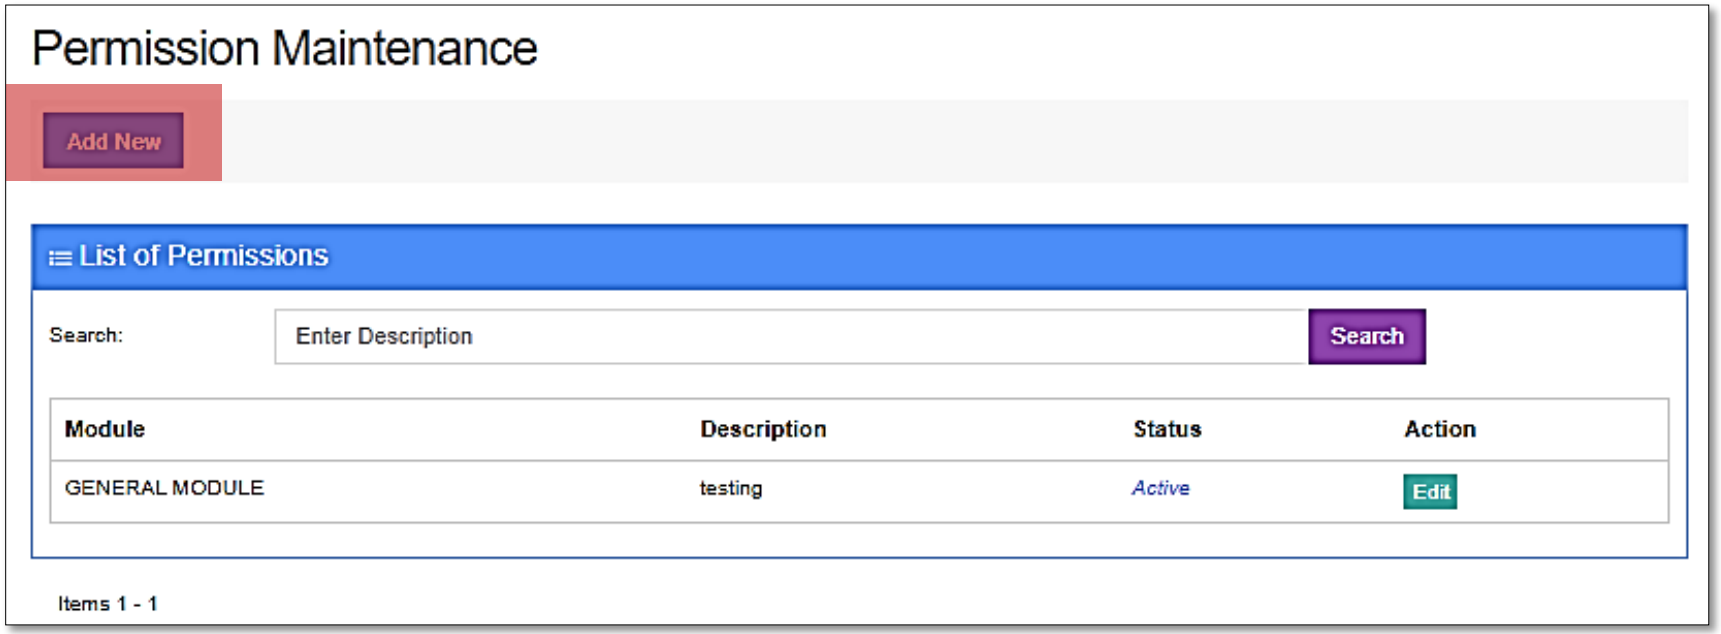

1. Go to the **Maintenance** module, and choose the **Permissions** option.
2. You will be able to view the Permissions in the system. You may use the **Search** (Enter Description) and the **Pagination** function to look for **Permission.**

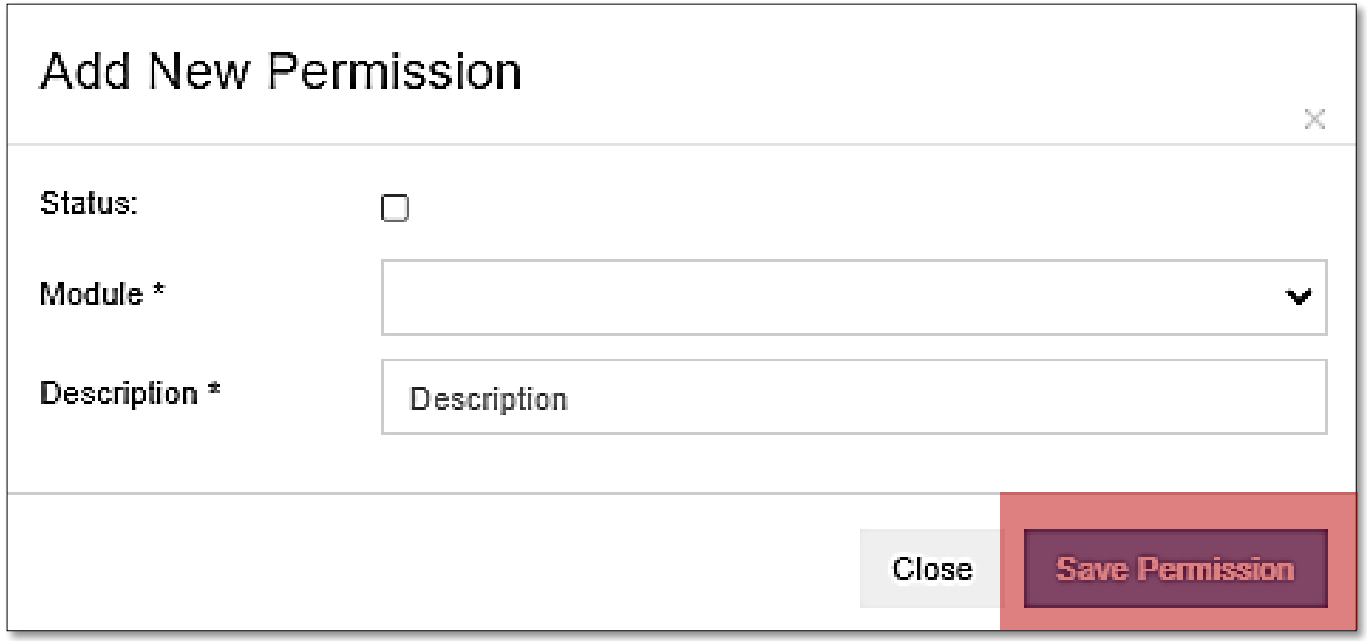

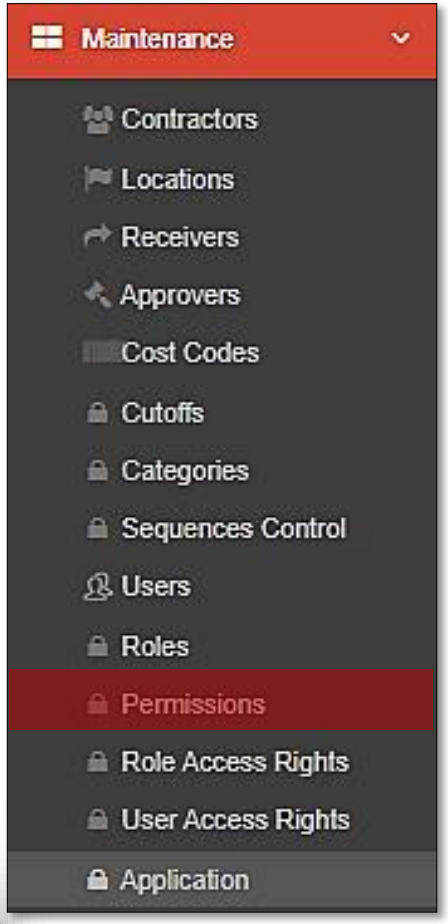

Add New Permission

1. Go to the **Maintenance** module, and choose the **Permissions** option.
2. Click on the **Add New** button.

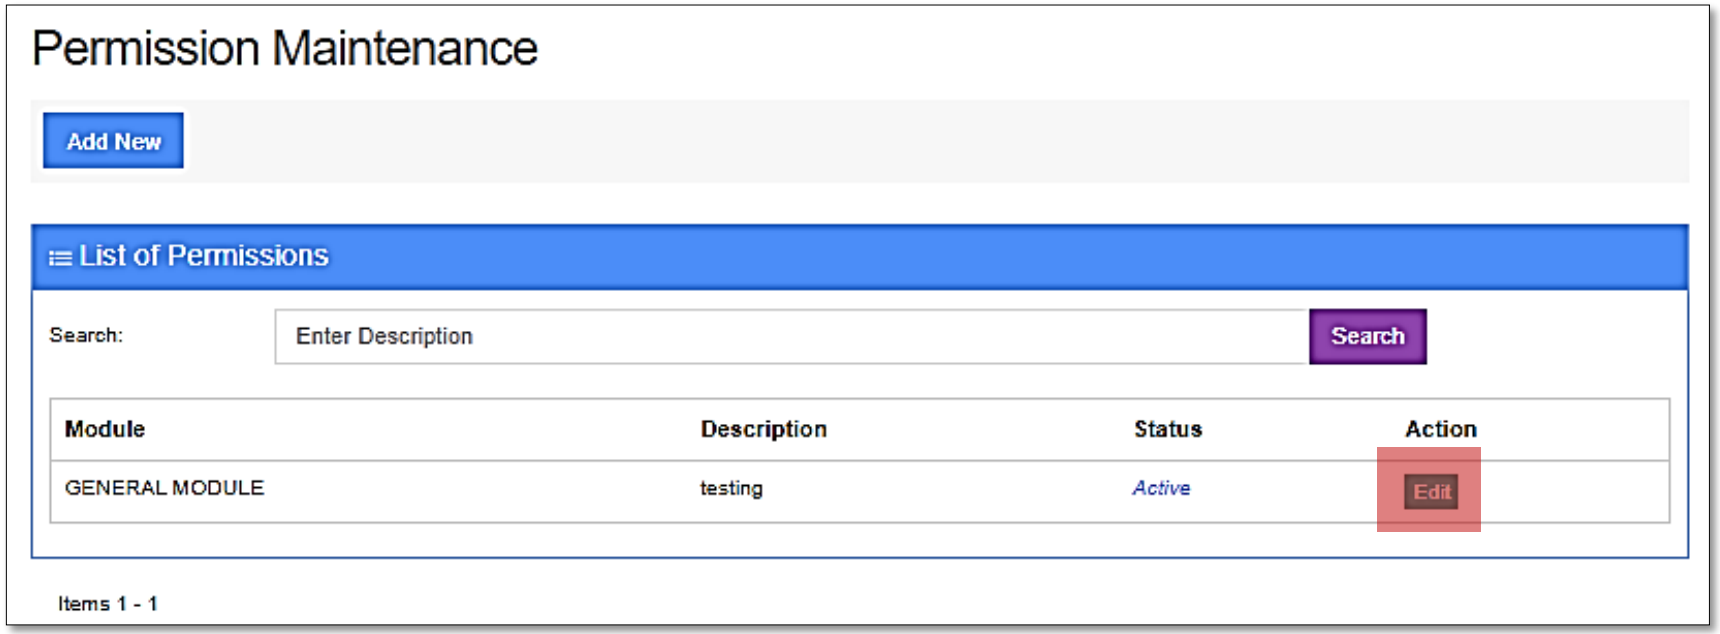

3. Enter all the necessary information once the **Add New Permission** screen appears.
4. Click on the **Save Permission** button to complete the process, or click on the **Close** button to cancel the procedure.

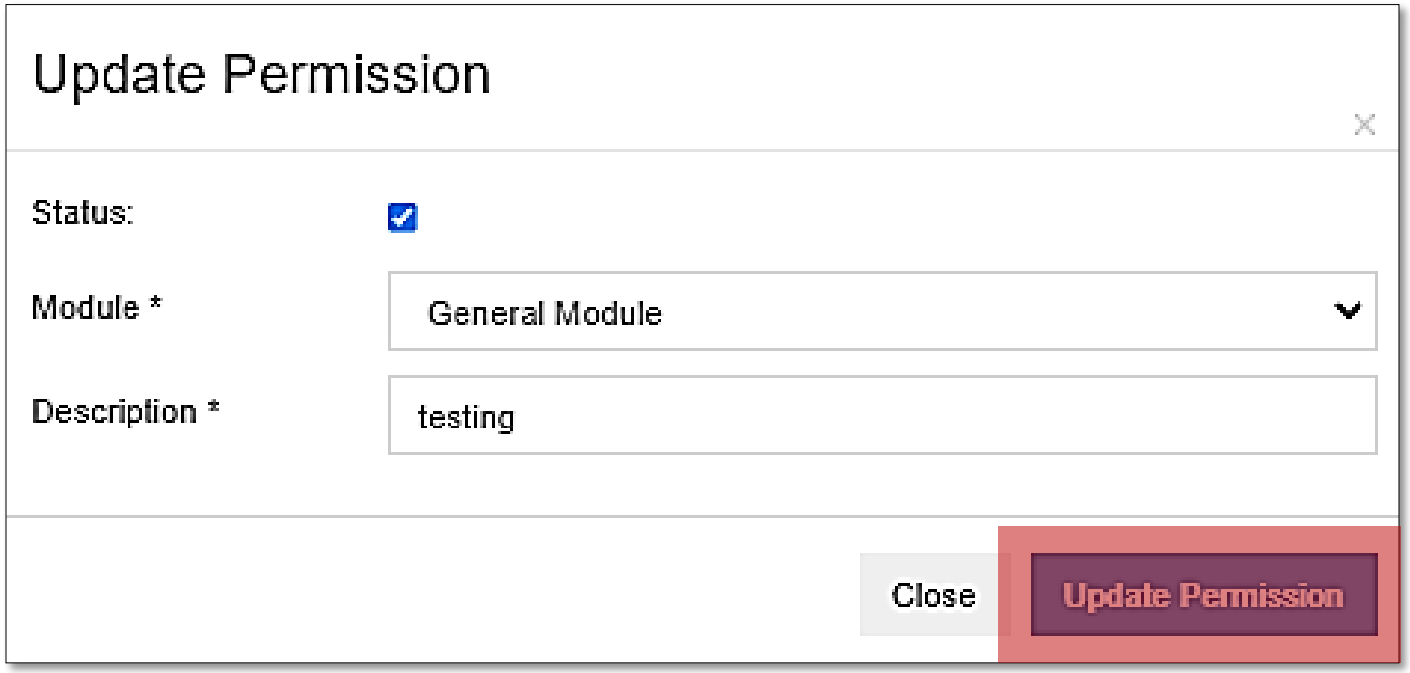

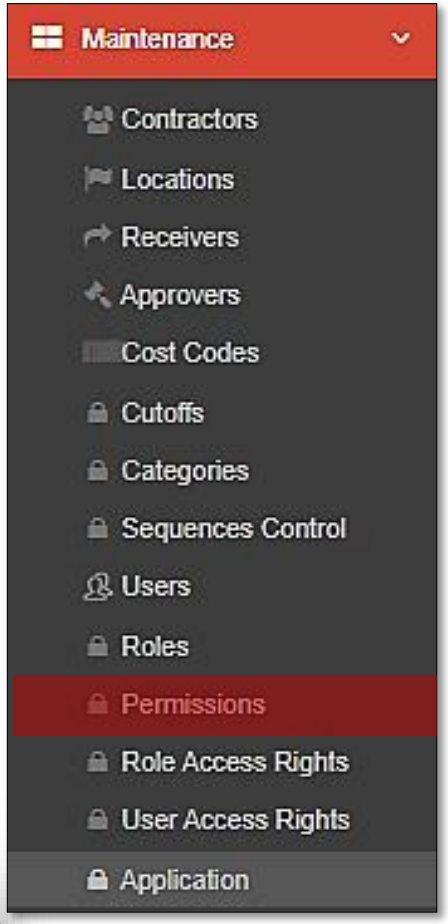

Edit Permissions

1. Go to the **Maintenance** module, and choose the **Permissions** option.
2. You may use the **Search** (Enter description) and **Pagination** function to look for a permission you want to edit.
3. Click on the **Edit** button.

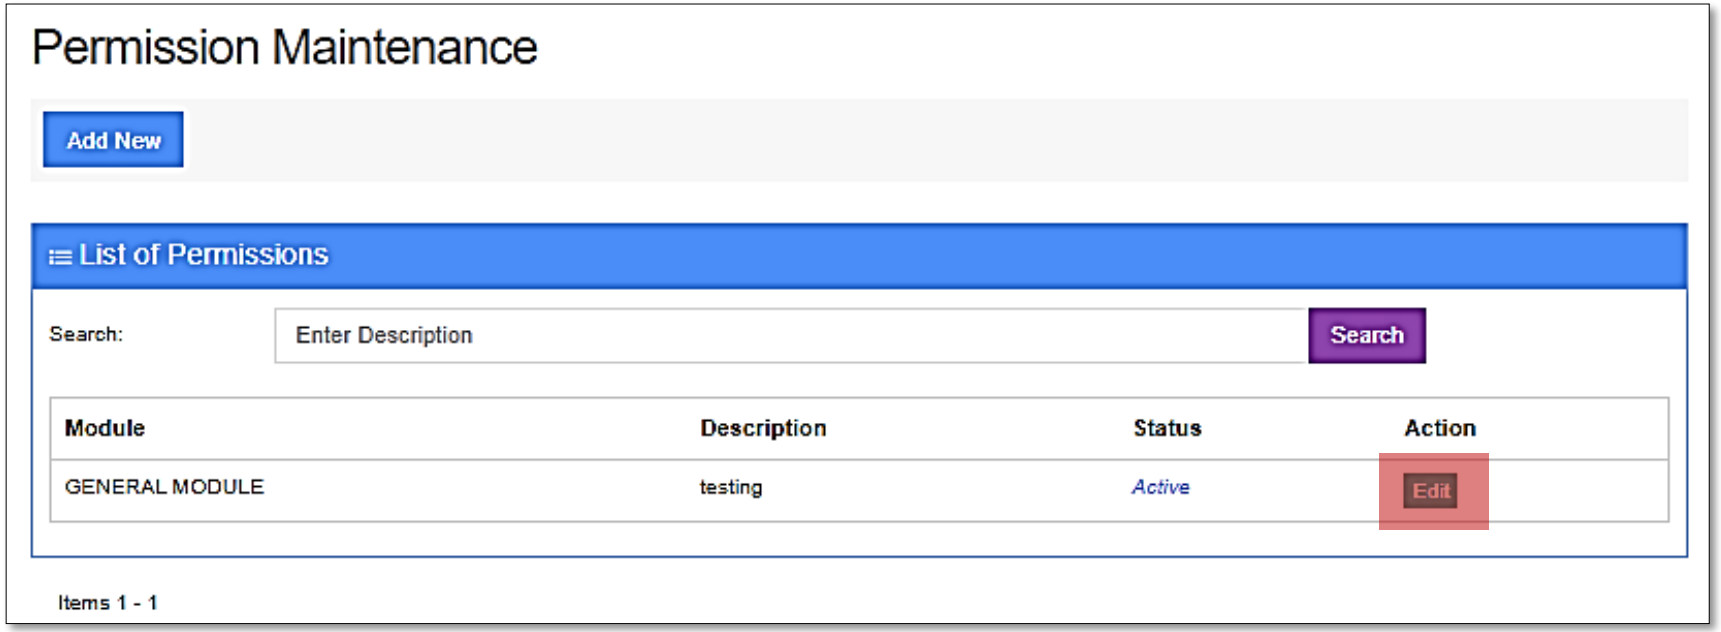

4. Change the Module and description of a role accordingly once the **Update Permission** screen appears.
5. Click on the **Update Permission** button to complete the process, or click on the **Close** button to cancel the procedure.

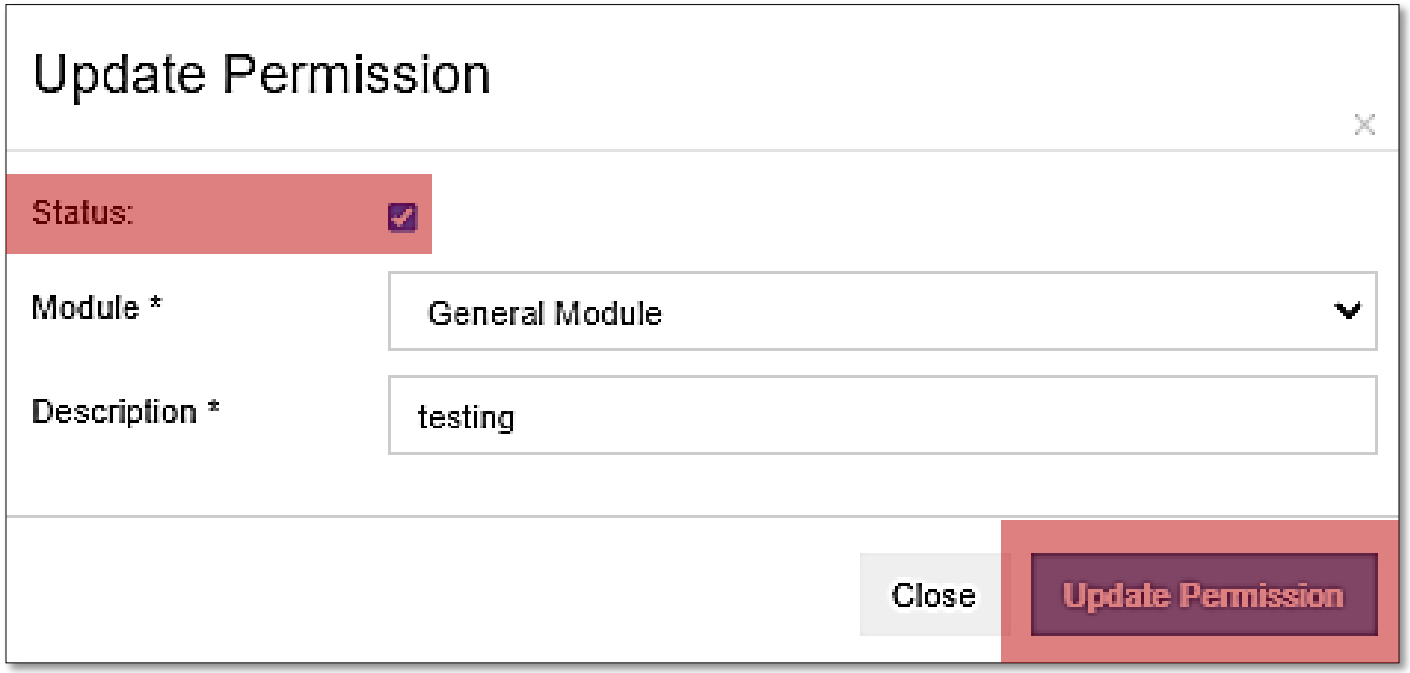

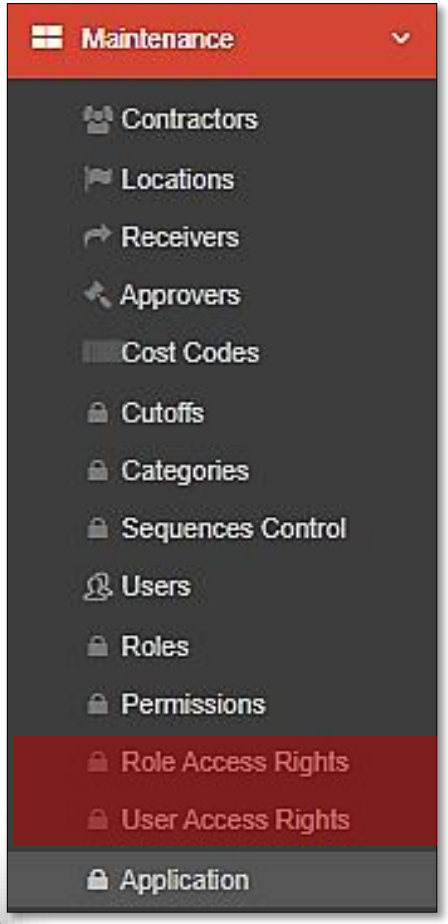

Tagging a Permission as Active or Inactive

1. Go to the **Maintenance** module, and choose the **Permissions** option.
2. Click on the **Edit** button.

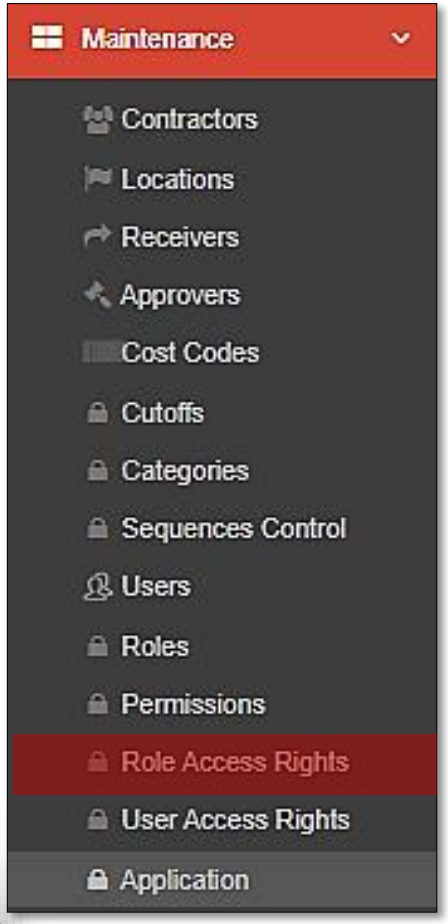

3. Then put a tick mark in the box beside **Status** if you want to tag a role as active, and leave the tick box blank if you want it to be inactive.
4. Click on the **Update Permission** button to proceed, or click on the **Close** button to cancel the procedure.

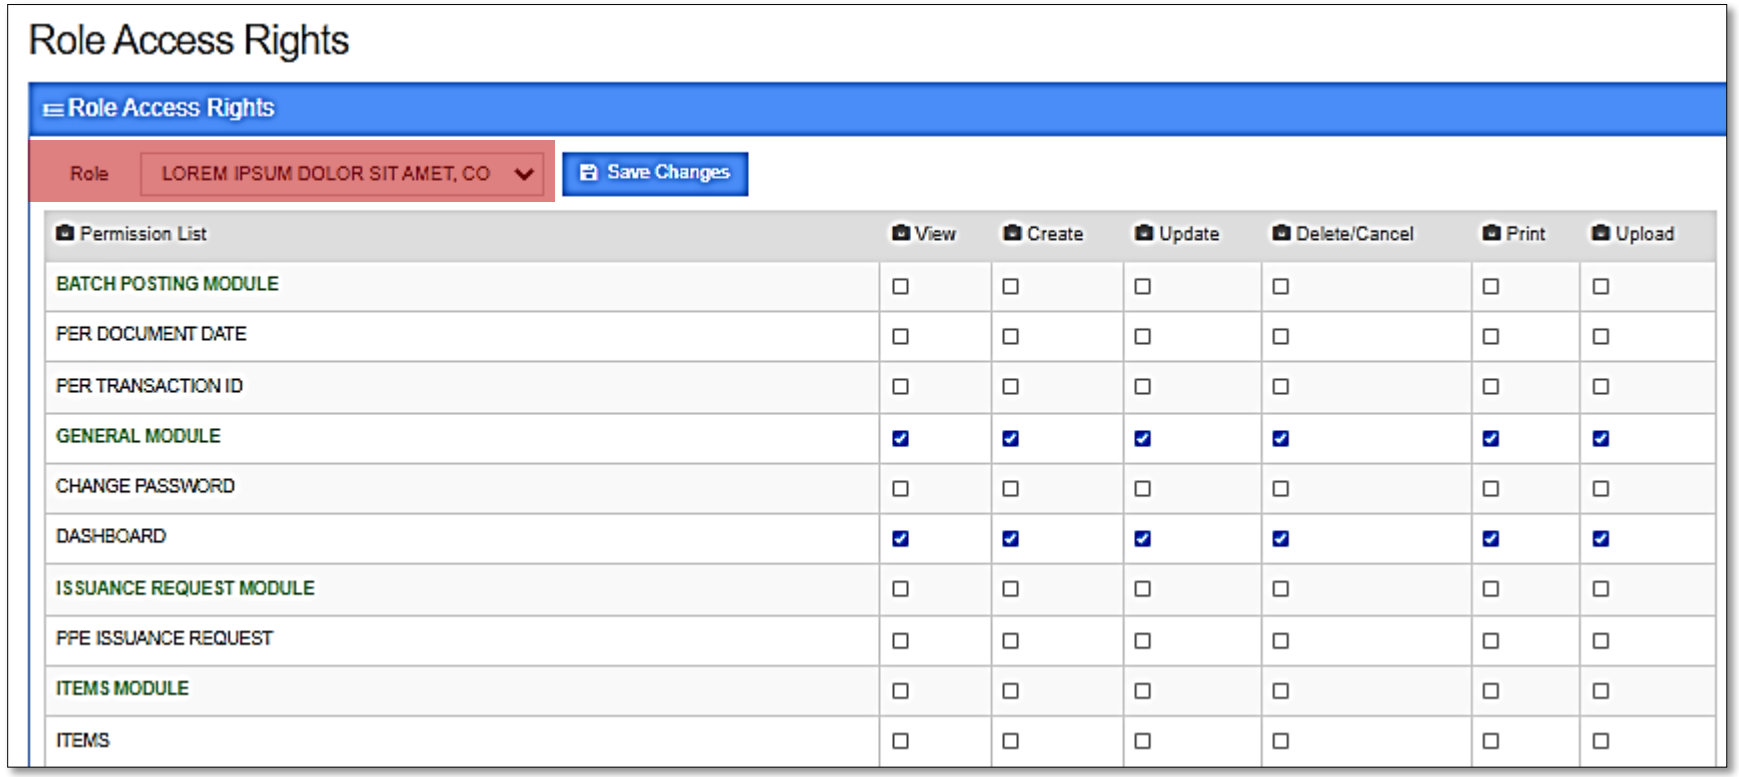

Role Access Rights and User Access Rights

Roles access rights	It is a sub-module where you can assign permission to a particular role.
User access rights	It is a sub-module where you can assign permission to a particular user.
Permission List	It is the list of modules that can be assigned or granted permission to different users or roles.
View	It is a field wherein you can click to put a tick mark. It means that the User/Role will have access to viewing a particular module.
Create	It is a field wherein you can click to put a tick mark. It means that the User/Role will be able to create data in a particular module.
Update	It is a field wherein you can click to put a tick mark. It means that the User/Role can update data or information in a particular module.
Delete/Cancel	It is a field wherein you can click to put a tick mark. It means that the User/Role can delete or cancel a data or information in a particular module.
Print	It is a field wherein you can click to put a tick mark. It means that the User/Role will be able to print data in a particular module.
Upload	It is a field wherein you can click to put a tick mark. It means that the User/Role will be able to upload a particular module.

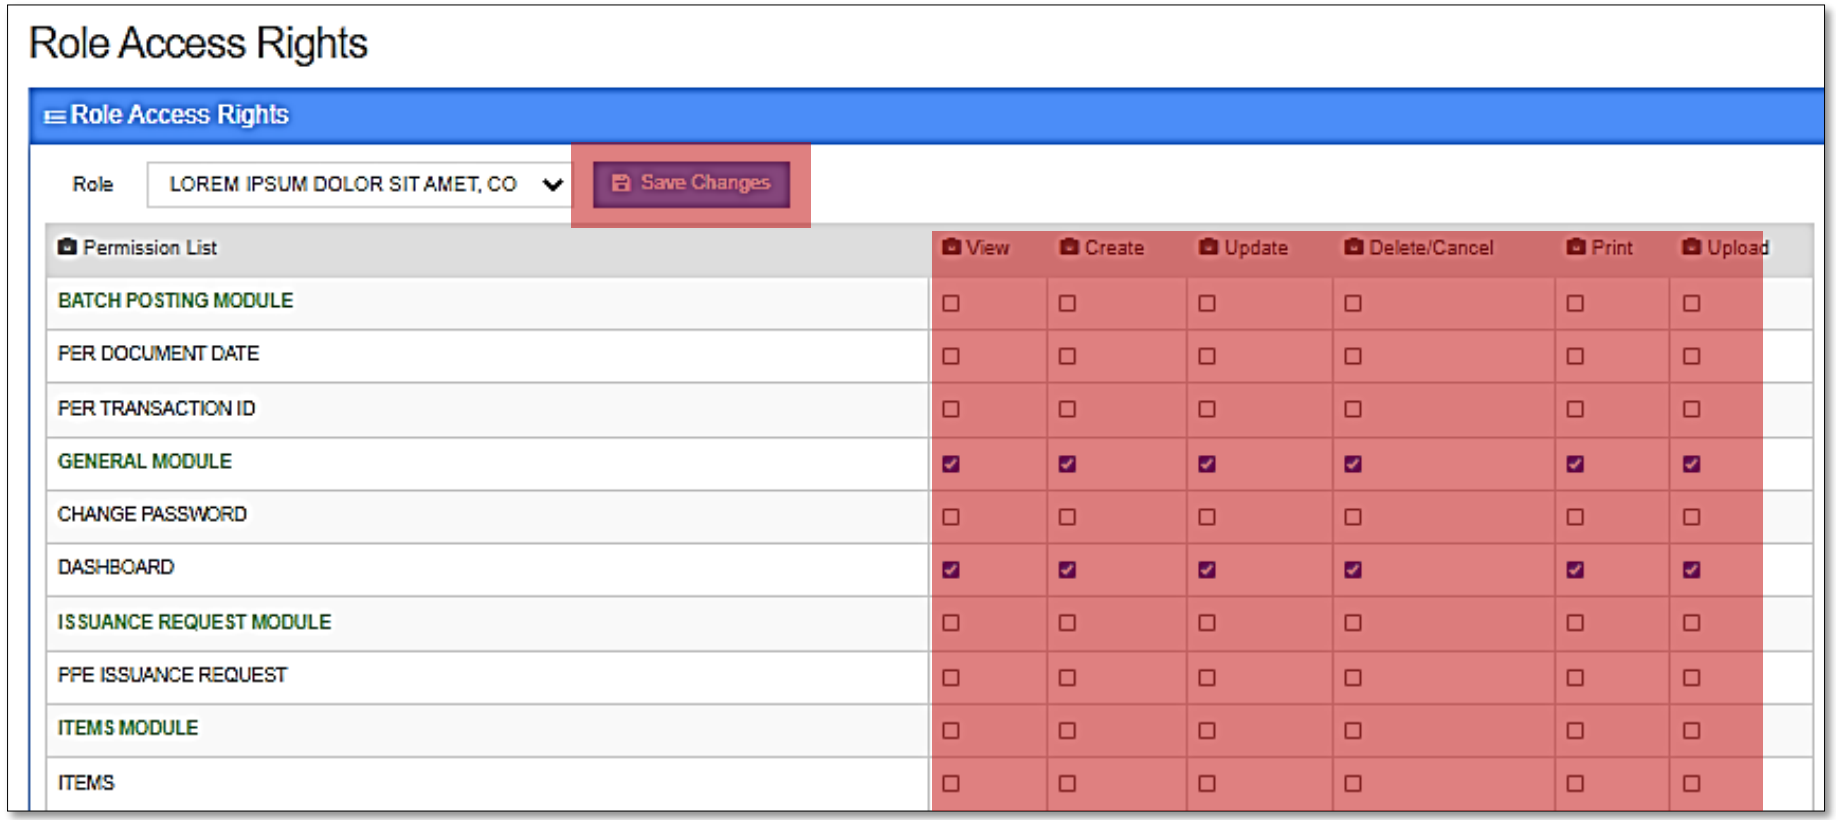

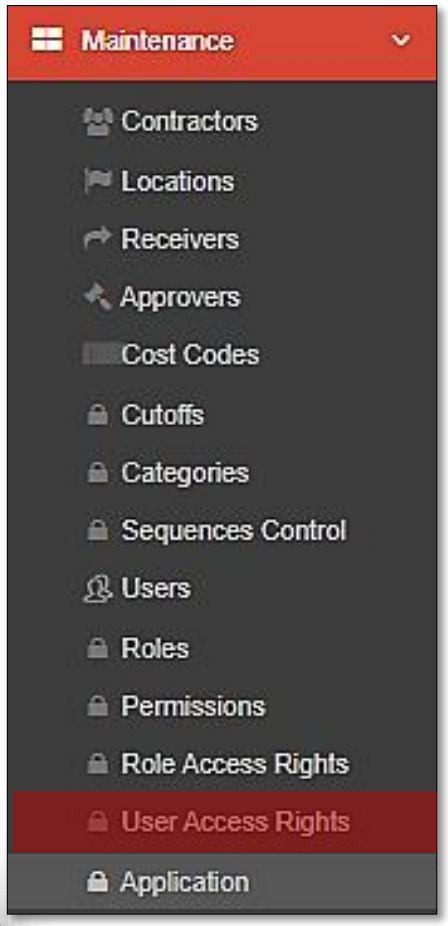

Role Access Rights

1. Go to the **Maintenance** module, and choose the **Role Access Rights** option.
2. View the **Role Access Rights** screen.
3. Choose a role by using the drop-down option.

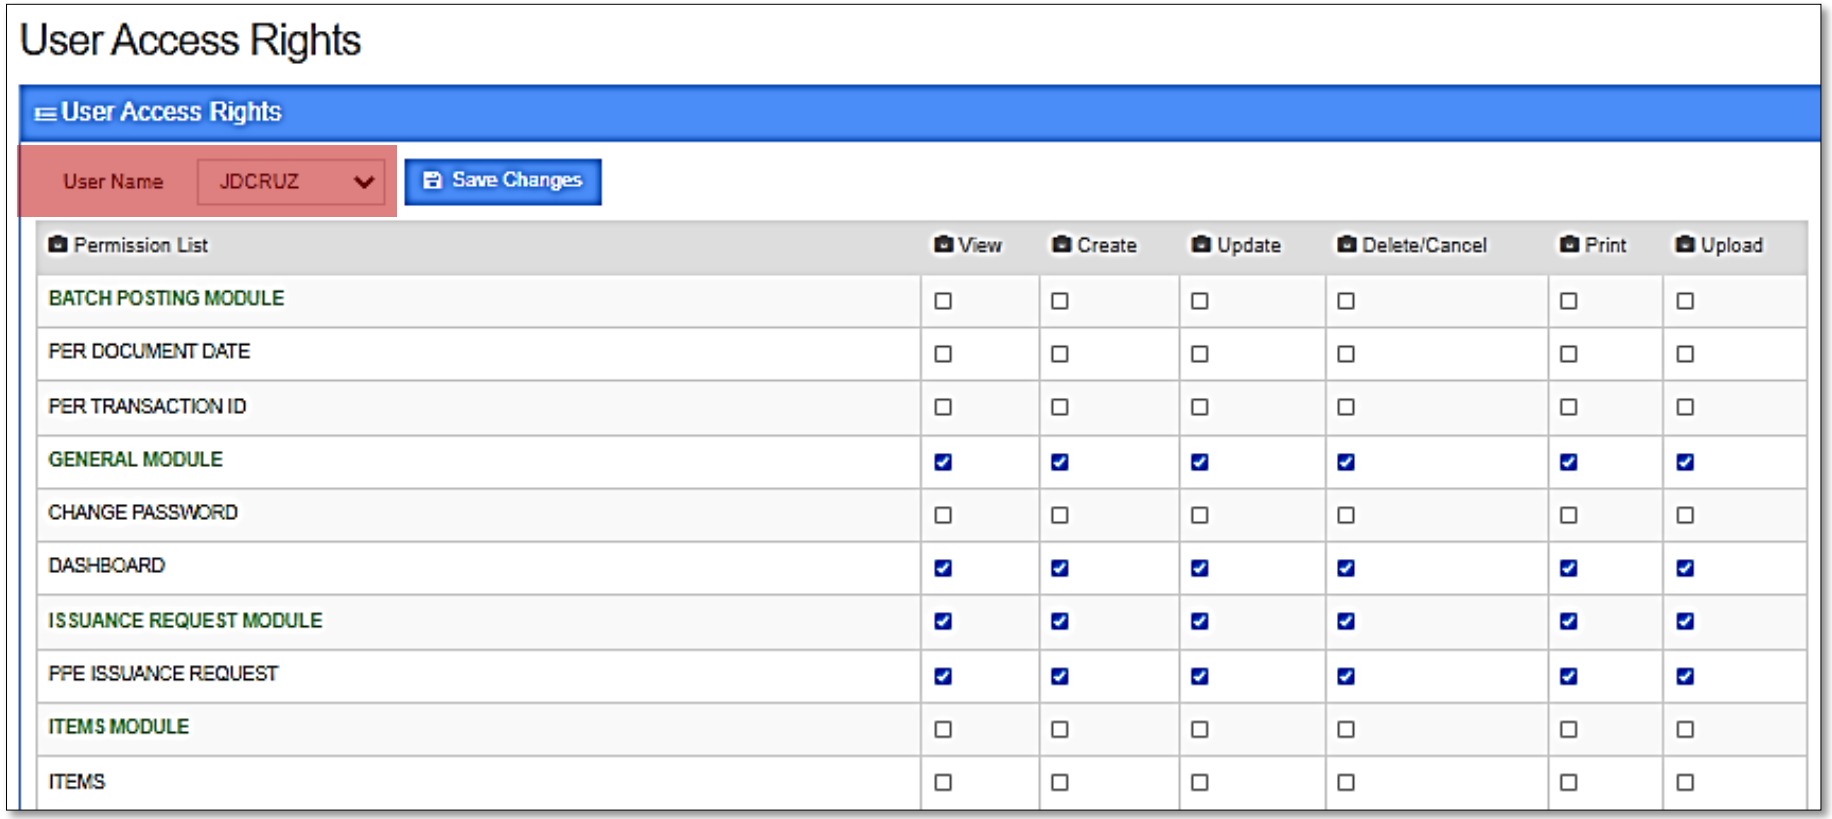

4. Choose the Access Rights/Actions you want to apply per module.
5. Tick the checkbox on the actions that a role will be allowed to manage.
6. Click on the **Save Changes** button to confirm the changes.

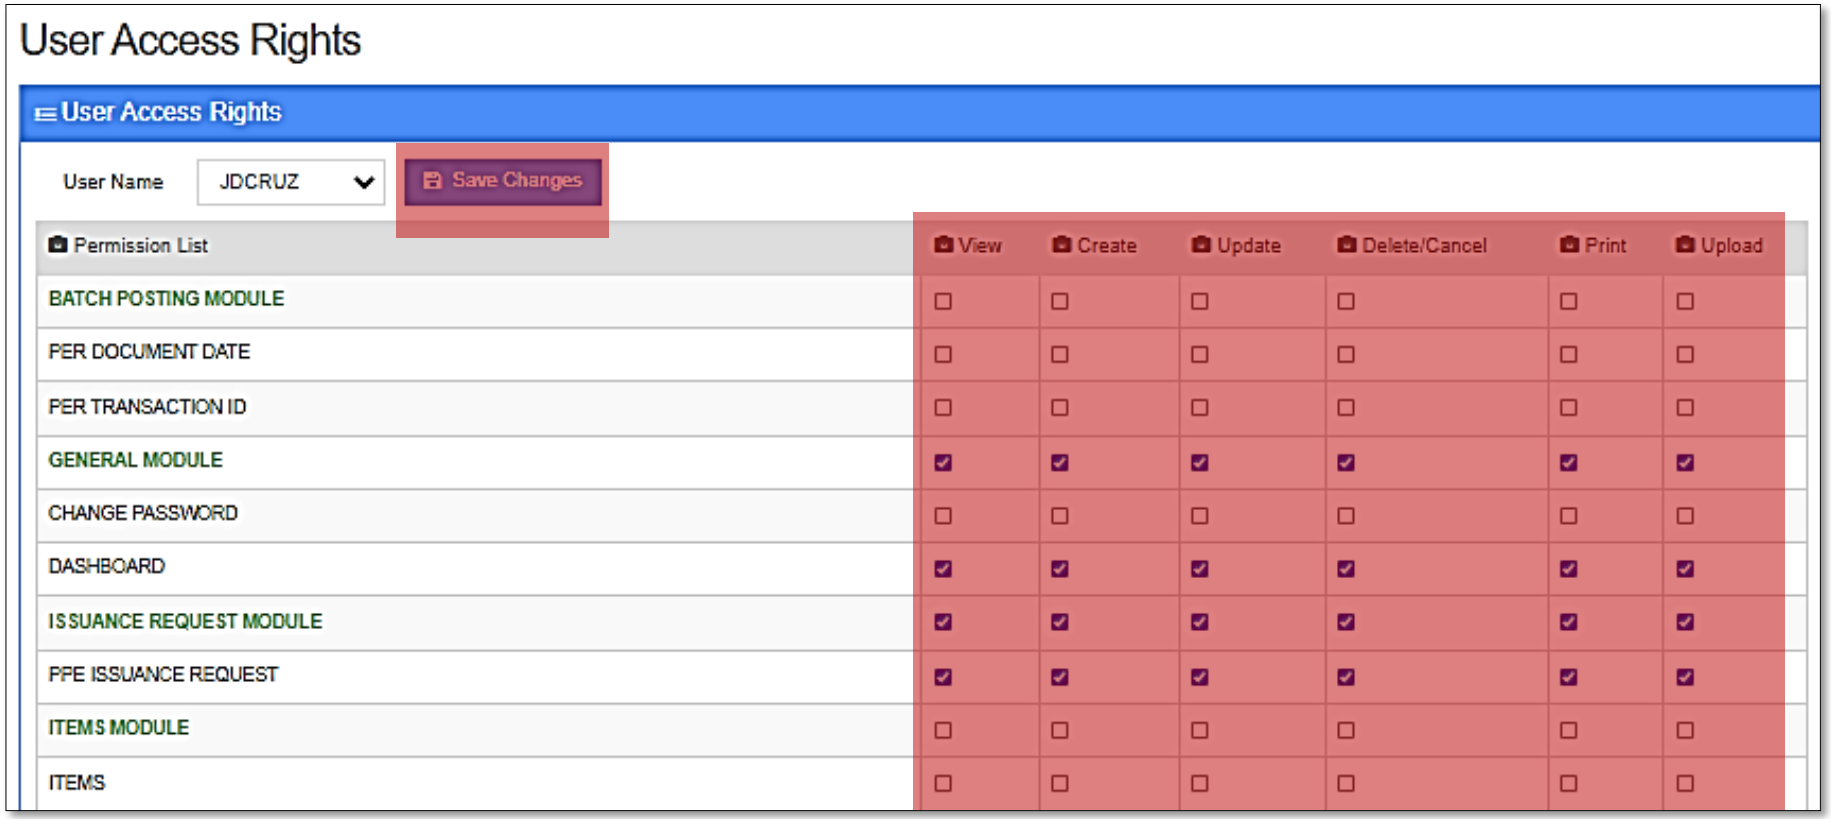

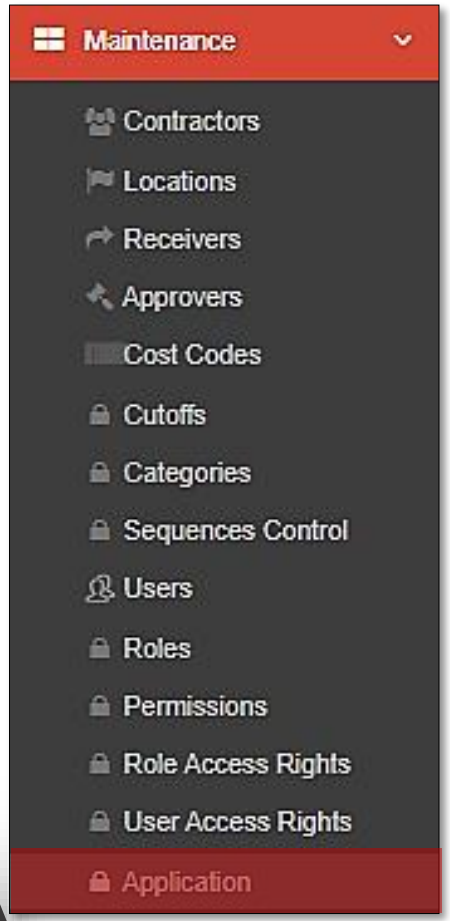

User Access Rights

1. Go to the **Maintenance** module, and choose the **User Access Rights** option.
2. View the **User Access Rights** screen.
3. Choose a specific user by using the drop-down option.

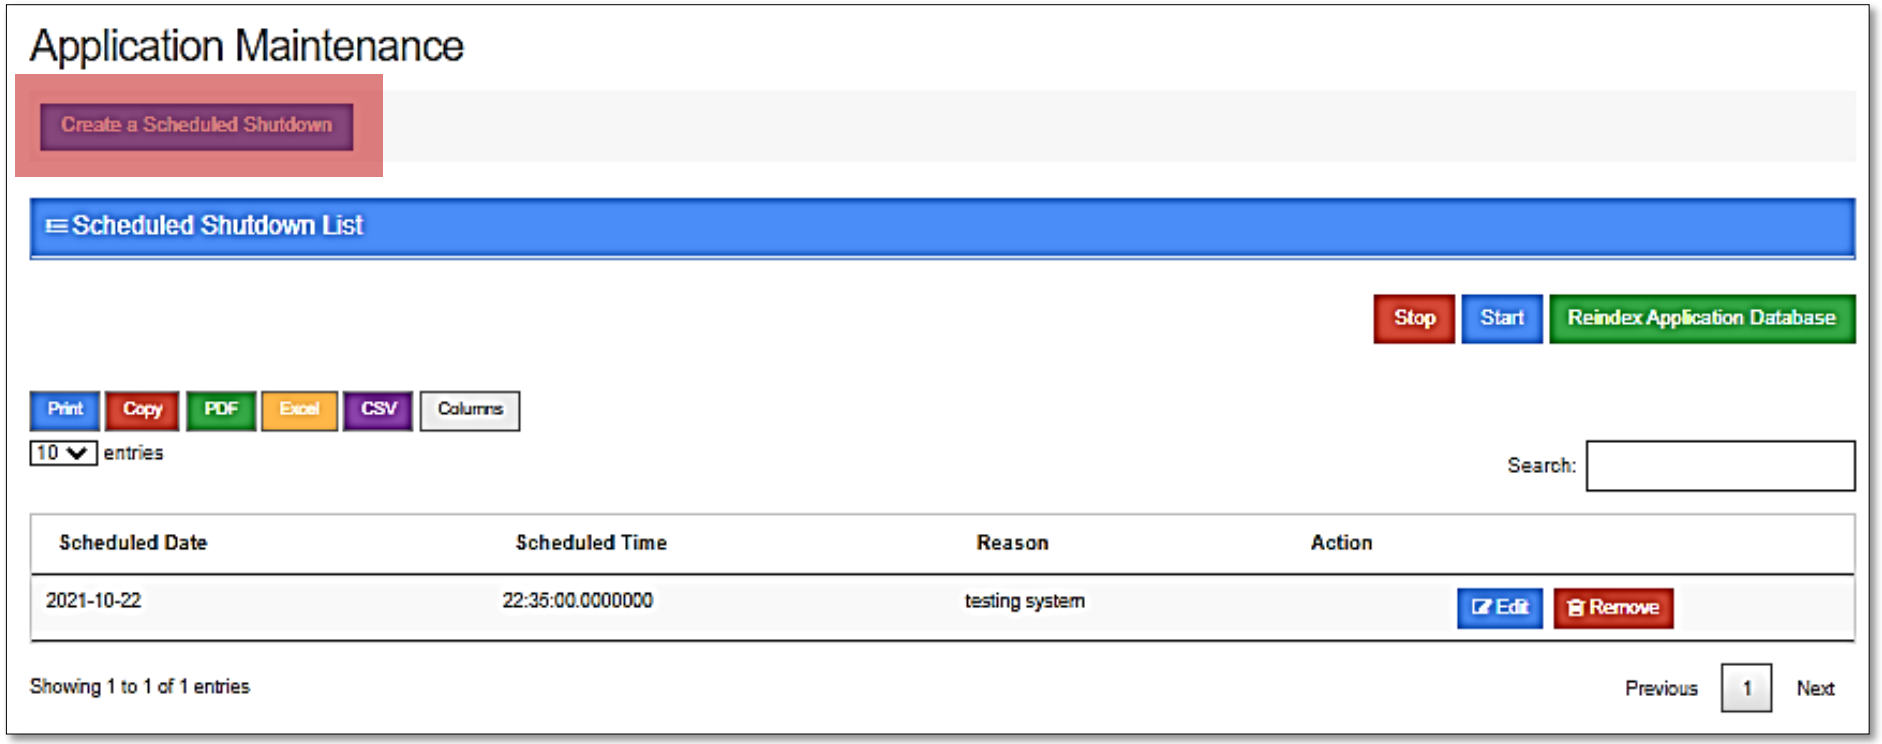

4. Choose the Access Rights/Actions you want to apply per module.
5. Tick the checkbox on the actions that a user will be allowed to manage.
6. Click on the **Save Changes** button to confirm the changes.

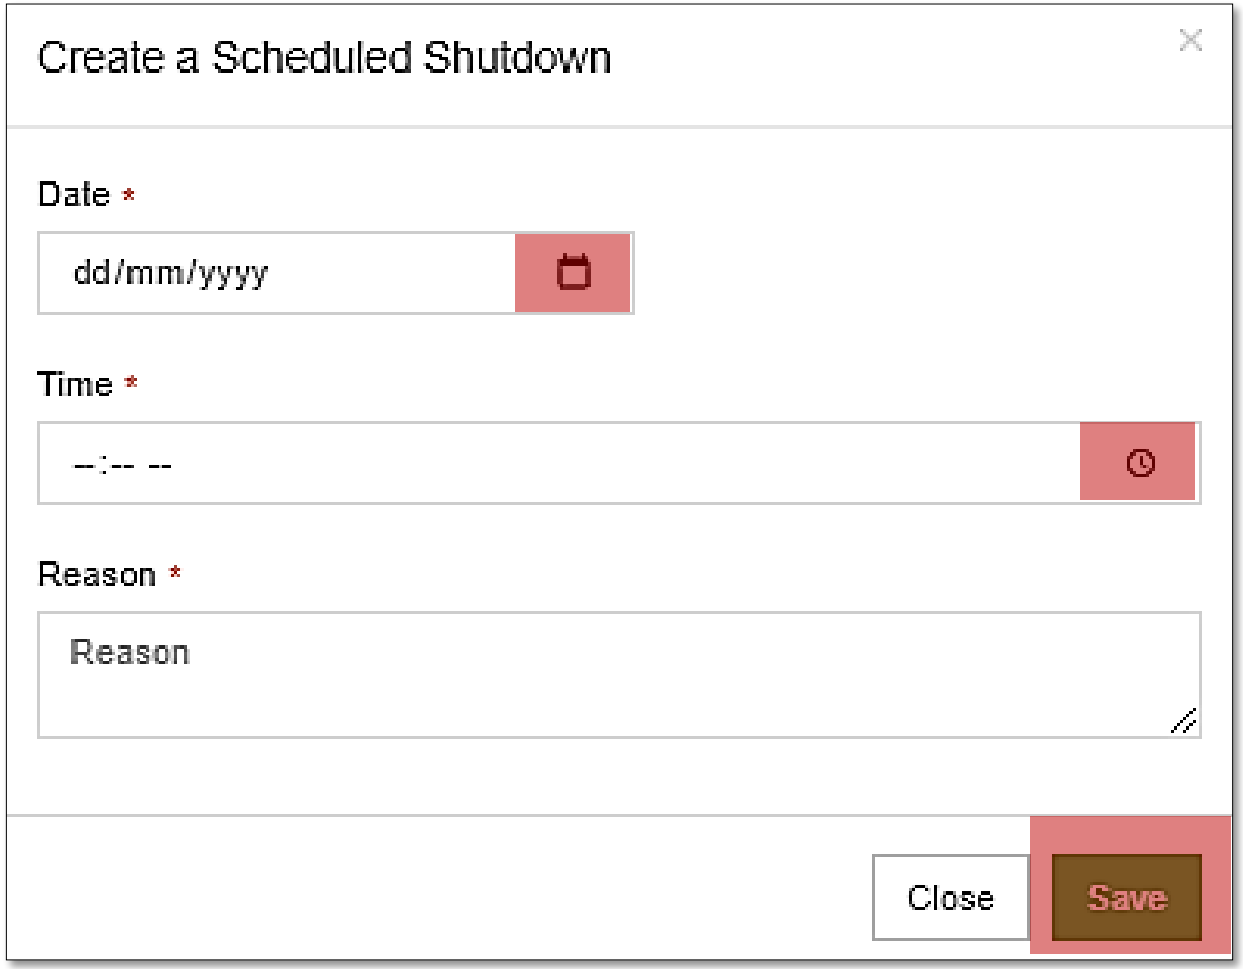

Adding a New Maintenance Shutdown Notification

1. Go to the **Maintenance** module, and choose the **Application** option.
2. Click on the **Create a Schedule Shutdown** button.

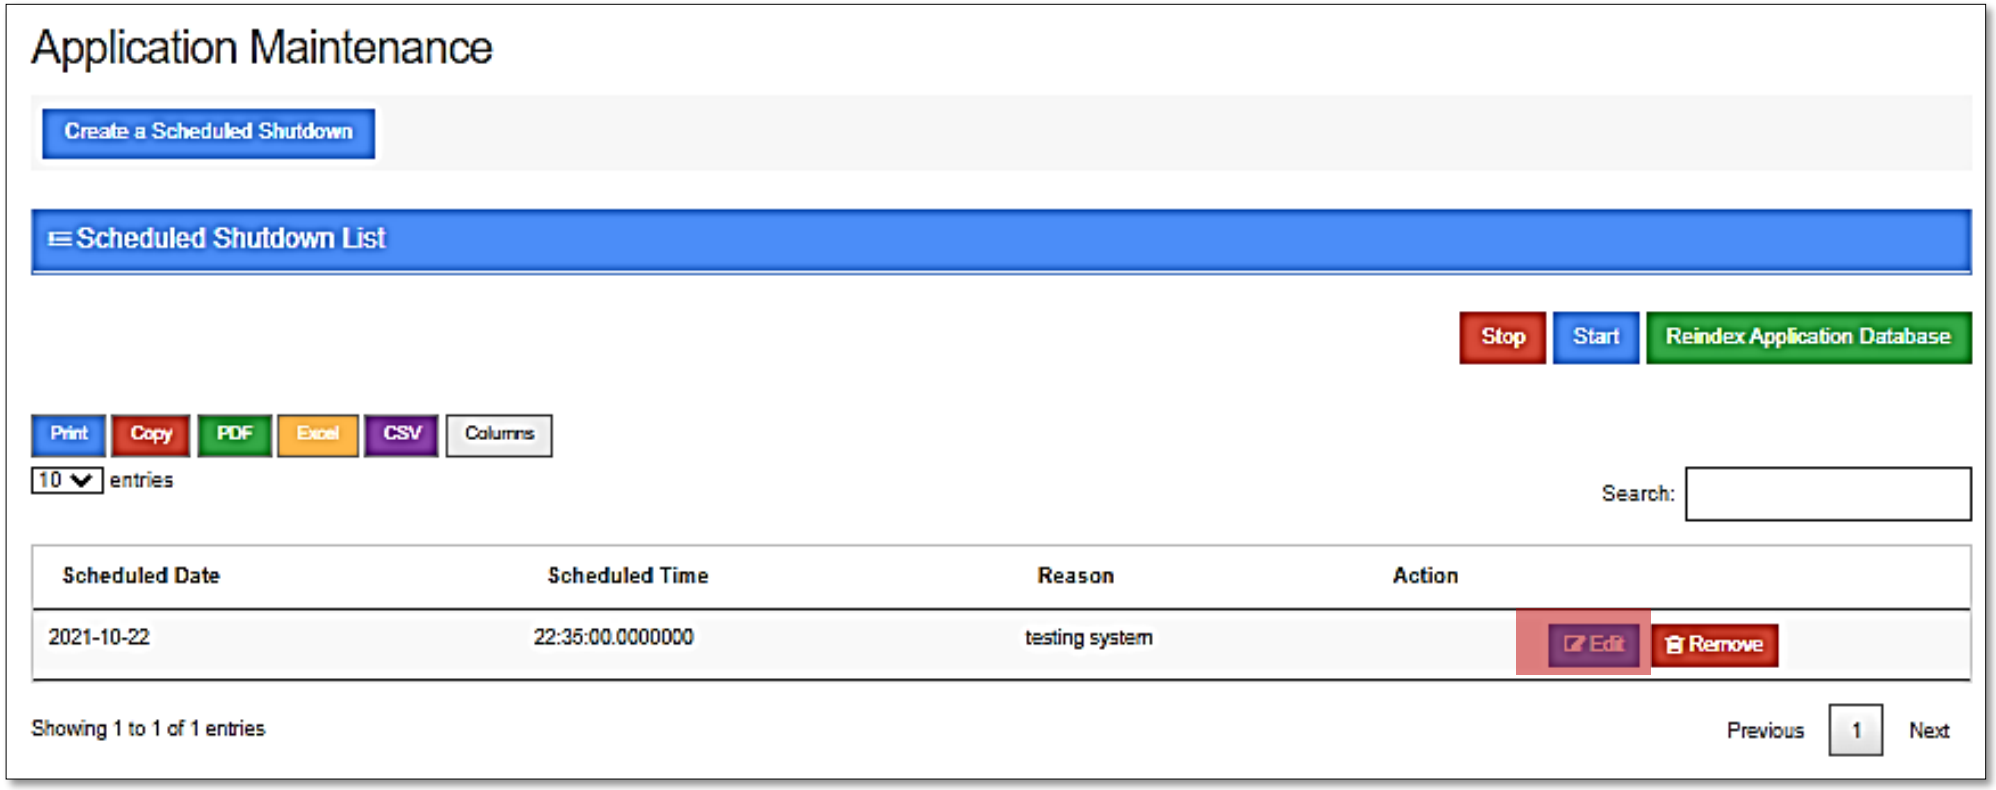

3. Provide the necessary information.
4. Click the **calendar icon** to select a date, then click the **time icon** to select the time.
5. Click on the **Save** button to complete the process, or click on the Close button to cancel the procedure.

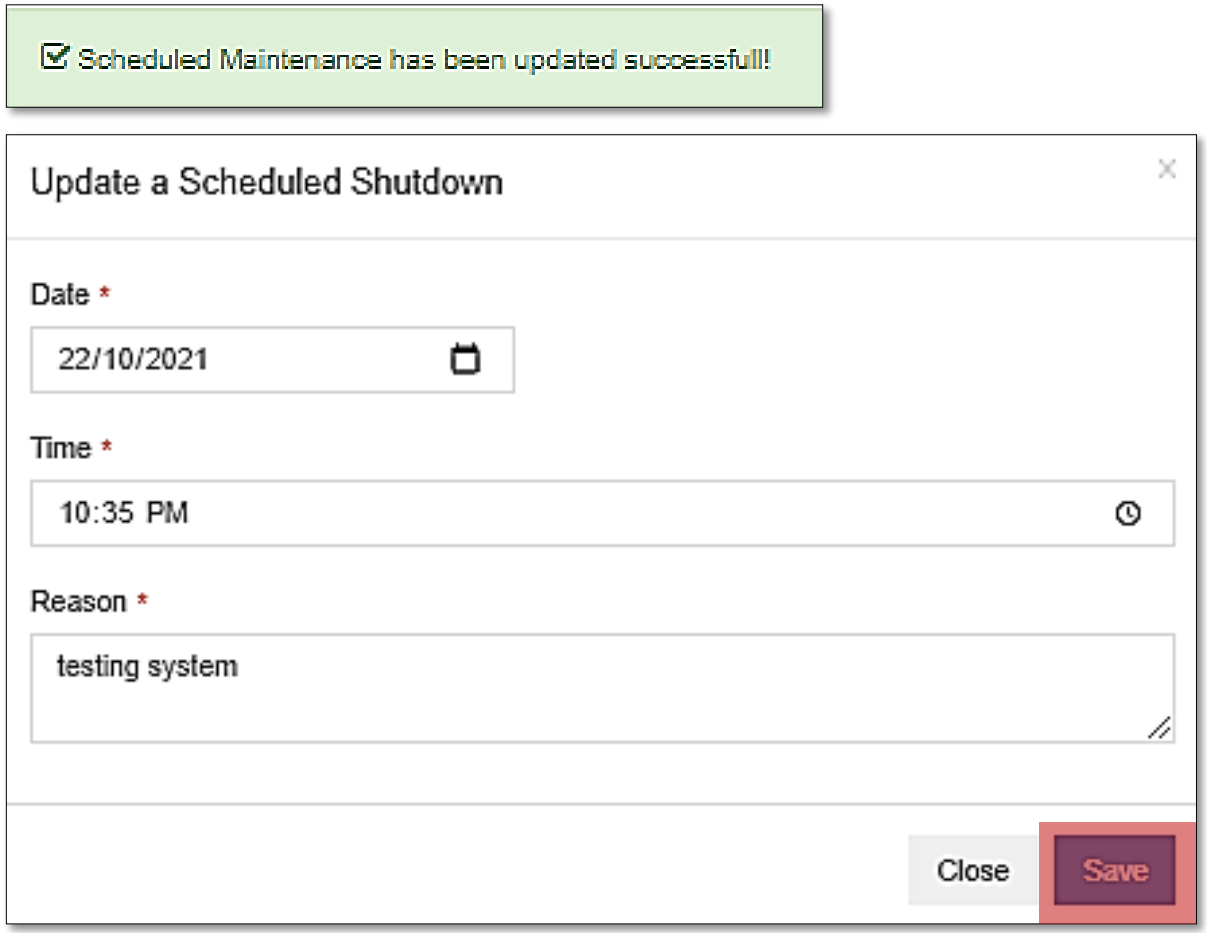

Editing a Maintenance Shutdown Notification

1. Go to the **Maintenance** module, and choose the **Application** option.
2. View the **Application** screen. You may use the **Search** or the **Pagination** function to look for the schedule you want to edit.
3. Click on the **Edit** button.

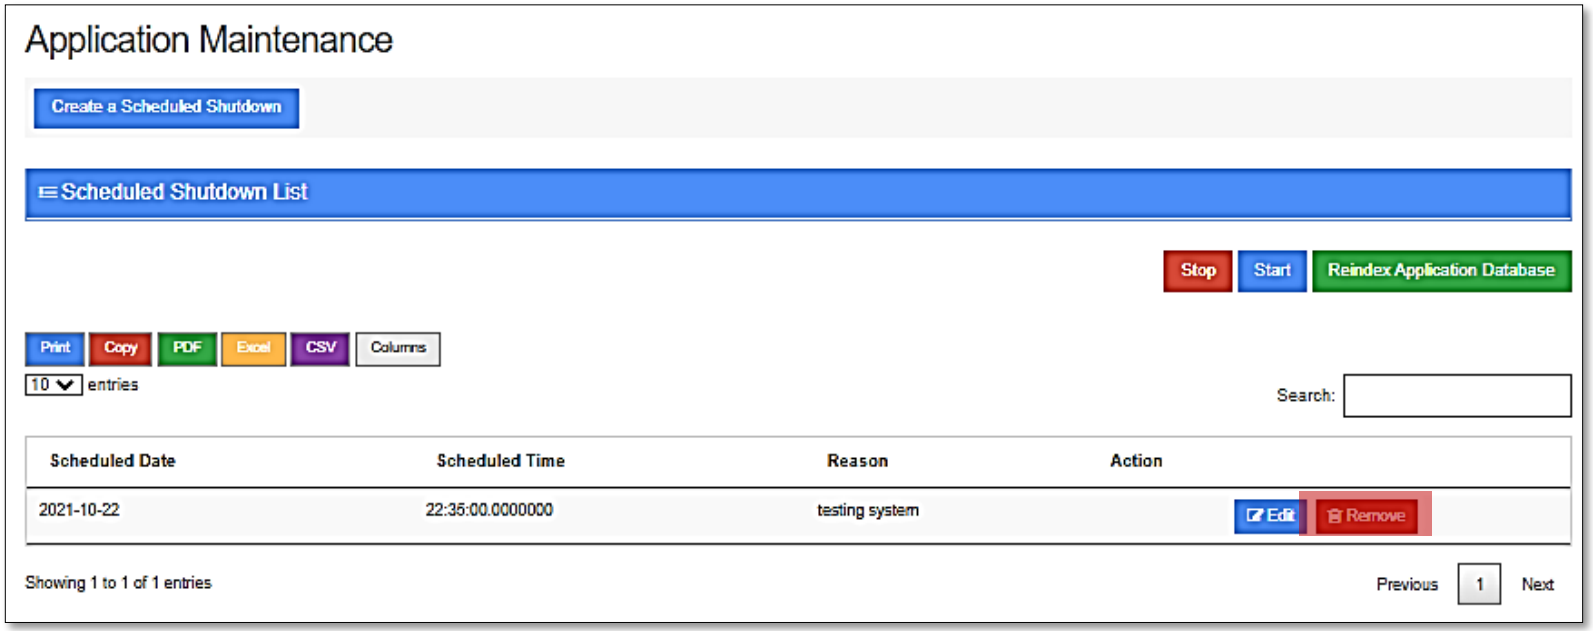

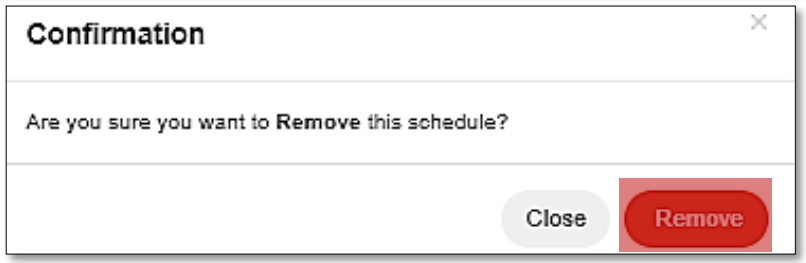

4. Input the necessary changes that you want to make.
5. Then click on the **Save** button to complete the process, or click on the **Close** button to cancel the procedure.
6. A notification will appear that the “Scheduled Maintenance has been updated successfully”.

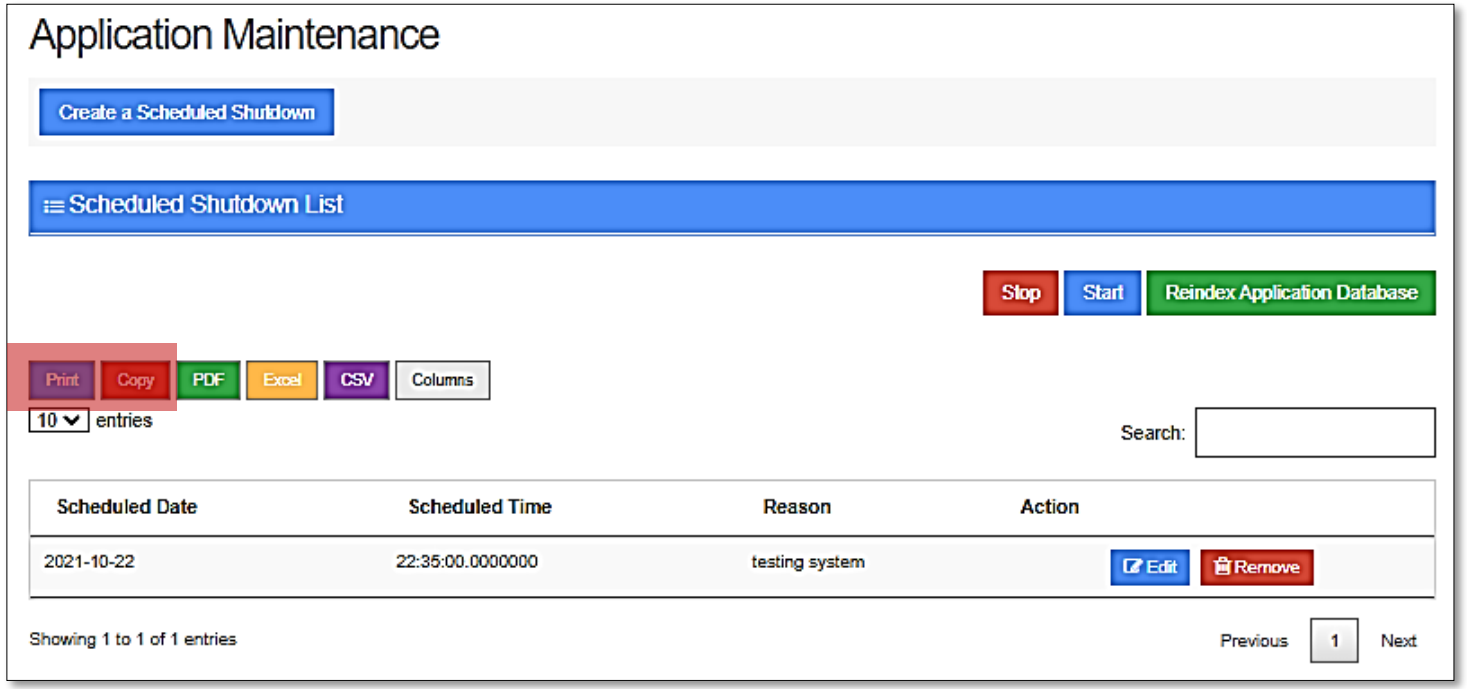

Removing/Deleting a Maintenance Shutdown Notification

1. Go to the **Maintenance** module, and choose the **Application** option.
2. Click on the **Remove** button, and a pop-up box will appear to confirm the deletion.
3. Confirm by clicking the **Remove** button to complete the process, or click on the **Close** button to cancel the procedure.

Application
Scheduled Shutdown List (Print and Copy)

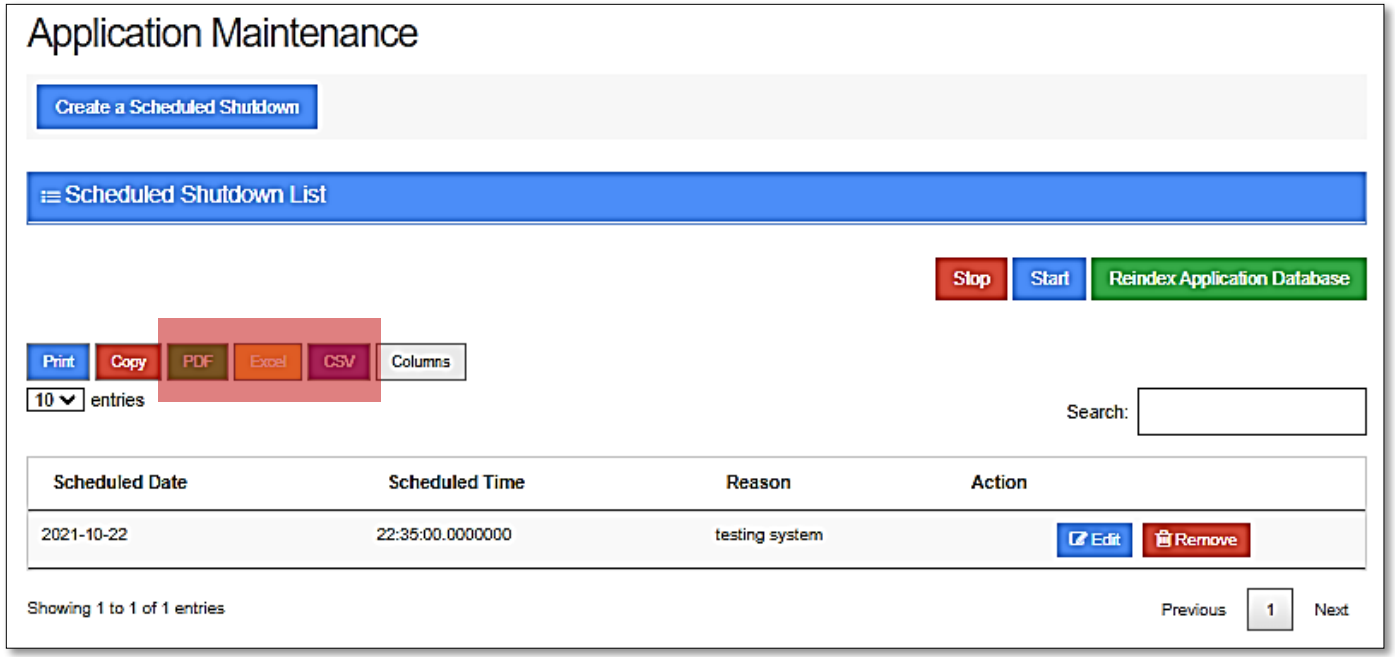

- Click on the **Print** button to print the Application Scheduled Shutdown List. A **print** screen will appear showing the List and printer settings.

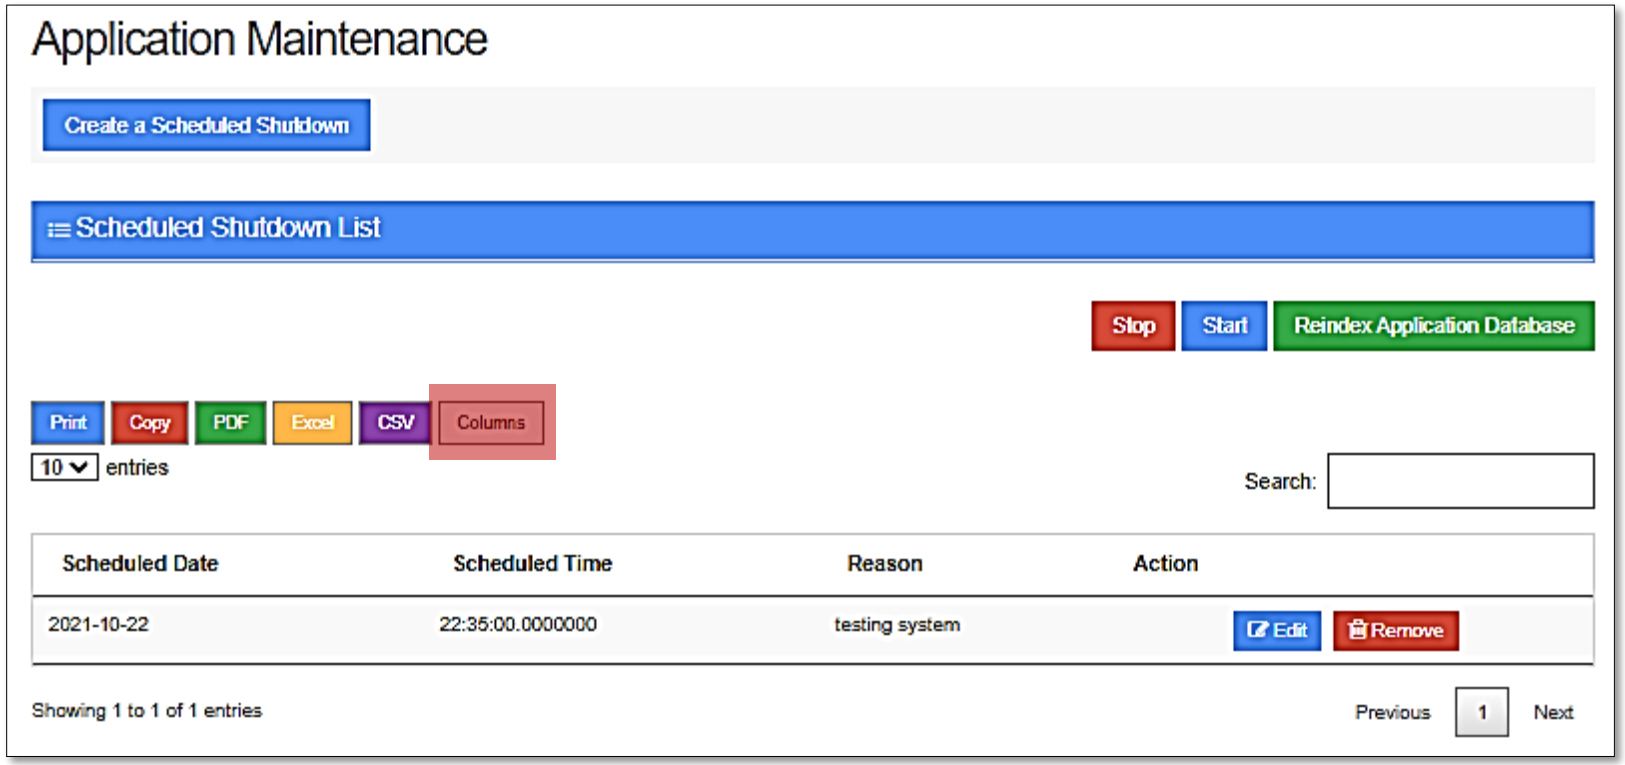

- Click on the **Copy** button to print a copy of the Application Scheduled Shutdown List.

Application of the Scheduled Shutdown List (Records can be exported in the following file format)

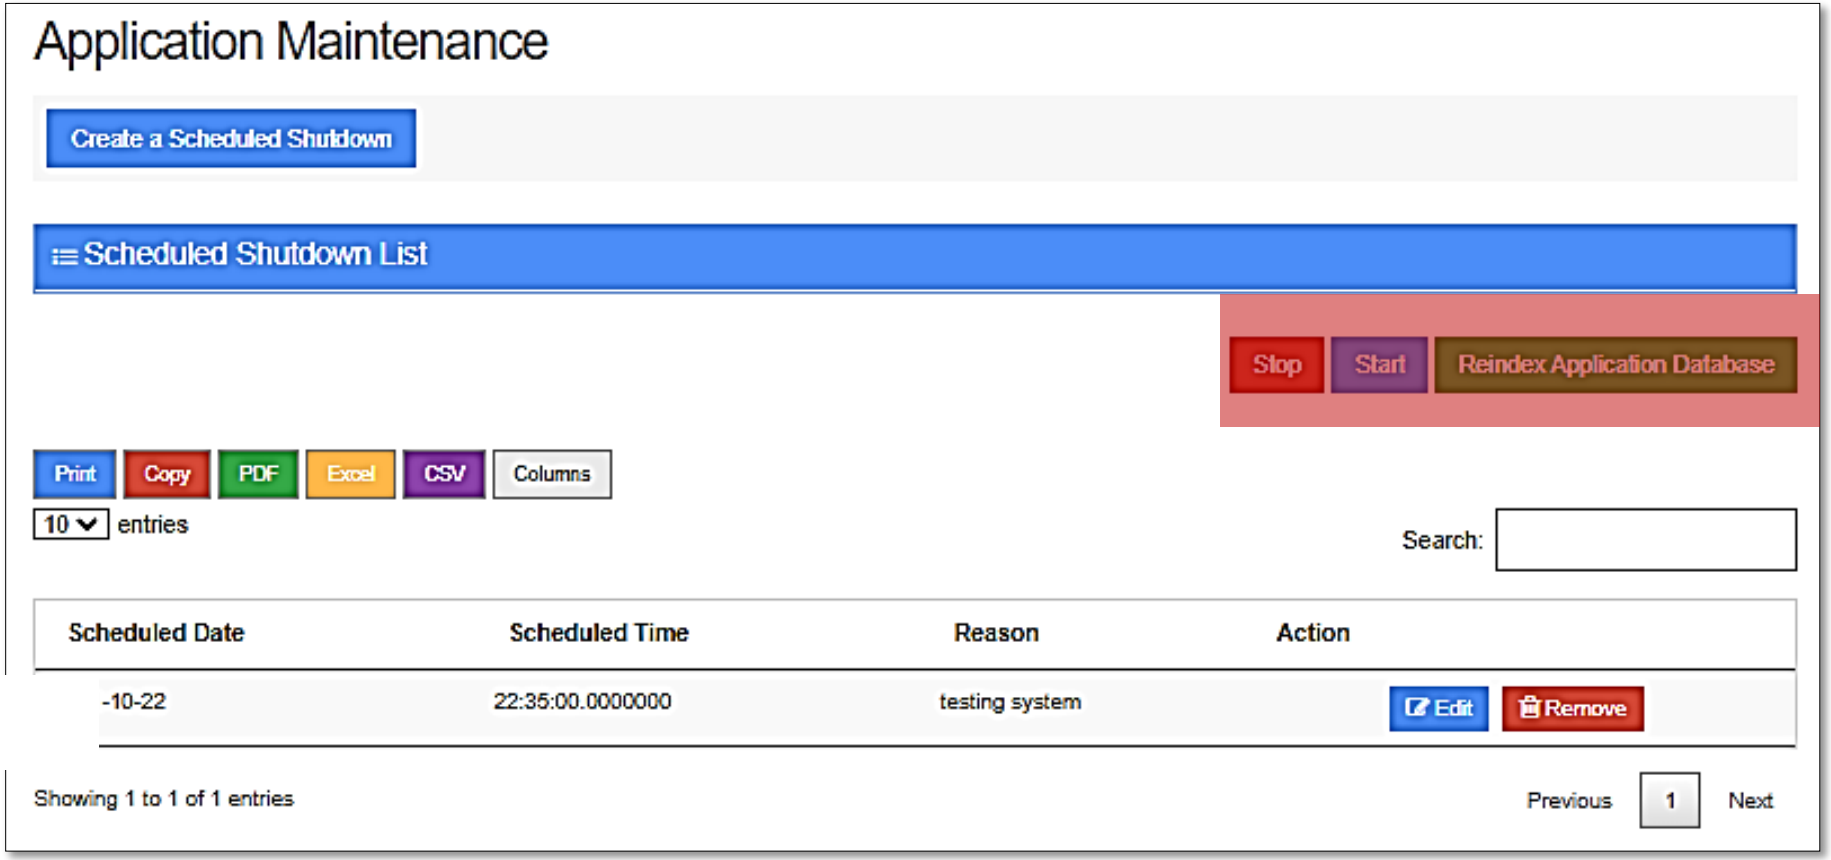

- **PDF** (Portable Document Format) – It is a file format that has captured all the elements of a printed document. It is an electronic image that you can view, navigate, print, or forward to another person.
- **Microsoft Excel** – It is a popular spreadsheet program used with data like numbers and formulas.
- **CSV** (Comma-Separated Values) – It is a file format that saves data in a tabular form.

- **Columns** – It is where you can change what comes out of the first column on the list. You can choose either Schedule Date, Scheduled Time, Reason, or Actions.

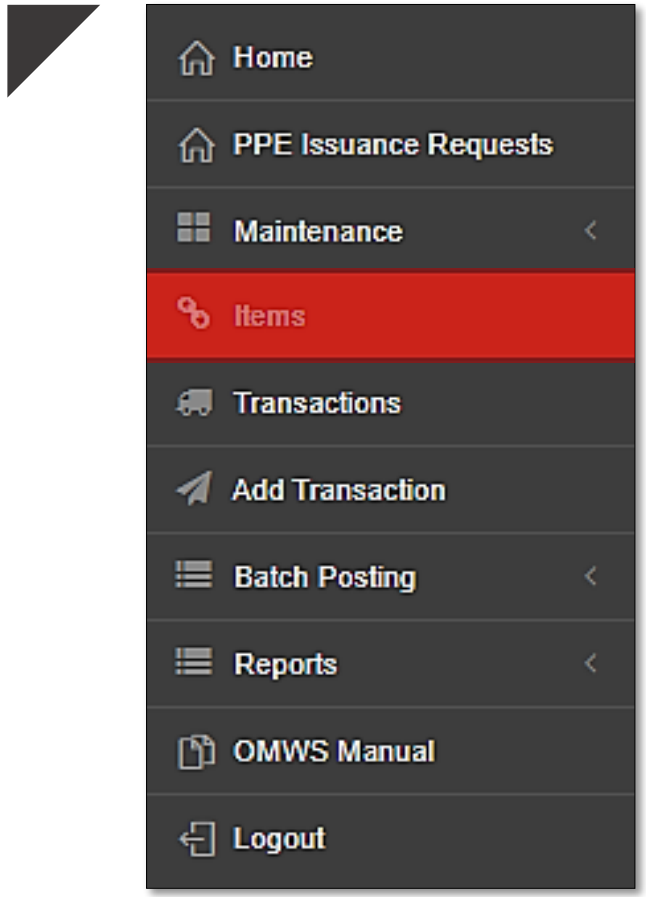

MAINTENANCE

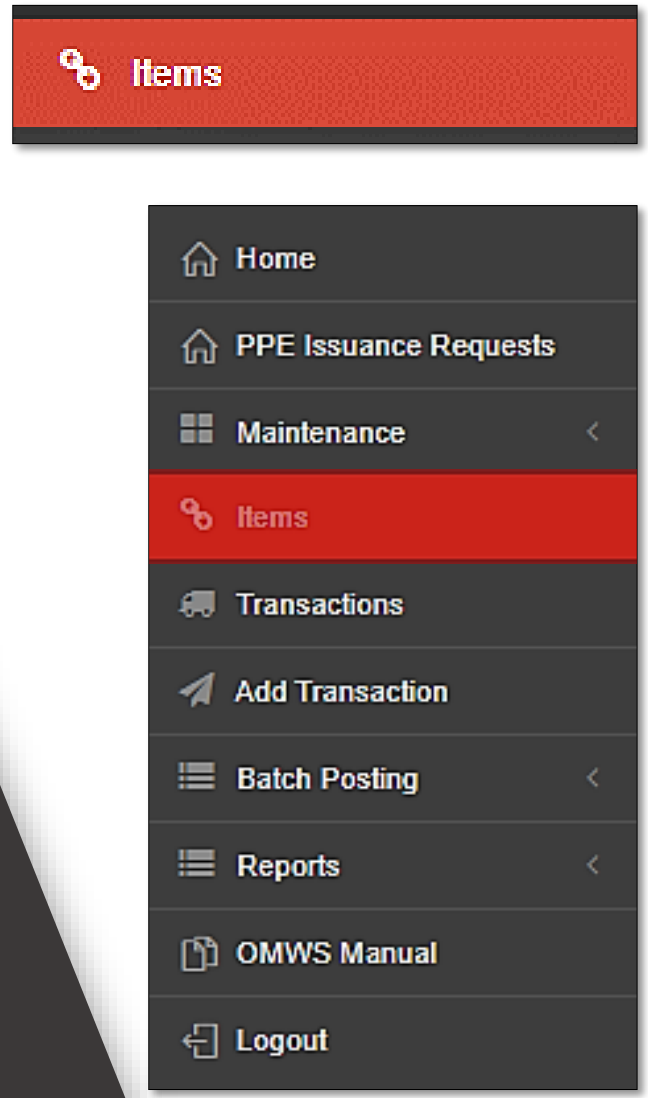

- **Stop** – It is a function that will stop/deactivate the system. To give way to system maintenance.
- **Start** - It is a function that will start/activate the system. The system will now be back and working.
- **Reindex Application Database** – It is a database configuration.

Chapter 5

ITEMS

Items

An **Online Material Withdrawal System** module that allows you to view all the **Items in the inventory**.

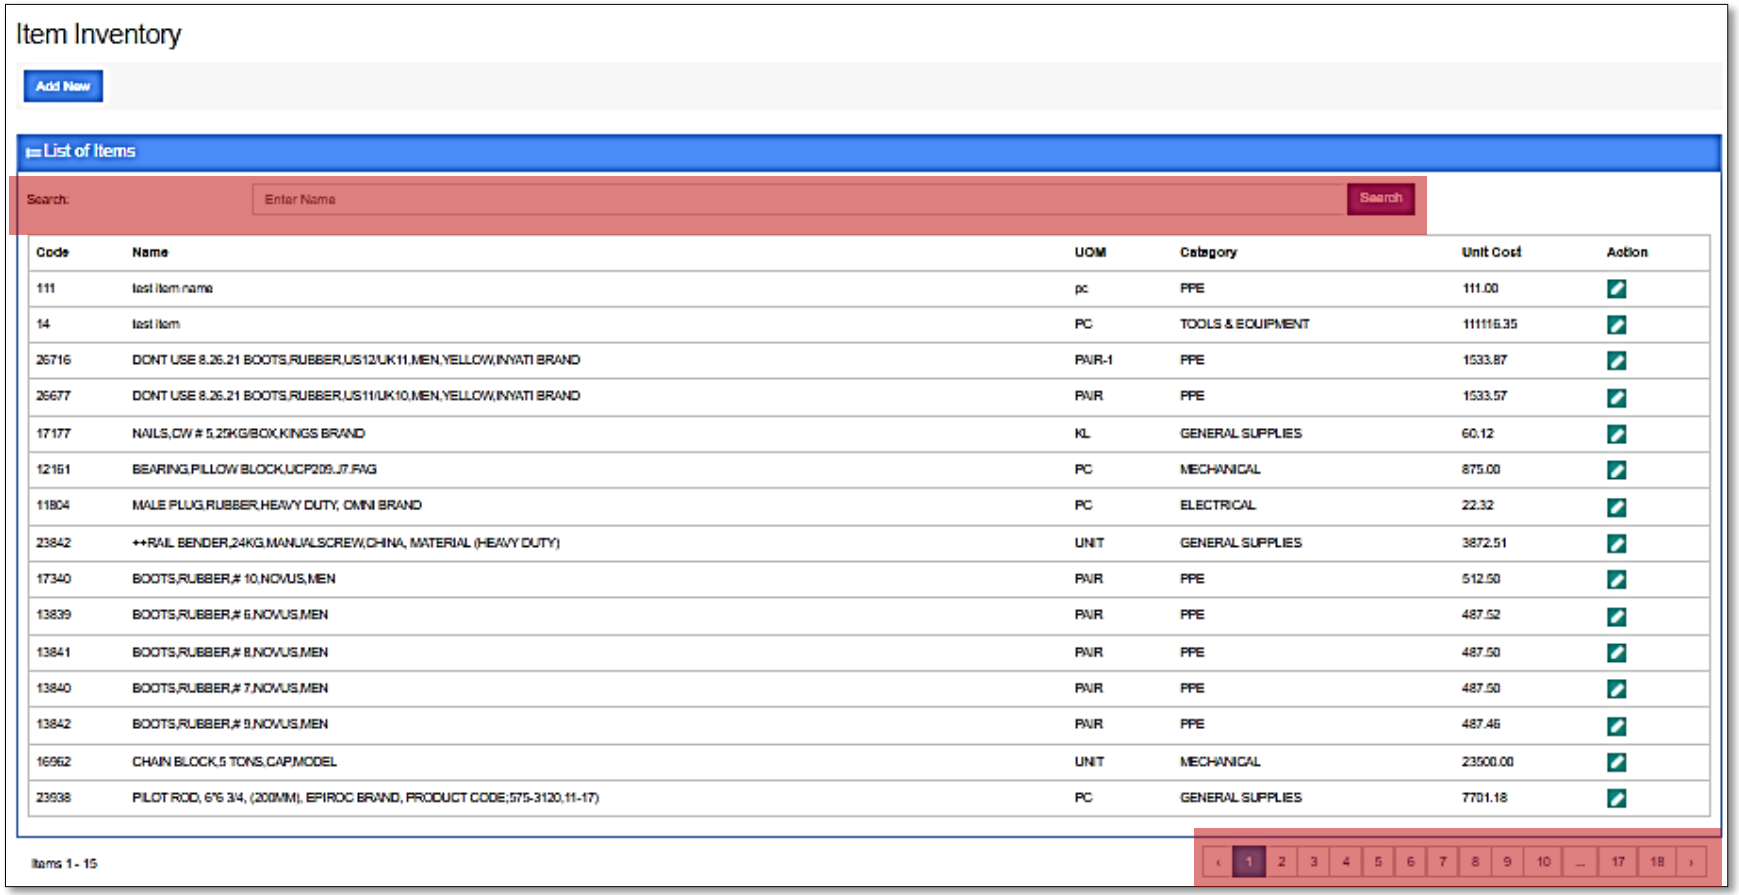

This module allows you to do the following:

- View the items in the inventory.
- Add new items to the inventory.
- Edit or update the existing items in the inventory.

ITEMS

Items

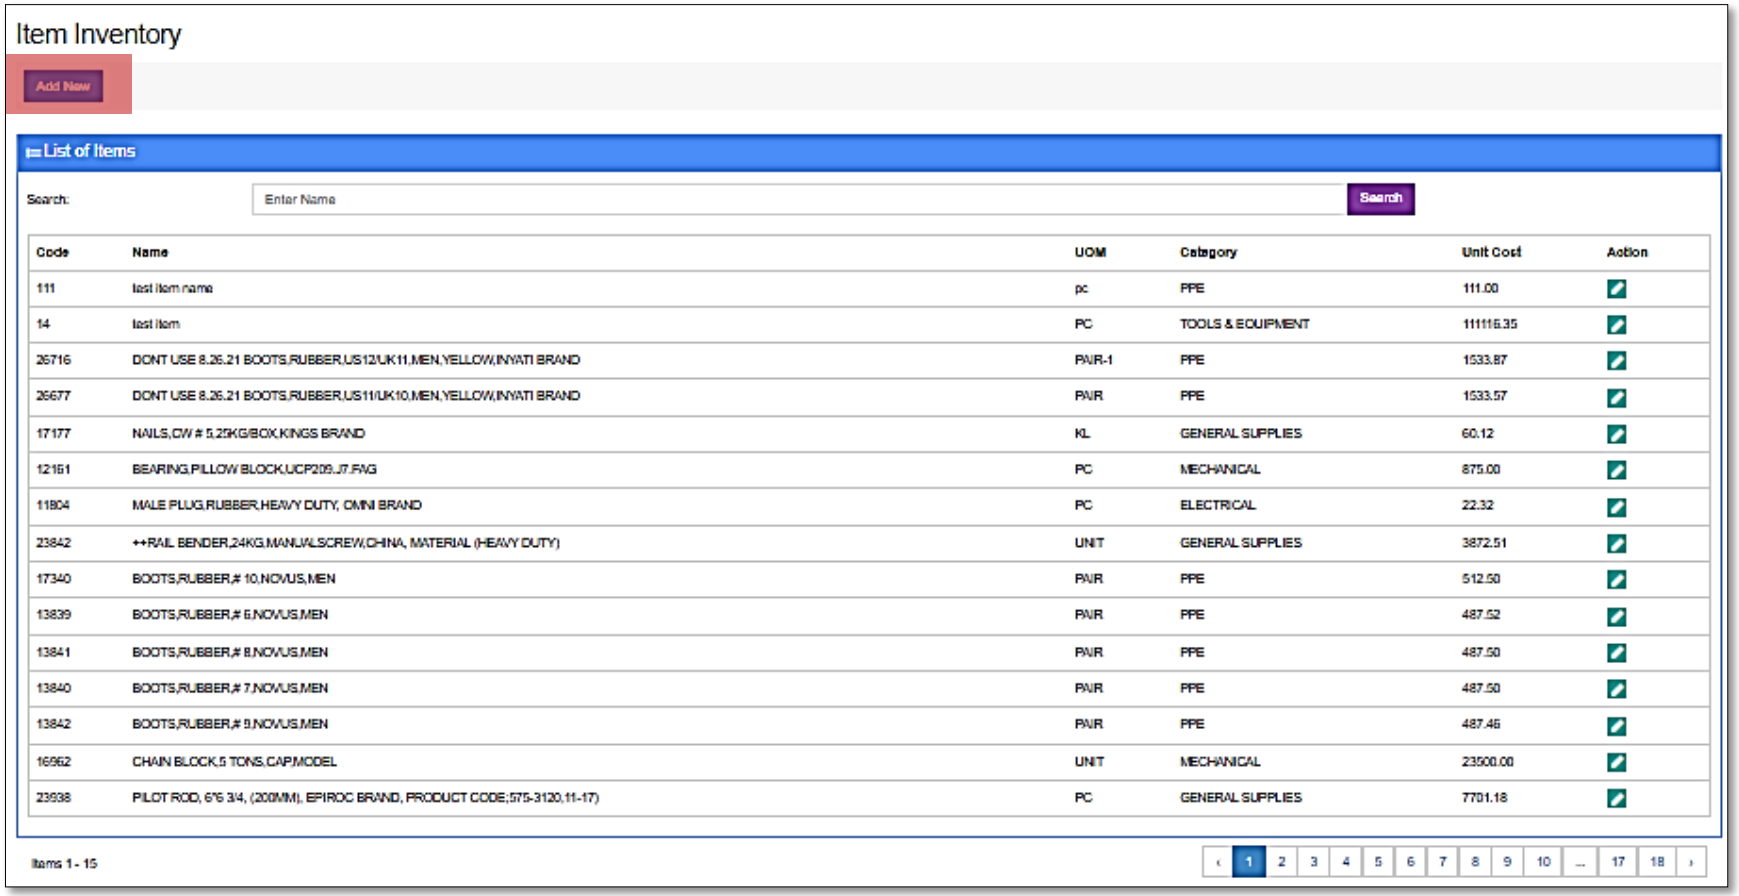

1. Go to the **Items** module.
2. You will be able to view the **List of Items**. You may use the **Search** (Enter Name) and the **Pagination** function to look for an Item.

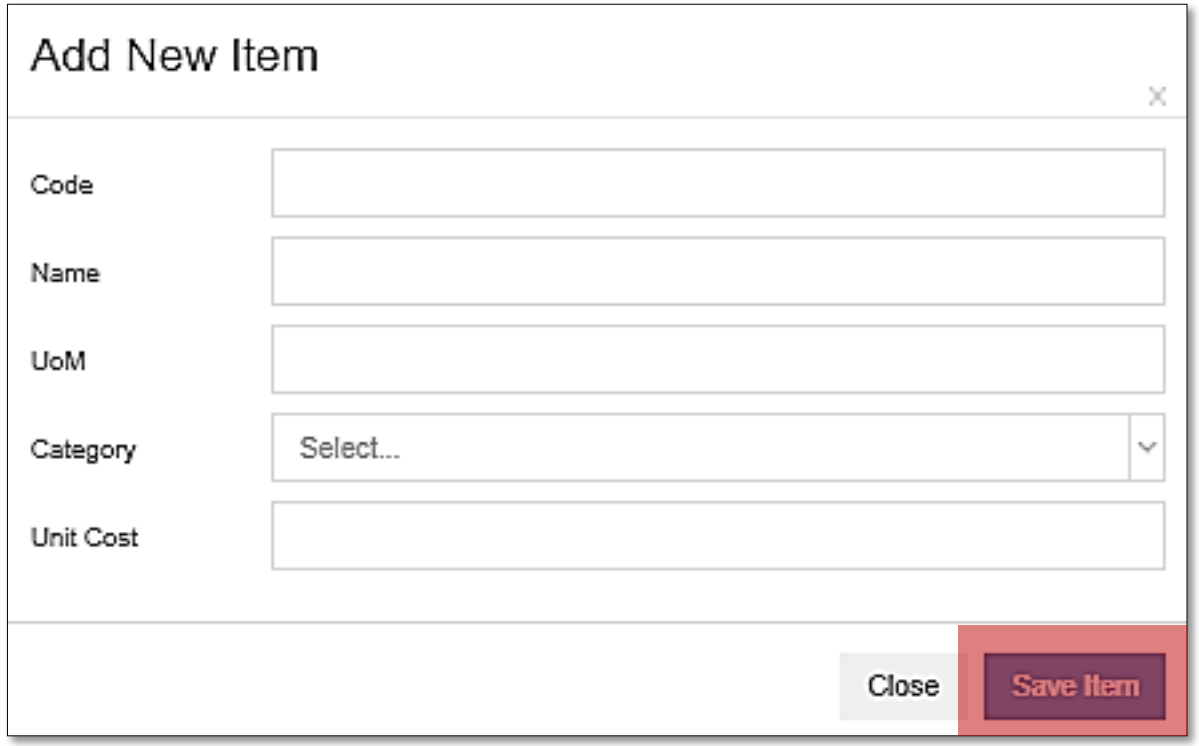

ITEMS

Add New Items

1. Go to the **Items** module.
2. Click on the **Add New** button.

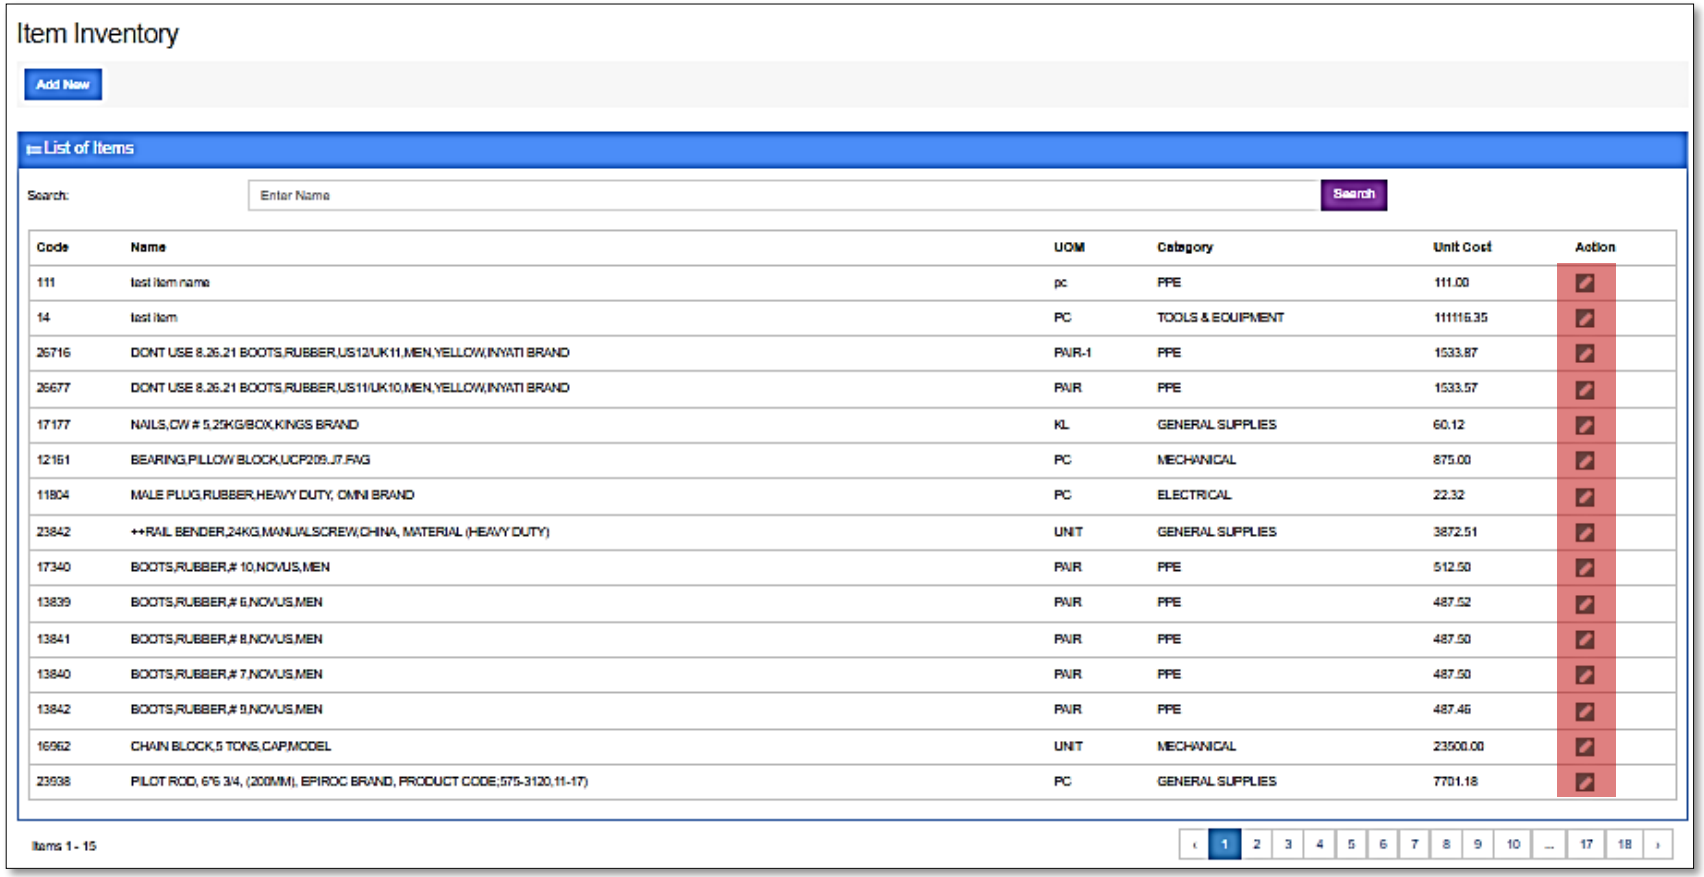

3. Enter all the necessary information once the **Add New Item** screen appears.
4. Click on the **Save Item** button to complete the process, or click the **Close** button to cancel the procedure.

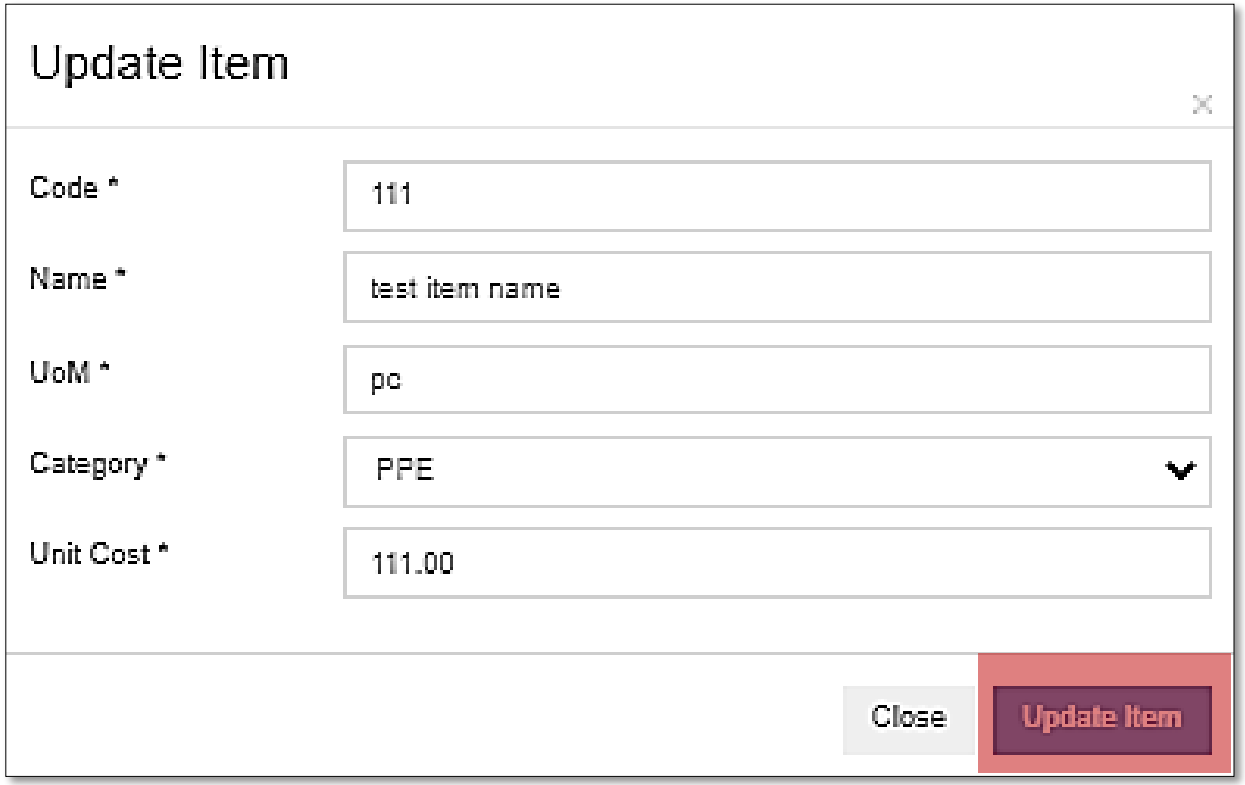

Edit Items

1. Go to the **Items** module.
2. You may use the **Search** and the **Pagination** function to look for an Item**.**
3. Click on the **Edit** button.

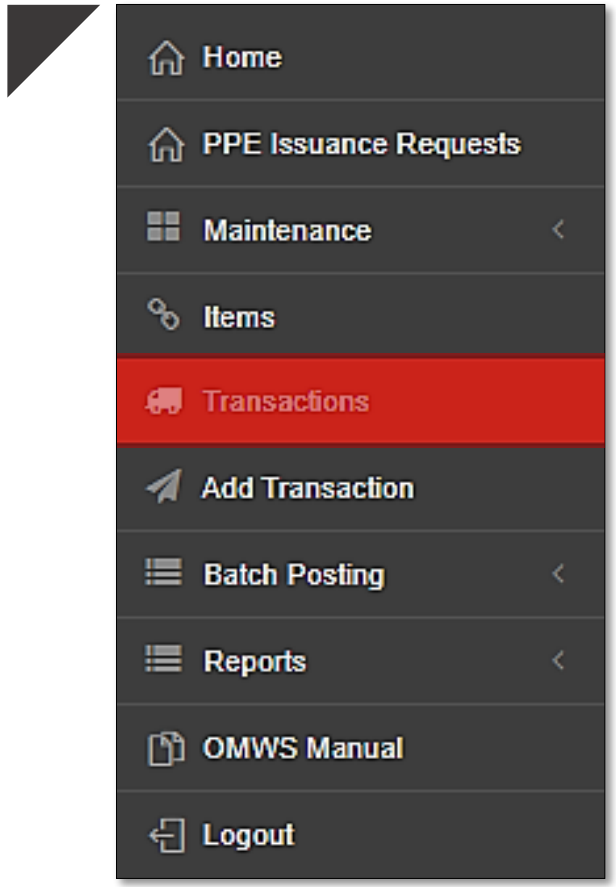

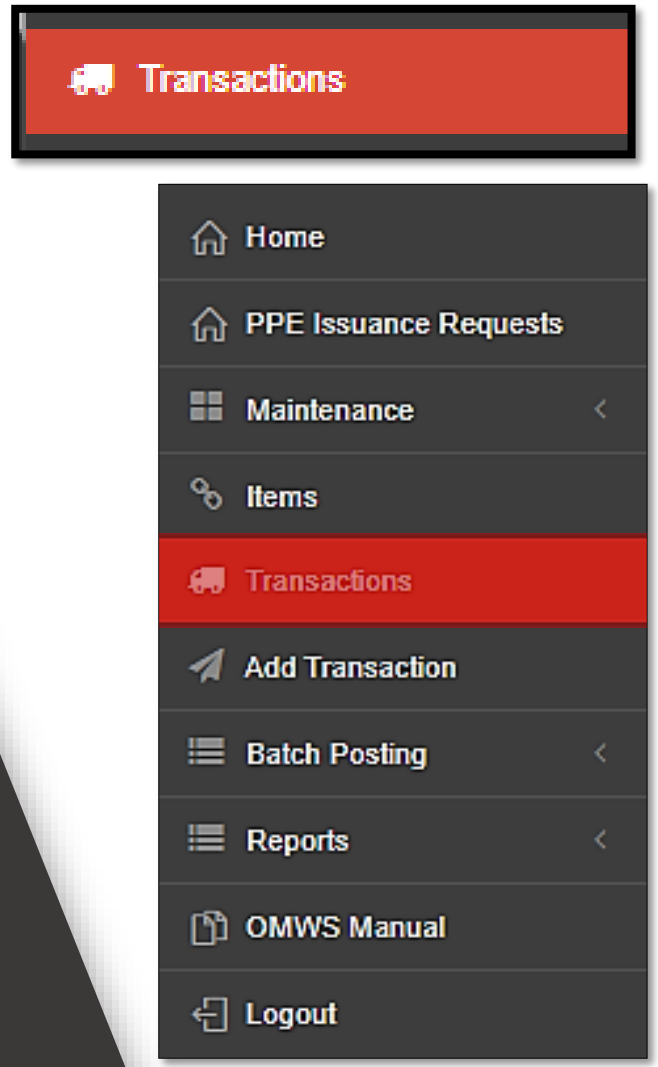

4. Make the necessary changes accordingly once the **Edit New Item** screen appears.
5. Click on the **Update Item** button to complete the process, or click the **Close** button to cancel the procedure.

Chapter 6

TRANSACTIONS

Transactions

An **Online Material Withdrawal System** module that allows you to view all the **Issuance Transactions.**

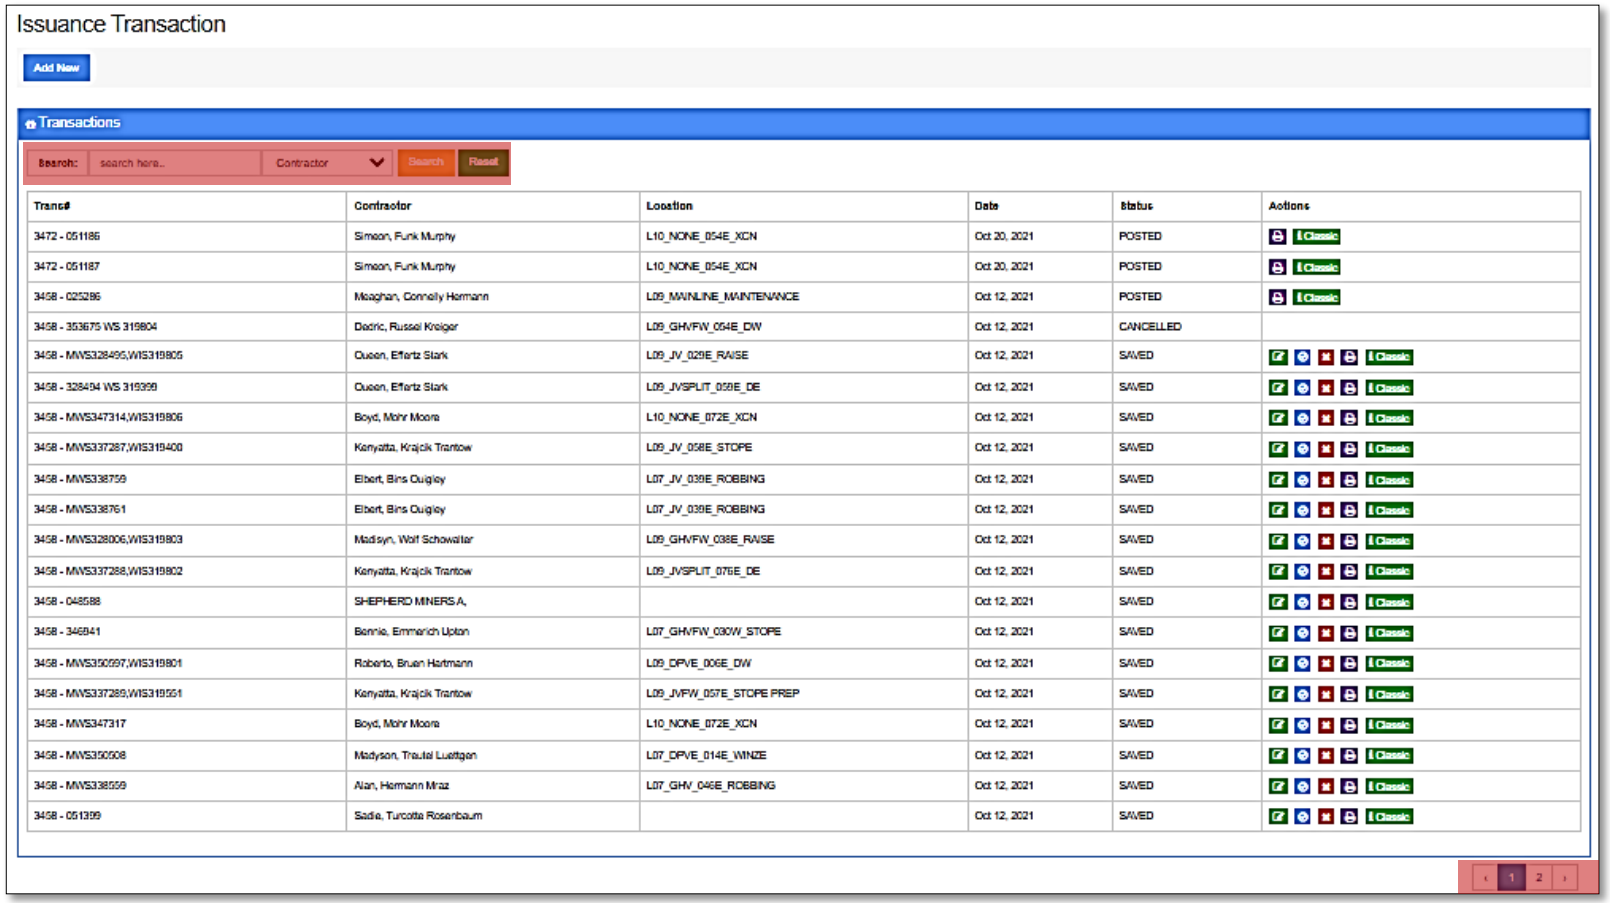

This module allows you to do the following:

- View the issuance transactions.
- Add new transaction.
- Edit or update a transaction.
- Post a transaction.
- Cancel a transaction.
- Print a transaction.
- Update Classic information.

TRANSACTION

Transactions

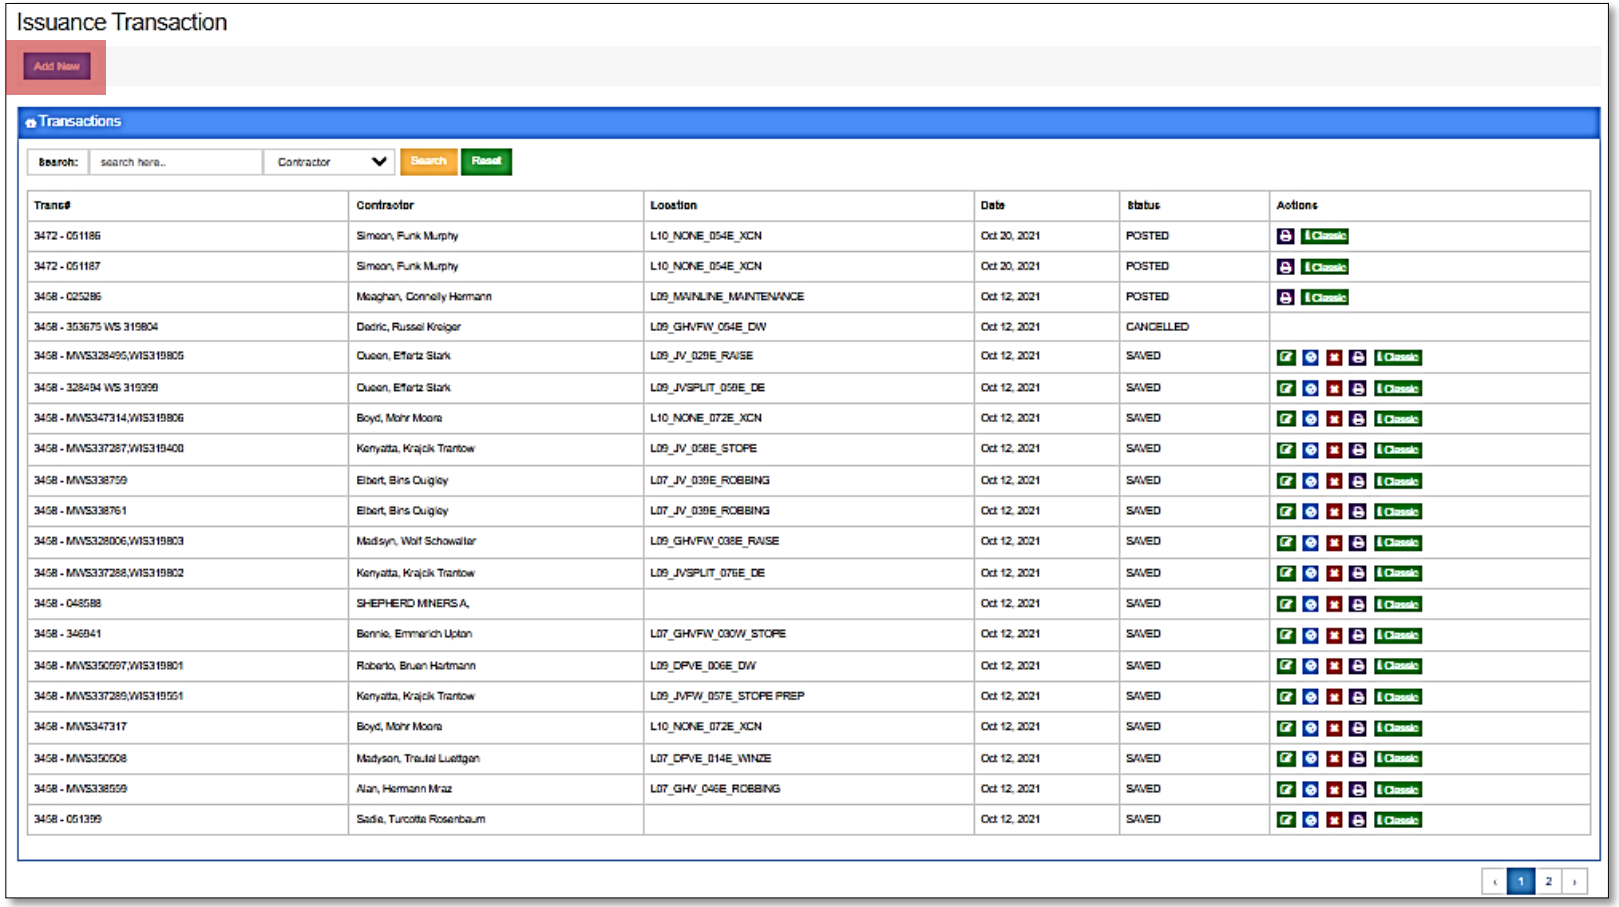

1. Go to the **Transactions** module.
2. You will be able to view the **Transactions**. You may use the **Search** (Search here) and the **Pagination** function to look for a Transaction.

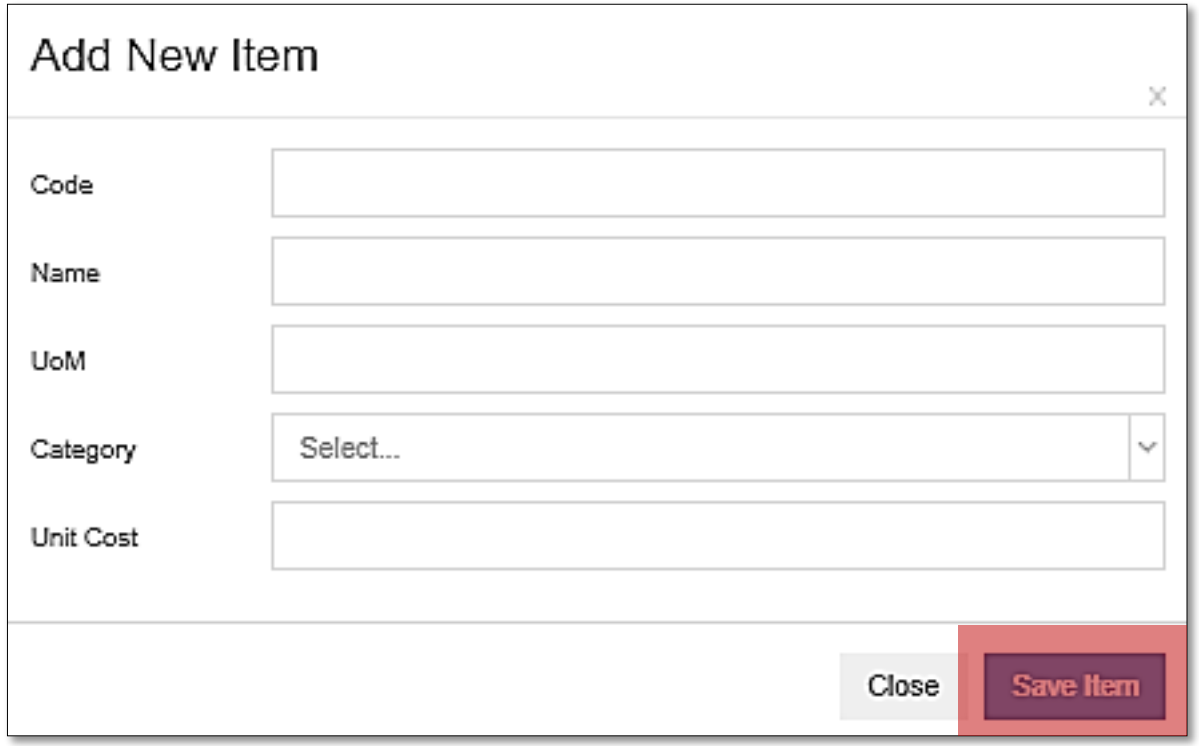

TRANSACTION

Add New button **(Shortcut to Add New Transaction Module)**

1. Go to the **Transactions** module.
2. Click on the **Add New** button.

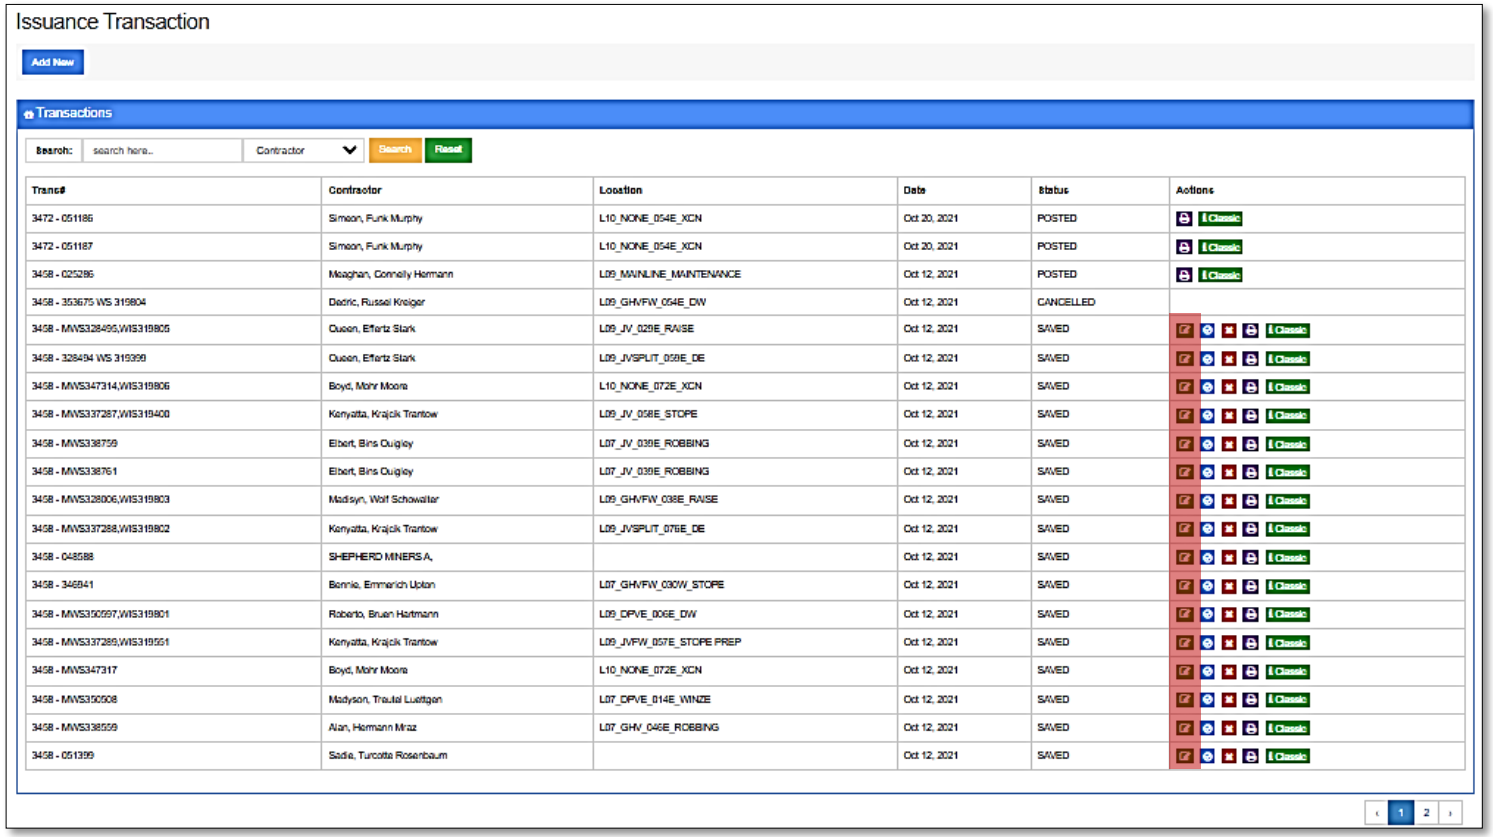

3. Enter all the necessary information once the **Add New Item** screen appears.
4. Click on the **Save Item** button to complete the process, or click the **Close** button to cancel the procedure.

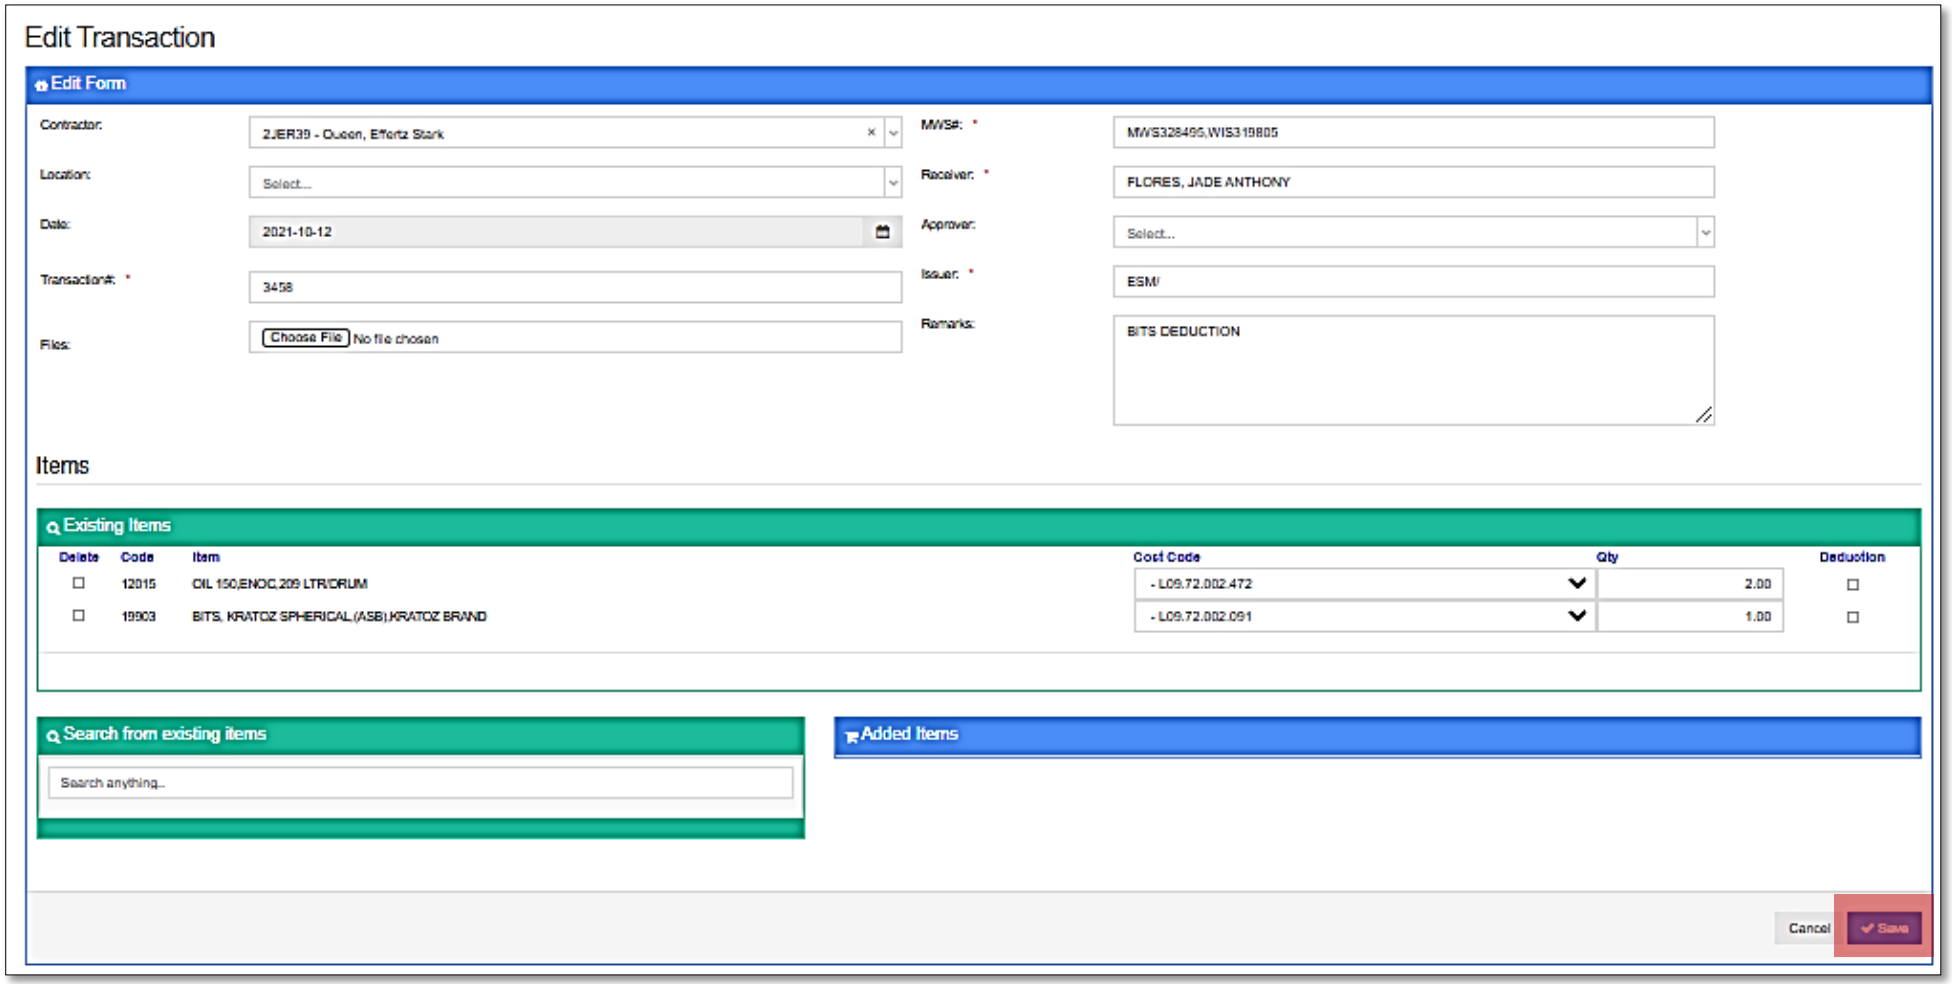

TRANSACTION

Edit Transactions

1. Go to the **Transactions** module.
2. You may use the **Search** (Search here) and the **Pagination** function to look for a Transaction.
3. Click on the **Edit** button.

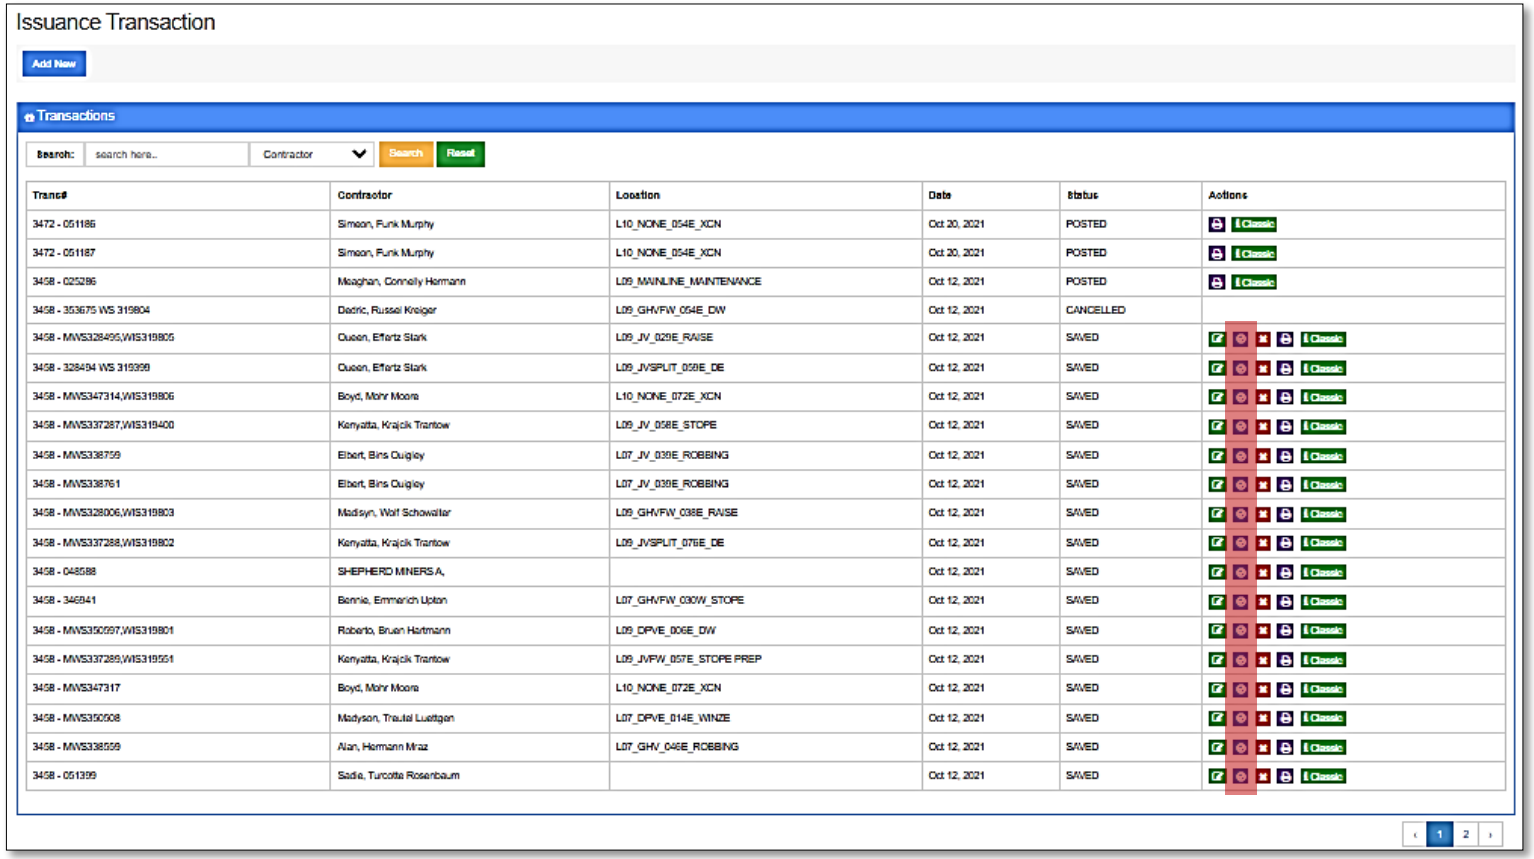

4. Make the necessary changes accordingly once the **Edit Transaction** screen appears.
5. Click on the **Save** button to complete the process, or click on the **Cancel** button to cancel the procedure. .

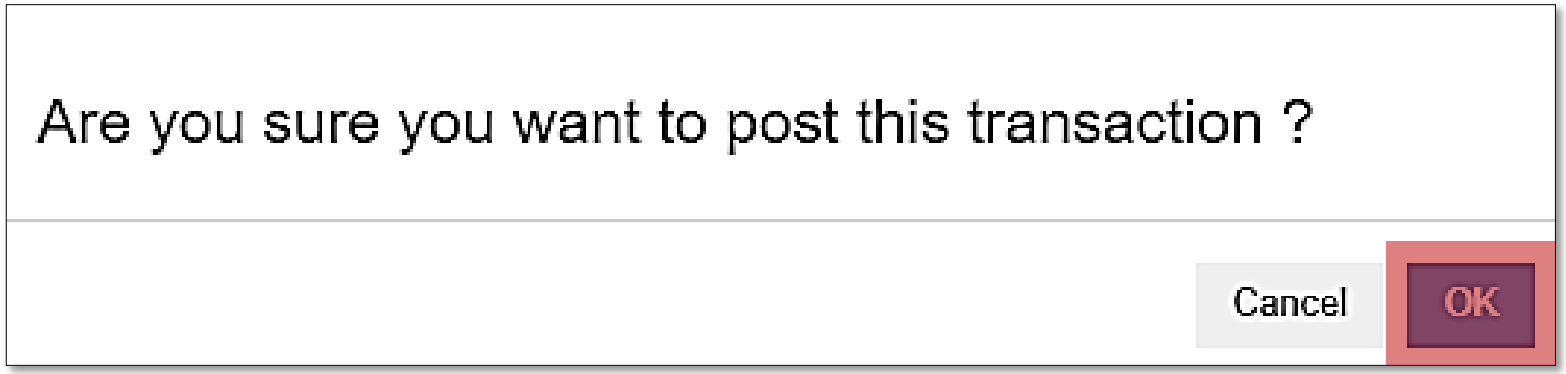

TRANSACTION

Post a Transaction

1. Go to the **Transactions** module.
2. You may use the **Search** (Search here) and the **Pagination** function to look for the transaction that you want to post.
3. Click on the **Post** button to post a specific transaction.

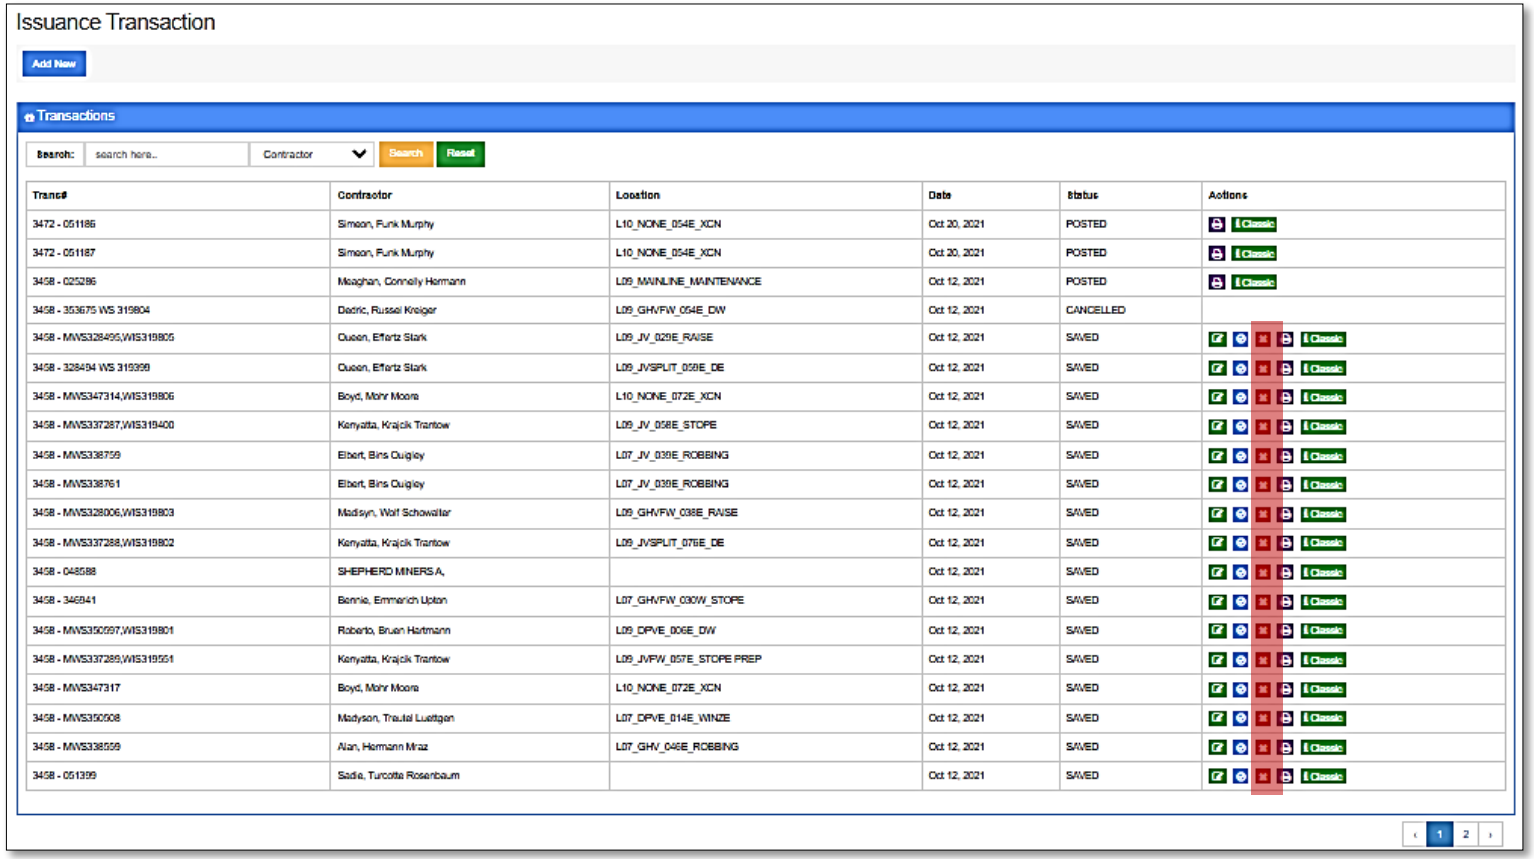

4. A notification will appear “Are you sure you want to post this transaction?”.
5. Click on the **OK** button to proceed, or click on the **Cancel** button to cancel the procedure.

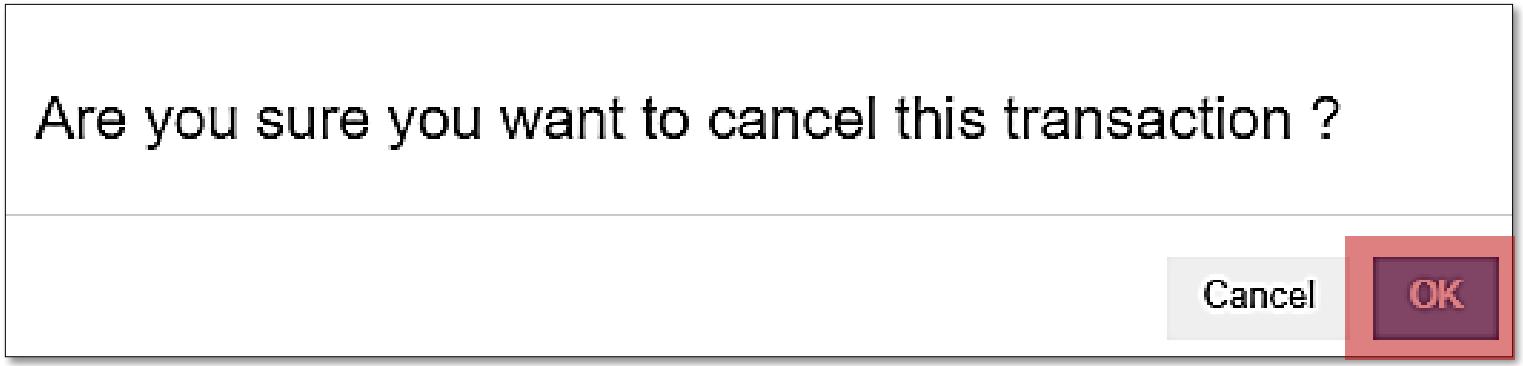

TRANSACTION

Cancel a Transaction

1. Go to the **Transactions** module.
2. You may use the **Search** and the **Pagination** function to look for the transaction that you want to cancel.
3. Click on the **Cancel** button to cancel a specific transaction.

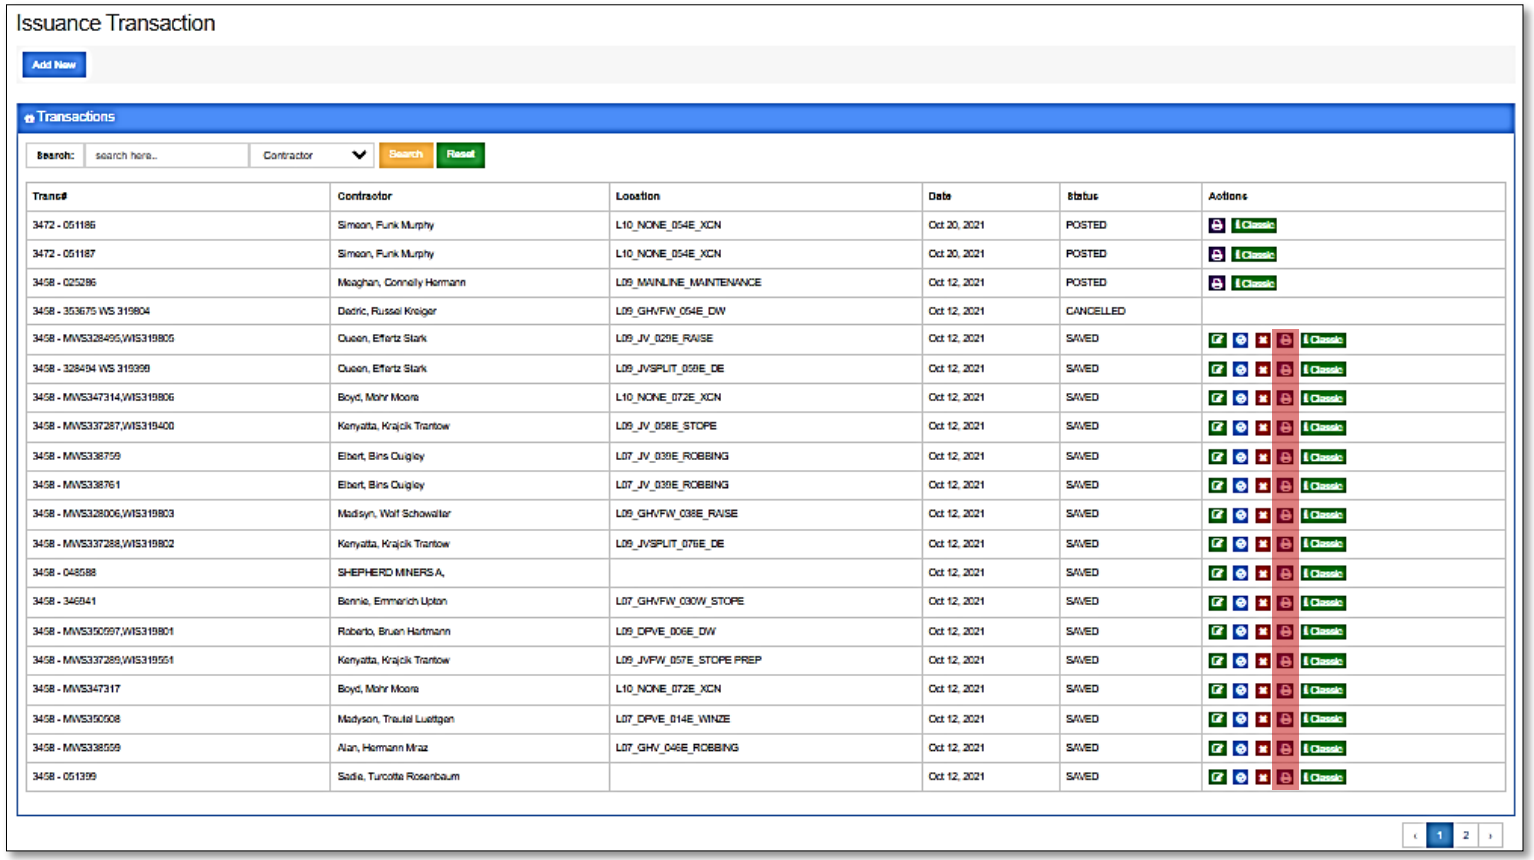

4. A notification will appear “Are you sure you want to cancel this transaction?”.
5. Click on the **OK** button to proceed, or click on the **Cancel** button to cancel the procedure.

TRANSACTION

Print a Transaction

1. Go to the **Transactions** module.
2. You may use the **Search** and the **Pagination** function to look for the transaction that you want to print.
3. Click on the **Print** button.

4. A **print** screen will appear, showing the Issuance Report and the printer settings screen, shown on the next page.

PHILSAGA MINING CORPORATION
Purok 1-A, Bayugan 3, Rosario, Agusan del Sur

October 20,2021 05:36 PM

Issuance Report

Contractor: Queen, Effertz Stark
Location: L09_JV_029E_RAISE
Approved by:
Remarks: BITS DEDUCTION

Transaction No.: 3458 - MWS328495,WIS319805
MWS: MWS328495,WIS319805
Issuance status: SAVED
Doc Date: Oct 12, 2021

Cost Code	Code	Description	Qty
L09.72.002.472	12015	OIL 150,ENOC,209 LTR/DRUM	2.00
L09.72.002.091	19903	BITS, KRATOZ SPHERICAL,(ASB),KRATOZ BRAND	1.00

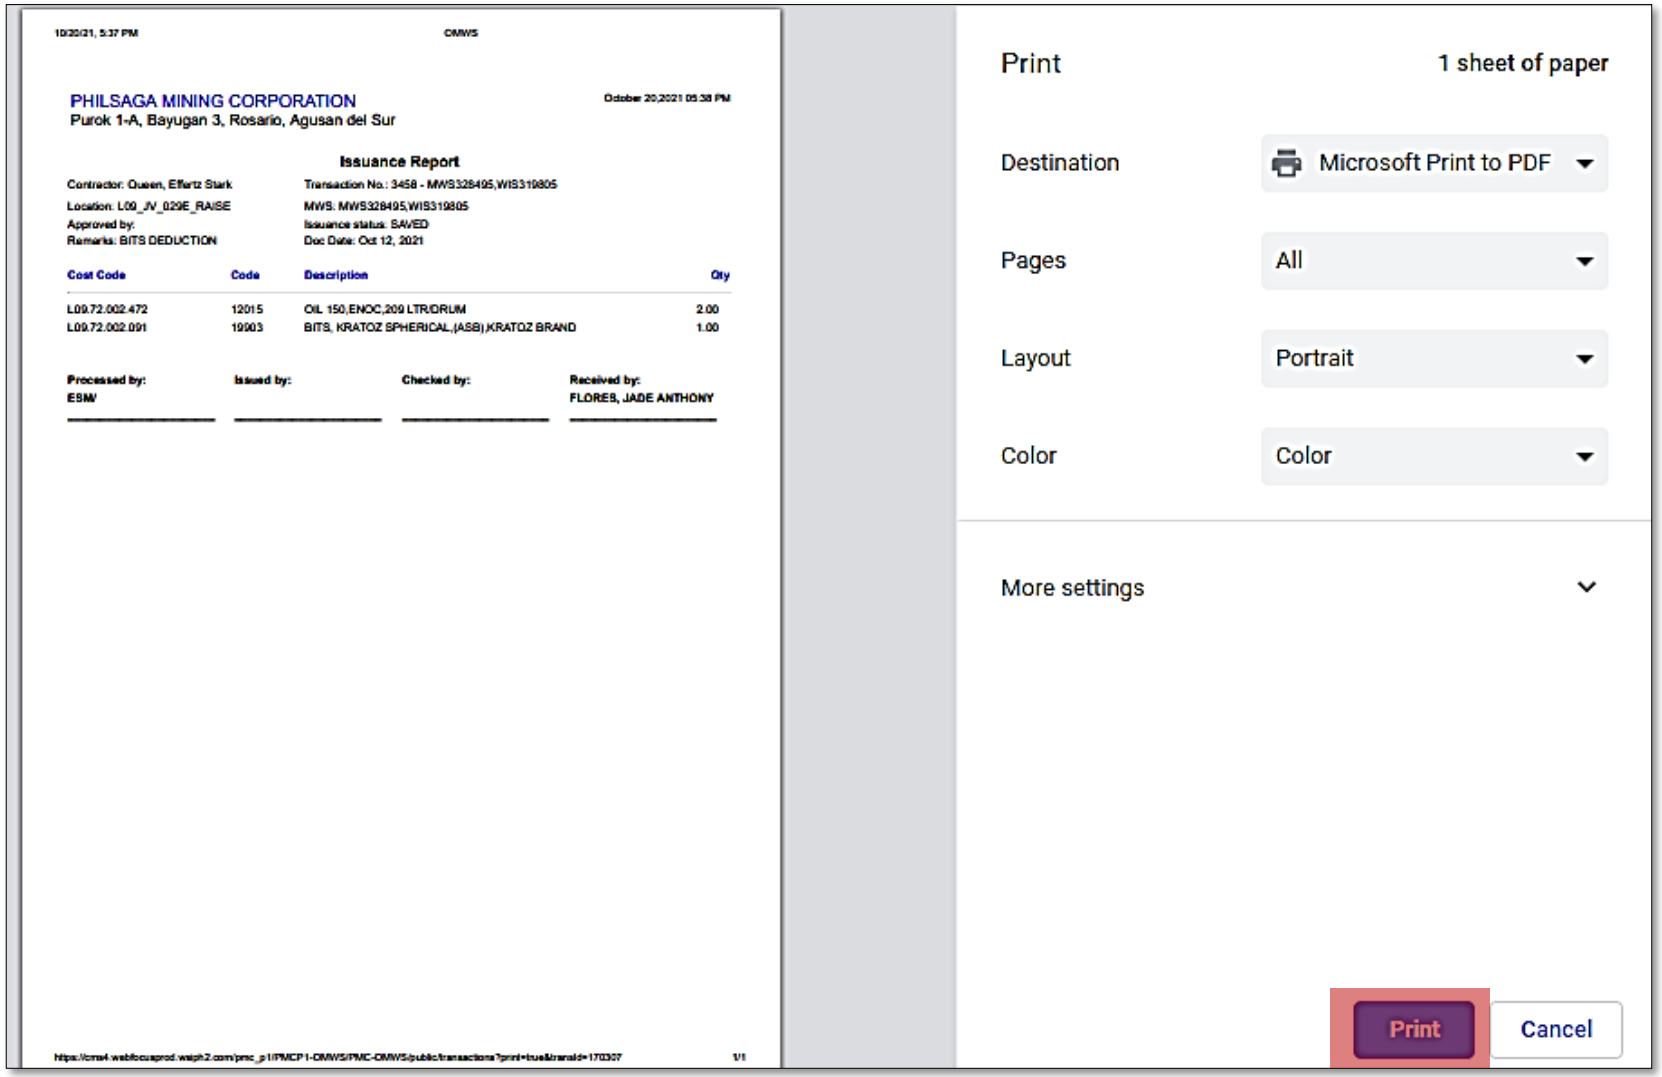

Processed by: ESM/

Issued by:

Checked by:

Received by: FLORES, JADE ANTHONY

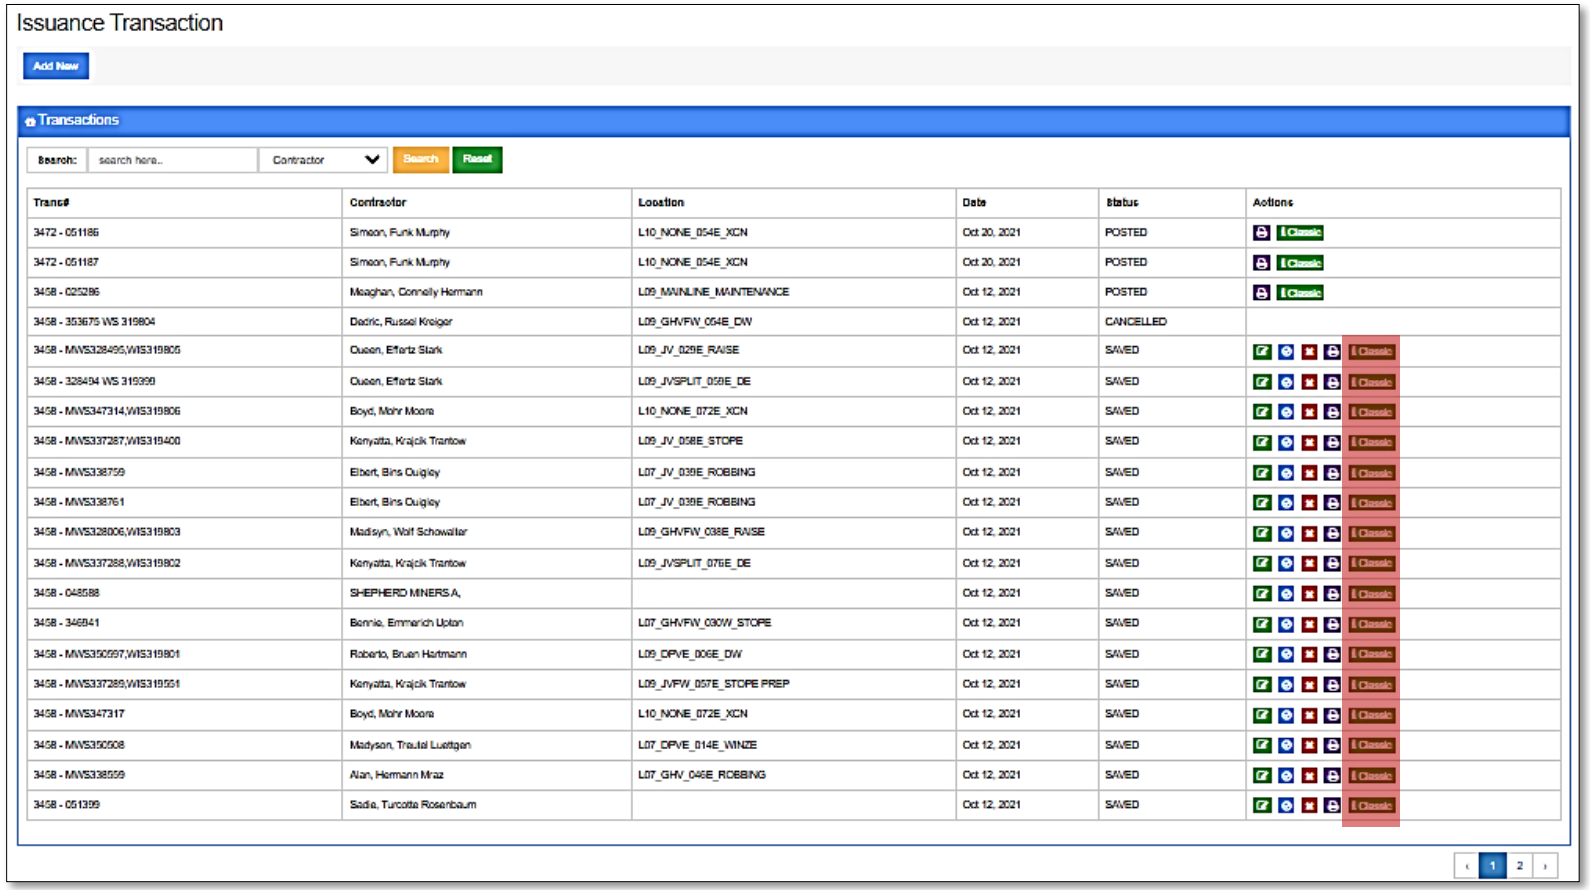

5. Click on the **Print** button to complete the process, or click on the **Cancel** button to cancel the procedure.

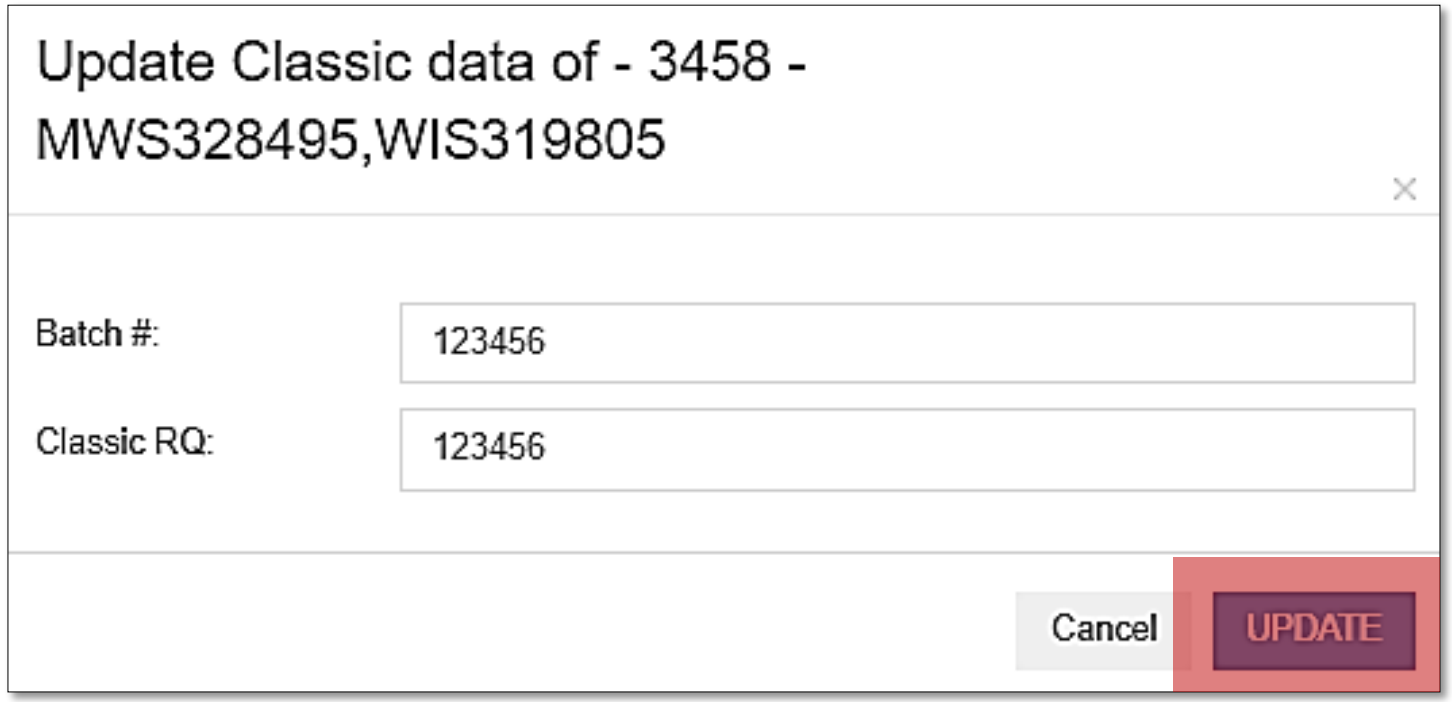

TRANSACTION

Update Classic Data

1. Go to the **Transactions** module.
2. You may use the **Search** and the **Pagination** function to look for a Transaction.
3. Click on the **Classic** button.

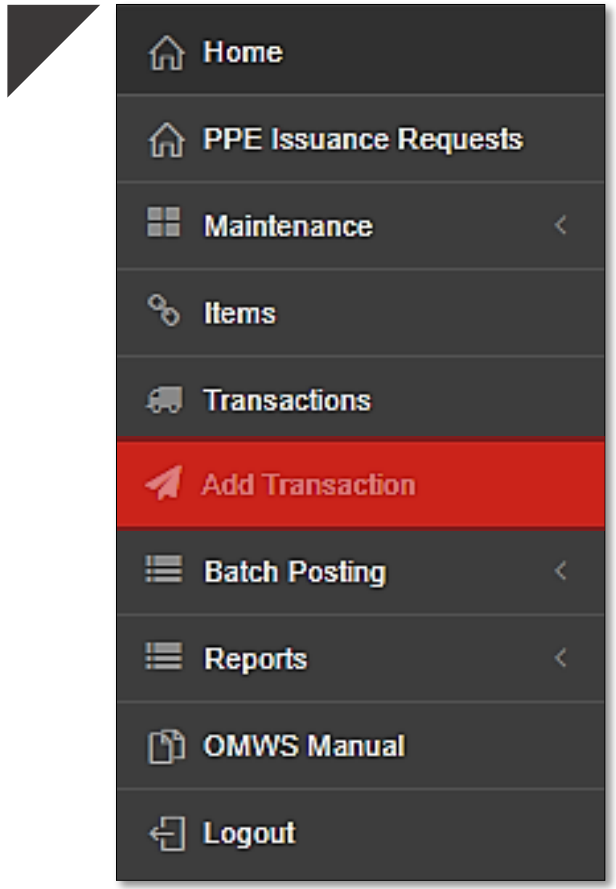

4. Make the necessary changes accordingly once the **Update Classic data** screen appears.
5. Click on the **Update** button to complete the process, or click on the **Cancel** button to cancel the procedure.

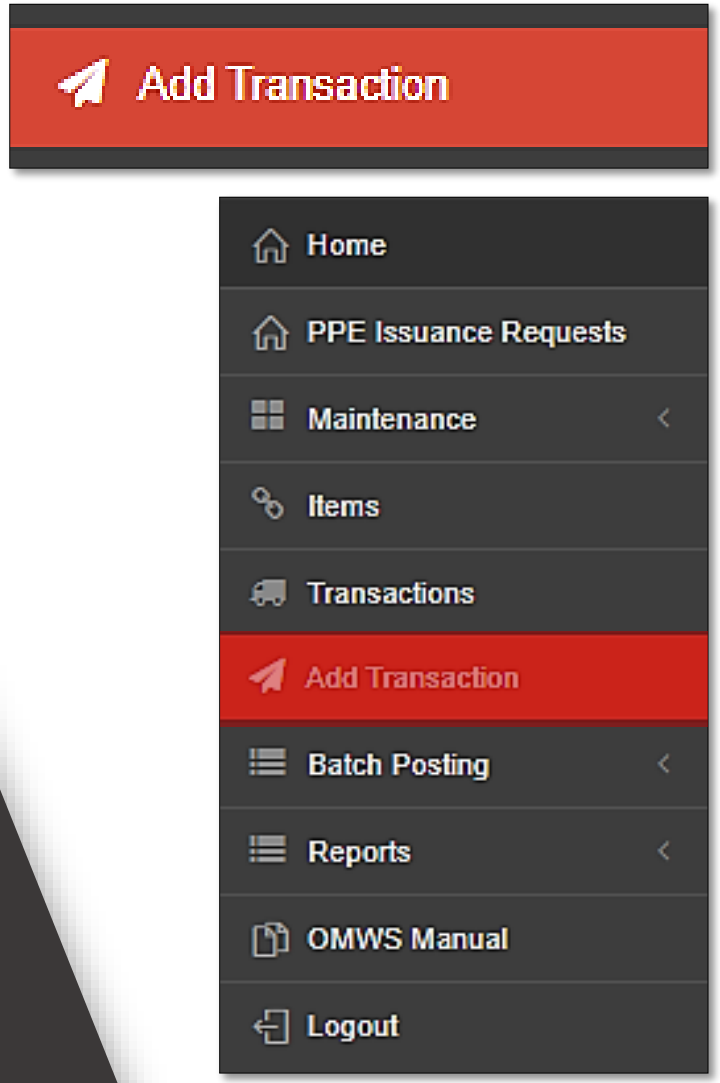

Chapter 7

ADD TRANSACTION

ADD TRANSACTION

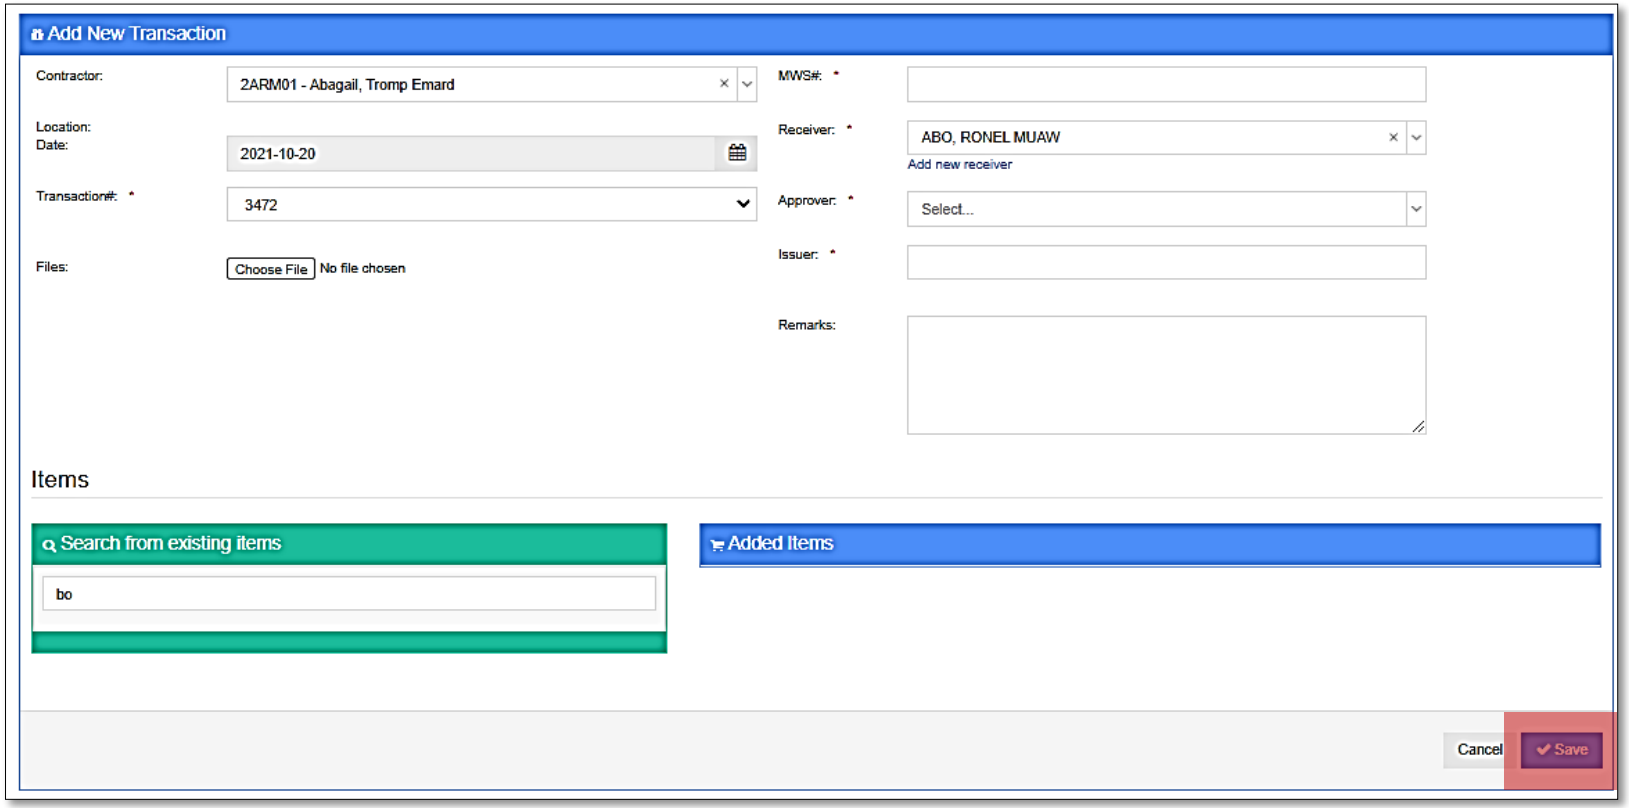

Add Transactions

An **Online Material Withdrawal System** module that allows you to add a **Transaction.**

ADD TRANSACTION

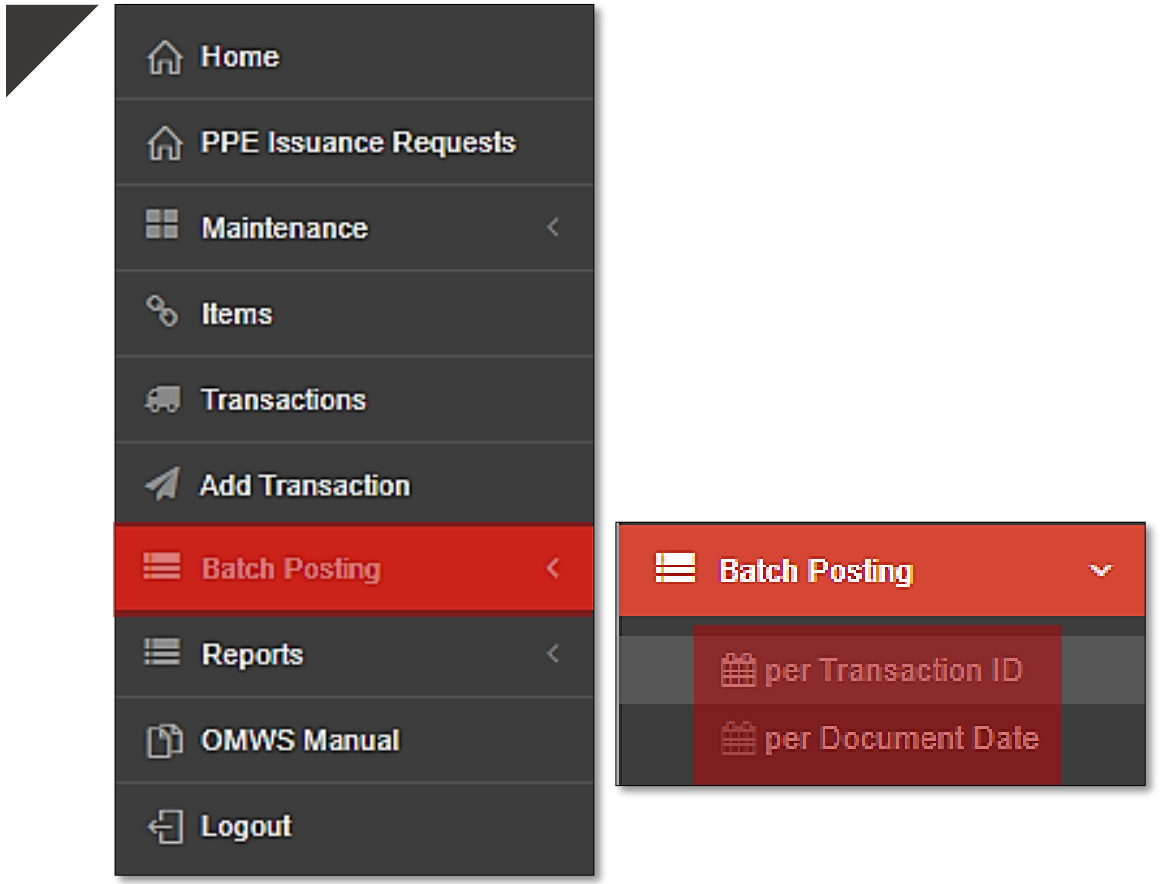

Add Transaction

1. Go to the **Add Transaction** module**.**
2. Enter all the necessary information on the **Add New Transaction** form.
3. Click on the **Save** button to complete the process, or click on the **Cancel** button to cancel the procedure.

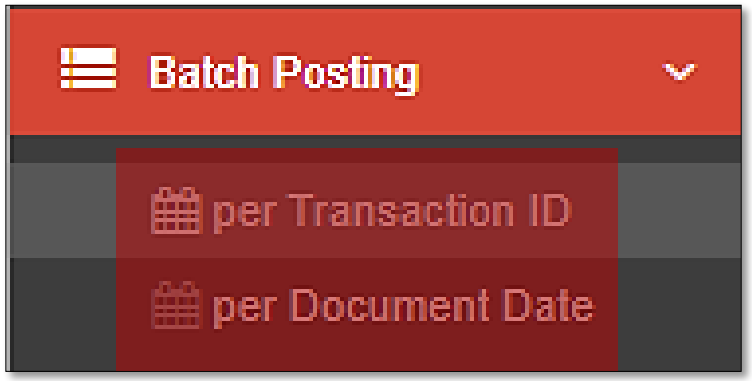

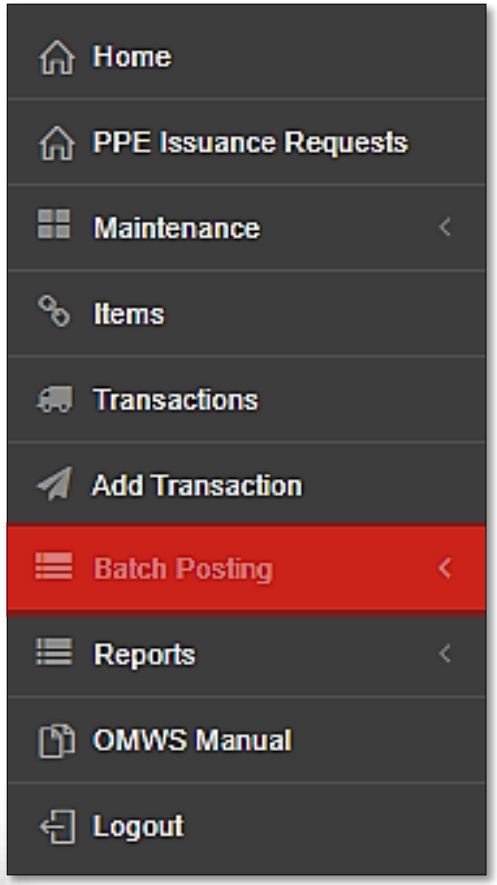

Chapter 8

BATCH POSTING

BATCH POSTING

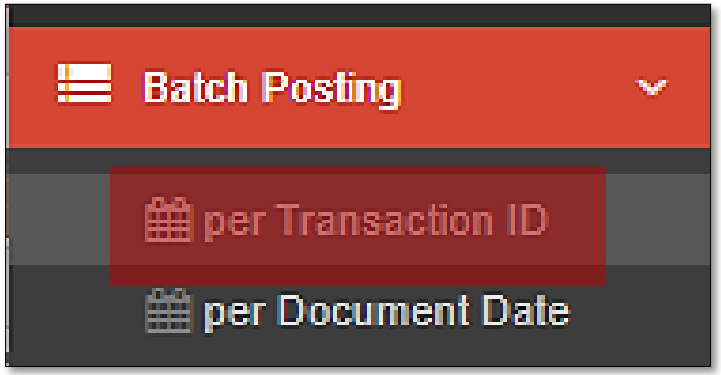

Batch Posting

An **Online Material Withdrawal System** module that allows you to view **Batch Posting.**

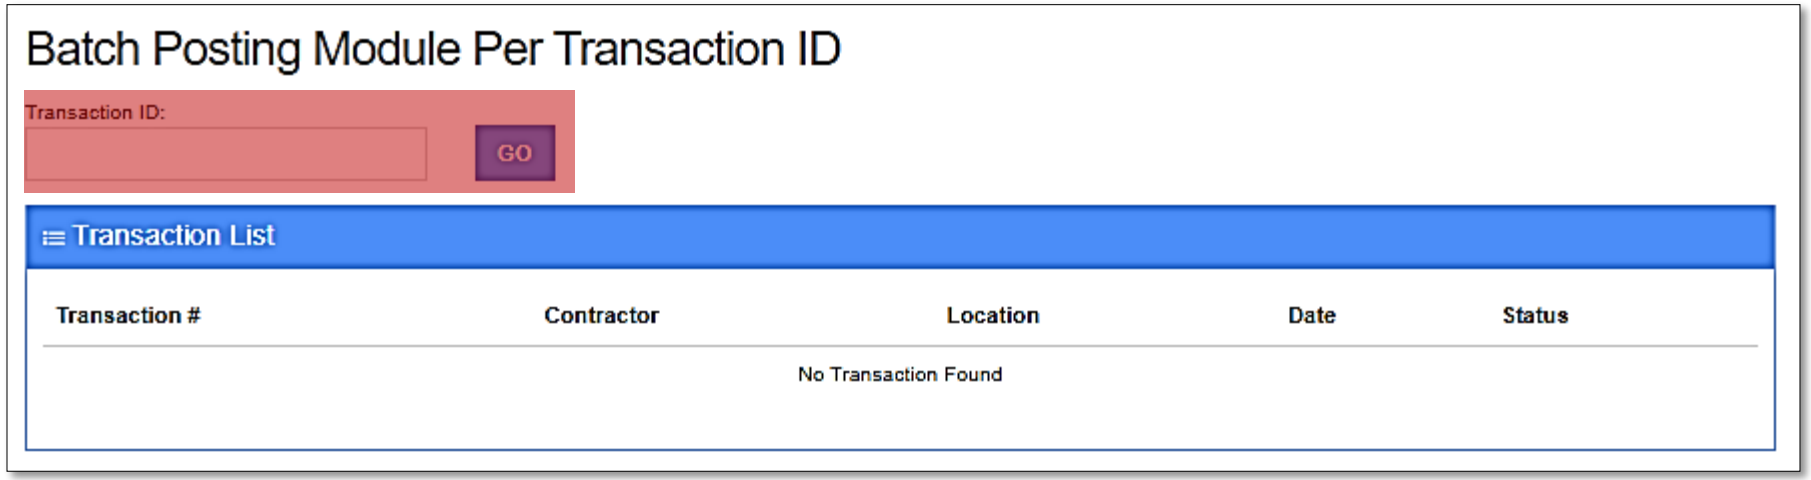

- **Batch Posting per Transaction ID**
- **Batch Posting per Document Date**

BATCH POSTING

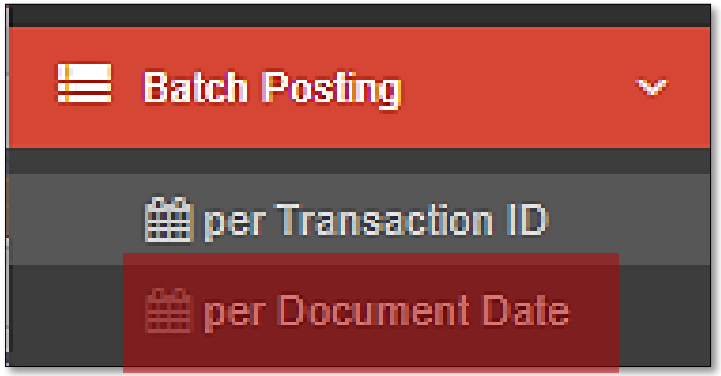

View Batch Posting per Transaction ID

1. Go to the **Batch Posting** module, and choose the **per Transaction ID** option.
2. You will be able to view the **Batch Posting per Transaction ID**. You may use the **Search (Transaction ID)** function to look for a Batch Posting.

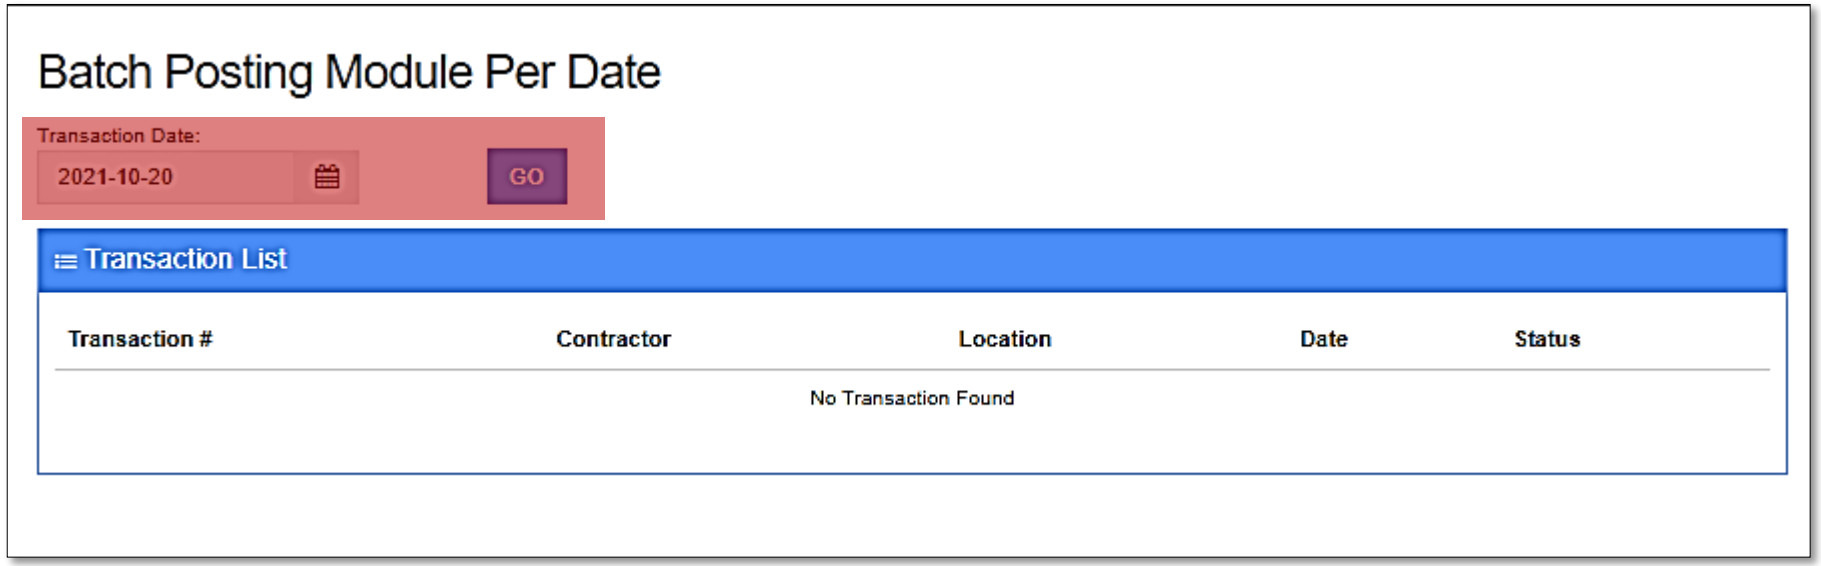

BATCH POSTING

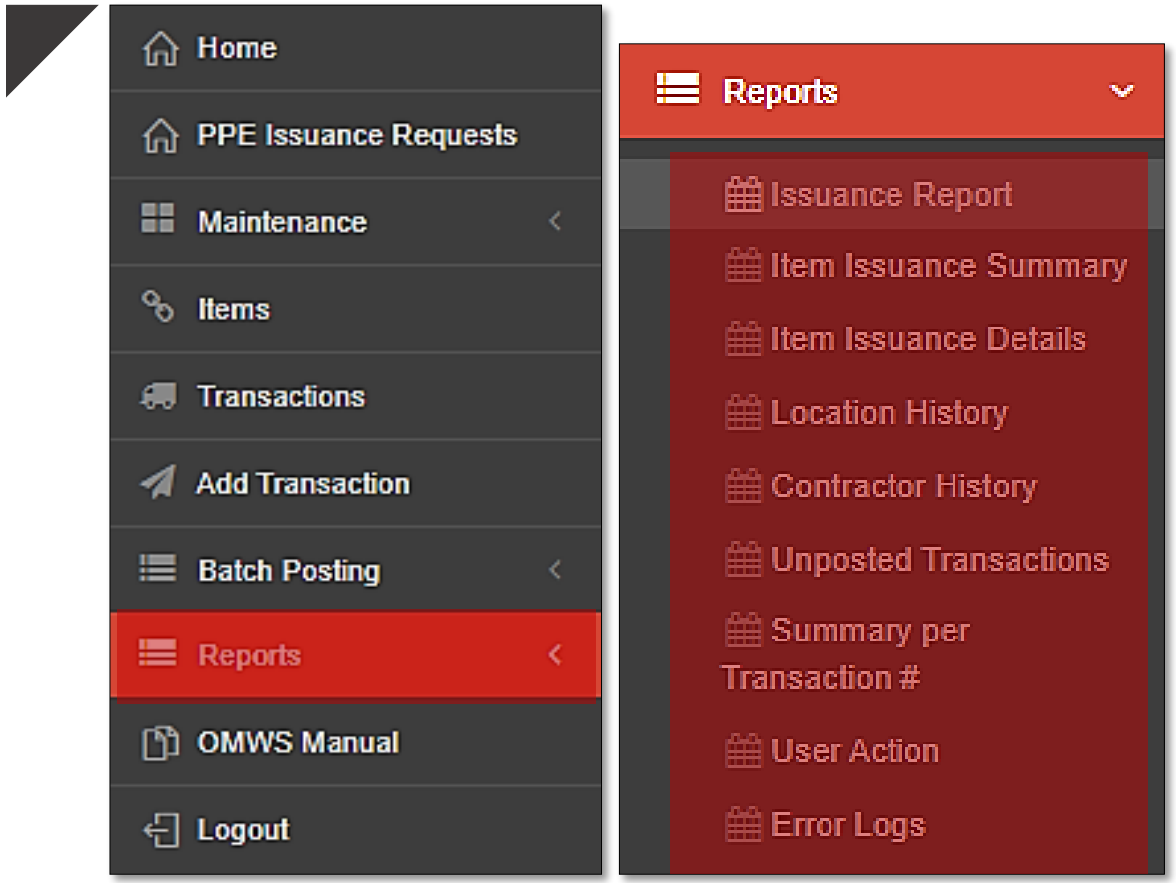

View Batch Posting per Document Date

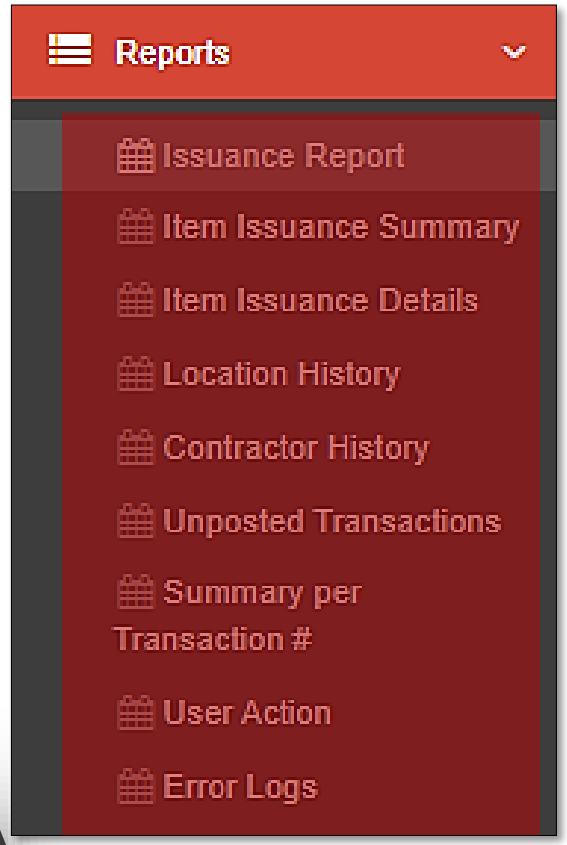

1. Go to the **Batch Posting** module, and choose the **per Document Date** option.
2. You will be able to view the **Batch Posting per Document Date**. You may use the **Search (Transaction Date - calendar)** function to look for a Batch Posting.

Chapter 9

REPORTS

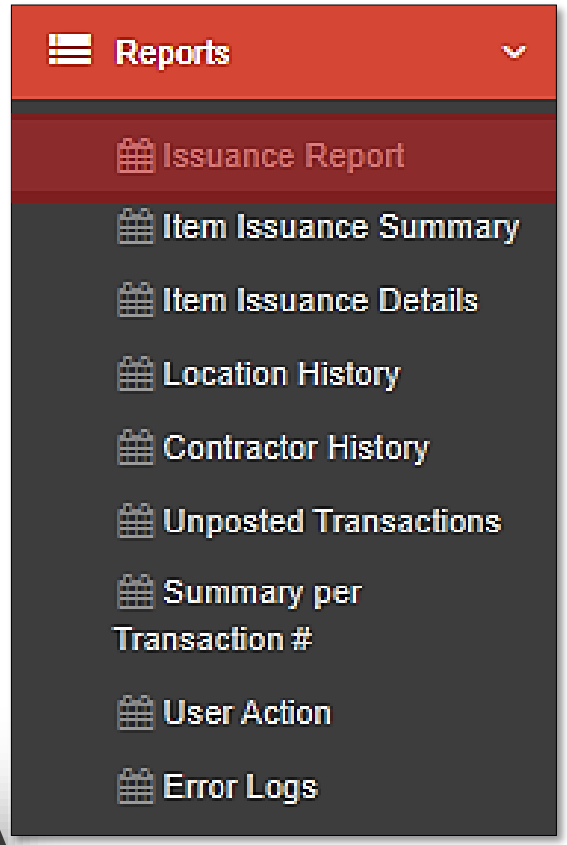

Reports

An **Online Material Withdrawal System** module that allows you to view consolidated and updated information. A Report module will help you analyze and manage important information on your admin portal.

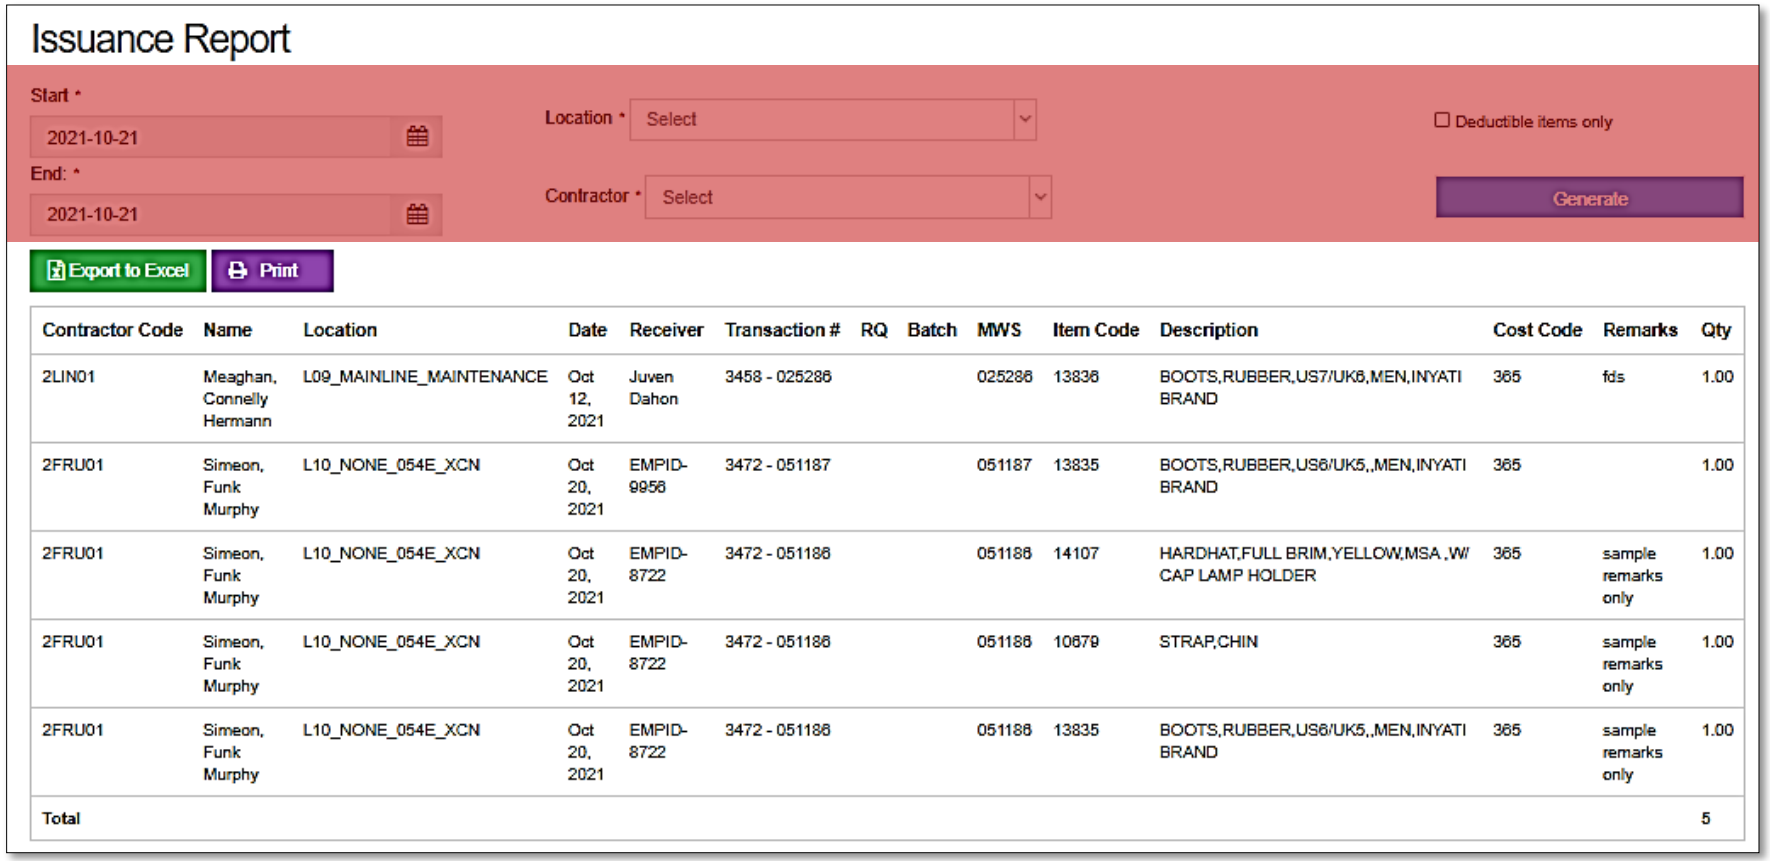

This module will give you insights on the following:

- Issuance Report
- Item Issuance Summary
- Item Issuance Details
- Location History
- Contractor History
- Unposted Transactions
- Summary per Transaction #
- User Action
- Error Logs

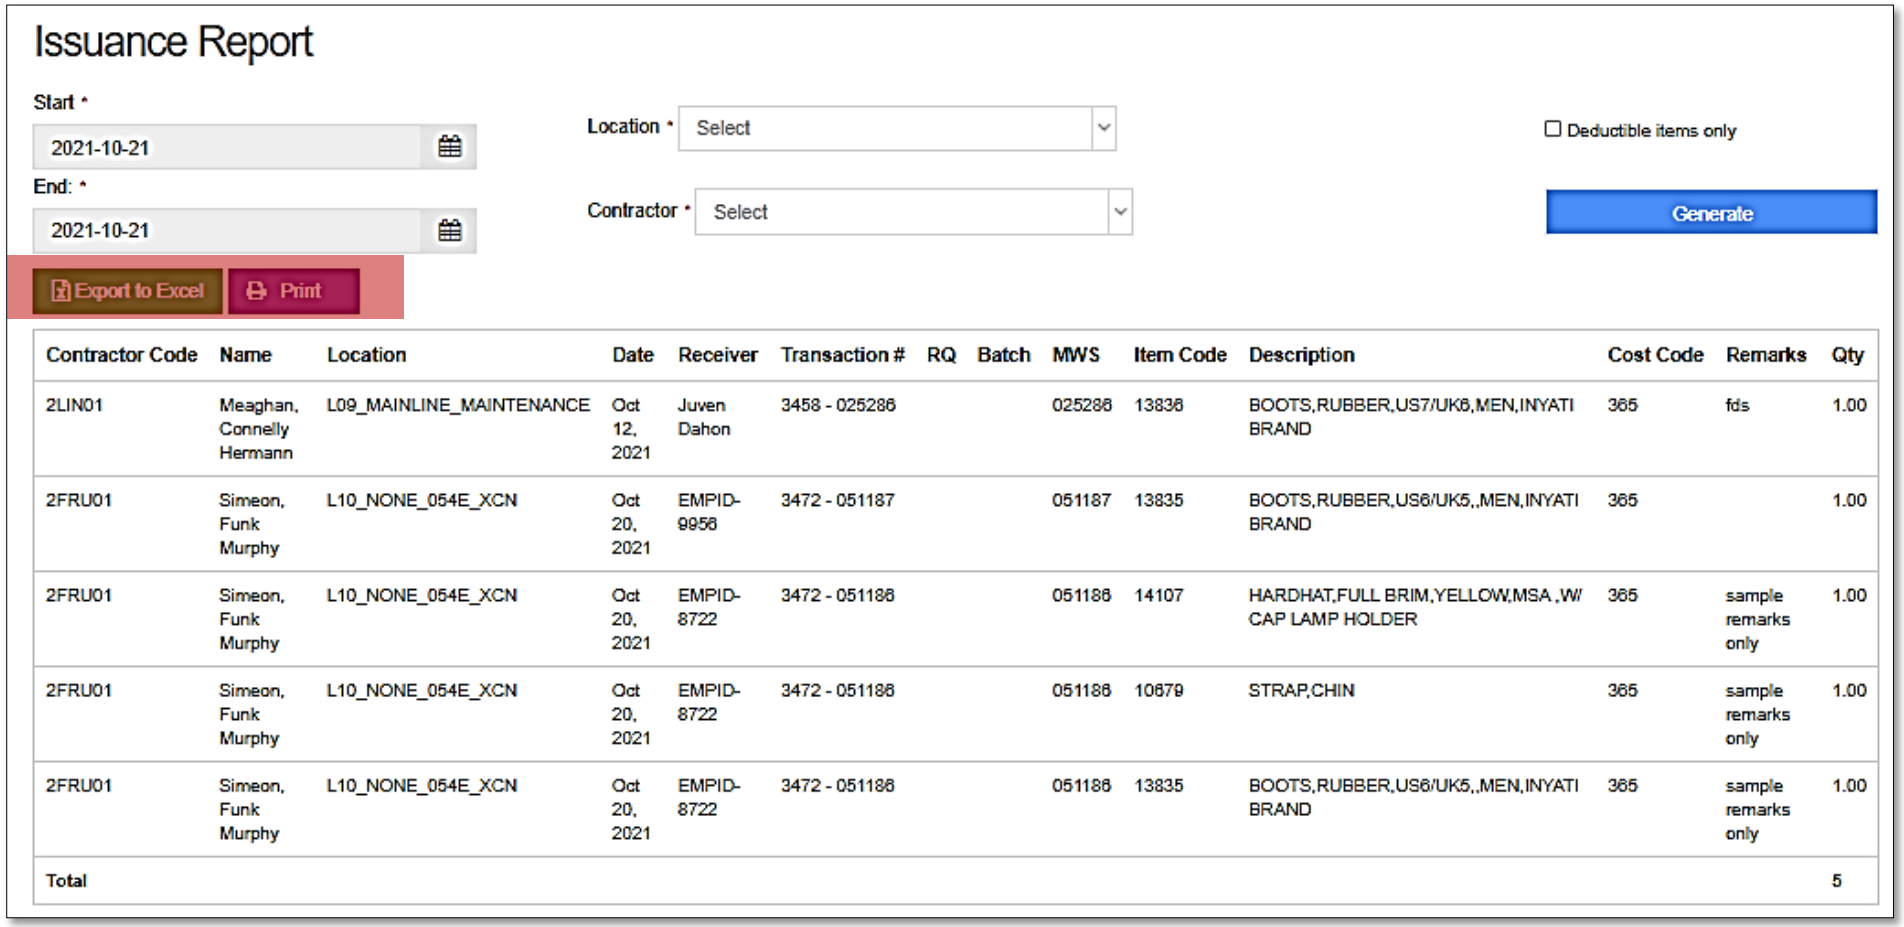

View an Issuance Report

1. Go to **Reports** and choose the **Issuance Report** option.
2. An **Issuance Report** will appear.
3. You can search a particular issuance report, using the **Search** field (Start-date, End-date, Location drop-down, Contractor drop=down, and Deductible Item only checkbox).

Chapter 10

OMWS MANUAL

OMWS Manual

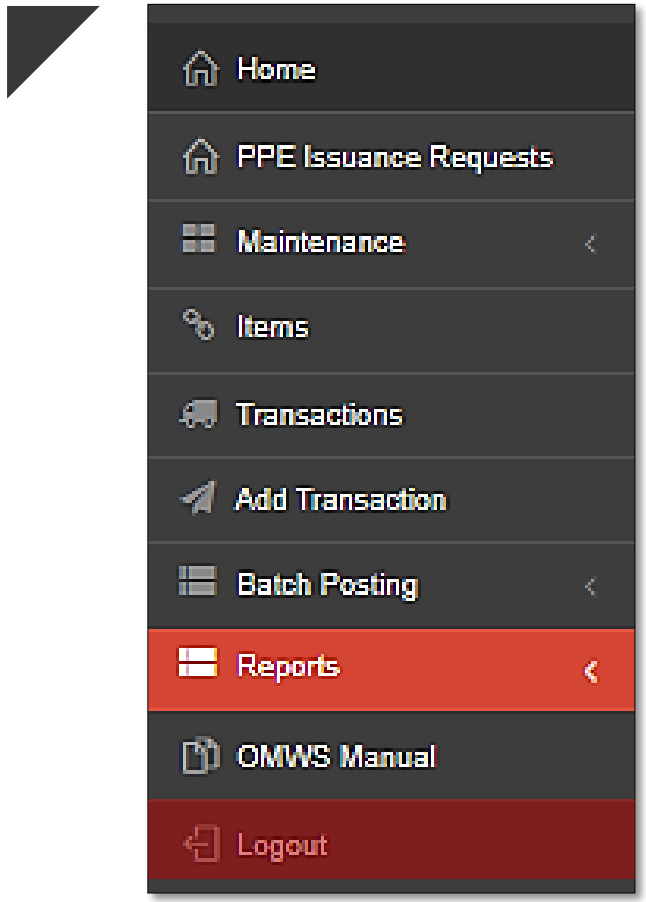

Choose the OMWS Manual module to view the user manual for the Online Material Withdrawal System.

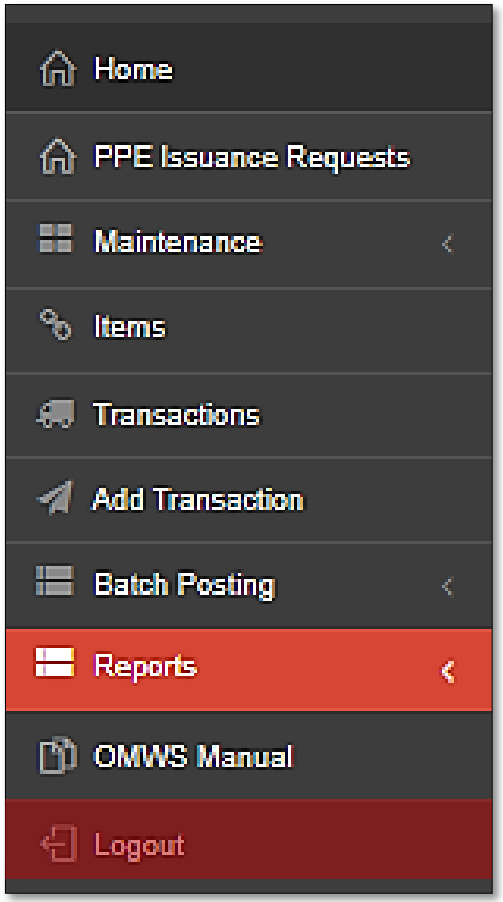

- The OMWS Manual module is a customized and easy-to-navigate user guide. Admins or Users have the chance to exercise their independence in monitoring and organizing information regarding the Online Material Withdrawal System.

- This document contains all the essential information for the user to fully utilize the features and functions of each module, including descriptions, capabilities, and a set of instructions associated with each module.

Chapter 11

LOGOUT

Log-Out

Log Out is a feature that allows users to Log out of the admin portal.

- A Logout module wherein you have the option to Log out when you no longer need to access the admin portal.
- Click on the Log out option, then you will be routed to the login page.

Thank you!
